# Welcome

## DanG Charolais

Welcome to the 2026 Dang and Friends Bull Sale!

I can't say I am sorry that 2025 is over and gone. It was challenging, to say the least, starting with an accident that put me in the hospital for a while, and then a bad drought hit us. While I shouldn't complain, it's the first bad one in a while, leaving us searching for feed. But... we made it! I'm very fortunate to have an awesome group of family and friends to help keep this operation going. A great big thank you to Tami for trying to keep me in check, and to Kyle for your hard work every day and for putting up with me!

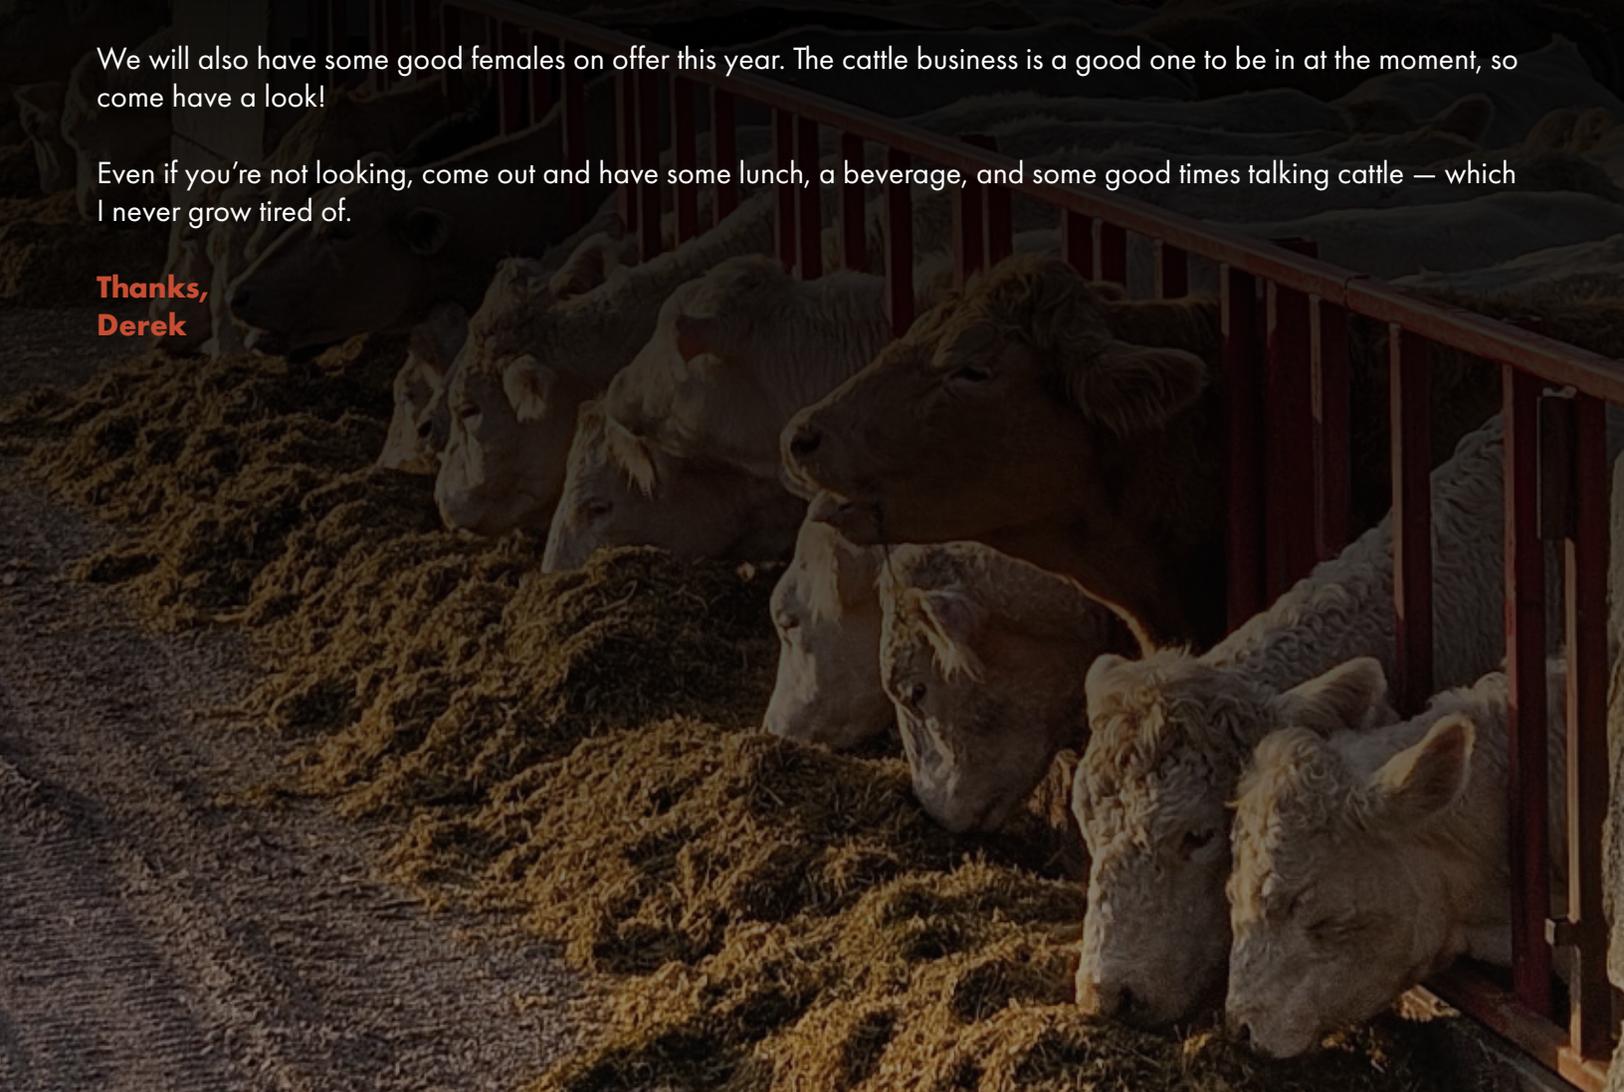

As far as the bulls go, we only have 14 on offer this year, but they are good bulls that stand on great feet and legs. If properly looked after, they will last. We haven't pushed them for that reason. Their EPDs are above average, and I'm confident these bulls will go out and produce some very marketable calves for you.

If you like, as always, the bulls can stay free of charge until May 24th, 2026. After that, there will be a \$10/day fee until they are picked up. All bulls must be paid in full before leaving the farm. We are happy to assist with delivery at cost when it is convenient for us. It may not be on a specific day, but we'll make it happen!

We will also have some good females on offer this year. The cattle business is a good one to be in at the moment, so come have a look!

Even if you're not looking, come out and have some lunch, a beverage, and some good times talking cattle — which I never grow tired of.

**Thanks,  
Derek**

Another power bull here with extra age born September 5th, 2024, he grew very well. A Lanza son, one of my favorite sires of all time, out of a former PCC flush cow who has done us well! Our best bull makers come from PCC. He weighed 1632 lbs on January 24th/2026. If you know bloodlines this guy has them, he will last!! Pa Free and Homo polled he is the whole package.

This bull is the 20th registered offspring from our PCC 504C donor cow. Tim Bullick approached us way back and asked if we would be interested in purchasing this cow. Are we ever glad we did! Tim was such a great mentor to us, and we will forever be grateful for the time he spent guiding us along this breeding journey. We are happy to continue in partnerships with Tyler and Justine and love our frequent visits with Wanda.

This bull's calves should calve easy and make good replacement heifers! Another Pa free and homo polled option.

His dam had premature twins one year and I had to twist Derek's arm to keep her for another year because I knew she was carrying an Uprising calf. I am really glad we did! He is not the largest framed bull, but his calves should come easy and make good replacement heifers. As Derek said in the intro, he doesn't like to push any of our young stock. Although fat sells, it can also fail. If you only have a few cows to breed this spring, he is a good choice or let him grow a bit and turn him out with some more. He has great bloodlines to back him up and we will proudly stand behind him! (Tami)

 (2023 NATIONAL BULL CHAMPION)

I first saw Megatron at Farm Fair in Edmonton and knew I wanted him for his style and exceptional feet... and we were looking for a new herd sire. Here's what Elder's had to say about him, "Megatron is a herd bull in the making. He has exceptional body mass, power, big testicles and superior foot quality. He is incredibly long with massive centre of body. Megatron was 1st in his class at Farmfair and Canadian Western Agribition. His dam is the well-known WDE Pretty Lady 98C, who is doing an awesome job here. Megatron is a full brother to the 2023 National Champion Charolais Bull Elder's Kapone 2111K. His maternal brothers include Elder's Houlio 4H and the recently crowned \$50,000 Players Club Champion Bull, Elder's Mc Gregor 4140M. Top 25% BW. Top 1% Milk. BW Ratio 104."

With his moderate birth weight, small head and 44 milk EPD he will make some great moma cows.
