## DIRECTIONS:

From Vermillion, head North on Highway 41 approximately 1½ miles to Township Road 511. Turn East, drive just over a ½ mile and the sale location is on the South side of the road.

# Welcome from the Martin's

We would like to say "THANK YOU" to our family, friends and customers for taking the time to show your interest and support in our program. It's been an exciting time to be in the beef industry. With prices and demand at record highs and the North American cow herd depleted, it looks like it will be a strong period for some profitability for the cow/calf producers out there. Congratulations for sticking it out through the hard times and enjoy the next part of the ride.

We are very proud of our bull offering this year! We always try hard to cull our herd if the animal does not check all the boxes. Foot structure, udder quality, temperament, and longevity are at the forefront of our program. We have done more embryo work in the last

few years to help improve our herd. We are confident that our customers will also gain from the benefits of this work by obtaining any of these bulls. Our goal is to make cattle that will go out and work for their owners making them more profit with less inputs. Whether you need a calving ease bull, power cow bull, or somewhere in between, we will help you find that bull to suit your specific needs.

Sarah has two started stock dogs on offer this year! Tig, the 2025 sale dog has been a great fit for his new owners; he has been a definite asset to their operation. We would love to share how these working dogs are able to make life a little easier and maybe a few less steps come chore time. It has long been said, a good dog will take the place of 2-3 hired men. And the great thing about dogs, is that they rarely complain and are willing to work for kibble!

We are very happy and excited to have my parents, Murray and Lil, join us in the sale. MJM Enterprises has offered up another very strong set of females from the top of their pen. There will be a great selection of top quality replacement heifers and first calf heifer pairs on offer.

We encourage everyone to stop by the farm and view the cattle anytime prior to the sale. The bulls do change a great deal from picture/video day to sale day, so please try and come take a look. If you are unable to tour the farm please feel free to request some updated information. As it has become a bit of a tradition we are offering a sale credit for this years bull purchase to everyone that takes the time to come and tour the bulls at home before we move them to the sale facility. If you are interested in something and cannot attend the sale, please let us or any of the sales staff know and we would be happy to assist you. Hope to see you March 19, 2026!!!

**INSTINCT** is one of the most talked about bulls purchased in the 2024 season. He was the \$55,000 lead off bull from the respected program of Leeuwnburgh Angus. He is a bull full of authentic Angus character in a thick muscular package. He has incredible phenotype, performance, and maternal cow power. He is in a league of his own for center mass, rib shape and depth. Massive top and chest floor, standing square and wide on all four corners. His progeny are moderate at birth with explosive gain afterwards. Sons are thick topped, muscular, soggy, big ribbed meat machines. Instinct is backed by excellent cow families which combine moderation, efficiency, milk, and fertility. Daughters are early maturing and will be the cornerstone of our program for man years to come.

**NAVIGATION 59J** was purchased as the high seller out of the Eye Hill Stock Farm program in 2022. Navigation was selected for his overall completeness, foot structure, and his dam 802F who is an absolutely beautiful cow. His offspring really are stamped like him in terms of balance, structure, and look. His sons are built for the long-haul and the plan is to integrate Navigation for many years to come. He crossed very well within the cowherd and his daughters will be mainstays in the herd in the coming years.

**STELLAR** is another outcross pedigree for our program. He stands on some of the best feet I have seen on a bull in a long time, which he passes into his progeny. He is an easy calving bull with low BW and then still has some performance at the end. Heifer approved sons.

At Golden Sunset Ranch we are dedicated to producing the best genetics possible. We have been focused on true maternal matriarchs. When the chance came to purchase a part of 314A, we jumped all over it. In terms of phenotype she is the ideal cow; a foundation breeding piece. She is a top contender when selecting for foot structure, udder quality, temperament, and fertility. Most importantly her production record speaks for itself with very productive daughters/granddaughters in the Eye Hill Stock Farm herd. She has produced herd bulls for McAleer Ranching and Kenray Ranch. A daughter just sold at the Touch of Class sale to Dersta Farms.

These bull calves off 314A in this years sale will be true breeding pieces. Long bodied, huge middled, and functional cattle. They will all produce cornerstone daughters for your program for years to come.

7D is an impressive dam here at GSR. Foot and udder quality, longevity, fertility, and consistency run deep. She is a donor cow that combines maternal strength, cow family power, and elite phenotype in one package. Her production at the ranch speaks volumes for itself. We have used a son off her to inject more of 7D into the herd. He was our lead off and high selling bull in 2022. In 2024 a grandson of hers was the high seller to Thistle Ridge and Sweet Water Ranch. Her son last year was a sale highlight and went to Eye Hill Stock Farms and Valley Hills Angus.

Her daughters and granddaughters are very productive females, raising sought after bulls and top notch replacement females. These sons off her this year will no doubt be sale features and satisfy even the most critical cattlemen. These bulls have the ability to take your cowherd to the next level.

# The Working Dog Savvy

DEDICATED TO EDUCATING HANDLERS AND BUILDING THEIR CONFIDENCE TO TRAIN THEIR OWN STOCK DOGS!

I had the pleasure of traveling to teach at some stock dog clinics in 2025! It was an amazing experience. I can truly appreciate the passion and dedication these handlers put towards bettering their understanding of the stock dog world! I was also able to speak about stock dogs at the first ever in Canada, She's a Ranch Hand Camp hosted by Equine 43! It truly is a unique experience providing opportunities to women who want to develop their skill set as a rancher!

With stockmanship at the forefront of my program TWDS is a website developed to help you with training your stock dog. It was not only made to help bridge the gap from beginner to intermediate experience levels, but to help you get beyond the basics! Please come take a look!

## TIG the 2025 Sale Dog ... and where is he now???

I could not have been more excited that Tessa was the successful bidder on Tig. She is a great handler and stock-woman that I very much admire! I am so grateful she saw the same potential in Tig that I did. Tig is a great fit for Tessa and her families operation! I cannot wait to see what they accomplish in the years to come! Here is what Tessa has to say about her experience with buying Tig from the 8th Annual GSR Sale!

"Tig has been an asset to our operation, working both cattle and sheep. From the first time I saw him in person to today I am continually impressed by what is at the core of him. He has quiet power on stock pressure, takes both heads and heels cleanly, has good feel for stock and is very sensible about his work. We have been pleased with his ability to very effectively move any stock and do any job asked of him. He has a friendly personality and Sarah instilled good manners in him off of stock as well. Sarah was fantastic to deal with before and after purchasing Tig. She invests a great deal into her dogs and cares very much about the dog and buyer having a successful working partnership."

## 35 Cow-Calf Pairs

MU

Welcome to our 9th Annual Bull and Female Sale. We know it is a busy time of year for everyone and appreciate you taking time to visit the farm or attend the sale. We would like to thank our past buyers and hope everything has went well for you.

Last year was a trying year as far as weather goes. We had less than three inches of rain right at the farm. Pasture was tested to the limit and feed was tight, but we managed to make it through and got enough feed (we think). We downsized our cow herd while Kyle and Sarah are trying to increase their herd. "Changing of the Guard". Besides there is fresh cow hands coming as you can see in the picture.

But what a pleasant surprise last fall wise. Calves sold for record prices. Finally we are getting paid for all our hard work. Hopefully prices hold.

Again we are offering 35 palpated open simmi cross replacement heifers. They will be sold in packages of 5. We will also be offering 35 1st calf simmi cross heifers with calves at side. They will be sold in groups of 5. All animals will be ready for grass.

Please feel free to stop by the farm to view the cattle. As coffee is always on, beer is cold, crib lessons are free, and BS plentiful.

*Murray & Lil Martin*
