

FOURTH CREEK ANGUS

COWMAKER

TWO YEAR OLD & SELECT YEARLING ANGUS

Bull Sale

MARCH 2-3, 2026 **DLMS FARMGATE - SPIRIT RIVER, AB** FOURTHCREEKANGUS.COM

GENETICS BACKED BY
generations
OF MATERNAL PERFORMANCE

WELCOME

Hello and Welcome to our 2026 Cowmaker Angus Bull Sale!

At Fourth Creek Angus, we focus on raising cattle that are balanced. Every mating we make is designed to produce bulls with a strong maternal design that will produce daughters who will stay in your herd for years to come.

We have invested in the Angus GS program and we have made a priority to DNA test every animal on the farm, so you can rest assured that every animal in our sale is parent verified and backed by proven genetics.

So mark your calendars for Tuesday March 3rd and come see the bulls for yourself.

We are excited to witness how they will integrate into your herds, providing you maternal balance, efficiency and outstanding performance.

Sincerely,
Ryan and Lucie

SALE SCHEDULE

MONDAY, MARCH 2, 2026

SALE STARTS AT 8 AM MT

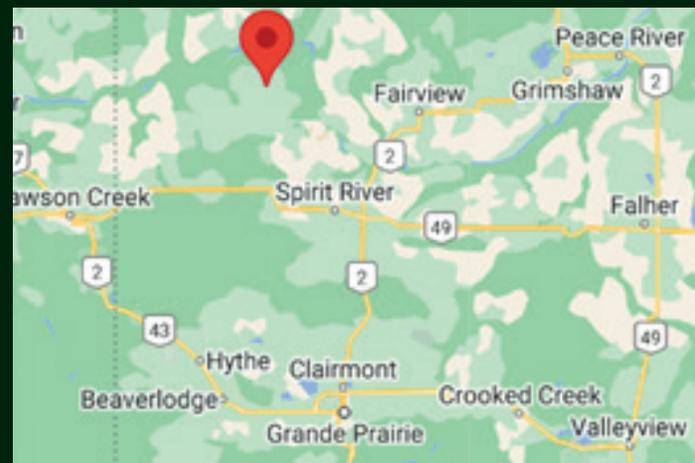

TUESDAY, MARCH 3, 2026

SALE CLOSES AT 7 PM MT

Visit **FOURTHCREEKANGUS.COM**

LOOKING FOR US?

We are developing the bulls in the saddle hills
of the beautiful Peace Country

Map and directions to the ranch
are on our website:

FOURTHCREEKANGUS.COM

VIEWING

Bulls will be available for viewing any time between now and sale day
Please Contact Ryan at 780-864-7753 to set up a tour.

SALE DAY UPDATES

Updates available the day of the sale at fourthcreekangus.com

TRUCKING

Bulls will be delivered free of charge within 500 km of the ranch as soon as possible after the sale at the seller's convenience. Over 500 km will be arranged at a cost. Bulls will be kept at the seller's farm only if prior arrangements have been made. All bulls remaining on the seller's farm must be fully insured.

INSURANCE

Insurance will be available through Jill Wildman at Canadian Farm Insurance Corp. at 780-305-1146

LOAD OUT

Bulls may be loaded out at the ranch any time after the sale, please contact Ryan at 780-864-7753

DISCOUNTS

Purchasers of 3 or more bulls will receive a 5% discount. For repeat buyers if you bought bulls in previous sales, you qualify for a rebate of 3% of your total Bull Purchase in the 2026 Fourth Creek Angus Bull Sale.

TERMS & CONDITIONS

Terms of sale are cash, check, e-transfer, unless prior arrangements have been made. Transfer of registration papers will not be made until payment is made in full. Cattle will sell under the Terms and Conditions set forth by the Canadian Angus Association.

GUARANTEE ON BULLS

All bulls selling have passed or guaranteed to pass a breeding soundness exam. All bulls selling are guaranteed unconditionally until August 1st, 2026. A replacement bull of equal value or a credit will be provided if a bull needs to be replaced. After August 1st, 2026, it will be a 50/50 split minus the salvage value (with a report of complete examination by a licensed veterinarian) for the remainder of the first breeding season. Please notify us as soon as possible should an injury occur and prior to an injured bull being sold for salvage.

SALE DAY CONTACTS

Ryan Lacey 780-864-7753
Lucie Coche 780-517-3507

SALE LOCATION

The Sale will be held online on DLMS Farmgate. The cattle can be viewed anytime at the ranch in Saddle Hills County, AB. Map and directions on our website fourthcreekangus.com

Please Call Ryan for Directions!

EPDS

EPDs current as of January 1st 2026. Updated EPDs can be viewed online at cdnangus.ca

DATA

Videos of the bulls can be viewed online on our website

fourthcreekangus.com or on dlms.ca

Scrotal measurements and Sale Weights will be available at fourthcreekangus.com and dlms.ca prior to the sale.

RETAINED INTEREST IN BULLS

Fourth Creek Angus retains 1/3 of Semen Interest in all bulls at the sale. Any collection would be at the buyer's convenience and at our expense.

YouTube

Check out our bull videos on our channel
"Fourth Creek Angus"

ABOUT THE BULLS

WE PRIORITIZE THE SLOW AND SENSIBLE DEVELOPMENT OF OUR BULLS FOR SOUNDNESS AND LONGEVITY

BULL DEVELOPMENT

The bulls and their dams have been managed on pasture and hay all year long. The bull calves are weaned at 8 months of age with a 2-step low-stress weaning method. They will be grown out on pasture to be developed slowly with a balanced diet of alfalfa hay and grass, complemented by high protein pellet from Country Junction, with a free choice mineral. We are aiming for appropriate growth and great breeding longevity.

HEALTH PROTOCOLS

Our bulls follow a comprehensive health program:

- Vaccinations include Fermicon 7/Somnugen and Inforce 3 at weaning weight, Fusoguard at yearling weight with a booster at breeding soundness test.
- Ivomec Pour-On at yearling weight and at breeding soundness exam.

SETTLING INTO A NEW HOME

With our 2-year-old bulls, we believe they will cover more cows for you, have a greater breeding vigor and hold up to your environment.

Our select yearling bulls will be well-suited for all your heifer projects.

While our handling techniques may differ from yours, taking the time to move your bull calmly, gently but firmly will yield positive results and help them settle. At Fourth Creek Angus, our bulls are used to be in small groups, hand fed and walked around on foot with dogs. They have been worked in corrals with low stress cattle handling techniques. They are not used to horses and dogs in corrals; therefore, it might take some time for them to adjust to a new environment

LOT 3, 4 AND 10 ARE ET, THEREFORE THEIR BIRTHWEIGHTS DO NOT REFLECT THEIR CALVING EASE.

SALE FEATURE: THE BULL THAT **CHECKS ALL THE BOXES**

305 \$C WITH 8 TRAITS IN THE TOP 30% OF THE BREED

LOT 4: 4CR DEADWOOD 414

THE AVERAGE RANKINGS OF ALL BULLS IN THIS SALE IS IN THE TOP 25% OF THE BREED FOR THE FOLLOWING TRAITS:

CE • BW • MILK • MCE

GREAT GENETICS AND BEST PRACTICES PROVIDE OUR CUSTOMERS WITH **TOOLS FOR SUCCESS**

- All bulls have been DNA tested for improved accuracy on their EPDs via Angus GS/HD.
- All bulls are parent verified.
- All 2-year-old bulls have passed a semen test. All yearling bulls are guaranteed to pass at 14 months old, testing is the responsibility of the buyer.
- All bulls are shown in their working clothes.
- Accurate weights are very important to us, they have been taken on the bulls throughout their life with a Gallagher Weigh Scale & Data Collector system..

FOURTHCREEKANGUS.COM

HOW MUCH CALVING EASE IS ENOUGH?

Percentage (%) of assisted births when bulls of varying CED EPD are bred to first parity registered Angus females with breed average calving ease genetics

(CED EPD=+5, CEM EPD=+8).

Kelli Retallick, "How much Calving Ease is enough?", GENEX Canada Beef Sire Directory

WHY ANGUS GS TESTING?

Animals tested through Angus GS will have the same amount of accuracy on their EPD profiles as if they had recorded 10-36 calves, depending on the trait.

TRAIT	PROGENY EQUIVALENT	TRAIT	PROGENY EQUIVALENT
Calving Ease Direct	25	Pulmonary Arterial Pressure	17
Calving Ease Maternal	19	Hair Shed Score	8
Birth Weight	23	Heifer Pregnancy	17
Weaning Weight	27	Maternal Milk	35
Yearling Weight	22	Mature Weight	14
Yearling Height	15	Mature Height	9
Dry Matter Intake	11	Carcass Weight	14
Scrotal Circumference	13	Marbling Score	10
Docility	11	Ribeye Area	16
Foot Claw Set	13	Backfat Thickness	13
Foot Angle	13		

How do you know if EPDs are genomic-enhanced?

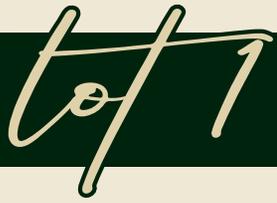

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD Logo, Angus GS™ powered by partner Neogen or the HD50K by partner Zoetis. These images indicate animals for which genomic testing has been conducted and incorporated by AGI into GE-EPDs.

Feature of the sale, we are proud to offer our very first female off the ranch and we think we picked a special one.

Sired by Montana Glacier 2342, she is out of our most proven cow family, the Henriettas. Since we bought JL Henrietta 5589 from the legendary dispersal sale, we have retained all daughters for their fertility, good footed and perfect udders.

The Henriettas are milking machines and their calves always come on top at weaning time.

427 is combining a low BW with the easy doing growth and power that the Angus breed is famous for.

Maternal supreme set of EPDS with top 1% for Milk, top 4% for Udder and top 7% for MCE.

This bred heifer is ultrasound safe to the \$345,000 lead off bull of the 2022 SAV Sale, SAV Magnum 1335. Due date 5/4/2025.

We have used Magnum for 3 breeding seasons and plan to use him more, we are extremely happy with the added weaning weight and yearling weight he brings along with strong maternal traits

SUPERSTAR HEIFER BULLS

FROM 4CR IRONHIDE 206

Sire Musgrave 316 Exclusive

Dam JL Crushmaid 5555

- For the first time this year, we are offering a select group of our May/June born yearling heifer bulls.
 - We have used our yearlings on our own heifers for the past few years.
- This has been working well in our program and we thought we would offer you this option too. These yearlings will be amazing for all your heifer projects.
 - They will not be semen tested at the time of the sale, however they are guaranteed to pass a semen test as a yearling.
 - They are sired by our homegrown herd bull 4CR Ironhide 206 who was the high seller at the 2025 bull sale
 - Easy calving maternal powerhouse who stamps his calves with muscle and style
 - We are very excited to offer his sons combining easy calving with phenotype and strong data profile.

Here is a bull for your grassfed/low input program.

Top 1% for Dry Matter Intake, his extreme efficiency will echo through your herd, producing stout made, long lasting and resilient daughters. Out of one of our best Ole cows, he took everything after his maternal grandfather DDA Emblazon 27C.

Mat. Grandsire DDA Emblazon 27C

Heavyweight Champion in a stout package, the cow maker kind
 Very easy fleshing bull that will produce easy doing daughters with a punch
 Sired by the famous Sitz Barricade 632F, his dam is a big ribbed, stoutly made 3rd generation donor cow
 we bought from Montana Angus Ranch
 He will work on cows to add fleshing and extra rib, also on heifers with his low BW and high CE EPDs.

Deluxe Calving Ease bull with thickness and growth
 Sired by the 900K Poss Deadwood bull, we selected his dam from the 2022 Montana Angus Ranch Female sale for her impressive progeny records and her impeccable udder
 We have used him with our heifers last summer for his high level calving ease and added growth and phenotype
 He will add hybrid vigor in your crossbred program without sacrificing the poundage and add carcass values with his top 1% of the breed for Marbling

All around great structured bull with a thick top
 One of the heaviest weaning weight and yearling weight of the sale, he combines good growth with feed efficiency
 Backed by a highly maternal cow family through his sire, Brookdale Brutus, who combines 2 of the most influential
 cows in the Angus Breed
 His dam is a favourite for her consistency in production with a weaning ratio of 104 over her bull calves
 Will work great on cows and larger heifers

Sleeper of the sale, herdbull kind with breed-improving number profile
 Heaviest Yearling Weight of the Sale at 1213lbs with a yearling weight ratio of 107
 From a very feminine dam who stamps her progeny with a little extra punch, we decided to use him in our herd to add performance, growth and his dam's influence
 We liked this mating so much that we rebred his dam back to Magnum and she gave us a beautiful heifer last year
 Top 8% for Milk, Top 10% for WW, YW and SC

Heifer bull brothers with feed efficiency and natural fleshing ability. From powerful easy fleshing sisters, those 2 bulls are peas in a pod through their phenotype and their pedigree. They will produce a very consistent calf crop, adding capacity, stoutness and fleshing ability to their offspring. Their gorgeous phenotype demonstrate the stamp that Ironhide put on his calves.

The dams of lots 11 & 12 are paternal sisters
