

A grayscale photograph of a hand carving a large, three-dimensional letter 'B' from a wooden block. The hand is positioned on the left side of the block, using a carving tool. The background is a dark, textured surface. The text 'HBH ANGUS' is overlaid in a white oval at the top of the image.

HBH ANGUS

**MARCH 11, 2026
OAK RIVER, MB**

WELCOME

I would like to welcome you to the farm for my 4th Annual Bull Sale on March 11th.

This year's offering is a group I'm truly proud of. The bulls are uniform, powerful, and stand out individually and as a whole. HBH is built on strong cow families - cows that work hard, last long, and consistently raise the kind of bulls I'm confident sending out into your programs. Maternal strength runs deep here, and I take pride in raising bulls that are functional, quiet, and ready to go out and get the job done with longevity and soundness.

Whether you're looking for performance driven herd bulls or calving ease options for your heifers that still push down the scale in the fall, you'll find something that fits in this pen.

The bulls come home at weaning on whole oats to get them settled in. They are then transitioned and developed on a TMR ration consisting of hay, barley silage, corn silage and pellets added with mineral.

All bulls sell fully guaranteed for breeding. I'm always happy to answer questions, and I encourage you to arrive early so you can take your time looking through the offering. Tours of the bull pen and cow herd are welcome before sale day as well. I'd love to walk you through the dams, cow families, and genetics behind the bulls. Supper will be served on sale day and I encourage you to stay after to visit.

If you can't attend in person, the sale will be broadcast online through DLMS. If you have any questions, or would like to discuss the bulls, please give me a call or text. Looking forward to seeing you on sale day!

Brayden Heapy

4TH ANNUAL WEDNESDAY, MARCH 11, 2026

**SALE 6:30PM- AT THE FARM - OAK RIVER, MB
SUPPER AT 5:00PM**

Herd Health Program

The herd health program for HBH strives to prevent disease rather than treat disease. The breeding herd – cows and bulls, receive a modified live vaccine prior to breeding season. This vaccine contains both IBR and Type I and II BVD which are two of the most important diseases that can cause reproductive losses. Pre-breeding vaccination also prevents the birth of calves persistently infected (PI calves) with BVD virus. A PI calf will shed virus in a herd throughout its entire life and can have significant negative effects on overall herd health.

The calves are vaccinated at birth with an intranasal vaccine which aids in the prevention of early calfhood pneumonia. At pasture turn out the calves are vaccinated with a parental 5-way viral vaccine and bacterial pneumonia vaccine (Bovishield Gold One Shot). Also, at turn out the calves receive their initial dose of Clostridial vaccine (Ultrabac 7/Somubac). At weaning, the calves receive a booster of these two vaccines to prevent disease through this stressful time. This fall dose also acts as a priming booster for their first reproductive vaccine the replacement heifers and bulls will receive in the spring as yearlings. The yearling heifers and bulls also receive a third Clostridial booster in the spring as well.

Bulls are assessed for conformation, examined internally and externally for abnormal development of sexual organs, scrotal measured and semen is collected and examined for normal concentration, motility and morphology. Breeding behaviour to ensure adequate libido and proper penetration needs to be assessed by the new owner in the natural breeding situation, particularly for yearling bulls. Having your own herd veterinarian evaluate newly purchased bulls is also encouraged.

It is expected to have Decision Deferred (DD) bulls when testing yearlings at 12 months of age. At 12 months of age we only expect 50% of bulls to successfully pass a BSE evaluation. Over 90% of yearling bulls will pass a BSE evaluation by the time they are 16 months of age. If you are a producer looking to buy a bull, factor into your decision the date your bull is turned out with cows and the age of the bull (if DD) as to whether this bull will work for you.

TERMS AND CONDITIONS

Insurance - It is encouraged that insurance is purchased for the full value of the bull.

Errors- All announcements at sale time, written or oral overstate any written material within this catalogue.

USA Buyers- The exchange rate will be announced at the time of sale. All costs to export are at the discretion of the buyer.

Semen- HBH retains the right to draw in-herd use semen on any bull within the sale at the new buyer's convenience and at our expense.

Wintering the Bulls - It is free; however, we want to move the bulls at the earliest convenience of the buyer. Buyers need to state the intentions of the bull at the time of settlement following the sale. It is highly recommended that all bulls are insured under this policy.

Liabilities - Every individual who attends the sale, does so at their own risk. HBH holds no liability for any incidents or accidents that happen.

Terms - Cash or cheque are accepted at the time and location of sale. The property of the bull does not change hands until the settlement has been made. Every animal sells to highest bidder. Any disputes, the auctioneer's decision is final. All monies are in Canadian funds.

Bull Registration - Every bull has a registration paper that is with the Canadian Angus Association. The bull will be transferred after payment is received.

Pedigree - The pedigree estimates are assumed given the sire and dam and averaging the two. This creates an estimate but is not the same accuracy as an actual EPD.

Guarantee - Every bull is at the complete risk of the purchaser right after he is sold. Every bull sold in this sale is sold under all the terms and guarantees that are laid out by the Canadian Angus Association that regard the bull's health, freedom from defects and from both reproductive and specific genetic unsoundness.

Trucking - Free delivery up to 300km. \$50 discount if you take home the bull on sale day.

The best crew!
