INSURANCE

Larry Toner (306) 834-7652

*All bulls that go back to the seller's farm must be insured by the buyer.

ONLINE BIDDING

Mark Shologan (780) 699-5082
Online bidding will be available through DLMS

VIDEOS

All videos will be available on cattlevids.ca
Bulls have been pictured + videoed between January 1-19, 2026.

TERMS

Payment is due at the conclusion of the auction by cash or cheque. Cattle will not be released until payment is received unless prior arrangements have been made. All animals sell to the highest bidder, with the auctioneer's decision final. We reserve the right to withhold shipment of any animals for which payment has not been received prior to departure. Once payment has been made, registration papers will go into buyers name.

BREEDING GURANTEEE

All bulls will be semen tested prior to the sale; however, due to cold weather and some bulls being under 12 months of age, semen tests may need to be redone at a later date. All bulls are guaranteed to be fertile and reproductively sound according to breed association standards.

ACCIDENTS

Although every precaution will be taken, all attendees do so at their own risk. The owners, management, and sales staff assume no legal or other liability.

DELIVERY

Bulls picked up on sale day or prior to March 15, 2026, will receive either a \$100 cash incentive or a \$200 sale credit toward the 2027 sale with the farm of purchase. Delivery will commence following the sale at the seller's convenience.

Viewing

We encourage everyone to view the bulls anytime prior to the sale or during our open house.

34 - 25 - 14

1pm - Sale

The Matejka Family

markponoka@gmail.com

Mark (403) 783-9857

Carling (403) 963-0172

My family and I, invite you to join us for our annual bull sale. We have a very consistent set of bulls in the 2026 offering that will help ensure you get your share of profit from the cattle industry. We research and select the top genetics that will continually improve our cowherd, which in turn gives us the opportunity to offer you some of the best Angus genetics available.

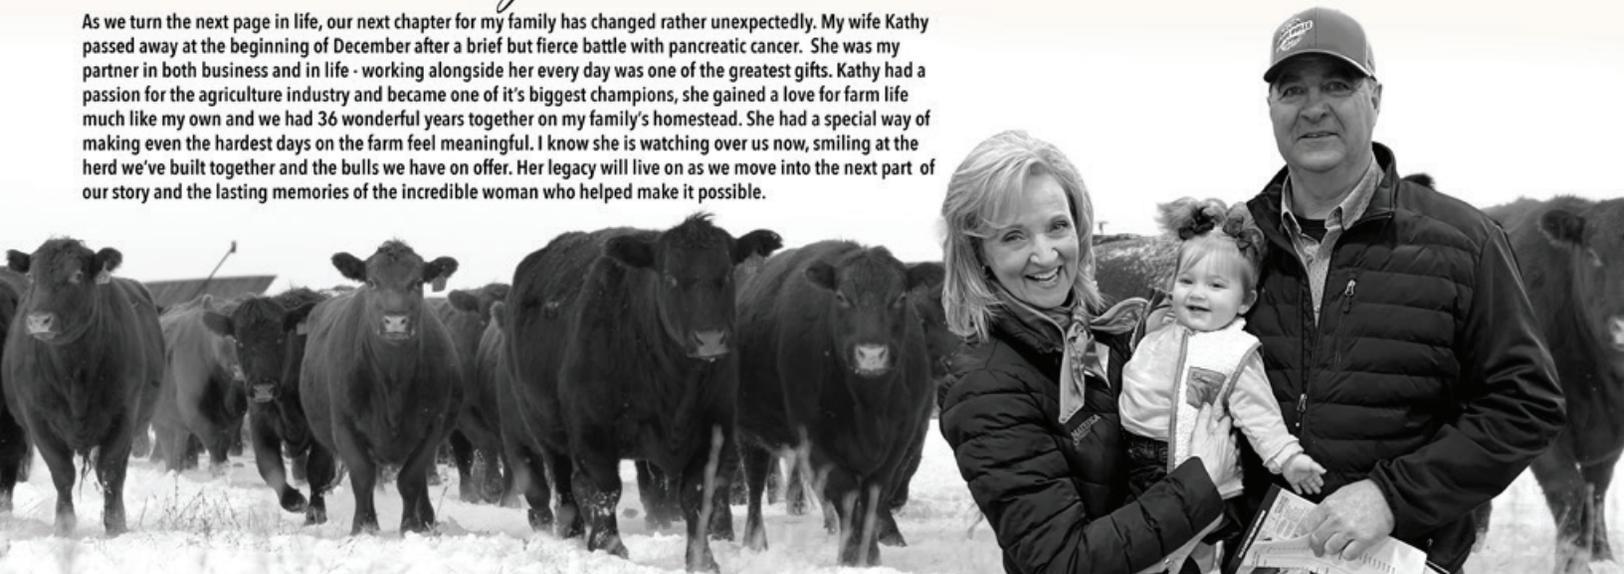

We extend our heartfelt gratitude to our returning customers whose unwavering support and believed in our program have been the cornerstone of our success. Your continued confident in our services inspire us to strive for excellence. To our new customers, we warmly welcome you to our program and express our sincere appreciation for choosing us. Your trust in our offerings is a testament to the value we uphold. Together, with our new and returning customers, we embark on a journey of growth and mutual success. Thank you for being a integral part of our story and we look forward to serving you with dedication and excellence.

If you have any questions or wish to view the bulls ahead of time on the farm, please call, text or email.

- Mark

Forever & Always in Our Heart

As we turn the next page in life, our next chapter for my family has changed rather unexpectedly. My wife Kathy passed away at the beginning of December after a brief but fierce battle with pancreatic cancer. She was my partner in both business and in life - working alongside her every day was one of the greatest gifts. Kathy had a passion for the agriculture industry and became one of it's biggest champions, she gained a love for farm life much like my own and we had 36 wonderful years together on my family's homestead. She had a special way of making even the hardest days on the farm feel meaningful. I know she is watching over us now, smiling at the herd we've built together and the bulls we have on offer. Her legacy will live on as we move into the next part of our story and the lasting memories of the incredible woman who helped make it possible.

- Extra-long, smooth made, and eye appealing from every angle.
- Designed to add growth and performance without giving up fleshing ability.
- Attractive, clean-built bull with great overall balance.
- Adrenaline sons have been standout producers in our program, generating herd bulls we've been proud to sell and females we've retained that have gone on to calve attractive, productive calves of their own.

RED LWNBRG ADRENALINE 28J SIRE OF LOT 17 & 18
Adrenaline 28J did exactly what his name suggests. He injected growth, dimension, and performance into his calf crops. His offspring come long-spined, thick made, and built with the kind of presence and power that turn heads in the pen and adds pounds. This is the kind of sire that moves a program forward in one generation.

•Long-bodied, attractive, and strong topped with a square build.

•A high-powered herd sire option designed to sire calves that stretch out, weigh up, and stand at the top of the pen.

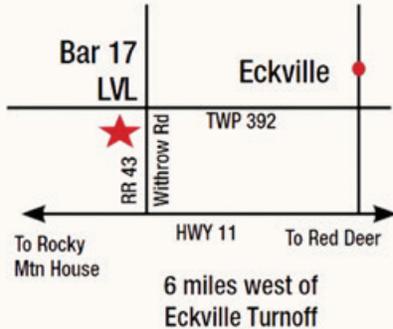

The Bradford Family
vpbradford@gmail.com

Peter & Vicki (403) 588-6199

Will & Kyleigh (403) 357-9139

Wyatt (403) 302-8470

Welcome to the 21st Annual Cutting Edge Bull Sale. It's hard to believe how far things have come since the very first bull sale. Each year, we build on the decisions of the past, and when we look at this year's offering, we couldn't be prouder of the set of bulls we present to you. There has never been a better time to be in the cattle business. With record prices across the industry, it's rewarding to see fellow producers receive a strong return on their investment and hard work.

We are a family-run operation, and that is something we take great pride in. From the cow herd to the crop side of the farm, everything is managed by our family. However, it's only because of the continued support of our customers that we are able to do this together. We truly appreciate each and every one of you.

Our bulls are developed with longevity and functionality in mind. At weaning, they are pail-fed oats while grazing fall rye grass through September and most of October. They are then transitioned to a high-roughage TMR once penned for the winter, ensuring soundness and durability. These management decisions are made to produce easy-handling bulls that are built to go out and work for their new owners. From a cow base of just under 400 head, only the very best bulls make the cut.

This year we are excited to introduce a new major Angus sire group—the SAV Magnum 1335 sons. These bulls are packed with muscle and style while also offering an added calving-ease option, as all are out of first-calf heifers. Once again, we feature sons of our proven Aquifer sires, 29K and 43K, whose consistency continues to impress. Be sure to watch for the fall-born, extra-age 29K sons if you're looking for a herd bull with the ability to cover more cows.

On the Simmental side, our Mader Brazen 819J herd sire has hit it out of the park again, producing thick-sided, soft-made, good-haired bulls. For those seeking calving ease in the Simmental offering, be sure to evaluate the MRH 98H sons, a bull that worked exceptionally well on our heifers and whose progeny are shaping up to do the same. With that said, please don't hesitate to give any of us a call or stop by anytime to view the bulls. We look forward to visiting with you and appreciate your interest in this year's sale.

-Peter & Will

Little Valley Aquifer 29K needs no introduction as the lead-off calf of the 2022 Aquifer sire group. He is a bull loaded with breed character, massive hip structure, and an industry leading foot design. With his third calf crop hitting the ground in 2026, 29K is truly proving his worth. His daughters are emerging with exceptional udder quality and strong maternal traits, while his sons are developing to mirror his power and correctness. The 2026 offering will be the largest set of progeny from 29K to date, making this an opportunity you won't want to miss.

Co-owned with Herder Ranch, we highly value these Aquifer sons we've been using, as they continue to prove themselves as true herd improvers. 43K has been consistently producing progeny that stand out from every angle. His sons are stout, balanced, and correct, while his daughters exemplify the kind of solid, functional, feminine, and sound females that build lasting cow herds. Much like his half-brother 29K, 43K combines calving ease with added performance, all while maintaining exceptional foot quality and strong maternal value—traits that make him a powerful and reliable breeding piece.

- Heifers first calf.
- Recommended for heifers.
- 9N has herd bull written all over him. From his skull to his hip, this is a bull that will sire sought after females.
- He is a calving ease specialist suited for heifer pen deployment but will still add performance and style.

Thank You

To everyone who has shown interest in our programs, thank you—we truly appreciate your support. To those who have bid and bought, you are the reason we get to do what we love and continue building these programs year after year. Your confidence in our cattle does not go unnoticed, and we are grateful for each and every one of you.
