## *Annual* BULL & FEMALE SALE

**MARCH 7 2026**  
**SATURDAY 2:00 PM**

**AT THE RANCH • MORINVILLE, ALBERTA**

21 TWO YEAR OLD BULLS  
*Selling* 24 YEARLING BULLS  
5 OPEN PUREBRED HEIFERS

# Welcome FROM HILLVIEW FARMS

What an incredible time to be in the cattle business! Our cowherd has been built over 49 years and is continually improving. It is also continually staying true to cows that breed back, stay sound and raise a strapping calf, year after year, well into their teens. Herd longevity is one of the most economically important traits in cow/calf operations. Over the past 20 years the stayability trait of our Hillview herd has been an average of 37%, and up to 76%, higher than that of the Canadian Limousin Association herdbook average. Females that truly work in every way stay the course, and our cows work. We have worked diligently to select sires with intention and utilize those genetics strategically to produce bulls and females that will suit the various needs of our customers.

The 2026 sale marks 49 years raising registered Limousin seedstock, 40 years of bull sales and our 10th on-farm sale. Sincere thanks to all who have supported us throughout the years. We are tremendously grateful to each and every operation who chooses genetics from our program – we do not take this decision for granted as we know selecting sires for your herd is the single most important investment you are making to impact your herd and your bottom line for years to come. We value the opportunity to discuss the cattle with you over the phone or in person to help you select the best options to suit your needs. Come for a pre-sale tour if you can, and if not be sure to give one of us a call to talk over the bulls and females.

If you are in the market for a calving ease bull to breed your heifers you will be spoiled for choice in both the two year old and yearling bull groups. A phenomenal selection of performance geared bulls can also be found throughout both the yearling and two year old pens. We are extremely excited about the Martens Lieutenant 16L ET sons we have selected for the sale. These will be the first Martens Lieutenant 16L ET sons to sell at public auction, and a number of them at that as well as a heifer. We are exceptionally pleased with how Lieutenant crossed on our cow herd. The quality is very deep all the way through the sale offering. Many of our tried and true herd sires are represented. We are highly confident in all aspects of these reliable sires that we have been using for years and have numerous progeny working in herds across the country. Martens Kobe 6K progeny generated a lot of excitement and made a lot of friends in our 2025 sale. We have selected a top group of yearling bulls and one more heifer to offer this year. The Kobe daughters we calved out this year are fantastic in every way. The two year old bulls forage a large grass pasture all summer and fall and come in hardened, fit and ready to be grown out slow and steady for many years of breeding ahead. They will get ground and females covered. We have homozygous polled tested and will share those results online as soon as we receive them and will include them on the supplement sheet on sale day.

As photos and videos were taken in early January, we are confident you will find the cattle to be far better in person now, and even more impressive when they are delivered to you as they continue to develop on the same slow TMR ration they are grown on through to delivery. This year marks the milestone of 40 years of selling bulls in a public auction format and 10 years of hosting the sale at our ranch. It is also Raymond's 70th birthday and oldest daughter Marissa's 40th birthday within days of the sale so sale day will be a real celebration! We very much look forward to the opportunity to host you and your family in Colin and Tessa's heated sale facility on March 7.

Sincerely,  
*Raymond, Corine, Colin, Tessa, Rylin & Heath*

## SALE LOCATION

**55232 RGE RD 260, Sturgeon County, Alberta**  
From St. Albert: North on HWY 2, take HWY 37 overpass west towards Onoway. 4.5 km North on RR 260, continue past stop sign at TWP RD 552. Sale in heated tan sale barn at Colin & Tessa's on the west side of RR 260.

**ONLINE BIDDING** *View and bid online on DLMS*

1. Visit [www.dlms.ca](http://www.dlms.ca), click Create Account at top right and fill out the registration form to sign up for your free user account.  
 2. To be APPROVED AS A BIDDER - log in and click BUYER APPROVAL tab, select the sale you are interested in bidding at and click sign up.  
 For more information or help with buyer approval call  
**Mark Shologan 780.699.5082 or Purebred Team 780.991.3025**

**PRE-SALE TOURS** Come for a tour between January 15 and March 6 to receive a \$100 sale credit and be entered in a customer appreciation draw. Come early on sale day to view the bulls in their pens and come inside to join us for a beef lunch and refreshments.

**SIGHT UNSEEN PURCHASE** If you are unable to attend sale day, please contact us to discuss the sale offering. Please call us or any of the sale staff on sale day to assist you with making your purchase. We know the importance of this investment and we will gladly assist you with finding the right bull(s) to fit your needs.

**PHOTOS & VIDEOS** Taken by Hillview Farms at the beginning of January.  
**Videos can be viewed online at [www.hillviewfarmslimousin.com](http://www.hillviewfarmslimousin.com) mid-February**

**BULL DEVELOPMENT** Our feeding program is built to maximize forage utilization and gut health. Forages are sampled and analyzed to ensure quality. The bulls have been summered on grass, and wintered on a forage-based TMR that matches suitable protein sources to proper starch to develop and express their genetic potential and promote lean muscle growth. Organic minerals are used to ensure proper immune function and overall health. Throughout the fall and first part of winter they are fed in the field, for maximum exercise. They will continue on the same feeding program post-sale. They have been responsibly developed slowly for longevity in commercial conditions. If you have questions about the nutrition program please reach out to us or our nutrition consultant.

**Doug Roxburgh, Bullseye Feeds** 403.392.4541

**HERD HEALTH** Hillview Farms is on a complete herd health vaccination program. Calves receive Bovi-Sheild Gold One Shot and Vision 8 Somnus + Spur before they go to pasture and are boosted pre-weaning with the same two vaccines. The coming two year old bulls are also boosted in the fall. Breeding females receive Covexin Plus, Vira Shield 6 + VL5 HB and Scour Bos. Every animal also receives Solmectin in the fall and CyLence in the winter. All bulls have been scrotal measured, semen tested, and inspected by a veterinarian prior to sale. A copy of the test results will be provided to the buyer. Weights, scrotal measurements and homozygous polled results (where applicable) will be available prior to sale day. Heifers will be palpated by a veterinarian prior to sale.

**DELIVERY & BOARDING** \$100 off your purchase if taken home sale day. Free delivery to central regions in Western Canada, at the convenience of Hillview Farms, and buyers risk. Hillview Farms will arrange for trucking at buyer's cost for purchases going to Eastern Canada or other areas. Purchases can be kept until April 1, 2026, at no charge, after that time, cattle will be kept for \$4/day. Please insure purchase(s) left at Hillview Farms.

**TERMS** Cash or cheque payable in Canadian Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made.

**BREEDERS GUARENTEE** Cattle sell according to the Canadian Limousin Association Breeders Guarentee.

**ANNOUNCEMENTS** by owner or autioneer on sale day take precedence over what is printed in the catalogue.

**LIABILITY** Every precaution will be taken to protect the health, safety and comfort of buyers. The owners, their employees, sale staff and representatives accept no liability for accidents, illness or loss of property that may occur.

**HOMOZYGOUS POLLED TESTING** 100% of calves from bulls listed as homozygous polled will be polled even if bred to horned cows. Animals listed as heterozygous polled are polled themselves but their progeny is not guaranteed to be polled. Scurs are a separate gene and not tested for. Homozygous polled cattle may still have scurs but will not have horns.

**CERTIFICATE OF REGISTRATION** After settlement has been made, Canadian Limousin Association registration papers will be transferred to the buyer. Please note that Canadian Limousin EPDs update weekly. Up to date EPDs can be searched on [cla.digitalbeef.com](http://cla.digitalbeef.com)

**CANADIAN LIMOUSIN ASSOCIATION BREED AVERAGE EPDs** as of February 3, 2026

## 19 HILLVIEW MARKET TOPPER 900M

JAN 30 2024 RGK 900M CPM4127267 92% PB BW 92 WW ADJ602/ACT649

HOMOZYGOUS POLLED

The only Distributer son in this year's sale. Distributer gave us many years of incredible performance, adding size, muscle, scrotal and excellent hoof and leg structure. He was a powerful bull who bred on well. We drew him for in-herd use and Market Topper 900M is a result of his continued influence in our herd through AI. Lot 19 is a clean fronted, muscled up bull with excellent scrotal size and a good foot under him. Plenty of performance packed into this pedigree on both the top and bottom side.

### 38 HILLVIEW NO MAN'S LAND 301N

JAN 25 2025 RGK 301N CPM4131849 94% PB BW 71 WW ADJ765/ACT864

HOMOZYGOUS POLLED

**Heifer Bull Option** First calf off Hillview Lollipop 301L who made a lot of friends when we campaigned her at Farmfair International as a bred in 2024. By calving ease specialist B-Bar Desperado 11K who has a 77 lb. BW average on 33 registered progeny. Hillview No Man's Land 301L ranks in the top 1% of the breed for calving ease, top 2% for birth weight, and top 10% for milk. Very respectable 107 WW ratio being a calving ease bull coming off a first calf heifer. Lot 38 is very showy, balanced and correct. He is quiet, deep sided and tremendously thick. Clean and extended out his front end. Patterns a great deal after his dam. Sleep easy calving ease bull for seedstock or commercial.

Nelly Furtado 541N is the result of semen we retained on Hillview Kevin Costner 125K who was purchased by Short Grass Limousin in our 2023 sale. We believe very strongly in the Hillview Yours Forever 125Y female. She is one of the broodiest Limousin females you will find with true Limousin muscle shape and tremendous depth of body. She is still in production and calving first cycle at 15 years of age. On the maternal side Hillview Kardashian 261K is a very promising young female. We retained her first heifer. She goes back to Hillview High Style 61H who is the dam of Lot 29. Nelly Furtado 541N is a correct and stylish heifer with a feminine front end and the size and profile to grow into a female of good size and frame. **Dam is a maternal sister to Lot 29**

Hillview Yours Forever 125Y - paternal granddam of Lot 50

## *Why Hillview?*

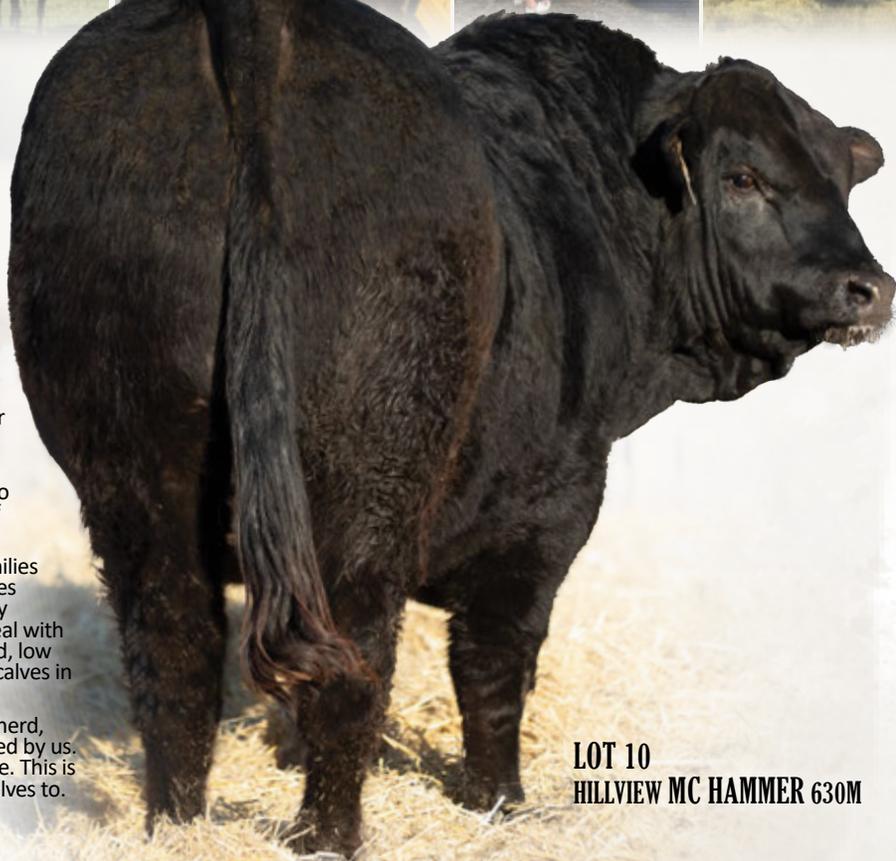

**COMMITMENT TO OUR CUSTOMERS.** Whether you have been buying Hillview bulls since long before Ray had grey hair, or this is your first sale with us – we are grateful for your friendship and value your trust in our program. Should something not work out with your purchase(s), please let us be your first call and we will work to come to a mutually agreeable solution to make it right.

**A PROGRAM YOU CAN TRUST.** Ray and Corine have raised registered Limousin seedstock for 49 years, Colin and Tessa have been immersed in every facet of the breed for over a decade – we have the experience and knowledge to help you advance your own program and are happy to help you market your calves to our contacts. Make sure to let us know when you plan to sell calves.

**MUSCLE MATTERS.** No other breed will pound down the scales with more sheer muscle and yield than Limousin. We are staying true to what makes Limousin stand out and work so well over a variety of commercial cowherds.

**PRACTICAL RANCH-RAISED CATTLE.** 49 years building strong cow families that you will see repeated over and over as you study the pedigrees of our herd. Our cowherd certainly works for us, not the other way around. We don't have time (and we know you don't either) to deal with calving issues, poor udders, or disposition issues. Sound structured, low maintenance females with good dispositions that bring home fat calves in the fall are the only kind we keep.

**QUALITY IN QUANTITY.** Backed by a sizable registered Limousin cowherd, the sale lots are the absolute top out of hundreds, critically selected by us. You will find consistency from start to finish through the entire sale. This is our passion, our business and our livelihood that we devote ourselves to.
