

**28TH ANNUAL
BULL & FEMALE SALE
SATURDAY APRIL 4, 2026**

*AT THE FARM 1 MILE EAST & 3 MILES NORTH OF GOODEVE, SK
LUNCH 11:30 AM SALE 1:00PM*

Welcome...

To the 28th edition of the Crescent Creek Bull & Female Sale. It is with much pride that we offer you our breeding program for your inspection and valued opinion. We thank everyone who has chosen our program to enhance your own genetic base. This is what drives our passion for breeding cattle. Our genetic selection is driven by the needs of our customers and the beef industry.

2026 represents many milestones for us . It marks 118 years in the agriculture industry,72 years of breeding purebred Black Angus cattle. It also represents some of the highest prices ever paid for commercial cattle sold at auction . The smallest cow herd in 70 years but perhaps the biggest demand for 'beef' as the protein choice for consumers. The perfect recipe for success in the cattle industry. We would like to congratulate all who have stuck it out to reap the rewards offered. Gone are the days when "YOU ARE LUCKY TO HAVE CATTLE". This is your time. The future looks bright for the next generation.

Since the inception of this sale we have always stated the bulls are full of red meat and muscle with large testicles and good feet, showing lots of breed character. The females represent the type that have made the angus cow so sought after. This year is no different. Each and every year the quality is evident but the consistency thru out the pens makes us feel like we might be on the right track as far as genetic selection. We are truly proud of the offering from our own home raised sires and our walking bulls which have been sourced with our customers in mind. We once again invite you to our open house at the farm March 21&22 to view the offering in large pens and relaxed setting. Come to the sale and enjoy what has become a major event for us and those who attend to renew old friendships and make new ones. We are not the only ones who have been at every sale.

The coffee is always on and CATTLE is the topic of conversation (most of the time).

Take Care,

— THE OLYNYKS

Welcome from OBI

Welcome to the 28th Annual Crescent Creek Angus Farms Bull & Female Sale. It has been great to work with some of the best folks in the Angus Industry. I am very proud to be associated with this family. This year I made it on a great day to see the offering and I was sure pleased. Big topped, good footed, heavy muscled bulls with an option for all in the new bull pens that were made for extra movement for the bulls and it sure shows. The sire groups are very consistent so do buy brothers from great mothers, best way to enhance your herd.

Mark Holowaychuk 403-896-4990
Roger Peters 403-828-9815
Chelsea Gill 403-952-9980

The cow herd at Crescent Creek is so uniform with cow families being the constant. If you have never toured them, you are missing out.

Again, this year, you will be very impressed with the females on offer. They come right from the heart of the program with great pedigrees. The cow families here are the key again, these females will go into your operation and take your program to the next level. Numerous females have gone to new homes and have been cornerstones to their programs.

I have been thru the offering and the herd many times and know the cow families; buy with confidence here. If you need any assistance, please do not hesitate to call myself or any of the sales staff.

Mark Holowaychuk, OBI

SAYING HELLO...

to our temporary farm hand Jake Flett, and Bets. We appreciate Jake's hard work, and positive attitude. They have been a great help to us this year!

AND GOODBYE...

In June 2025 we lost an integral part of our Crescent Creek Family. Ned was known near and far for his gentle nature, his loyalty, and his love of Nellie's donuts. Many kids were dutifully watched by Ned on sale day.

HE WILL BE MISSED BY EVERYONE LUCKY ENOUGH TO HAVE MET HIM.

FEEDING PROGRAM

RATION WITH FREE CHOICE HAY. WE STRIVE FOR A THREE POUND A DAY GAIN, AND THE BULLS ARE FED WITH THIS IN MIND. THE BULL CALVES WERE WEANED MID SEPTEMBER.

THE FEMALES WERE WEANED MID SEPTEMBER AND PUT ON BANKED GRASS UNTIL MID NOVEMBER, THEN MOVED TO SWATH GRAZING UNTIL MID DECEMBER, AT WHICH TIME THEY WERE SWITCHED TO A BROWN OAT AND PELLET RATION. IT IS AMAZING HOW WELL THESE YOUNG FEMALES DID ON EXTENDED GRAZING.

HERD HEALTH

ALL BREEDING FEMALES & BULLS WILL HAVE HAD THEIR PRE-BREEDING EXPRESS FP5 VACCINE AND BLACKLEG BOOSTER PRIOR TO LEAVING THE YARD. THE CATTLE HAVE HAD PLENTY OF EXERCISE IN LARGE PENS, AND ARE VERY FREE MOVING.

CRESCENT CREEK MISTRESS 188D

SHEIDAGHAN MISTRESS 14Z

This guy joins elite company, in which he is bred with greatness. 188D cranks it out every year, last year's high seller to Bircham Ranches is this guy's half brother. 188D has been in our donor program for quite a while now and her females are making their way to the top each year. This bull has some great maternal blood in him as well with 14Z, 190T, 22X, and 8065U. If you're after a bull that can sire great females but have scale crusher steers, then he is it. 188D and her progenies value has kept climbing each year, don't miss out on this guy!

CALVING EASE

Another CCA bull that has all the best cows in it. Joan 9175, Joan 48Y (Elite Dam), and Eula 22X. The Carlos bulls have really stood out with moderate frame, muscle expression, and great angus heads. If you're after longevity and fertility, then note this guy. 22X is still alive, and 48Y is still at CC, averaging 14 frozen embryos per flush this summer. 9175 passed this fall at age of 17, while she also averaged 17 frozen embryos per flush this past summer. Note that 48Y had our \$17,000 high selling female in last year sale to Eagle Lake Angus. This bull should be in our keeper pen not for sale! Take advantage of our mistake here!

U2 ROSEBUD 1F

Here is a Glacier son backed by one of the greatest females in Canada, Rosebud 1F. This moderate frame bull has great length and feet structure that will be sure to get your eye in the pen. Backed by a great maternal pedigree, this guy will leave you donor quality females in your pen.

Don't miss the chance to get your hands on one of the hottest pedigrees to be selling right now in Canada. With a Glacier son fetching a \$250,000 USD for half interest this fall, this your chance to get your hands on a great bull! A combo we love so much here, Donna x Rosebud. We feel this is one of most exciting crosses to date!

One of our most exciting set of flush brothers to date! Rock 7200 needs no introduction to the angus world. A bull that is known to be packed with muscle, length, and bone. We love the quality of these bulls with their structural soundness and great angus characteristics. We feel these bulls will leave you with both great females and steers due to the great maternal power in this pedigree, along with the muscle and power in Rock.

Eston Lass 54F is one of our most exciting donors to date! We were fortunate to get this beautiful female out of McNab dispersal, and she hasn't disappointed! A female that carries all the great angus characteristics! She has a beautiful phenotype, perfect foot, beautiful udder and great maternal traits. With the great history of these two pedigrees mating, we feel it will pay huge dividends for anyone getting their hands on these flush brothers. To top it all off note that Eston Lass 54F, her mother 138A, and grandmother 13M are designated Elite Angus dams by Canadian Angus Association. Maternal greatness built within! Get your hands on one of these sons backed by the ever proven and consistent Eston Lass cow family, and to top it all off add the great Donna 714 to this great mating. Buy with confidence here!

This guy will get your eye in the pen every time you look over. A large frame bull with big hip, large testicles, and packed with muscle. The 37K cattle have always been scale crushers, and the same can be said here. There are few bulls in the breed that can offer such powerful frame and mass, but not give up soundness and phenotype. Backed by the great Crushmaid cow family, this guy will make friends come sale day!

This Tribute son is a very maternal and well-bred bull. Having not one, but two donor dams in his pedigree with Eula 190T and Stumpie 9R. arguably two of the best cow families to walk at CCA. A bull that has a different pedigree on paper with greats like Crowfoot Equation, CAR Ideal, and Crescent Creek Alliance. It's great to see generations of breeding and bull selection come into pedigree.

CALVING EASE

169N

This lead off Justified son is a great way to start this sire group. A moderate frame bull that is packed with muscle, length, and testicle. 169 is a bull that has great hair and eye appeal. Note that this guy is in the Top 1% in Calving ease and Birthweight. The typical numbers of these sleep easy bulls. We have had great reviews of these sons after the first year of breeding and calving. A maternal packed pedigree that has the great Queen Ruth cow family backing him. The combo of Justified and Dry Valley 641H, will leave you fantastic udder females. If you're in the heifer bull market, here is a must see bull.

Year in and year out the 712H progeny always ride to the top of the pen, and this bull is a great example why. 712H females have risen to the top of our cow herd for the ability to produce, udder quality, and easy keeping ability. 72N is backed by the great Pride cow family and 38Y, who had a long and great career here. Backed with Upward, Outside, No Doubt, and Huck 53T, a unique opportunity here. 137H holds a title for best udder in 2026 at CCA!

***** CALVING EASE**

OVER THE LAST FEW YEARS I HAVE PURCHASED BULLS AND HEIFERS FROM CRESCENT CREEK ANGUS. THEY ARE EASY KEEPING AND GREAT QUALITY. THE MATERNAL TRAITS THE OLYNYKS HAVE SELECTED FOR ARE EXACTLY WHAT IM AFTER IN MY OWN HERD AND I FEEL I WOULDNT GO WRONG WITH ANY BULL OR HEIFER THAT THEY OFFER FOR SALE. WES AND WADE HAVE BEEN MORE THAN EXCELLENT TO WORK WITH AND I LOOK FORWARD TO WORKING WITH THEM IN THE FUTURE. CRESCENT CREEK ANGUS GENETICS HAVE HAD A GREAT INFLUENCE ON THE QUALITY OF MY HERD AND WILL CONTINUE TO INTO THE FUTURE

The biggest offering of our 20K sons to date! 48N is a big-time cow bull, a bull that has frame, muscle, great feet, and is built to last. We feel these bulls will go out to work and last a long time doing it. These bulls will get you paid on sale day but also leave you great replacement females.

With Equation and 190T in the pedigree, we feel that is about as consistent as we can get.

This 20K son follows suit of his pen mates. Great foot, shape, and testicle development backed by the Elite dam 67Y. We lost 67Y this summer so don't miss your chance to get the last of her ever-proven genetics.

These Payweight sons have always been pen standouts. They are moderate frame bulls with great feet and eye-catching style. Backed by one of the oldest and most proven cows at Chapman Cattle Co, Silas knows how to breed them for longevity and maternal powered. If you're after bulls that will leave you top notch females then look here. A pedigree packed with Equation and Payweight, you can buy with confidence here! Our replacement pen is full of 2545 daughters, who are cookie cutter in size and shape. The quality of the 2545 cattle is second to none. These sons have a great style, shape, structural soundness, and maternal power; the ideal combination!

A great footed and structural sound GV son. Note him being backed by the great Stumpie cow family. We have had great reviews of the GV sons so far, as well as the females.

HEIFERS

It always seems the bulls take center stage when it comes to bull sale season, but behind every great bull raised is the mother cow. As always, we are extremely excited about the quality of females we have on offer. These females are from our biggest and best cow families that have been here from the very beginning (over 70 years of breeding). These females are backed by our best cows who don't miss a beat. Cows with maternal power, great feet, udder, phenotype, and style. Many of these females would be half siblings to past high selling progeny. Many of these females would go back on generations of Crescent Creek breeding. With many sharing grandmothers or great grandmothers. Pedigrees packed with maternal power and mothering ability, reassuring that you get a top-notch female that will meet all your needs.

It's been a treat to see these females go out and work for everyone who has bought them. From females that were sold at the very start or just last year, we stand behind these females to go out and work and meet your needs. Many of these females have been foundation females for new herds and have helped build programs to what they are today. Many have gone into historic and storied angus herds and have fit in and helped keep those programs pushing forward. No matter which female you buy, we stand behind these females 100% and know these females will go out and meet your needs. Here is a chance to get your hands on over 70 years of breeding, with strict culling practices and cows expected to work and produce, year in and year out.

The same can be said for this years offering. New bloodlines that are backed by the very same females from 27 sales before. These females were weaned off in September and sent back out to fall graze. In November these young females were let to swath graze till middle of December where they came home and were on Brown Oat and free choice hay mix. First week of January we split these sale females from our replacements, and they went onto a Brown Oat, 16% Protein pellet, and free choice hay. As of February 15th, our sale females are on a Oat-Wheat silage, chopped alfalfa hay, and rolled oat TMR mix. No matter the forage in front of these females they will gain and produce as you need. From bale grazing to swath grazing, or a TMR mix that you feed, we know these females will meet your needs.

***REGARDLESS OF YOUR NEEDS OR PRICE RANGE, WE WILL HAVE HEIFERS
THAT YOU CAN DEPEND ON***

Crescent Creek Angus has been a contributor to the herd at East Point Cattle Corp for more than 20 years - always impressed with the elevation of quality in our commercial and purebred calves that Crescent Creek brings.

Bulls consistently perform year after year - adding muscle, size and eye appeal to their calves.

Cows and replacement hfrs turn into sound footed, easy doing, square uttered maternal cows that producer heavy calves and quality replacement hfrs.

Wes, Wade and the entire Olynk family are such a pleasure to do business with.

- East Point Cattle Corp.

A very first for us at CCA! We are offering frozen genetic lots! What a way to start off our First offering with embryos from the legendary Eula 22X and SAV Bismarck. When it comes to 22X their can be 100 things said, but the things that come to mind are: Consistency, Longevity, Maternal Power, and Ideal Angus mother. 22X is one of the most consistent producers at CCA. With females retained in herd to Flush like 68E and 1K. As well as being direct daughter of Eula 190T, who was a former donor at CCA, with her last ET son selling for \$20,000 to Bircham Ranches. 22X has been the Dam to many past sale high sellers, including 3 Full sibs selling in our 25 th annual sale to Bench Farming Co, Trevor Bartel, and Ranch Covey hill. She is also imprinted in dozens of pedigrees at CCA. Here is your chance to get your hands on genetics that are directly related to progeny retained in our herd. With 4 full Bismarck sibs retained for our in-herd use, as well as half sibs. With WMO 95M being retained as our present heifer bull. We feel this mating is a great representation of our program and of angus breed. Bismarck has been linked to some of greatest animals in the angus industry, like Natural Law 52Y and HA Outside 3008. With last 22X embryos at auction fetching \$1800, here's your chance to get your hands on 22x genetics before they are gone. If you're after consistent and quality genetics then look here. The Eula 22X x Bismarck mating has paid dividends for us and past customers. Let this mating pay dividends for YOU!

5 CONVENTIONAL EMBRYOS. FOB BOVIGEN. GUARANTEED TWO 60 DAY PREGNANCIES IF IMPLANTED BY AN ACCREDITED VET.

One of our newest and most exciting herd sires at CCA. Classic jumped off the page last year when we seen him. A bull that offers mass, power, muscle, and great EPD's. Classic is backed by a total outcross pedigree to the angus world. With 8N Academy gaining traction in the angus world for his structural soundness, mass, and performance. 188D needs no introduction as well, with her having many sale topping progeny. 188D has backed many sale greats like \$20,000 female to Tiny Angus Ranch, as well as \$32,000 high selling son to Bircham Ranches. 188D has done it again this year with lead off Carlos son, a bull with great structural soundness and great cows in his pedigree. She has been granddam to many other sale highlights over the years. 188D has many females retained in herd, and for good reason. It's tough to beat the quality these females have to offer, with great feet, udder, phenotype and maternal power. Here is an exciting mating backed by 2 great donors from to great angus programs. 188D offers great qualities in her consistency, udder quality, feet, and performance. If you're after a mating that offers a powerful maternal pedigree and also boast's donor quality females and scale breaking sons, then buy with confidence here. Here is a chance to get on a ground floor of next great sire group at CCA.

3 CONVENTIONAL EMBRYOS. FOB BOVIGEN. GUARANTEED ONE 60 DAY PREGNANCY IF IMPLANTED BY AN ACCREDITED VET.

 MISS WIX 9259 OF Mc CUMBER

A really exciting opportunity to get your hands on another exciting herd sire at CCA. When we got a chance to team up with our friend Silas Chapman on this bull, we knew we couldn't say no! EOG offers a maternal packed pedigree that we feel will leave top of the pen replacement females, no matter the program. When you think of Quality Angus females, the first place that comes to mind is McCumber Angus. Known for their quality in udders, maternal traits, structural soundness, beautiful phenotype, and performance. EOG is backed by the great Miss Wixx cow family and his mother 8185 raising calves into her mid-teens. With a impressive WWR of 102 on 12 calves, you can't help but love the maternal power and performance here. EOG weaned off at an impressive 905LB weight and crushed the scale at 1460LB on sale day. With some of greatest angus genetics on offer in this mating like Dixie Erica, Mistress, Miss Wixx, Sinclair, Right Time, Rito, Crowfoot, and Memento. With some of the industry greats all wrapped into this pedigree, we are excited for the future of this young and impressive herd sire. We feel this bull will leave pen topping bulls on weaning day and donor quality females. We love the angus cow, and we believe behind every great bull is a mother packed with performance, power, structural soundness, and maternal greatness. This could be one of our most maternal packed matings to DATE!
