JOHN DEERE SALES ARENA NOVEMBER 25TH
3:30 PM CST

NATIONAL
SPECKLE PARK

Welcome

Welcome to the 2026 edition of the Canadian Speckle Park Show and Sale hosted at the world famous Canadian Western Agribition in Regina, Saskatchewan. The National Show kicks off the day of November 26, at 8:30 A.M. with the National Sale at 3:30 P.M. later that afternoon.

The Speckle Park breed continues to develop top end breeding stock that is sought all over the world. These leading genetics that are on display at Agribition are from breeders that are committed to bringing their best and brightest for livestock enthusiasts to view. Take a walk through the alley, grab a seat for the show, and you'll agree that this is the deepest set of Speckle Park cattle on display from top to bottom. Visit old friends and meet new business partners. This is the event that brings them all together.

This is an exciting time to be in the cattle business and opportunities abound in this year's sale lineup. This year offers heifer calves and bred heifers that you can build a legacy with. From the freshest genetics to the tried-and-true timeless classics that you can't miss with. These ladies will surely be standing in your front pasture or they could be your next standout donor.

Plan to join us in person or online via DLMS for an exciting National Show and Sale. Mark your favorites in the catalog and then follow them from the show ring to the sale ring. We look forward to seeing you there!

Craig Brown

Sale and Show Committee Co- Chair

Terms and Conditions

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced on sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATIONS: A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH: All animals in the sale shall have met all necessary health requirements.

PREGNANCY INFORMATION: All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This is estimated gestation period shall be used as a guideline to calving and is not a guarantee of actual service.

Dutch Auction Rules

This year, proceeds from the donation heifer will support the Australian Exchange Fund and other Canadian Junior Speckle Park Association programs and initiatives, helping strengthen the association and support the continued growth and development of its junior members. Choosing a donation calf is never an easy decision, but we believe 35P is a fitting choice!

Her story goes back to the 2019 Canadian Western Agribition Sale, where we purchased her granddam, RRR 43F. Since then, 43F has become an influential part of the Beisview herd, leaving her mark through multiple daughters and granddaughters that we've proudly retained in our program. 35P represents the kind of maternal strength, consistency, and lasting influence we strive to build our herd around. We're proud to offer a female backed by generations that have helped shape our program.

The donation heifer will be auctioned off at the beginning of the National Speckle Park Sale at Canadian Western Agribition via Dutch Auction Raffle at \$50 per ticket. After the conclusion of the last lot, the lucky winner will be drawn. A big thank you to Beisview Speckle Park for this generous contribution, and best of luck to all contenders!

HOW TO PARTICIPATE:

1. ATTEND IN PERSON AND BUY YOUR TICKETS AT THE SALE
2. BUY ONLINE THROUGH DLMS DURING THE SALE
3. CONTACT EITHER OF THE FOLLOWING MEMBERS TO GET ENTERED PRIOR TO THE SALE

A well-balanced heifer with a bright future ahead. INC Sofia 26P is out of an INC bred ET cow. We acquired her dam 45Z from Codiak Acres as one of the top selling females a few years back. Over the years she has given us multiple females worthy of retaining. This is our first natural born Just Crushin It 20J daughter sold at public auction. We are extremely impressed with his offspring.

Don't miss out on this soft tempered, stylish heifer with a proven pedigree!

RAVENWORTH WILLOW 510H

NOTTA 26T JANETTE 3W

She got it from her mama! Ravenworth Willow 504P is an embryo calf from Ravenworth Willow 510H who was a stand out female from the start. She was First Lady Classic breed champion at Agribition as a bred heifer. Grand Champion female as a pair in Edmonton and at Agribition, then proceed to be crowned Champion of the World Speckle Park Female and go on to the top 8 in the interbreed. In 2022 510Hs calf at foot, Ravenworth Willow 304K on the cow sold in the CWA national sale to Prestige equities for \$30,0000. If that isn't exciting enough her maternal grand sire is the one and only Ravenworth Invictus. With all this maternal power mated to the Greenwood hundred proof bull this heifers performance has been outstanding. Here is a female to build a cow herd around. We reserve the right to one embryo producing flush at the new owners convenience.

Black, white, pink... this one would be pretty in any color. She's wide from the ground up, angular, smooth shouldered, has tons of lower rib and flank, and very nice teat placement. Ravenworth Stetson 112G daughters do not leave here often. They lay down gorgeous udders and make exceptional females in their production years.. A couple of paternal sisters to this calf are: Watson Stetson Parade 48L (Grand Champion Female RAWF 2024) and Watson Stetson Theona 27M who is part of our string this year. The dam of 2P is a trouble free female that hits the mark every year. This heifer is fancy, junior friendly, and has the potential to be a cornerstone female for somebody down the road. We are very excited to see what she can achieve for her new owners.

Disposition. Pedigree. Design. Prada has all three. She immediately impresses with her long, smooth, feminine design, but it's her sweet temperament and gentle, curious nature that make her a true pleasure to work with. Backed by Wolf Lake Trade Mission, one of the longest walking herd sires at River Hill, and anchored by a maternal foundation proven to simply work, she combines proven genetics and an attractive phenotype. A female with disposition, pedigree, and design to build around.

Kosmic 1P has been a standout since the day she hit the ground, and what makes her even more impressive is that she's the first calf out of a first-calf heifer. Dig a little deeper into her pedigree and you'll find some of the cornerstone genetics that helped shape the Speckle Park breed. Generations of proven breeding come together in this exciting young female, and we think her future is every bit as bright as her name suggests.

CALICO CREEK AJAX 5A
FAITH CROSSROADS SLB 6F
CANDACE CROSSROADS SLB 8C

Pretty Girl comes from one of the foundation cow families at PJS. Her dam, Faith Crossroads SLB 6F, is a tall, long-bodied female from our original herd purchase. We have retained two of Faith's daughters, and both have excellent udders and the quiet disposition we are always looking for - they are usually the first ones looking for attention in the pasture. Pretty Girl is sired by PJS Kramer 25K, a son of INC Northern Legend 67F and one of the success stories from our embryo program. Kramer is still working in our herd today. Pretty Girl is long-bodied, feminine and balanced, with an attractive leopard pattern and the maternal background to become a hard-working cow. This is a proven PJS cow family, and we are confident she will carry it forward.

BELMORAL'S BOMMER 6F
PJS LOUBELL 342L
DONNA CROSSROADS SLB 42D

Poppy Seed is a thick-made, full-bodied female with a strong topline and plenty of substance from front to back. Her dam, PJS Loubell 342L, is a second-calver with a perfect udder, giving Poppy Seed the maternal foundation we want behind a future brood cow. On the sire side, she is a direct daughter of PJS Maximus 100M, the 2025 Canadian Western Agribition Grand Champion Speckle Park Bull, 2026 Perdue Grand Champion All Other Breeds and 2026 Prince Albert Exhibition Grand Champion Speckle Park Bull. Poppy Seed combines the power and presence of Maximus with proven udder quality on the bottom side. She has been one of our favourites in the show string and represents the kind of female we are proud to put the PJS name behind.

Polly Pocket is the kind that grabs your attention and keeps it. She's been a standout from the beginning, stout made, deep bodied and full of shape, while still maintaining the femininity and attractive front end we like to see. Sired by Minnamurra Paxton P115, Polly Pocket represents genetics that are still extremely limited in North America. A paternal half sister was the high selling bred heifer at the KFC Farms Dispersal Sale, showing the kind of value and quality these genetics can produce. Backed by a heavy milking dam, Polly Pocket has the kind of look, power and pedigree that is hard to pass up on sale day.

In the fall of 24' we selected a handful of bred heifers from the River Hill program. At the time we were unaware that less than a year later, it would be our last opportunity to peel out a draft of females from one of the most influential herds in the breed. Graham Creek Nadia 115N is the daughter from one of those females we selected. She is a foundation quality heifer that will go on to accomplish great things in any herd. A broody style heifer sired by Trade Mission 41F who needs no introduction. Her Dam, RH LS Lonely Heart 115L is big capacity type cow that has a nice shaped udder with ample milk. These females are what we strive to produce. Loads of maternal power with just enough performance, all in one package.
 Service sire: Wolf Lake Michelangelo 5M (solid black). Due early March
