DLMS INFORMATION

HOW TO PARTICIPATE IN THE DLMS FARM GATE TIMED AUCTION WITH EXTENDED BIDDING:

1. Visit dlms.ca and follow the link to the DLMS Farm Gate timed auction site www.farmgatetimedauctions.ca, click the LOGIN/REGISTRATION button. First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. This program will send you text and email messages whenever there is activity on your favorite lots, or someone challenges your proxy bid and this is why you will be asked for both your current email and cell phone number. If you are a past participant in the Farm Gate Timed auctions simply enter your username and password to continue. This takes you to a list of both current and upcoming Farm Gate Auctions.
2. You can choose your favourite lots in this sale at this time and the program will allow you to open either all sale lots or just your favorite lots on your screen. Any time there is active bidding on a lot you have identified on your favorite list you will get a text and/or an email noting this activity.
3. The program allows you to place a proxy bid on any sale lot. This in fact protects your interest in any lot of interest for you to a specified dollar value you set, when you may not be able to give 100% attention to the sale. If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest.

4. At closing time of the sale the entire sale will extend bidding if a bid is placed on any lot in the sale. Any bid received after close time will extend the sale by the time listed on each sale. In most cases the time gets shorter the longer in to extended bidding the sale is. When no bidding occurs for the extended time the computer will declare the sale finished.
5. Following the sale the Consignor or Sale Manager will invoice all buyers in the sale, please contact the seller with questions or to arrange delivery, pick up or shipping of your purchases.

For more info and assistance with bidding contact any of the sale contacts listed on the DLMS Website; www.dlms.ca

DLMS Farm Gate Timed Auctions Mark Shologan Ph: 780-699-5082

FAQ:

WHAT IS RACEHORSE STYLE SALE CLOSE? Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORK? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

Timed Auctions Made Easy

FULLY LOADED *Welcome*

It gives me great pride to welcome everyone to this offering in the 9th Annual Fully Loaded Bull Sale. From the very beginning with Clark Cattle (Who we are missing this year), Windy Gables and the Venture/New Life programs it was our goal to provide tried and true genetics for the commercial breeder as well as the purebred breeder and I am sure that this has been accomplished. Genetics have sold from Coast to Coast and most of the provinces in between. I believe this to be significant as it represents several bulls and some comfort in knowing that we are here to help promote Limousin and to be a cornerstone for you to rely on now and going forward.

The bulls offered this year from these two programs represent some of the top genetics of the breed, both on the maternal side as well as sires. Note that the Windy Gable program is presenting a new sire group for Canada in the SYES Hardrock bull, and the New Life/Venture program bring a solid group of AI sired bulls. Both programs have a very solid maternal base that only ensures some predictability to the offering.

The bulls are ready to go for you, and the work has been done. They are **Parent Verified and 100K Genomic tested** that adds to the predictability of the performance suggested by the EPD Profiles shown. All the bulls come with the standard breeder guarantee backed by the firms here. They will be semen tested and ready to serve for you.

Once again, we are pleased to be on the **DLMS Farmgate** platform for the sale, which will have a closeout on **Saturday March 7th, starting at 7PM ET**. Please note that this is a bit earlier to assist with some of our clients and their activities. This format is very user-friendly, however if you would like some assistances do not hesitate to reach out for help which will be handled in the most confidential way possible.

All of the bulls are available for viewing at their perspective farms and we encourage you to stop by for a visit and viewing of the bulls and their moms as well.

Thank you for your consideration of this group of bulls and select with confidence as these guys will help you move forward and align yourself positively in this industry that is now truly in one of the best and most highly influential positions ever.
