## INSURANCE

Insurance information will be provided, we highly request that you purchase insurance after the sale.

*Welcome* to the Gelbvieh Logic Bull Sale 1.0

As a producer you are committed to producing top quality beef cattle. This runs deep into your character and you can be proud of it. Combine this with historically strong demand, an optimism that is being carried forward, and it makes for exciting times in the cattle industry. There is opportunity to benefit from the strong market signals and build your future cow herd with functional, productive and efficient replacements.

The Gelbvieh Logic Bull Sale represents a group of small/medium sized breeders, covering three western provinces, bringing together a diverse range of bulls for your consideration. This provides you with the convenience of having a local breeder with knowledge of your area or the option of looking farther afield for that special bull that fits your specifications.

The Gelbvieh Logic Bull Sale includes pedigrees that each individual breeder has purposefully selected for. This provides you with a variety of choices to better match your requirements. Red and black purebred Gelbvieh, Gelbvieh Balancer and Gelbvieh influenced percentage bulls. Capable yearlings and strong extra age bulls. Performance bulls that will produce the type of feeders the market is looking for. Calving ease bulls that will give you that extra peace of mind. Bulls with stacked maternal power to produce those valuable replacement females. There is a solution for everyone.

We invite you to climb into that ol' pick-up and drive down the road to a breeder near you. Have a visit, talk cattle. Maybe take a road trip to get a good look at a bull that has caught your eye. The Gelbvieh Logic Bull Sale consigners are here to help you make your herd better.

Neolythic is a late born calf that is thick, long and shows great muscle expression at a very early age. His sire Hillsgdown Scout is a son of Hillsgdown Finnigan out of our 2025 dam of distinction cow Harper Lee 28D. Neolythic's dam Silverline Jaybird is a strong production cow with a clean and tight udder. This April 1st bull has nearly caught up to our January born calves. He has great depth and strong hip that ties low into the twist. He is going to be a prolific herd sire.

Northern Hawk is a rare find in the Gelbvieh world. He is a true heifer bull with easy calving genetics both top and bottom of his pedigree. His sire was sold for \$70,000 to the US a few years back and continues to be a prolific sire in Canada through AI options. Northern Hawk's dam is an 88% outcross bringing the super easy calving genetics from our Earthquake herdsire with a cow that has a little bit of red angus influence into the mix. This bull has some fantastic hard red feet and solid top and bottom lines. This bull will give you no issues with calving yet still give production values in the fall. He's going to be a top heifer sire pick with incredible maternal values.

Navajo Joe is a rare combination of easy calving and growthy production. He is a long dark red bull with fantastic hair coat that will drop small super vigorous calves. His sire was sold for \$70,000 to the US a few years back and continues to be a prolific sire in Canada through AI options. Navajo Joe's dam is an 88% outcross bringing the super easy calving genetics from our Earthquake herdsire with a cow that has a little bit of red angus into the mix. He has fantastic hard red feet and his dam has an incredible high and tight udder. This bull is an option that will give you a rare combination of calving ease, incredible growth and some serious maternal strength. He is a great option for any herd looking to build some serious genetics.

83	779	1186	19	-1.8	78	112	64

Next In Line was one of our top bulls this year. We seriously considered keeping him. His sire was sold for \$70,000 to the US a few years back and continues to be a prolific sire in Canada through AI options. Next In Line's dam is a black purebred daughter of Earthquake. Earthquake is known in the Glebvieh breed as a massive bull that leads in the calving ease category. Crossing these two easy calving genetics with good production cows is yielding some superior genetics and epd's. This super easy calving bull is built correctly and has been our biggest gainer. If you are looking for easy calving genetics that will push down the scale in the fall this is your monster. He is also incredibly quiet.

65	663	1030	18	-2.8	55	76	50

Napoleon is the epitome of calving ease. At the same time he has a solid weaning weight and has gained very well in the feed pen. He is sired by Earthquake, a massive bull known for short gestation periods and low birthweights. Earthquake calves are all very vigorous at birth and gain like crazy and I'd expect the same from this bull's calves. His dam is a moderate framed 88% purebred cow with some black angus influence. She has an amazing high and tight udder and fantastic feet. If you are looking for a heifer bull or a moderate framed bull that will raise some incredibly maternal heifers this is a great opportunity.

Brings together a very interesting pedigree that pulls together maternal power, quality udders, solid feet, very quiet temperament and longevity. His mother, still has an excellent udder and gentle disposition. High Road, his sire is proficient in calving ease and moderating frame scores, while producing beautiful daughters. Expect Gridiron to follow in the path forward by producing daughters with very good udders and feet while keeping frame scores moderate. Full brother proudly working in Kirk and Sharla Pollards herd.

I try not to pick favorite cows, we all know what tends to happen to them, but I've had a soft spot for the 14H cow since she stood out from our first heifer pen. Over time I have noticed her cow family to constantly produce some of our best females and I'm excited to see how they shape our herd in the future. Her growth numbers are a little on the extreme side and breeding her to 44L who is more in the middle of the spectrum brought this bull's numbers into a pretty usable range. Since showing at the Futurity in December, he has continued to develop at the top of our sale pen with his added rib and length. I believe he will sire exceptional females, an ideal bull for someone looking to build a top-notch cow herd in the new beef era we're entering.

lot 10

## AKS NITRO 49N

BW	adj.WW	adj.YW	CE	BW	WW	YW	TM
94	-	-	15	-1	58	85	45

We don't dabble in Balancers much yet but we had an opportunity to use Nitro's sire to cover for our main herdsire for a month and we're impressed with the progeny. He stems from the same matriarch cow as 29N does and his dam has a proven production record: A bull we exhibited in the Futurity a few years back, a couple of great females with a bright future here and a bull doing great work at our neighbours. We worked with Shelby in the fall who exhibited Nitro at Farmfair for us and did a great job showcasing his potential. He could work as a dual purpose sire in some heifer programs but primarily would work to raise moderate framed cows who can wean those payweight steers for many years in a row for you.

82	-	-	20	-4.1	44	60	45

20N is a dark red heifer bull out of one of our top cows. I have hopes of raising a future herdsire out of her with the correct mating as she has some productive daughters in our herd. If there weren't so many of this guy's half sisters in my replacement pen I would be keeping him as our own heifer bull. He's the one who's always in my back pocket at feeding time; a very quiet disposition in a sound built bull with tons of calving ease and backed by a great cow. The full heifer bull package.

AMS Macyn 58M is another BNH Hallelujah Justice sired bull. His dam FLAD Gracyn 17G was Reserve Champion Balancer Female at Agribition in 2020 and Grand Champion Balancer Mature Cow at the Junior Gelbvieh show in 2023. We took a half sibling to this bull to the Bull Futurity in 2022. Don't let the dam's older genetics fool you, she is out of very productive genetics from the Fladeland program and sure packs a punch!

This Davidson Superman son is the complete package big boned and full of substance, unlike his full sister he is black like his dam Hot on the Spot 261H. His full sister LCF Over The Top 361M was Grand Champion over all female in 4-H as well as Swift Current Frontier Days in the Gelbvieh Heifer Division. Proving the quality, consistency and strength of this cow family. LCF Hot Shot Hero 261N is a bull that will add shape, performance and maternal strength to any program.

LCF Mocha Man 116N is a red performance bull who is one to build a cow herd around. As a favourite in the bull pen this year it is easy to see why. As one of our favourite lines, he patterns out just like the rest of his siblings, a smooth front end, big centered and long bodied bull, with extra muscle and thickness. Keep back the daughters, because they will be fantastic mothers.

HCA Nemo 28N is a homozygous black, homozygous polled, added calving ease, Balancer option while still offering added growth. He traces back to the Angus beef machine EF Colossal 520 known for his impressive phenotype, performance driving, highly maternal offspring and DDN Jolie 166J a highly maternal stand out JRI Santiago daughter. Nemo is smooth shouldered, clean made should produce desirable, productive females and highly marketable steers. He may be our youngest bull on offer but is sure to get noticed for his added length of spine, fleshing ability and depth of hip, plus he keeps pushing the scale down.

BW	adj.WW	adj.YW	CE	BW	WW	YW	TM
91	698		13	-0.2	66	97	58

A dark homozygous red bull with a straight back, lots of hair, strong correct feet, and is long, thick and deep in the body. He comes from a correctly made dam with longevity and fertility (37cm scrotum on January 20/25). He is puppy-dog quiet and easy fleshing. This bull has the potential to put performance (weighed 1221lb on January 20/25) and calving ease into any herd. All B&R Ranch bulls are slowly grown out for longevity and not pushed with feed. They live on a hilly, treed, 50 acre parcel where the bulls must walk to water, to feed and to their favorite bedding areas.

Timed Auctions Made Easy

After you are at the FarmGate Timed auction site click the LOGIN/REGISTRATION button.

### **FIRST TIME FARMGGATE USERS**

First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all FarmGate Timed auctions. (please note due to some of the text notification features the FarmGate Time Auction Site requires a new account separate account from your DLMS Live sale site)

*After you create your FarmGate account you will receive a text message with a pin code to verify your account.*

On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

### **RETURNING FARMGGATE USERS**

If you have used Farm Gate Timed auctions in the past simply enter your user name and password to continue. After you have logged in you are able to browse the timed auctions on DLMS FarmGate Timed Auctions.

### **HOW TO BID IN A TIMED AUCTION**

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

**Place Next Bid** – to place the next bid on the item, you see the amount in the first box, you simply click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed.

**Max Bid Amount** – to place a max bid you put your max bid in the second box listed as “Max Bid” on the item, and then click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

Example of How the Max Bid Works - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

### **WATCH LIST FEATURE**

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the “eye” button beside the bid button, by clicking this “watchlist” Icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

### **SALE ENDING / CLOSEOUT**

Most FarmGate Timed Auction sales close racehorse style with extended bidding.

**What is Racehorse Style Close?** Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

**How will Extended Bidding work?** When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

### **BIDDING CLOSE & FOLLOW-UP**

After the clock has gone to “ENDED” and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidder you can contact the sale consignor / sale manager to confirm payment instructions. Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.

---

## *Terms & Conditions*

It is the intent of the Gelbvieh Logic Bull Sale consigners to provide you with common sense sale terms combined with effective after sale support. We look forward to working with you.

*The Gelbvieh Logic Crew*

**BREEDING STATUS:** Each sale bull twelve months or older as of March 15/26 will have successfully passed a breeding soundness exam performed by a Veterinarian prior to the sale date. This exam will include a scrotal measurement and semen quality evaluation. Younger bulls that haven't passed a breeding soundness exam will be sold subject to passing an exam when they reach twelve months of age. We aim to provide our customers with a bull that is ready to work when required.

**DNA PROFILE:** Each sale bull will have a 100K DNA profile on file with the Canadian Gelbvieh Association prior to the sale date. This provides added accuracy to the information regarding characteristics of the bull that is included in the DNA profile. These include parentage verification and genomically enhanced EPDs (expected progeny differences). This could also include polled status and coat colour.

**CERTIFICATE OF REGISTRATION:** Each sale bull will be duly registered with the Canadian Gelbvieh Association. After receiving full payment the consigner will offer to transfer this registration to the buyer of the sale lot.

**BOARD OF BULLS:** If you would like to have your purchased bull remain at the consigners facility after the sale this must be arranged for between the consigner and the buyer prior to the sale. The consigner will advise as to the cost of this additional service. The cosigner will continue to care for the bull in a similar manner as they did prior to the sale. During this period the bull will be the responsibility of the buyer and insurance may be required. Protecting your investment with insurance is strongly recommended regardless.

**DELIVERY OF BULLS:** The individual consigner of the sale bull will offer free delivery of the bull within a 200 KM radius of their facility where a reasonable route is available. This will be done at the convenience of the consigner with regard to arrangements made with the buyer. If a buyer would like the bull delivered beyond the two-hundred KM radius this would have to be arranged with the individual consigner prior to the sale. An extra delivery fee may be applied.

**GUARANTEE:** All bulls will sell in accordance with the terms and conditions recommended by the Canadian Gelbvieh Association. Any additional or alternate terms or conditions must be mutually agreed to by the individual consigner and buyer prior to the sale. In the case that either party is not fulfilling their responsibilities or duties it will be the responsibility of the consigner and buyer to deal with this solely between themselves. The maximum value of the guarantee will be limited to the sale price of the bull. The Gelbvieh Logic Bull Sale provides no guarantee perceived, stated or otherwise and will not be a mediator or otherwise in any case.

**BIDDING:** Bidding will be acknowledged per the standard features of the online sale provider. Details of the DLMS Farmgate sale procedure is listed in this catalogue.

**PAYMENT:** Payment will be cash or cheque payable to the individual consigner at par in Canadian dollars due at the time of sale. US funds will be accepted at the current rate of exchange on the day of the sale. The buyer will be contacted by the cosigner to arrange payment. The right of ownership of the bull will be transferred when full payment has been received by the individual consigner. If you would like to make any alternate arrangements for payment this must be mutually agreed to by the individual consigner and buyer prior to the sale. The Gelbvieh Logic Bull Sale is not responsible for any collection, distribution or otherwise of payment.

**LIABILITIES:** Any person visiting a consigners facility will do so at their own risk. It is understood that the visitor is entering a functioning farm operation and appropriate caution must be taken. Each individual consigner has worked in this environment practicing reasonable safety precautions. The individual consignor assumes no liability, legal responsibility or otherwise for any injury or occurrence resulting from entering their facility.

**GELBIEH LOGIC BULL SALE:** The purpose and responsibility of the Gelbvieh Logic Bull Sale is limited to its function as a facilitator of the sale. The Gelbvieh Logic Bull Sale offers no guarantee, either stated or implied, regarding any aspect of the sale. The Gelbvieh Logic Bull Sale is not liable, legally or otherwise, for any injuries or any other occurrences as a result of the sale function or anything related.
