WED, MARCH 25, 2026 :: COCHRANE, AB :: 1:30 MST

Offering...

- 136** YEARLING BLACK ANGUS BULLS
- 14** 2 YEAR OLD BLACK ANGUS BULLS
- 30** YEARLING BLACK ANGUS OPEN HEIFERS

Hamilton FARMS

Welcome everyone

*to Hamilton Farms 31st Annual
Bull & Select Female Sale...*

Ranchers, cattlemen, and every business associated with the livestock industry have endured many ups and downs over the years, and now, all the hard work, and resilience, and perseverance that ranchers have endured, is paying dividends that I'm sure not many would have thought possible! It is great to see the renewed enthusiasm in the livestock industry, the excitement, and the magnetic pull of the youth in agriculture to step up and carry this industry forward. It was a common question from very recent days gone by... "who is going to take over the ranch, who wants to calve cows, who is going to do the work?" I think the good times we are experiencing in the cattle industry now will be with us for some time, the rewards will be good, and we will pull more youth back into this great industry.

We believe we have put together the strongest set of bulls ever, with tremendous uniformity and consistency running deep through the pens. Our heifer pen is equally strong, with many of our top cow families represented, allowing us, in a small way, to showcase the strength of our cow herd—the foundation of our program.

Our bulls and heifer calves are developed by their mothers, naturally, on grass and milk, with no creep feed through the summer. After weaning, the bulls are introduced to a high roughage, low energy, TMR ration, that is designed to enhance their growth requirements without compromising their longevity. We think the bulls and heifers are in ideal body condition to go to work for their new owners. Cole Giles and his sister Taylor will once again present a stout group of quality two-year-old bulls from 3G Cattle Ventures which have been retained solely for this sale. No bulls have been sold previously from this group.

Our pursuit of new genetics that will complement our program, and provide our customers with sound and profitable cows, is unrelenting. Sound economical traits like foot quality, level tight udders, moderate birth weights, heavy weaning weights, and balanced epd's round out our selection criteria. Our success is tied to your success, and we continually push to be better. We hope you will like what you see.

We would like to thank everyone who has supported our operation over the past 31 plus years. We really appreciate it and are humbled by the loyalty and friendships we have enjoyed.

Our operation depends on the hard work of many great employees, as well as friends, and neighbors, and we would like to say a special thank you to everyone who has helped us along the way.

Our live auction will take place on Wednesday, March 25, 2026, and we will be hosting our annual open house on Tuesday, March 24th with food and refreshments available all day. Call anytime if you have any questions or need help with your selections. If you can't make it in person on sale day, DLMS will be available to handle your online bidding needs. Please give Rob, Gail, Joel, Sebastien, or Cole a call if you have questions or need suggestions on selections.

Stay safe, Happy Ranching, and we look forward to seeing you!

Rob & Gail, Joel & Taylor

COW/CALF HEALTH & MANAGEMENT

Overview for Hamilton Farms

Dr. Troy Drake, D.V.M.

Dr. Waylon Wise, D.V.M.

ALL BULLS WILL BE SEMEN TESTED

Dr. Waylon Wise &
Dr. Oliver Schunicht
Dr. Alessa Kuczewski

AND READY FOR DELIVERY.

Hamilton Farms have their entire cow herd on an integrated and comprehensive health and production management program. The program is based on the detailed collection of data on each individual animal at all key health and production points. This information is kept in a secure web-enabled database called Herdtrax® and it is continually monitored and audited by the managing veterinarians at Cow/Calf Health and Management Solutions (CCHMS).

The are 5 key components to the health and management program:

- Nutrition
- Animal Care and Welfare
- Disease Prevention
- Breeding Soundness
- Tracking Sale Bull Progeny Performance

Bull and Heifer Nutrition

All pre-weaned calves are raised on mamas milk and lush green grass. No supplemental creep is needed or provided. After weaning they are introduced to a fibrous total mixed ration comprised of chopped hay, silage, barley and an all-natural protein supplement. This diet is more than adequate for maintaining growth and performance and superior for rumen, hoof and reproductive health.

Breeding Soundness Examination

Every bull for sale will have been evaluated for the following criteria:

- Physical Examination
 - Soundness of structure and movement
 - Palpate testis, epididymis and internal sex glands
- Scrotal Circumference
 - Minimum requirements must be met or no further evaluation is performed
- Examination of the penis
 - Verify each bull can protrude and there are no warts or defects on the penis.
- Sperm motility and morphology
 - Verify sufficient gross and individual motility and sperm morphology

Rob, Gail and family continue to raise the bar higher and higher each year, which is hard to believe considering they have one of the premier sales in Canada each year. Mark your calendar, it is an event you don't want to miss.

The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms on a strict mineral program. All the forages are sampled and analyzed to ensure quality forages are used. Once the calves are weaned, they are slowly moved onto a balanced TMR. The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. Matching suitable protein sources with proper starch is key to promoting lean muscle growth. Organic minerals are used to ensure proper immune function and overall health.

If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program. Good luck on sale day.

HF HI-COUNTRY 7L

ELLINGSON HI-RANGE x HF TIBBIE 21J

Hi-Country is a powerhouse, calving ease sire that we are so excited to have in our lineup. He was our lead off bull in 2024 selling to Strongbow, River Valley, and Peak Dot, for \$185,000. Hi-Country checks off all the boxes when searching for the ideal herd bull. He is wide topped, expressively muscled, big scrotaled with ideal shape, perfect feet, and has a mother that is absolutely stunning. All reports of calves born from Hi-Country have been positive. Moderate birth weight, jet black and hairy. You can wear out a lot of tires trying to find a bull of this stature as they are very rare and hard to find. We will use Hi-Country extensively over the next few years and we know he will have a significant impact on the Angus breed in North America. The first 175 doses of semen to sell averaged \$900/straw.

HF PROSTAR 97L

SITZ PROFOUND 680G x HF ROSEBUD 154F

Prostar is another All-Star herd bull raised right here at Hamilton Farms. He was purchased through our 2024 sale by SW Cattle, and Emde Land & Cattle/606 Livestock for \$85,000. We exhibited Prostar at Agribition in 2023, winning Senior Bull Calf Champion, as well as also winning the Angus division of the Presidents Classic. Prostar has developed into a powerful Angus bull, defined by big nuts, tremendous body length, strength of top, and desirable muscle expression. His dam is a very productive cow with lots of foot strength and udder quality. We used Prostar heavily back in our program making up the largest sire group on offer and the results speak for themselves when you tour the pens. His calves are consistently stamped with body length and quickly transform into very shapely and stylish individuals. We expect Prostar to carry us forward in a positive direction and we eagerly anticipate the daughters that we will have in production.

Hi-Range was purchased through the 2022 Ellingson Sale for \$160,000 and he has proven his worth time after time since then. Bulls of that value come with very high expectations, and he has certainly lived up to all our expectations and more. A true calving ease specialist with growth and power to boot! Hi-Range will be a game changer for structure, foot quality and mobility. His outcross pedigree offers mating flexibility for a large cross-section of the breed, and he will excel with low birth, high performance progeny. Hi-Range progeny certainly created quite a stir in our 2024 sale with 23 sons selling for an average price just over \$30,000. We now have Hi-Range females in production, and they really are the right type and kind. They are consistently big middled, moderate sized females with udder quality galore. Hi-Range is just right for the cowboys who demand low input and high yields.

ELLINGSON BADLANDS 0285

ELLINGSON RIDER PRIDE 7282 x EA BELLS GIRL 7617

CAA Reg # 2306418 AAA Reg #19811197

EPD	BW	WW	YW	SC	CED	CEM	MLK	CW	MARB	REA	FAT	CBI
0.0	58	102	1.31	12.0	9.0	25	43	0.36	0.94	-0.022	336	

Badlands is one of the most exciting Angus sires to have come around in many years. His balanced-trait package gives him the correct tools to make a meaningful impact in the commercial cattle industry. His Pathfinder dam has numerous sons being utilized in Angus programs across North America and Badlands' positive impact will be felt for years to come. Badlands' sons are consistent in their kind with more base width, volume, structural correctness, and authentic breed character that is second to none. There have been multiple sale toppers across the US over the last 2 years that are either direct sons or grandsons; a recent highlight was a Badlands grandson selling for \$600,000 in Koupal's B&B Angus Sale. We purchased the Canadian semen rights in partnership with Six Mile Red Angus on LT Flint 4005, a direct son, who sold to Mohnen Angus for \$147,500. The first Badlands daughters to calve are exceptional mothers and they have dropped perfect udders.

CAA Reg # 2282037 AAA Reg # 20654257

HF NORTHERN PRINCE 182K

BUBS SOUTHERN CHARM AA31 x HF ROSEBUD 246Z

Northern Prince was a bull that was on a lot of astute cattlemen's radar after we had him on display at Agribition in 2022. He captured Senior Bull Calf Champion at the show and was destined to be our lead off bull in 2023. A back injury kept him out of the sale that year, which was a huge disappointment for us as well as the people who came to see him. The silver lining in this was that he did eventually return to health, and we couldn't be happier with his resulting calves. The daughters we have in production have dropped picture perfect udders and have shown great maternal ability. Eleven maternal brothers to Northern Prince have sold through our bull sale for an average price of \$21,000. A direct son, HF Marksmen 299M led our 2025 bull sale selling to Hollinger Land & Cattle for \$40,000 and Chad has sent rave reviews of his breeding ability and the resulting calves this winter.

ARDA BIG IRON 563K

BAR-E-L BIG IRON 162G x ARDA BEAUTY 73D

Big Iron 563K is backed by a proven pedigree anchored by the elite donor cow 73D at Arda Farms. A cow family defined by maternal strength, structural integrity, and lasting productivity. 563K stamps his progeny with consistency and substance; hairy, stout made calves that are solid on their feet with performance built in. We purchased Big Iron from Arda Farms in their 2024 spring sale. Nine Flush brothers sold through Arda's sale and the consistency and power of the crop was very impressive giving us confidence in his breeding ability.

GOLDEN OAK PREACHER 333L

MERIT INVESTMENT 1054J x GOLDEN OAK MAGNOLIA ET 2D

Preacher 333L sold through Golden Oaks 2023 Cattle in The Snow Sale to Westway Farms for \$70,000 1/2 interest. We saw tremendous potential in the bull and were fortunate enough to purchase a limited semen pack. Preacher is a bull with a big hip, loads of middle and mass, moves out freely, and stands on good feet. He goes back to Tom's famous donor cow Magnolia 2D who has a long list of proven production. His calves have stirred up a lot of attention last fall with 13 sons selling for an average of \$24,000 and Preachers full sister Magnolia 429M selling to River Valley for \$155,000. We are super pleased with the sons and daughters on offer and think they will add value to any program!

HF REVERENCE 23K

SITZ PROFOUND 680G x HF ECHO 92Z

Reverence was the very popular lead off bull in our 2023 sale which sold to Bar E L Angus, and Cowtrax Cattle Co for \$80,000. Reverence's first calves here at Hamilton Farms are very impressive plus he did an equally impressive job leaving top end calves at Murray Ranches and Cowtrax Cattle. Reverence is sired by Sitz Profound 680G who is leaving us with outstanding replacement females, which are phenotypically pleasing to the eye, very nice uddered, and structurally correct. His dam is one of our most highly regarded females descending from the famous Echo Cow family. We will continue to use Reverence in our program as he truly sires the right kind.

GREENWOOD FOUR MILE 47J

U-2 COALITION 206C x RRD TIBBIE 28Z

Four Mile 47J, a proven breeding piece that has been used extensively in both Greenwood and Ter-Ron herds with tremendous success, siring highly desirable progeny that have topped sales and left lasting impacts in numerous herds. Four Mile was the 2023 Canadian Western Agribition Champion Bull. Recently, a Four Mile son that was purchased by Murray Ranches, Ter-Ron Eldorado 185L was slapped the Grand Champion Angus Bull as well as the Supreme Champion Bull at Farmfair International 2025. Four Mile's dam, Tibbie 28Z, is one of the great cows of the breed with a long list of high sellers stemming from Greenwood's program.

POSS RELEVANCE 1915

WOODHILL RELEVANCE x POSS PRIDE 5163 OSF

Relevance is an outcross sire which we added to our program to enhance maternal strength, foot quality, and thickness, while offering our long-time customers a completely new pedigree to choose from. He is super long bodied with an enormous top and rear quarter, moves like a cat, and stands on an ideal foot structure. Relevance is an impressively wide-bodied bull who also adds significant carcass values and stems from the highly valued Pride cow family at Poss Angus. We are super happy with the first calf crop by Relevance and will watch with great anticipation for his daughters to enter production.

Hi-Tide is a freight train in terms of power, length, and mass. He has always been at the top of the growth and weight charts when coming through the chute and has maintained his structural soundness making this calf an ideal breeding piece. With an adjusted WW of 855lbs and YW of 1519lbs, Hi-Tide is sure to add desirable growth and performance. He has been a favorite to many through summer and fall tours and earned himself a spot in our Agribition string that went to Regina. His 10-year-old dam, HF Evening Tinge 184D, is a nice hard working Status daughter with a level tight udder and always calves at the front half of calving season proving her fertility year after year. His EPD spread is near the top breed leaders in almost all traits adding to his breeding potential!

Two falls ago we had an opportunity to purchase a semen package on Golden Oak Preacher after he sold to Westway Farms and we are very pleased with the calf crop. They have tons of hip and rib; they are soggy with great hair and have ideal breed character. 22N has been one of our favorite Preacher calves and since weaning seems to have found another gear. His EPD profile is well balanced and adds favorable growth on weaning and yearling weights. Two maternal brothers sold for \$12,000 to Horner Ranches and \$14,000 to East & West Ranching

Pounds have never been more profitable in our industry and this stout Prostar son is sure to sire calves that will pack them on. Prograde posted an adj WW of 864lbs and adj YW of 1522lbs. This is no surprise when you follow the pedigree behind him, his sire HF Prostar 97L was one of the heaviest weaning and yearling weight bulls in the bull pen and his maternal granddam, HF Tibbie 77Z ratioed 12/108 at weaning over all calves born. His structural soundness and ability to move haven't taken a back seat and he is sure to cover cows with ease.

Dam, HF Tibbie 86H

This guy is an absolute unit. Some people think you can't have high performance cattle using angus bulls...Margin Call would rival that theory, and he can do it with a 79lb birth weight. Bulls with this much mass are rarely accused of being super athletic but 24N will impress you on the move. With combining calving ease, tremendous growth, and maternal superiority this stud is hard to pass up. His dam, HF Tibbie 76H is a very nice Showman daughter with a great udder and sound foot. This isn't the first time his mother has rung the bell, HF Marksmen 299M lead off the bull sale offering in 2025, selling to Hollinger Land & Cattle for \$40,000. Her first calf sold to East & West Ranching for \$12,500 and a maternal sister sold to Stormy River Ranch for \$10,000.

This Badlands son is easy to love, he's soggy and deep, loaded with shape and structurally square, he's attractive in his design and possess great Angus character. His Hi-Range mother has done a whale of a job on her first calf with a ADJ WW of 835lbs. The maternal power in his pedigree is second to none. The combination of the Tibbie, Emblynette, and Bells Girl cow families is a major upside for this young stud. The udder quality on the Hi-Range and Badlands daughters is superb. His dam, HF Tibbie 150L, is a beautiful young cow that is hard to fault and only just scratching the surface in terms of production.

When we think of this bull, the word balance comes to mind, he is not an outlier of any one trait but does many things really well. He is clean through his front quarter, with loads of shape and mass through his rib and into his hind end. He's attractive in his design and catches your eye in the pen every time. His dam, HF Rosebud 195D, is a tanky Status daughter with a nice udder and good foot. Her two daughters remain in herd and are top end producers. A maternal brother HF Tony 102K, sold to Allendale Angus and Everblack Angus for \$24,000 and another son sold to 3G Cattle for \$11,000.

Here is one of 6 flush brothers that are all peas in pod! When you analyze these brothers you'll find the common theme of calving ease, commendable growth, maternal longevity, and structural soundness. Any one of these brothers would be a heifer's dream come calving time without sacrificing pounds at sale time. His dam, HF Evening Tinge 118Z, does not miss. This Tiger daughter had 3 sons roll through the ring in the 2025 sale that averaged \$21,000, 3 sons in the 2024 sale averaging \$16,000, 5 sons in the 2023 sale averaged \$30,000 between them. She also had 2 daughters from the same flush that averaged \$25,000 and one daughter that will remain in herd with high expectation of following in her mother's footsteps. Flush Brothers 15N, 20N, 27N, 32N, 40N, 42N

Anvil is built right from the floor up, full of muscle, and stylish in his design. This stout bugger has ideal testicle development and has that herd bull presence that makes him a true feature. His donor dam, HF Tibbie 205F, has solidified herself as a staple female for us and for good reason, unfortunately her being deceased makes this the last flush group we will have. She has impeccable feet and ideal udder along with tons of mass, middle, and style. A maternal sister, HF Tibbie 224J, was sold as a calf only to be bought back in partnership with Golden Oak Livestock, and most recently sold in Tom's Cattle in the Snow Sale for \$130,000 for 1/2 interest. Another maternal sister sold in the 2025 sale for \$47,500 to Bar-E-L Angus + Cow-Trax. The last 12 progeny to sell have averaged \$21,000. Flush Brothers 46N, 53N, 56N, 60N

Phenotypically this bull is hard to poke holes in, he is just made right with clean lines and tremendous Angus character. He provides slight moderation in mature height but will pack some thickness into his calves and provide true calving ease. Watch your heifers calve easy and then breed back on first cycle, and you will want to keep every female sired by Altitude. His dam is a beautiful young cow that has perfect feet and an ideal udder with great spread and small teats. This young Alcatraz daughter has only scratched the surface in her production career, but she is sure to add maternal longevity and profitability to the equation. Her first calf sold through last year's sale to VanLen Angus for \$11,000.

Dam, HF Echo 42H

Maternal Brother, HF Hi-Point 129M, Sold to HBH Angus \$25,000

This Hi-Country son has a lot of good to him, he's long spined, loaded with muscle, big butt end and big nutted. This guy is quite impressive on paper, his EPD profile ranks him in the top 5 % in multiple categories, Weaning, Yearling, Scrotal, Ribeye, Calving Ease, and Mature Weight. With moderate birth and high-end performance this bull will add that extra punch to calves in terms of power. He posted an adj WW of 864lbs and YW of 1535lbs. His mother is a big bodied Showman daughter that raised a very similar bull calf last year that sold to HBH Angus for \$25,000.

"There will always be a reason why you meet people. Either you need them to change your life or you're the one that will change theirs."

Bulls like Franchise are what programs should be built on; he is one of the most impressive calves to roll through our sale and is sure to be one of the headliners. We love everything about this guy, phenotypically checks the boxes, super strong EPD spread, can be used on heifers or cows, a pedigree that doesn't miss, some of the most proficient mothers on both sides, structure and longevity built in. Have a look at his flush brothers and you'll see the consistency of this mating. His donor dam, HF Tibbie 205F, has solidified herself as a staple female for us and for good reason, unfortunately her being deceased makes this the last flush group we will have. She has impeccable feet and ideal udder along with tons of mass, middle, and style. A maternal sister, HF Tibbie 224J, was sold as a calf only to be bought back in partnership with Golden Oak Livestock, and most recently sold in Tom's Cattle in the Snow Sale for \$130,000 for 1/2 interest. Another maternal sister sold in the 2025 sale for \$47,500 to Bar-E-L Angus + Cow-Trax. The last 12 progeny to sell have averaged \$21,000. Flush Brothers 46N, 53N, 56N, 60N

This bull is a wagon. Ignite has been loved by many for his shear mass and volume. With a moderate birth weight of 77lbs and a EPD of -1.8 BW, he is safe to throw on heifers or cows and then let his genetic makeup do the work adding pounds after. His adj WW was 836lbs and his YW 1555lbs making him one of the top 5 heaviest bulls on the ranch. He has great carcass scores without phenotypically looking like he has great carcass scores, if you know what I mean. Ignite still has plenty of shape and muscle expression and structure that wasn't sacrificed.

"Innocent people are not fools; they just think everyone has a heart like them."

Sire of Dam, Daltons Trailblazer

Brother to Dam, HF Profound 86M, Sold to Chris Israelson \$15,000

This stout bugger comes to you out of first calf heifer that did a bang-up job on her first time around. 68N is solid in his foot and leg structure, hairy, wide topped, and clean through the front. He is a heifer's dream come calving time and will sire calves that convert and grade on the rail. Give this guy a good look!

Dam, HF Tibbie 21J

Maternal Sister, HF Tibbie 256M, Sold to Stewart Cattle Co \$54,000

In our minds, this could be one of the most sought-after bulls to sell this spring and is sure to be a headliner come March 25th. The Prostar calf crop has blown us away even more than we had expected and 82N is one that leads the charge! When you combine all the best attributes of Prostar and mate them to Hi-Country's mother, HF Tibbie 21J, the results speak for themselves. He's thick and muscular, rugged yet stylish, solid on his feet and athletic, there isn't much we would change, if anything, on this young herd bull. His EPD spread is very attractive with ideal birth stats and impressive growth, great scrotal, and the list goes on. The foot quality on the Prostar and Hi-Country calves is some of the best we've seen across the board, and we are super proud of that, 82N fits the bill. Then to top it off the maternal power and quality in this pedigree is second to none. We think very highly of this calf and with some research we think you will too! A maternal sister, HF Tibbie 256N, sold through the Angus Collection Sale this fall for \$54,000 to Stewart Cattle Co.

The streak is still alive, 18 consecutive years breeding to Tiger. Unfortunately, we don't have unlimited semen inventory, but we still are flushing our best cows to Tiger. His donor mother, HF Tibbie 21J, is a beautiful young cow with a foot and udder combination to die for. She is the dam of our high selling bull HF Hi-Country 7L selling for \$185,000. These genetics are as proven as it gets, and they work. They may not suit today's show ring enough to win a banner, but the Tiger females are the best herd bull producing cows we have ever seen. If you want solid, functional cattle that work in all areas of the country, Synergy is your bull. And you'll want to keep every female!!

Canyon is wide based with loads of shape and muscle mass, he is wide over his top and up through his crest with a nice angus skull. He moves out freely and has ideal testicle development. Over the last couple years many sale toppers across the US have been directly sired by Badlands and now grandsons are flying off the shelf. Canyon can be used on heifers with true calving ease and will also provide commendable growth and performance. He is out of a first calf heifer, and she did a tremendous job on her production debut. His donor granddam, HF Miss Erica 141Z excels in functionality, longevity, foot and udder quality, and true calving ease.

Dam, HF Rosebud 259C

Here is a calf we are very excited about. Clutch looks good through the lens, but he is best to see in person so you can truly appreciate his shape and thickness right from his tail head to his poll. He is packed full of muscle, athletic, has ideal testicle development, and has that herd bull presence that makes him hard to miss in the pen. He is attractive on paper and back by a nice big bodied Rosebud cow with a strong foot and level udder. Maternal brothers, HF Cloud-9 67E, sold to Poplar Meadows for \$32,500, HF Cabaret 257H sold to Tafika Angus for \$16,000, and multiple others selling to high end commercial cattlemen.

"Money doesn't change people; it exposes who they really are."

Here is another calving ease feature bull brought to you by Badlands. These badlands sons are peas in a pod in terms of phenotype, proud head carriage, and clean front ends. They are jet black and hairy with the type of style and design that catches your eye every time! They are solid footed and stem back to some powerful and proven cow families on the top and bottom side. Badlands will be used in herd for years to come.

If you like them wide over the top with a big butt and tons of middle and rib, have a look at this Reverence son. He is about as stout and solid as you can make them. His dam, HF Annie K 17K, sold through our 2023 sale to Grand River Angus for \$17,500 and she is on track to becoming a prolific long-time producer. Her first calf, HF Hi-Range 122M sold to Abraham Land & Cattle for \$19,000 and has followed it up with this tank of a Reverence son. He can be used on heifers or cows.

HF Promotion 106N will be hard to miss when touring the pens. The depth of body, thickness, and shear power will be the first thing you notice. He packs all that volume into a stylish and flawless design that makes him an easy feature of the group. He is backed by a very nice Rosebud cow that has recently been added to our donor program after years of top-level production. If you're in need of a bull that will help improve udder and foot quality, that will sire heavy and rugged bulls and will fill the replacement pen with daughters you refuse to sell, Promotion is your guy. On paper he doesn't disappoint and his EPD spread adds value to his marketability. A maternal sister sold to Steven Knutson for \$37,000 in the All-Star Angus Sale at Agribition. A maternal brother sold in the 2025 sale to Dwajo Angus for \$35,000 and another sold to Devon Hogg for \$14,000.

Another Prostar son that checks all the boxes when looking for your next big time herd bull! He combines flawless phenotype, calving ease, performance, EPD's, and maternal all into one. This guy is impressive from all angles and really excels when you see his width and power from behind. He is wide over the shoulders and carries exceptional muscle up through his front quarter and into his crest. With an adj WW of 817lbs and adj YW of 1549lbs, Nautique will add that extra punch to your calves. He is structurally sound and good footed. His mother is a very nice young cow with a level tight udder and we think she is just scratching the surface of her potential.

Sire, Ellingson Hi-Range

This feature Hi-Range son embodies all the best qualities that his sire has done in our program when it comes to structure, calving ease, growth, and functional traits that translate into working cattle. With a 65lb birth weight, 799lb adj WW, and 1409lb adj YW you can turn him in with heifers and watch these calves perform in any environment! 123N is very impressive on paper ranking in the top 5% of the breed in multiple traits for calving ease, growth, foot quality, ribeye, and milk. If you have the chance to view our Hi-Range daughters in production, you will notice that they are built for the long haul with great feet and udder quality.

"We often suffer more in imagination than in reality."

These Badlands bulls are just built right, structurally sound, loads of angus character, clean fronted, proud head carriage, nice testicle maturity, tons of shape, and hairy. It is tough to fault this sire group, and they are sure to go on and sire the type of cattle that you are proud to show people on tours. The daughters we have with calves on the ground have dropped beautiful udders and are proving to have awesome mothering instincts. If those qualities matter to you then have a good look at 124N.

HF Prohibition 147N has been a long-standing favorite in the entire sale offering. He is a calf that easily catches your eye in the pen with his added muscle expression, long spine, width and depth of body, and herd bull look. The Prostar sire group will be one of the strongest sire groups we have raised to date and 147N is one that rises to the top of the pack. Prohibition provides moderate birth, with explosive growth posting an adj WW of 837lbs and adj YW of 1535lbs. As one of the heaviest calves in the pen you'll notice he moves out and travels effortlessly. His mother is a beautiful young cow that we purchased from Covey Hill in their 2022 sale for \$15,000 and she embodies everything we look for in a high-end mother cow. A maternal brother, HF Sentinel 238M, sold through last years sale to Semex for \$20,000.

HF Hi-Stakes 59L sold through our 2024 sale to Circle 7 Ranch for \$55,000 and this son is no fluke with how deep the quality runs in this pedigree. A calving ease specialist with tremendous growth data to back him up. With a BW EPD of 0.6, adj WW of 868lbs indexing 113, and adj YW of 1573lbs indexing 126 he is sure to pack on the pounds to his calves come weaning! He stands square and true with good feet and floats around the pen with ease.

"If he works nonstop, it's because rest feels undeserved."

One of the heaviest bulls in the entire offering, this Hi-Range son is packed full of red meat! If you like cattle that mass and added performance, 173N is one that needs some attention. He scored an adj WW of 904lbs indexing 116, and 1602lb adj YW indexing 105. He is one of the longest bulls in the pen and provides tons of muscle shape and volume. He is tight in his sheath, clean through his front end, and has ideal testicle maturation. This guy will be hard to miss and admired by many!

Just a note about our feeding program!

The entire bull offering has been developed on a high roughage Total Mixed Ration which has been formulated to maximize nutrition without adding excessive weight gain.

Our target for gain on our bulls is approximately 3 pounds/day and we like to see the bulls with moderate flesh, athletic, and ready to go to work for their new owners. We know it is very difficult to properly appraise cattle with excessive body condition and we feel it is very beneficial to you, the buyer, to view the cattle when they are fresh and with visual muscle definition.

We understand, and pay attention to the fact, that we are in a performance driven business and we strive to source genetics which will help add pounds to your calves, and leave you with desirable replacement females.

This guy might have the most shape and biggest butt end in the sale group. You need to see him in person to appreciate the herd bull potential that Cast Iron has. He is a bit different in his type and kind, but we say that as a great compliment because he is a hell of a calf! Cast Iron is long spined, deep bodied, heavy boned, and if you couldn't tell...super hairy! The Arda Big Iron bull has done a tremendous job breeding for us, and his calves all have the same look. Cast Iron's mother is a very nice Syndicate daughter backed by the incredible Evening Tinge cow family. If you want a group of females that are feminine, powerful, great uttered, and hard working then have a look at this breeding piece.

This stout fella will be a versatile breeder with the ability to cover heifers and add pounds with tremendous growth. He was born at 78lbs, weaned with an adj WW of 863lbs indexing 113, and pushed the scale with an adj YW of 1513lbs indexing 116! Northern Prince 193N is a prime example of what to expect from this sire group...phenotypically attractive, long, clean fronted, yet rugged with added mass and volume. The Northern Prince females are to die for and the breds we have calving are proving our suspicions. They are great mothers with beautiful tight udders, ideal teat spread and length, strong footed, and ultra feminine. 193N is sure to provide you with heavy, attractive bulls that are strong on their feet and long lasting, while filling your replacement pen with top end females.

This thick and hairy individual is 1 of 3 flush brothers that are all good! You'll have to split the hairs and pick which one is your favorite because their qualities are uncanny. These brothers all provide moderate calving with tremendous growth, structural integrity, and a pedigree packed full of maternal superiority. The Rosebuds are arguably one of the most influential cow families in our opinion and when you notice the mothers, grandmothers, and great grandmothers in this pedigree, the chances for genetic variation are slim and the quality runs deep. His dam and granddams on both top and bottom reside in our donor program and if you want this quality of replacement females, 203N can help with that! Flush Brothers 194N, 203N, 214N Flush Sister 149N

Dam, HF Tibbie 278J

Maternal Brother, HF Rangefinder 39L, Sold to Grand River Angus \$60,000

It is hard to not sound so repetitive when writing about these Hi-Range sons but that speaks to the consistency and quality of this sire group year after year. The Hi-Range x Showman daughters mating has resulted in numerous herd bulls going to top programs across Canada and the US. A full brother, HF Rangefinder 39L, sold to Grand River Angus in our 2024 sale for \$60,000. We flushed his dam, HF Tibbie 278J, back to Hi-Range in hopes of adding top end replacement females to the herd and the full sisters we have did not disappoint! Flush Brothers 206N, 211N Flush Sister 198N

Maternal Brother, HF Hi-Country 7L, pictured with 21J

This Prostar son, HF Provision 227N is the natural calf by HF Tibbie 21J, who is the mother of our 2024 high selling bull, HF Hi-Country 7L, selling for \$185,000. He is dense made, stylish in his design, and effortlessly mobile. He will check many of the boxes for breeders. He is heifer approved with a BW EPD of 0.2 and actual BW of 83lbs, and he is no slouch in the growth department, posting a ADJ WW of 821lbs, and a ADJ YW of 1452lbs. His EPD profile is second to none and he is backed by maybe the most potent donor cow in HF history. Tibbie 21J is the type of donor cow that you can flush to any bull, and the calves will be at the top of the pen every time. She is phenotypically flawless, perfect footed, and packs a gorgeous and tidy udder. A maternal sister, HF Tibbie 256N, sold through the Angus Collection Sale this fall for \$54,000 to Stewart Cattle Co.

Dam, HF Mistress 78K

Maternal Grandsire, Ellingson Three Rivers

The consistency and quality in the Hi-Country sire group gives us great pride in the bulls we have to offer both purebred breeders and commercial producers. The Hi-Country calves will add calving ease, tremendous angus character, big scrotal, power, length, foot quality, and maternal traits to your program. Hi-Country 245N is prime example of this. He is a 'sleep at night' calving ease specialist with commendable power and muscle design that makes him profile nicely and breed the type of cattle that are profitable and long lasting. His mother, HF Mistress 78K is a beautifully made young cow that puts it all together.

Another Prostar stamped son with tons of middle, substance, and rib shape. He is wide from behind and through his top carrying loads of muscle and ruggedness. Propeller 248N is sure to sire heavy weaning calves with tons of angus character, mass, and stylish design. He weaned off with an ADJ WW of 816lbs and posted an ADJ YW of 1507lbs. A maternal sister sold through the 2024 sale to Hilltop Hay & Livestock for \$34,000.

"People don't resist change; they resist being changed."

Dam, Erica 74A

Power Zone 249N is built right from the ground up and it doesn't stop there. Not only does he profile nicely but you'll love him from every angle and when you see him on the move. He is clean through his front end and with a perfect angus skull, strong on his feet and hairy. When you study the pedigree, you will notice maybe the most famous cow ever to be born on Canadian soil. Erica 74A has now solidified herself as an elite cow worldwide. In the last year 21 embryos have averaged \$5,500/embryo with a high of \$6,750. The last flush on 74A sold in the Falls View Sale bringing \$84,000. If you're looking to add a direct son to your program that will combine the maternal strength of 74A and the pure power and mass of HF Prostar 97L, look no further. Flush brothers 249N, 271N, 273N, 282N, 283N. Flush sisters 257N, 287N

254N will impress you for several reasons and is a standout in the pen. He is tough to fault phenotypically, and on paper. He stands square and travels effortlessly, he has tons of shape and is wide from front to back. He is clean through his front and has very proud head carriage. His dam, HF Tibbie 15K, is a very nice young cow with good feet and a level udder. She rang the bell with her first calf, HF Hi-Range 66M, selling to Forbes Ranching for \$37,500 and followed it up with another calving ease specialist in 254N. He is sure to fill the replacement pen with gorgeous daughters with top end maternal qualities.

"Your life is as good as your mindset."

This Hi-Country son will surely turn some heads. He is wide based, stout, smooth in his design, and moves like a cat. He has nice scrotal maturation, stands proud and possess that herd bull look. He indexed 102 at weaning and 122 at yearling weigh in. His EPD spread is very impressive from top to bottom which adds to Global's breeding potential. When you study the pedigree, you will notice maybe the most famous cow ever to be born on Canadian soil. Erica 74A has now solidified herself as an elite cow worldwide. In the last year 21 embryos have averaged \$5,500/embryo with a high of \$6,750. The last flush on 74A sold in the Falls View Sale bringing \$84,000. A flush sister will remain in herd and might be one of the most impressive young females we have raised. Flush Brothers 270N, 276N, 288N

Dam, Erica 74A

This is another exciting young Erica 74A mating by Prostar. Note the age on these 74A flush calves and that will only make them even more impressive. 271N is very similar to his flush mates in type and kind and without sounding too repetitive you can refer to the footnotes of lot 249N. Flush brothers 249N, 271N, 273N, 282N, 283N. Flush sisters 257N, 287N

Thank You

to Core Ag Inputs for
 co-sponsoring our sale
 hospitality.
 It is greatly appreciated!

Cole Giles
403-862-1395

Taylor Giles
403-703-3026

Cole Giles and his sister Taylor from 3G Cattle Ventures have been consigning a group of extra age bulls for this sale since 2017. These April and May born bulls have never been offered for sale prior, and they certainly are raised and developed to go out and service a larger group of cows compared to yearling bulls. These 2-year-olds have been targeted for sale as aged bulls and have been raised strictly on a high forage-based ration through their first winter and then pastured until they were 19 months old. From November 1, 2025, they were introduced to a high roughage TMR and developed slowly up until sale time. Cole and Taylor's breeding program very much compliments this sale as their cows combine some of the best genetics that we use here at Hamilton Farms.

The Giles operation is primarily focused on their 500 head of commercial Angus cows and the purebred cows in their operation are managed in the much the same manner. This is a no-nonsense operation supplying you with no nonsense bulls with extra age.

We very much appreciate the Giles family for offering these bulls in our sale and we would like to take this time to thank Cole for all the work he does for Hamilton Farms throughout the year. If we have cattle to prepare for sales or shows, or pictures to take, or help with delivering bulls, Cole takes care of it for us and does such a good job. The whole Giles family are good friends and great neighbors, and we look forward to many more years of working together.

All bulls are either Parent Verified or Sire Verified

Everelda 6N comes to us from the well-known, no-nonsense Pine Coulee herd from the Ladies of the Beartooth Sale. When you begin with a lovely headed female like Everelda 6N, you know that the quality will follow through. The expansive rib capacity and muscle shape should lend well to raising easy fleshing cattle that can adapt to real world conditions. ProStar has set the bar at a particularly challenging level, with the unparalleled consistency of his progeny on both sides of the coin. As you study the catalog and the bulls and females in the pens you will be pleased with the stamp he has put on them.

Rosebud 8N is a female that will impress you both in the raw and on paper. Her maternal sister blew the doors off the barn last year leading off the female Sale at \$60,000 with friends in every part of the country. Rosebud 8N has a pedigree that talks loudly as a dominant force both top & bottom. HF Hi-Country has certainly become an industry influencer with not only a remarkable EPD evaluation, but phenotypically as sound and appealing as one could strive for. The dam of 8N, Rosebud 231K has moved on to the donor pen as we are extremely confident in her abilities to be a legacy builder for us and other breeders in the industry. The Rosebud cow family have been and continue to be pillars in the herd. The maternal meter definitely runs high here, as her dam, granddam and great granddam are all notable legacy builders with progeny that just flat-out work.

Dam, HF Rosebud 231K

Maternal Sister, HF Rosebud 5M, Sold to Grand River Angus \$60,000

Pine Coulee Pride Lady K51 was one of two full siblings acquired from Pine Coulee Ranch in 2022. A total outcross pedigree with a load of elite genetics infused with Baldrige Isabel Y69, Hoover No Doubt, HA Image Maker and the Stevenson Pride Lady cow family blended into the mix. Greenwood Four Mile, a proven breeding piece that has been used extensively in both Greenwood and Ter-Ron herds with tremendous success, siring highly desirable progeny that have topped sales and left lasting impacts in numerous herds. Included in Four Mile's tally of winnings is siring the Supreme Champion Bull at Farmfair International 2025, Ter-Ron Eldorado 185L. Pride Lady will be easy to find in the pen, she is attractive, well balanced, and extremely hairy with a very appealing pedigree.

Blackcap 89N is the only Badlands sired female in the sale offering. Badlands is one of the most exciting sires to have come around in many years. He is admired for his sound structural design, and his breed character is eye capturing. He is an outlier for combined maternal performance and excellence, and his Koupal Advance pathfinder dam has solidified her position as one of the top females in the breed and as a dam of many herd sires. Blackcap 220L is a grand daughter of Blackcap 296Y, the Tiger daughter that has more high dollar progeny produced than I have room or time to mention. The repeatability in the cow family is amazing. Take note of this female's numbers as wellpretty impressive!

Erica 102N is part of the famous Erica cow family which has been a household maternal strength at HF for generations and has become a household name in the Angus Breed with her progeny excelling in the show ring, the sale ring, and pastures across the world. The Erica story is just in its infancy, and it is only going to expand into greater markets. Here is an opportunity to jump in and join the ride. Maternal siblings to Erica 102N have sold in past sales to KT Ranch, East and West Ranching, Kunz Farms, Chase Pincott and Spence Cattle Co averaging \$16,000. This Erica 102N female will certainly increase the maternal integrity and structure, producing elite females and yet not compromising muscle shape and overall performance. Take a peek at Erica's EPD profile as it is very well balanced and noteworthy.

Lucy 113N is phenotypically hard to fault, she has an extremely pleasing head and front end and beautifully proportioned middle third and nice muscle shape to finish off this very complete package. The consistency of Hi-Country is what you find in this female. She has great foot structure, volume, shape, and hairy. The mother behind Hi-Country has phenomenal maternal traits with an impeccable udder, body mass, and foot quality. A maternal brother sold to Rancho Ducharme in Quebec for \$34,000, a good start for a two-year old's first calf. Lucy 113N completes all the boxes. She blends very pleasing numbers with exceptional body capacity and softness and maternal elegance to stand at the front of the pack. Possibly a junior project in the making?

Yet another example of the consistent quality produced from the blending of the ProStar (Sitz Profound) with the Showman lines. There are five different donors in Rosebud 149N's first generations of the pedigree. Rosebud 149N has three flush brothers on offer as well, 194N, 203N and 214N, two of which are up in pen one with the "big dogs". There are a number of potent breeding pieces in this pedigree, stacked full of maternal power and exceptional body capacity. The structural integrity, body mass and udder quality are worth making note of on all the females in this pedigree. Expect nothing less than the best!

There is not much you will not like about this female, and I am confident you will come out of the pen with her tag number engraved into your thoughts. Mistress 202E's dam and grand dam are Elite females in the Canadian Angus Association, and without a doubt the cow family are very accomplished females in the history of our program. There is a remarkable maternal elegance and femininity portrayed by this female to become a big-time producer. With the highly touted Hi-Country on the top of the pedigree, this female will have a head start at the marketability of her progeny. Hi-Country's dam possesses phenomenal maternal traits with an impeccable udder.

Thank You.. _____

Dam, HF Tibbie 278J

Maternal Brother, HF Rangefinder 39L, Sold to Grand River Angus \$60,000

Here we go with the Hi-Range x Showman combination that has worked like a fine-tuned engine over the past couple of years. Tibbie 278J's first calf was a Hi-Range bull that sold to Grand River Angus for \$60,000. We decided to flush her the same way the following season and we ended up with two Sale bulls (206N and 211N) and Tibbie 198N. Tibbie 278J rang the bell as a two-year old weaning off Rangefinder 39L posting an 819 WW and 1483 YW sired by Hi-Range, a calving ease bull. Tibbie 278J has become one of our favorite young females that can perform with the best of them and is as fault free as one could wish for. The apple does not fall far from the tree, and we have great aspirations for this young female. Unfortunately, her recip dam did not finish the summer with her, so she suffered some set back, but has certainly come along since then. Flush brothers: 206N, 211N

When you analyze this female phenotypically, how would you change her? She has a lovely front end that flows softly into a soggy middle third with very appealing muscle expression. Pride 22H is your typical Alcatraz daughter, very docile, great feet and udder and the type of breeding female that just gets it all done. Her first two bull calves sold to commercial breeders for \$17,000 and \$8,000. Low birth, weaning index of 108 and 100 and then Yrlg index of 103 and 116. We would describe ProStar as having a tremendous amount of natural power, massively ribbed, big topped, big butted and super sound with a great mother. This only adds to what has already been expressed on the maternal side of the pedigree.

When we purchased Big Iron in the ARDA Angus Bull Sale, there were in fact nine full siblings to select from, displaying true herd sire phenotype and power. The dam of Big Iron is a promising and fault free female with an impeccable udder, and a second-generation donor cow. Our first crop of Big Iron progeny is truly stamped with lots of muscle shape, eye appeal and very hairy. The Expansion females have certainly produced cattle with shape, balance, and long-term breeding value.

Dam, HF Miss Blackcap 235J

Maternal Sister, HF Miss Blackcap 168L, Sold to Grand River Angus \$22,000

Miss Blackcap 224N is a "Feature" and a poster-girl as many of the Miss Blackcap females would rank. Her Showman dam 235J like so many of them are elite female builders, displaying depth of body and rib capacity, attractive "Angus" head and front end with great udder development and attachment. This is a true functioning maternal machine. It is hard to put into words what this cow family has done over the years to increase the value and quality in our herd. The Miss Blackcap 27R cow has more in her repertoire than I have time to write or you have time to read! The consistency speaks for itself and Miss Blackcap 224N speaks for herself phenotypically. Possibly a junior project?

"Good judgment comes from experience, and a lotta that comes from bad judgment."

You would love to fill your pasture with females similar to 316B, as Grand River Angus planned to when he bought her 10 years ago for \$26,000. Tibbie 278J is a maternal sister to 225N and the dam of bull Lots 206N and 211N and of Female Lots 198N and 253N. The consistency of this cow family will aid your operation in excelling in all areas of profitability. Acclaim 9013 has tons of shape, angus character, and structural integrity and Tibbie 225N follows that pattern. I guarantee you will not miss her when cruising through the pens.

Here is one of only two Giordano females in the sale. A Baldridge Jordan son out of a lovely Showman daughter who would be a maternal sister to Alcatraz. Giordano is a calving ease specialist that will add performance and increase your carcass values. Her dam, Miss Blackcap 132L, like most Hi-Range females is stunning, lots of middle and hip, but what sets them apart is their eye appeal and swagger that you cannot deny. Take a close look at the numbers, they are impressive, but balanced. We have found that the Showman x Hi-Range combination has taken the bar to the next level in consistency. 132L was purchased in 2024 by Jan Borovka "better know as Johnny" from the Czech Republic, who spends more time in Canada lately than running the family Angus operation back home!!

Sired by HF Sold Out 179J, this attractive, nicely balanced, strong topped, big soggy middled heifer will definitely get your radar beeping when you find her in the pen. You will discover exceptional length of body, muscle shape, and a striking profile presence in this female. Her dam is an extremely tanky cow with great feet and flawless udder. Sold Out's dam, Rosebud 246Z is by far one of "the herd favorites" for her picturesque femininity, fleshing ability and her udder design and tight suspension. Sold Out 179J was purchased in 2022 by Compass Ranch and Remital for \$40,000 and used extensively by both ranches.

A Pride heifer out of an exquisitely feminine Alcatraz daughter with the Big Iron stamp of approval. The Alcatraz females, with their blend of mass, capacity, udder quality, and gentle demeanor have put together a mid-size package sired by Big Iron. A maternal sister x Badlands sold in the 2025 Sale for \$20,000 to Grand River Angus.

Another ProStar heifer that like her sire, displays a tremendous amount of natural power, massive amount of rib, big topped, big butted and hairy. A more rugged heifer that is super sound with a great mother. See Lot 198N for more details on the dam, HF Tibbie 278J. Maternal siblings sell as Lot 206N, 211N and 194N. Tibbie 278J will be a female to watch for in our donor pen going forward. Tibbie 253N demonstrates a very well balanced, pleasing set of numbers right across the board, an all-round brood cow in the making.

Dam, Erica 74A

Full Sister, HF Erica 297N, Sold to Leela Farms & Sunrise Ranching Co \$50,000

We have a number of siblings sired by Hi-Country and ProStar on offer for you to select from. The 74A progeny are all IVF pregnancies that were created later than planned, so they were somewhat behind the eight ball when weaned. You can see the potential in these young females and know that the marketability of them is incredibly high. A full sibling to Erica 257N and 287N sold in the Falls View Sale in December 2025 to Sunrise Ranching and Leela Farms for \$50,000. 74A is maybe the most famous cow to ever be born on Canadian soil, she has now earned elite status worldwide. At the age of 13 years, it is quite an accomplishment to stay in vogue for that length of time even as the style of cattle have changed. Erica and her progeny continue to frequent the red carpet. Erica 257N and full sibling 287N have an air of elegance that radiates from them, they are cut from the same cloth. Siblings sell in the bull division as Lots 249N, 270N, 271N, 273N, 276N, 282N, 283N, and 288N. A unique opportunity to be a part of the legend of this matriarch of the breed as it is at your fingertips.

Another Miss Blackcap daughter with the consistent stamp of the Big Iron progeny. The eye appeal and extension through the front third in the Big Iron cattle is uncanny. This long bodied, strong topped, soft made female with great structural make up moves around the pen like a cat. A super solid pedigree going back to Showman, Big Sky, and the great Tiger daughter 296Y, who has a grocery list of notables to brag about. And a very solid set of numbers to back it all up.

Thank You... for co-sponsoring our sale hospitality, it is greatly appreciated!

Annie 305N is the second Giordano progeny in the offering. Giordan's dam is a beautifully constructed Showman daughter out of Alcatraz's dam, who we used to run with our heifers. The grand dam, Annie 46C is a model Rebel daughter who sold to Grand River Angus in our 2016 Sale. Some of the highlights of 46C's progeny were a Showman bull to Pahl Livestock for \$50,000 and two other Showman sons to Iris Creek Farms and to T&B Harty Land & Cattle. We flushed 46C to Sitz Continuity who is known for maternal excellence and ranks at the top of the breed for S Maternal. One daughter was sold to Murray Ranches, 240L who has a Hi-Range bull working in their bull battery and one daughter remained at Hamilton Farms resulting in Annie 305N. Annie 305N indexed 105WW and 106 YW with a Birth to Yearling spread of +1.1 to +122, not bad stats for a heifer's first calf.

This Tibbie heifer will certainly get your attention in the sale pen. This younger lady is the last, but certainly not the least of the Big Iron progeny on offer. Joel debated long and hard about whether to sell this heifer, but they still have the cow, so her potential remains in the herd. Her first calf, sired by Ellingson Badlands was a feature last year going to Rafter 17 Ranching and posting exceptional numbers for a heifer's first calf. Tibbie 228K, sired by Sitz Profound and going back to Tibbie 22C who has produced too many high dollar cattle to mention at Hamilton Farms and Greenwood over the years. Tibbie 228K is very strong in the fundamentals like femininity, foot integrity and udder quality. Phenotypically 308N is super solid, as she is genomically. Do not miss on this one, she will pay for herself in no time.

Terms & Conditions

TERMS OF SALE: Are cash or cheque at par, payable to Clerks of the sale on Sale Day. U.S. Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. We reserve the right to withhold animals from export shipment for whom payments have not been received prior to departure times.

ALL PERSONS: who attend the sale do so at their own risk, and the owners, and sale staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

ANNOUNCEMENTS: Errors discovered in the catalogue will be corrected by the announcements from the auction stand at sale time and such corrections will take precedence over the printed material in the catalogue.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers. All shall be available for inspection prior to sale.

ALL CATTLE ARE SOLD: Subject to such tests as required for export under regulations of health of animals Branch, Department of Agriculture for Canada - those corresponding to Bureau of Animal Industry requirements.

BREEDING GUARANTEE: All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Angus Association shall apply.

INSURANCE: Ownership risk to purchaser commences when the Auctioneer's hammer falls. Livestock coverage will be available on sale day, from the sale management at any time.

"This life isn't just about animals; it's about beliefs and values passed down through generations."
