CODY HANEY 403-845-8806

Welcome to the 2026 Power & Progress Bull Sale. What a fitting name as the POWER in the blood is as evident as ever within this years set of bulls and the exciting strides in PROGRESS is obvious as this is without a doubt the deepest and most consistent set of bulls these 4 programs have assembled. On behalf of Horner Cattle Co, Downhill Simmentals, TSN Livestock and KCH Cattle Co, all of us at BMS want to welcome you this exciting bull sale, held online through DLMS Farmgate.

The Horner Cattle Co Bulls are an exciting set and are their largest offering to date. The building around elite cow families has left the Horner bulls extremely consistent in type and kind. They are a very diverse set of bulls with something for everyone. Everett's good Downhill program spares no expense when sourcing herd bulls and elite females to incorporate into his program and that is shown here with his 2026 set of sale bulls. TSN Livestock has always prided themselves on the utilization of industry leading Ai sires and that is exactly what you will see in their two exciting Lethal Weapon sons. KCH sources some of the very best genetics each year and their offering is as diverse as ever with many of the whose who of both the Angus and Simmental breeds well represented.

This is a special offering of Simmental & Angus beef bulls backed by a superior set of cows. 4 great programs with 1 common vision and goal perfectly complement one another and come together to give an offering to you that is diverse with many, many options. Make plans to view the bulls at Horner's Sale facility and don't hesitate to give any of them or our staff listed at BMS a call to discuss the bulls on offer. We would be happy to help and assist where we can.

Best regards,  
The Bohrson Marketing Team

#### TERMS

The terms of the sale are cash or cheque and e-transfer payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. The owners and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or

Sale Management.

#### BID

Every animal consigned to the sale must be sold by auction.  
Each animal will be sold to the highest bidder.

#### PURCHASER'S RISK

Each animal becomes the risk of the purchaser as soon as sold.

#### CERTIFICATE OF REGISTRY

The proper Registration will be duly transferred and furnished to the buyer for each animal after settlement has been made.

#### GUARANTEE

All animals will carry standard breeding guarantee as specified by the applicable Canadian Breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

#### EXCEPTION TO GUARANTEE

In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

When purchasing your bull, please remember that semen tests are a snapshot in time. Injury, illness and stress may impact a bull's ability to breed successfully. Other factors that may impact a bull include a rapid change in diet, a new environment or being placed in a pen with older bulls.

#### HEALTH

All sale animals have met all necessary health requirements and it is the buyer's responsibility and expense to determine health requirements for importing any animal into his province or state

#### LIABILITIES

All persons attend the sale at the their own risk.

#### SHIPPING

Shipping of cattle are the responsibility and expense of the purchaser. Purchasers are requested to provide shipping instructions at settlement on sale day.

**FREE DELIVERY TO AGREED CENTRAL POINTS OR  
UP TO 300 KM**

#### ACCIDENTS

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management or consignors, assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

#### RIGHTS AND OBLIGATIONS

The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both.

We will be running under the standard  
CSA & CAA Terms & Conditions.

**EACH CONSIGNOR RETAINS  
THE RIGHT TO DRAW ANY

TO ALL THOSE WHO SUPPORTED OUR 2025 SALES, WE ARE TRULY GRATEFUL

## CREAM OF THE CROP FEMALE SALE & HDT BULL SALE

# HORNER CATTLE CO.

Jake Rawluk & Laura Horner

Alan Horner

**LAURA: 204 868 5335 \* JAKE: 204 768 0284**

What a year it has been! From an unseasonably warm start to winter, to a late, cold, and wet seeding season, followed by a hot, humid summer and, thankfully, a beautiful open fall — 2025 reminded us once again how unpredictable and humbling agriculture can be. We couldn't be more grateful to be part of an industry that lets us experience every season to its fullest.

We were fortunate to put up a solid year's supply of feed and harvest what we could from our crops, setting us up well heading into winter. Here's hoping 2026 continues to cooperate on that front. On the cattle side, the year brought some of the strongest markets we've seen, rewarding the dedication and hard work of producers. Watching steer calves push over the \$4000 mark, with heifers not far behind, was an incredible sight and a testament to quality, consistency, and sound management. As always, the top-end calves earned the premiums, and that remains our focus and goal.

Running 450 head of purebred and commercial cows across two calving seasons allows us to gain real-world, hands-on experience in what functional cows should be built like and what bulls must be able to handle over a lifetime of work. Being involved in the cattle business year-round helps shape our program, and we're proud to share that experience with our customers.

The extended fall allowed us to attend Brandon Ag Ex, Yorkton Harvest Showdown, and CWA, while also wrapping up harvest, late-season grazing, weaning, cow moves, corral maintenance, and all the "to-dos" before freeze-up. We're incredibly thankful for the crew, friends, and family who helped make it all happen — your support never goes unnoticed.

Just a few months ago, we wrapped up another successful Cream of the Crop Female Sale alongside our valued partners: Evy at Downhill, Tyson and family at TSN, and Ken, Kerri, and the girls at KCH. We're grateful to work with such a strong group and are excited to carry that momentum into our February Bull Sale. This year, you can expect the same tremendously highly quality genetics under a new fresh name "The Power and Progress" Bull sale.

We encourage you to study this year's bull offering and to visit with Jake or Laura about purchasing a bull sight unseen. Understanding your environment and management is key to helping match you with the right bull for your operation. While the bulls offered are still cattle — and cattle can surprise us — we stand behind our program and will work with you to ensure your purchase is successful. Please reach out early if any issues arise.

Our bulls are developed on a balanced TMR ration in large, open pens to promote soundness, longevity along with steady gradual growth. This approach helps produce bulls that go to work and stay working. Over and over we have had reports of bulls working well in their breeding season and gaining shape as soon as they are done.

We sincerely thank all of our customers for your continued support and the valuable feedback that helps us refine and improve our program each year. Here's to 2026 — may it bring strong cattle markets, cooperative weather, and another great year in agriculture.

Cheers. Jake & Laura, and Alan

**HOMO POLLED \* HETERO BLACK \* PUREBRED SIMMENTAL**

5088N makes an immediate and lasting impression the moment you step into the bullpen. He is a bull that demands attention and, in our program, checks all the boxes—firmly positioning himself as one of the standout individuals in this offering.

Evaluate 5088N from the ground up and the quality is undeniable. He combines an exceptional level of performance with natural muscle expression, depth of rib, and true herd bull presence. Beyond the power, it is his structural integrity that truly sets him apart. He boasts a large, well-designed foot, excellent joint angles, and a smooth, fluid stride that speaks to longevity and real-world functionality. Add to that his balance, eye appeal, and extended look, and you have a bull that is as attractive as he is practical.

We are particularly impressed with 5088N's added frame and length of body—traits that have become a consistent and reliable hallmark of the No Limits sire group. These cattle are built to cover ground, add pounds, and thrive in progressive, performance-driven programs. For cattlemen focused on growth, efficiency, and profitability, the No Limits sons deserve serious consideration.

Backing 5088N is an elite and proven maternal line. His dam, 1035J, has firmly established herself as one of the cornerstone donors in our program. A \$42,000 high-selling calf herself, she continues to validate her genetic value by producing high-quality, high-demand progeny. Her influence is already felt in leading operations, with sons working for respected breeders including Nate Marin and Reanne Sandford, Steppler Farms, and Clint Robertson.

The consistency of this cow family is further highlighted by recent sale results: a full sister to 5088N commanded \$44,000 to Lewis Farms at Cream of the Crop, while a 7/8 sister out of HFL Rose 3050L and No Limits topped the market at \$70,000 during Friday Night Lights. This is a proven, high-performance lineage that continues to deliver at the highest level.

In 5088N, buyers will find a powerful combination of phenotype, structure, performance, and elite maternal backing—making him a legitimate option for those looking to add impact, consistency, and long-term value to their breeding program.

5028N has been a standout calf from an early age, consistently drawing attention with his natural presence and structural quality. He combines a powerful hip, extended spine length, and an eye-catching blaze face, all while maintaining a smooth, athletic stride across the pen. **Ranking in the top 10% for both Weaning Weight and Yearling Weight**, 5028N is backed by the proven influence of 1035J, offering both performance and predictability. He represents a true multi-purpose sire prospect—capable of producing attractive, functional blaze-faced daughters and heavy-weight, growth-oriented sons that command market premiums.

### HOMO POLLED \* HETERO BLACK \* PUREBRED SIMMENTAL

5077N is a bull that genuinely excites us, combining a bold rib shape, ample muscle expression, and structural integrity, all while standing on a sound foot and leg design. He is backed by the influential 1035J donor cow and offers a pedigree and EPD profile that both support calving ease, further reinforced by his smooth, functional build. What sets him apart is the level of performance, capacity, and dimension he brings while still fitting the calving ease category, along with a unique and progressive pedigree. The added visual appeal of his striking goggle-eyed blaze, paired with a proven, high-quality dam, makes him a valuable option for adding performance and profitability to first- and second-calf females. It is also worth noting that he was raised by one of our higher-performing recipient cows, which may have contributed to his 96 lb birth weight.

5103N - Despite being one of the youngest bulls in the offering, 5103N leads the group for birth-to-weaning gain and yearling weight, showcasing exceptional early growth. He is bold-ribbed, deep-bodied, wide-based, and powerfully muscled with natural stoutness, all while remaining structurally sound and attractive. Performance runs deep on both sides of his pedigree through proven sires including Active Duty, McDavid, Missile, and Captain Morgan, offering a strong spread from birth through weaning. Added maternal strength comes from a standout sister with an exceptional udder, retained genetics, and a Fleetwood bull calf at side. Use 5103N as an outcross performance sire that will paint your calf crop black.

**HOMO POLLED \* HETERO BLACK \* PUREBRED SIMMENTAL**

5016N & 5043N - This impressive pair of 3050L sons represents a cow family we are extremely confident in and one that will continue to gain recognition moving forward. 3050L has already established herself as an elite female, highlighted by a dominant fall campaign included National Heifer Calf Champion, Blackgold Classic Supreme Champion, Reserve Ag Ex All Breeds Jackpot Heifer, and CWA Intermediate Heifer Calf Champion honors. We retained a partial interest while selling half ownership to Maders, and she has been aggressively flushed since. Her first ET calf crop has been exceptional, producing these two powerful herd bull prospects, an outstanding full sister that ranks among the very best females we have ever raised, and a No Limits daughter for Maders who was named CWA Senior Heifer Calf Champion and Junior Beef Extreme Reserve Supreme Champion. That female later commanded \$70,000 through FNL, underscoring the demand and momentum behind this cow family. The influence of 3050L is just beginning. These two bulls are remarkably consistent in design and quality. They are massive hipped, square based, big footed, and offer a great deal of natural power while maintaining balance and structural integrity. Both feature attractive skulls and an exceptional front third, being smooth shouldered for their amount of mass and tying cleanly through the neck and chest floor. They carry themselves with confidence and presence, giving them a bold, eye-appeal-driven look that stands out. These bulls offer an early opportunity to invest in what is shaping up to be a cornerstone lineage.

HORNER CATTLE CO.

DARK HORSE SONS - 2025 YORKTON BULL SHOW CHAMPION PEN OF BULLS

The Dark Horse progeny were our most highly anticipated sire group of 2025, and they have more than lived up to expectations. With exceptionally high standards going into the year, Dark Horse exceeded them in every respect. Dark Horse was our \$44,000 selection from Maxwell's 2024 Bull Sale, chosen for his exceptional foot quality and structural soundness, soft build, heavy hair coat, added frame while maintaining balance and overall completeness, and an outstanding EPD profile. He has proven to be an exceptional breeding bull, with both sons and daughters consistently expressing his trademark softness, stoutness, abundant hair, and superior foot quality, all while keeping birthweights moderate and demonstrating a large spread from birth to weaning. His sons are true replicas of Dark Horse himself, demonstrating early maturity and impressive scrotal development. Following his rookie calf crop, it is clear that Dark Horse aligns perfectly with our breeding philosophy, and he will remain a cornerstone of our program moving forward. We were truly excited to be slapped Supreme Champion at the Yorkton pen show with a trio of Dark Horse sons and truly feel he is a breeding piece for the Simmental breed.

5031N is a Dark Horse son we are exceptionally high on. This bull combines an elite level of softness with an outstanding hair coat, while offering a big top, stout hip, wide base, and the structural integrity to perform for the long haul. A closer evaluation of his front third highlights just how smooth and correct he is in his design, without sacrificing the power and mass he carries throughout.

The quality of 5031N has not gone unnoticed, as evidenced by his selection as the **All Breed Ag Ex Reserve Champion Jackpot Bull**, as well as his inclusion in our **Yorkton Supreme Pen of Bulls**. Backed by an elite pedigree, he is out of **Rose 1016J**, the Canadian National Champion and **Ag Ex Supreme Champion**, providing further assurance that power, performance, and consistency run deep in his genetics.

HORNER CATTLE CO.

# HORNER CATTLE CO.

5008N - One of the stoutest and most complete Dark Horse sons in the offering, this individual demands attention for his exceptional power, muscle expression, and overall mass. He is huge-hipped and bold-loined, with a big, square quarter that carries down deep through the stifle and into the twist, creating a true herd-bull look with undeniable performance credentials. The depth of body, natural width, and volume he exhibits are indicative of a sire prospect built to add pounds and payweight. Look to 5008N to consistently sire heavyweight, high-yielding steers with the kind of shape and capacity that drive premiums and top the market come fall. His combination of power and base width makes him a valuable option for progressive cattlemen focused on profitability and long-term herd improvement.

### HOMO POLLED \* HOMO BLACK \* PUREBRED SIMMENTAL

5020N is a homozygous polled, homozygous black Dark Horse son that has impressed us from the very start. He combines eye appeal with true real-world functionality. This bull offers an extra level of muscle expression, carrying depth and shape down into a well-defined twist, while remaining round made, long bodied, and sound on a big, square foot. He excels in his front third, providing added extension, smoothness, and balance that enhance his overall structural integrity. An additional strength is his outstanding young dam, whom we believe has significant donor potential. In just two years of production, she has already proven herself—first raising a True North daughter that rose to the top of her contemporaries, went on to a successful show career, and sold through the Associate Invitational to Cache Schiller. With proven cow power and performance genetics behind him, 5020N represents a high-quality, forward-moving herd sire with both immediate impact and long-term value.

MATERNAL SIBLING SOLD TO SCHILLER FARMS

HORNER CATTLE CO.

5054N - An elite Homozygous Polled, Homozygous Black son out of the influential Rose 23D female—a cornerstone donor that helped establish the foundation of our program. This bull is an impressive replica of Dark Horse, closely mirroring his sire in phenotype and functionality. He exhibits exceptional rib shape, depth of body, and overall capacity, combined with a soft, correct build, strong foot and bone structure, abundant hair, and an outstandingly docile disposition—hallmarks consistently seen in Dark Horse progeny. This individual represents the type and quality we believe merits serious consideration for progressive seedstock operations.

5154N - The Dark Horse sire group continues to demonstrate an exceptional level of consistency, and this bull is a strong representation of that lineage. He exhibits the desirable structural and phenotypic traits associated with the program—ample rib shape, sound construction, and a soft, well-haired appearance. Out of a productive young Rose cow, he ranks in the top 4% for weaning weight and top 2% for yearling weight. When combined with a moderate 89 lb birth weight, he offers a balanced, practical genetic package well suited for real-world production environments.

5023N - This is another high-quality Dark Horse son, backed by a productive Captain Morgan x Bretta daughter. He offers a well-balanced EPD profile, combining calving ease with solid weaning and yearling growth, making him a versatile option for a wide range of breeding programs.

5014N This bull is difficult to overlook in the bull pen, as he has been impressive from birth and has consistently stood out within his contemporary group. 5014N offers an added measure of **frame and body length**, while remaining exceptionally well balanced and functional in his design. He combines strong rib shape with overall dimension, along with a **large, well-developed scrotal** and evident **early masculinity**. Structurally, he is extremely sound, standing on a **big, well-constructed foot** and traveling with ease and correctness. His completeness and functionality are especially evident when viewed on the move. He is backed by a highly proven **Pulse** daughter purchased from **Mar Mac**, a cow that has produced a high-quality herd bull prospect year after year and ranks among our **top-earning females**. Her consistent production, along with **excellent udder quality and strong, square attachment**, adds significant maternal value to this offering.

### HOMO POLLED \* HETERO BLACK \* PUREBRED SIMMENTAL

5100N ranks among our absolute favourites in the bull pen. He is proud fronted, sharp in his appearance, docile in disposition, and soundly constructed, with added eye appeal provided by his **blaze face**. This is a bull we would confidently retain and utilize within our own breeding program.

Foot quality is a major strength of this individual, and with influential lineage such as **Bretta** and **No Limits** appearing on both sides of the pedigree, that consistency comes as no surprise. He is one of the **widest based bulls** in the pen, offering a soft, big-ribbed, easy-flesing design while maintaining a level top line and smooth shoulder structure. He stands square and true on all four feet and transitions cleanly into an attractive skull that is carried high off his shoulders.

This bull combines phenotype, structure, and pedigree strength in a way that should not go unnoticed. With No Limits no longer available, 5100N represents an excellent opportunity as a **blaze-faced performance sire** capable of filling that role moving forward.

HORNER CATTLE COMPANY RESERVES THE RIGHT TO IN-HERD SEMEN USE.

BRETTA GRAND DAUGHTER

HORNER CATTLE CO.

5019N - Another high-quality son of No Limits & Bretta, who combines exceptional length and style. He ranks among the smoothest and most well-balanced progeny from this mating. Backed by a solid and reliable EPD profile, he places in the top 35% of the breed for Calving Ease and Birth Weight, top 20% for both Weaning and Yearling Weight, and remains within the top 40% for maternal calving ease. He complements this performance profile with an impressive projected 1,340lb yearling weight, offering a growth-oriented calf that excels in both functionality and performance.

5033N - The Bretta × No Limits sons continue to stand out as a powerful and consistent sire group. For producers looking to add performance and punch to their calf crop, this set of sons offers exceptional value. This solid black Bretta son is among the longest-bodied and biggest-hipped bulls in the entire offering. He ranks in the top 1% of the breed for both Weaning Weight and Yearling Weight, posting an actual yearling weight of 1,360 pounds. Mothered by a beast of a recip cow, we do believe a bit of his birthweight is merit to that powerful recip cow who stood at the bunk for most of the winter!

### HOMO POLLED \* HETERO BLACK \* PUREBRED SIMMENTAL

5001M - When evaluating proven calving-ease pedigrees, 5001M stands out with both data and real-world functionality. He was born unassisted at a moderate 86 lb birth weight and is supported by early-gestation and EPDs that strongly indicate calving ease while still maintaining meaningful performance. We are extremely confident in his ability to be utilized on heifers, and we plan to retain semen for use within our own breeding program. His young dam continues to establish herself as an elite, rising female within our herd. She successfully raised 5001M as a first-calf heifer, rebred early, and has since produced an outstanding Fortify heifer calf. She is a cow we value highly for her soft, feminine design and exceptional udder quality, making her an easy standout and a consistent favorite in our cow herd. Beyond his pedigree and numerical data, 5001M excels in real-world performance. He competes alongside mature cow bulls, posting an impressive 1,300 lb yearling weight. He is powerfully muscled, deep-ribbed, and sound on his feet and legs, with appropriate bone density and structural integrity. He maintains a smooth, extended front one-third, complemented by a masculine herd bull head and presence. His fresh pedigree, influenced by Walk This Way and Red Wolf genetics, offers a unique and outcross option compared to many bulls currently available on the market, adding further value and appeal to this young sire.

MCINTOSH LADY - MOTHER OF LOTS 32-34

CN BEEF SUPREME TOP 10 QUALIFIER, RESERVE NATIONAL CHAMPION, AG EX CHAMPION MB FIELD DAY SUPREME CHAMPION AND CSA SHOW FEMALE OF THE YEAR RUNNER UP

We could not be more pleased with the ET progeny produced by McIntosh Lady 50K. We believe Lady to be a once-in-a-lifetime female, one that has exceeded our expectations in every respect. From a phenotypic standpoint, she is as complete as they come. Her udder quality is truly exceptional—regardless of breed, it would be difficult to design one more ideal. She stands on an outstanding foot and combines structural correctness with angularity and strong maternal character. Lady also possesses the length, stretch, and frame that she has consistently passed on to both her sons and daughters. Embryos recently just demanded \$5250 each, the demand for her genetics is strong. These three sons represent exactly what we hoped to achieve from this mating. Each exhibits a dark, blood-red color with a heavy hair coat, exceptional foot quality, smooth construction, and a masculine herd bull presence. They are long-bodied, well balanced, and carry impressive scrotal development. Progressive breeders should take note—these are the kind of bulls capable of advancing a breeding program. You can't help but be totally impressed with the frame score, large foot, stretch and extension 5048N possesses. He is the largest frame of the trio, but still incredibly well balanced, complete and possesses and awesome skull with dark red features and incredibly docile with a large scrotal. A frame score smaller than his big brother; but not moderate by any means 5050N hits you hard right off the bat; round made, heavy muscled, heavy haired, soft made and again an awesome skull and masculine front 1/3rd. We look the look and presence this guy possesses and have no doubt he will make some friends. Again, a super dark red big scrotalled herd sire prospect. Not to be outshone by his other brothers, 5042N is another big framed, stretchy high capacity bull. We couldn't be more impressed with the early maturity and large scrotal on these 3 brothers.

### HOMO POLLED \* NON DILUTER \* PUREBRED SIMMENTAL

5017N - One of the few red Dark Horse sons on offer, this bull offers a highly practical and proven pedigree. He combines strong calving-ease credentials with maternal strength, making him a reliable option for making awesome replacement females. The Heidi cow family has consistently produced some of our most impressive females—deep-bodied, wedge-shaped, structurally sound, and highly fertile, with exceptional udder quality. A Heidi daughter was recently selected by Blackgold for \$26,000 in our fall sale, underscoring the strength of this maternal line. With a balanced EPD profile, documented calving ease, and an 87 lb birth weight, this bull can be used with confidence across a wide range of breeding scenarios.

5009N - This dark red, heavy-haired Mountain View son is backed by a powerful maternal lineage. His dam was acquired as the high-selling female from the Mader's sale several years ago, stemming from a cow family we have admired for an extended period and intentionally pursued. The mating to Mountain View has proven to be a highly successful combination. For programs seeking to add rich dark red color, added extension, and eye appeal, this bull checks all the boxes. We continue to be impressed with Mountain View for his consistency in siring deep, dark red progeny with exceptional hair quality and a functional, correct build. His pedigree is further strengthened by the influence of the Ashworth and Westway programs, both known for producing sound, productive females—adding depth and confidence to the maternal side.

### HOMO POLLED \* NON DILUTER \* PUREBRED SIMMENTAL

5037N Another one of the few red Dark Horse sons in the bull pen, this individual is easily identified by his deep red hair coat, smooth design, and sound, well-balanced structure. He presents a complete and functional package with strong maternal expectations, being out of a quality 433E daughter and backed by the proven maternal strengths that Dark Horse consistently transmits. An added advantage is his solid red genotype making him a versatile and valuable option for programs seeking to add diversity within the red gene pool.

# HORNER CATTLE CO

5062N - An attractive, well-made, moderate-framed Stetson son out of a Bankroll cow. The Stetson sire group - predominantly heifers - has been impressive, demonstrating excellent calving ease, strong early growth, and a high level of balance and structural correctness. Tracing back to Robb's proven 29D donor, this pedigree offers exceptional maternal strength, and we anticipate Stetson daughters and granddaughters to be highly productive, long-lasting females. 5062N is round made, heavy muscled and bold ribbed with an attractive skull and smooth and extended front third. A very usable and well constructed herd sire prospect and with the likes of Stratton and Bankroll appearing in his pedigree paired with an 85lb birthweight, someone could look at him as an appealing calving ease option that won't sacrifice performance.

# HORNER CATTLE CO

5073N - This bull represents a reliable heifer-safe option, backed by proven calving ease genetics on both sides of the pedigree. He offers a moderate, well-balanced Red Baldy package with structural correctness and functional design. Out of a productive young Stratton x 433E daughter, he brings together calving ease, maternal strength, and practical usability. We used his sire 2064K on a number of commercial and purebred heifers and were super impressed with his sleep easy consistent calving ease, and ability to sire calves that weaned off with performance, easy do ability and marketability. We just recently sold a beautiful 2064K to Blackgold this fall for \$26,000.

THE BIRMINGHAM'S  
Tyson, Alisha, Brogan & Burke  
204-724-2004

Welcome to the 2026 edition of the Power and Progress Bull Sale. It's a great time to be in the cattle business and no better time to source out your next herd sire. As a group this will be the strongest set of bulls sold to date, with some new breed leading sires. After downsizing our cow herd in 2023, we kept the top females to produce top end bulls. This year we have two red bulls that we are extremely happy with, also a good black baldy we own with Downhill. If you would like to view the bulls they are together with the Downhill bulls, stop in for a look or come closer to sale day the will be at the Horner sale facility.

## 47 & 48 Full Brothers

### KCH CATTLE CO.

#### THE HINSBURG'S

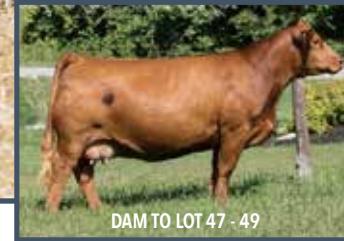

Ken, Kerri, Kendra & Kate  
cell: **431-541-3245**

We would like to welcome you to the newly branded Power & Progress Bull Sale! Wow, has it has been an incredible year for the cattle industry. The fall calf run saw record breaking calf sales, with top end steer calves bringing over \$4000, rewarding producers for their good management and breeding decisions. With big premiums being paid for top end calves; Now, more than ever, is the time to shore up your bull battery with top end bulls that will pay you big dividends when their calves hit the sales ring. This year the entire bull sale offering is stronger than ever, with an elite set of performance bulls as well as calving ease options to help you sleep at night. This year there are only a few angus bulls, but they are all high in quality and will make you money.

2025 has been an incredible year for us. In the summer we were very excited to win Supreme Champion Female

at the Manitoba Simmental Field Day. At Ag Ex and were fortunate enough to win Reserve Grand Champion Charolais Female. This fall Kate was awarded the 2025 Manitoba Junior Angus Show Female of the Year Belt Buckle and more recently we were extremely humbled and gratified to be awarded the Van Daele Award for the 2025 Manitoba Angus Purebred Breeder of the Year.

We would like to personally invite you to come and see the bulls in person, or if you can't make the sale, visit with Ken or Kerri about purchasing a bull sight-unseen. Thank you to all our customers for your support and we look forward to seeing you at the Horner Bull Sale Yard, March 1 & 2

#### HOMO POLLED \* DL FREE \* PUREBRED RED SIMMENTAL

HERD BULL ALERT!!! You can be confident in buying one or even both of these Darlin sons. There is no guesswork here as all the homework is done, these two genetic powerhouses will take your herd to a whole new level. Be sure to take a good, long, hard look at these 2 full brothers, they are both super quiet, long-level hipped, table topped, tanky, heavy haired and big nutted. We truly don't know which one we like better. The Darlin x Betts mating is truly remarkable in every way, they are extremely high quality in their phenotype and genetic attributes. Flush mates to these 2 young herd sires include 2 incredible Donors: Mader Darlin 4H & Erixon Darlin 2.0. They are some of the very best red females you will find in the industry and their genetics are in high demand, just last month Erixon Darlin 2.0 commanded an impressive \$70,000.00 in the Mother Lode Sale. Another very notable full brother is the \$40,000.00, Mader Big Energy 92J, a 2-time National Grand Champion and the 2023 Show Bull of the Year. He is walking right in his father's footsteps by producing powerful sons and highly maternal daughters. These 2 young herd bulls are sure to be powerhouses, and this is your very last chance to place your Betts!

Nashville is Darlin son with a bit more frame, he is big hipped, wide topped, has lots of stretch, soft middled and packed with performance. He is sired by Bond, a Walk this Way son that adds both performance & maternal to an already stacked pedigree. Use him to add pounds to your calf crop and make sure to keep every one of his daughters, you will thank us when they get into production!

### HOMO POLLED \* HETERO BLACK \* PUREBRED SIMMENTAL

A calving ease bull with some punch. Hold the Line has a super quiet disposition, he strong topped, & big-butted son of Walk the Line out of a beautiful Violet daughter. Our Violet cow family is noted for adding calving ease & performance. We really love our Violet daughters for their beautiful look, fertility & their picture-perfect udders.

### HOMO POLLED \* HETERO BLACK \* PUREBRED SIMMENTAL

We really like this soft middled, calving ease, Mandate son out of one of our top Donor females, Mader Violet 49H, we bought her as a bred heifer from our good friends Ryley & Jill Mader for \$92,000.00 for ½ Interest. She is the dam of Folsom Prison and his first calves are very exciting. Deadwood has loads of dimension, is super hairy, big footed, and huge nutted. He is going to leave you with beautiful daughters and powerful sons.

## Angus

Calving Ease Deluxe! Early Access is deep sided bull with a long, level hip, and great set of feet. His dam is a beautifully uddered Density daughter out of the great Coleman Donna 3125. She really knocked it out of the park with her first calf, he had a curve bending 68lb birthweight, an impressive 834 lb weaning weight & a solid 1409 lb yearling weight. He is sired by SAV Early Arrival, a highly maternal calving ease bull with lots of punch.
