WELCOME FROM BOHRSON MARKETING

Welcome to the 27th annual, Kuntz McIntosh SAJ Simmental Bull Sale. What an incredible time to be a livestock producer. The cow/calf operator's are finally seeing a premium for their hard work and dedication to an industry they love and it is truly rewarding to see and I do know we can speak for these 3 great operations when we say that seeing your success is their own personal greatest success. We are proud to stand beside these long standing breeding establishments in the promotion of their 2026 sale bulls, we think you will find it is a very uniform and diverse set and offers something for everyone, no matter what their needs are. We hope you take this as your personal invite to join us in the beautiful Lloydminster Exh Sales pavilion on Sunday, March 15th at 2pm.

The industry has spoken, and the Simmental influence is as prominent and popular as ever before in all aspects of the industry. Simmental sired steers are annually topping the pre sort sales and we have seen incredible prices for fancy Simmental open heifers (upwards of \$7,000+ per head) and astonishing prices for Simmental bred heifers (upwards of \$12,000 per head) the last 6 months and for good reason. The Simmental cow has been the focus of all 3 of these programs for decades as they have been built on a solid foundation of foot and udder quality, easy fleshing and eye appeal. This in turn has annually been the back bone of 27 successful bull sales where we see the fruits of these powerful cows behind the bulls labour via 75 of the stoutest Red, Black and Fullblood Simmental Bulls that will sell anywhere this year. The Kuntz, McIntosh and SAJ programs are all like minded in their breeding approach and pride themselves in sourcing the best genetics they can to advance their own programs to ultimately benefit their valued customers. They annually source some of the very best walking herd bulls and utilize industry leading ai sires in the operations and that has given you the opportunity to select and choose from many half and 3/4 and in many cases full brothers at this great event.

Be sure to make plans to be with us for an enjoyable Sunday afternoon sale in Lloydminster. The people and the programs that stand behind these bulls are some of the very best people to do business with in the entire industry. Give any of them a call to discuss the offering and please don't hesitate to give out BMS team a shout to visit with you about the bulls on offer. We would be happy to help in any way. We hope to see you sale day.

Best regards,
The Bohrson Marketing Team

WIN A SALE CREDIT

Buy a bull from the 2026 Kuntz/McIntosh/SAJ Bull Sale, transfer the registration papers and your name is automatically entered in the draw to win a \$2,000 sale credit with the Saskatchewan Simmental Association.

The draw will be made this Summer at the SSA Annual General Meeting. The sale credit can be used to purchase a bull or female at any public auction or by private treaty from a current SSA member.

WELCOME FROM KUNTZ SIMMENTAL FARM

I'd would like to take this opportunity to personally invite you to Lloydminster for our Annual Bull Sale on March 15. Once again, I want to start off by thanking our valued customers for their support over the years. Your trust in our operation is what drives us to produce the strongest pen of bulls possible with genetics that will allow you to prosper in these exciting times in the cattle industry. Whether you want horned or polled, calving ease, performance, or you're looking for a highly maternal bull, we feel this years offering has something for everybody.

Don't hesitate to give us a call to discuss the offering and we will help you find a bull for your needs. As always, we encourage you to stop by the farm to view the bulls along with their dams prior to the sale. As well, the bulls will be available for viewing inside the heated exhibition building on the Friday and Saturday before the sale.

Please follow us on Facebook or check out www.kuntzsimentals.com for videos and updates regarding the sale.

We are located approximately 40 km South west of Battleford off Highway #29. The coffee is always on and we'd love to tour you through our cattle. Otherwise, we look forward talking with you at the sale on Sunday March 15, 2026.

FULL BROTHERS 3N & 8N

NON DILUTER. Here's a pair of meat wagon embryo calves off Barbarian. 8N is maybe a touch longer spined and slightly smoother made where 3N is an absolute powerhouse. He has that extra style and herdbull presence to him that makes him stand out. Both these bulls are stamped with the typical Barbarian hair coat along with that mellow, easy keeping nature.

Their mother is the exciting young Lady A 500L donor cow. I was quite excited about these embryos when I seen her as a yearling but she is even more impressive as a young cow. She has a powerful, expressive hip yet remains beautifully feminine and possesses a perfect udder. These are two highly maternal bulls that do not sacrifice any performance.

NON DILUTER 9N is the only ET son we got this year off our 517C donor cow. Last year, his full brothers were the feature power bulls in the pen. One was our high seller going to Westgold Farms and another sold to Gerald Wildfang in Manitoba. 9N doesn't have quite the performance of those two bulls, but his recip mother played a role in that. He has that cherry red, thick hair coat and a herd bull presence to him that really catches your eye.

NON DILUTER

Northern has been a bull that's been turning heads since he was born. He is a very complete bull with style to burn, his ideal color pattern and tremendous hair coat really make him stand out. The 715E cow has been a real work horse for us putting several strong sale bulls and there's a couple good young daughters of her in the cow herd. Maxwell Simmentals purchased a maternal sister a few years ago at Border City and she has been doing a nice job for them.

NON DILUTER

Jurassic is a bull that I was quite excited for. He is a full brother to Kuntz Kingpin 2H, the powerhouse polled bull that Jeff Sorenson bought as our high seller a few years back. Jurassic may not have as much performance but has a more balanced and attractive look to him. 308A has been one of my favorite cows, she's moderate framed, with excellent feet and udder quality and she always brings home one of the heaviest calves that rank right at the top of the pen.

HOMO POLLED - DILUTER

Here's a homo polled, full fleckvieh calving ease option. North Point is smooth shouldered with an extended front end and a more refined head yet exhibits adequate shape and thickness. We've bred a few heifers to Jesse James and have been very pleased with the results. They are born easily, have good muscling, and a polled head. Precious 336L is an exciting daughter off Precious Thing 402T. She is stout made with good depth and an excellent udder. We thought highly enough of this pair last spring that we elected to flush 336L and those resulting calves look very interesting.

NON DILUTER - HOMO POLLED

Nunchuck is a balanced type bull that is as dark red as they come. This guy was one of the standout calves last spring. He has levelled off a bit in his development but I believe will be an impressive individual as he matures. His mother if my favorite young red cow and his grandmother was one of our most consistent producers having raised 6 sons that sold through this sale.

DILUTER - HETERO POLLED

Here's a blaze faced bull that is a real attention getter. This heavy haired bull has a bold hind quarter with ideal hip shape. He has extra length of body and has a stylish front end that has that herd bull character about him. Look for Blaze to sire a fancy set of replacement females that will develop excellent udders or a set of steers that are will be in high demand.

HOMO POLLED - NON DILUTER Nation is a bull that I think has a lot to offer. He started out at just 76 pounds at birth and never looked back, not only does he rank in top 2% for both calving ease and birth weight but he has a small yet masculine head. Nation has the rib shape and muscle mass that make him more than just a heifer bull. Nation has a double shot of calving ease as his mother is sired by Can Am, a bull we used with excellent results in the heifer pen. 309L is a beautiful young cow that is good footed, big ribbed and has an excellent udder, as does that whole cow family. Nation is a bull that we considered keeping and turning out in our heifer pen.

NON DILUTER Milan is a powerful son off our old heifer bull "Sochi". His Full fleckvieh mother was my pick of our group of bred heifer last year and she has done an exceptional job on her first calf. He is packed full of red meat and has an 825 pound weaning weight and a 1537 pound yearling weight, not bad for a calf that started off with an 85 pound birth weight.

WELCOME FROM MCINTOSH LIVESTOCK

We would like to welcome you to the 27th Annual Kuntz/McIntosh/SAJ Bull Sale.

We feel this is a very complete group of Bulls, with a good mix of calving ease, highly maternal and power bulls to add value to your operation. We truly enjoy raising our family in this industry and spending time at cattle shows and sales watching the excitement in the Simmental breed. We seem to get busier every year though, with things around the farm and activities with family and perhaps don't get a chance to show our appreciation and visit with all our customers the way we would like to. So a special thanks to everyone that has supported us at the past bull and female sales over the years. Without all of you we wouldn't be able to enjoy this great industry!

Our bulls have been developed on a TMR ration. Our ration consists of cereal silage, chopped hay, brown oats and a BULLSEYE Feed bull supplement. All bulls have been double vaccinated with Fusogard to help in the prevention of foot rot. Also bulls have been double vaccinated with Bovi-Shield Gold One Shot and Ultrabac 7/Somubac. Bulls have been treated with Ivermectin and also received Safeguard crumbles in the fall. As well as a dose of Cylence in January.

We will work with you to get the bulls delivered as close to you as possible and in a time frame that works for both parties. Keep an eye on our McIntosh Livestock Facebook Page as well as DLMS/Cattlevids for Videos. Sale Weights and scrotal measurements will be posted a few days prior to the sale.

We would like to invite all past present and future customers to come on out to the sale and also try to stop by the farm to preview the bulls and the cow herd any time. The bulls will be on display indoors from March 13-15th at the Lloydminster Exhibition grounds in Lloydminster SK. Don't hesitate to call with any questions. We look forward to seeing everyone March 15th!

Blair & Stephanie McIntosh

HOMO POLLED

Agribition 2025 Supreme Pen of bulls member here, Rooster 22N brought frame, hair and power to our group of three bulls this past fall. He's a Teen Spirit son who is a home raised HFL Mind Game and Sassy 16C cross that we drew some semen on for use within our own herd before he sold in our 2024 sale to Doug Thoms, Sk. The Teen Spirit sons are proving to be high performing cattle that weigh at the tops of their contemporary groups consistently. Rooster is out of a lovely Cobra X Trendy cow that's one to watch within our herd, she just had a full sibling heifer calf to Rooster and we are excited for her future!

Outcross red pedigree? Check. Soft middle and easy-doing? Check. Out of a beautiful, proven donor cow? Check. The list goes on and on here with Lithium 58N! He was an integral part of the 2025 Supreme and People's Choice Pen of Bulls at Agribition. These Teen Spirit sons are really something else, Lithium weaned off at over 1000lbs on September 2nd and didn't slow down there posting an admirable 1405lbs on December 27th. Power and presence, Lithium has both in spades. Maternal siblings have been past features in our bull sale selling to Westgold Farms, Selte Land & Cattle, Spornitz Farms, Louis Watt, Pinder Farms and Schleibinger Farms.

HOMO POLLED

Summit 71N was the third bull in our Agribition Pen of Bulls in 2025. You'll remember him as the super dark red, extremely hairy one in the pen. He's the natural calf born to the original Mary Jane 10C cow in 2025. So many bulls have been marketed out of this great cow over the years and the quality remains high as we continue into the 2026 edition of the bull sale. Little bit of a throwback here being out of the Red Summit 54B bull. He crossed well with Mary Jane!

HOMO POLLED

Limelight 527N will interest you if you are looking for a bull with a touch of added frame. He posted good performance numbers and carries strength in his performance EPD numbers. This embryo transfer bull is a direct son of Sassy 16C and has a baldie full sibling brother here in the sale as well as a couple full sibling heifers at home in our replacement pen. Limelight 2L was a past bull sale highlight in 2024 when he was purchased by Redrich Farms and Sjorgen Farms. We were able to freeze some semen on the bull and utilize him in our AI and Embryo program.

HOMO POLLED

Here is an exciting red baldie Limelight son that is easy to find in the bull pen. He does a lot of things right for us and we believe he has a lot to offer as a herd sire. He is a flush mate to the 527N bull and comes in a slightly more moderate and stouter package. He has the grow, thickness, hair, and flexibility to be a great one. I feel like I just go on and on about cow families here, but when you spend all day everyday for years building cow families like this guy comes from, you just can't help but promote them. Sassy 16C has raised many beautiful females and many standout bulls. 528N is your chance to buy in on a great cow family.

HOMO POLLED

Here's a Darlin' for you! We purchased Leverage's dam from the KT Ranches inaugural production sale in 2024. True to Darlin' form this bull is very soft middled with huge capacity and extra hair. A candidate for the heifer pen if that is what you're after. This bull ranks in the top 10% of the breed for calving ease and the top 2% for birth weight. With his adjusted Yearling weight of 1480lbs he's no slouch in the growth and performance departments either. He is sound, with a good foot under him and has an elite look.

HOMO POLLED

This big, burly Circle G Heat Wave son will have a lot of friends' sale day. Muscle mass is his strength and he has a lot of it. Again, from the Sassy family with his dam being a Stratton out of the original Sassy 16C. 39N has a user friendly 93lb birthweight and followed that up with some pretty explosive growth ever since. Posting an actual weight of 962 beginning of September and an actual yearling weight of 1355 on December 27. This guy will create desirable offspring males should grow well and push that scale down in the fall, females will milk and make good mothers.

HOMO POLLED

Here is a performance-oriented Circle G Heat Wave son that we like quite a bit. He weighs up really well with an actual weaning weight on September 2 of 1000lbs. 42N carries a very nice set of EPD's ranking highly in the maternally oriented and also the performance numbers. The Sierra cow family has been around here for a good long time and 42N's dam Sierra 10B is one of the foundation cows that have made this such a dependable cow family. 10B will always add power to her offspring, weaning off a heavy calf every year.

We do love that Ironclad was hetero black and gave us a few red cattle to market out of him. We really love the Ironclad offspring and to get some red ones is a great bonus! One notable red Ironclad offspring is McIntosh Lady 50K who was purchased by Horner Cattle Company as a bred heifer from us out of Border City. Horner's went on to show Lady 50K with her heifer calf as a pair and tore up the show road in the fall of 2024 hanging many banners and topping it off with a Top Ten in the Agribition Beef Supreme! This goes to show you that Ironclad is a top-notch female maker and we expect these Ironclad bulls to be so as well. 98N has performed very well, he is an end of February born calf but has weighed up impressively at every stage of life. When you're a younger bull you have to out perform your counterparts if you are going to make the cut and 98N does that easily!

**HOMO POLLED
HETERO BLACK**

There are two LFE Burnout sons in this year's sale, and they are both flat-out impressive in the flesh! So much hair, power and herd bull presence in both of them. 19N has an intriguing pedigree top side and bottom side, coming from good old Nashville 2D the bull producing specialist. Some of you will remember the maternal sibling bred heifer to 19N that sold in Border City 2025 as a highlight that day going to the good folks at X-T Simmentals. Well, the quality offspring just keep coming from Nashville 2D. This will be the first ever black hided Nashville son we have had to offer and the quality of this future herd sire is apparent to the eye and also runs deep in his blood.

If you like 46N's picture, just wait until you see him in the flesh! He is one cool dude. Sired by Burnout, this sire group isn't huge in numbers and as they are getting into this stage of life, we really wish there was more of them! Stout, easy-doing, easy-fleshing bulls with some added eye appeal. 46n's maternal brother by Hannibal last year was appreciated by all who seen him, his new home is Galaxy Simmentals at Yorkton, Sk. 46n's dam Tula 7K was a past Border City purchase from Rusylvia Cattle Co. and she has proven to be a wise investment.

HOMO POLLED - HOMO BLACK

Gotta love a black baldie! Especially when they are out of one of the most loved cows on the place like 12N is. We always look forward to the day 21D calves each year because she is sure to have a special one. Outlast is a full sibling to Katie Kolenosky's beloved Lulu 34L show heifer as well as a full sibling to Brynn Stepler's popular red baldie show heifer from last season Lulu 12M. They say when you're shopping for your next herd sire the first thing you should do is make sure he's out of a great momma cow, and Outlast hit the jackpot on that one! Outlast is hairy, and sound with a proud presence about him.

HOMO POLLED - HETERO BLACK

Milestone 580N is a very special bull in our eyes. It is hard to find a bull with as much natural thickness and expression of muscle as this guy has. He is an embryo transfer calf out of a JF Milestone X Lexi flush which has already produced a sale feature female this past December. At the very exciting Border City sale this guy's full sister sold to LA Ranch in British Columbia. Many people admired that female for her incredible spring of rib and structural soundness. Both of those attributes are strong in 580N as well. Performance plus here with 580N as well. With just a February 5 birthday 580N weaned off in early September with a 928lb weaning weight, then posted a scale crushing 1626lb adjusted yearling weight! Power, performance, phenotype, pedigree, they are all strong here in 580N!

HOMO POLLED - HOMO BLACK

Ironclad gave us a nice set of bulls here for the 2026 Bull Sale. Two black hided ones here, and one red one. Ironclad was the result of an embryo purchase many years ago from 5 Corner Cattle Co. and that group of embryos ended up providing the building blocks for our entire black program. Most notably producing Lexi, our main black donor cow, and Ironclad who has walked our pastures for years. Ironclad is also a full sibling to the amazing AI sire Mader Walk This Way 224B! 81N is typical of the Ironclad offspring, sound structured, flexible in his joints, super hairy, with ample performance and growability.

Just look at his picture! You have to love this bull for his presence and style. I really appreciate the front third on this bull with his nice shoulder and expressive head carriage. He is out of a sweet Loaded Up 1119Y cow that is just hitting her stride in terms of production and is one I have my eye on to become a great cow as she matures. Ironclad has produced some really great females over the years and these Ironclad sons should be female makers as well.

Thank you

TO DIAMOND 7 MEATS

for purchasing Carter's steer in 4-H 2025

Carter had a very successful 4H year with the Northminster 4H Beef Club. His steer Hank went on to be Reserve Grand Champion Steer at the Lloydminster 4H Beef Expo. We would like to thank Diamond 7 Meats for purchasing Carter's Steer and supporting youth in agriculture!

WELCOME FROM SAJ SIMMENTALS

On behalf of myself and my kids, I would like to *invite you to the sale on March 15.*

Another bull sale is upon us and once again I feel I have brought a consistent set of bulls for you to look through. Horned and polled fullblood bulls are available as well as all Homo polled red bulls. There are some interesting calving ease options this year too. The bulls will be double vaccinated for the prevention of foot rot with Fusogard Delivery will be available at agreed times and most often right to your farm.

We thank all past customers and welcome anyone to come view the bulls and their mothers at the farm anytime.

See you sale day
Stuart Jamieson

NON DILUTER

This Cash son is a calf I was excited about since Day 1. His full sister last year was a feature lot in the Border City Sale. She was liked by many and sold to a good friend Tim McVicar. This bull is heavily pigmented and is off a really nice Raptor cow. I think this bull will do well in his career and will sire heavyweight steers and even better replacement heifers. These Cash sons are a consistent steady group.

RWR CASH 30K *reference sire*

NON DILUTER

JD is a bull that is noticed by everyone that enters the pen. He has presence and poise. A really loose hided, free moving bull that I'm really high on. His dam stems back to my 1U cow that was an important part of my fullbloods. His dam is a tight uddered cow that did an exceptional job on this bull. Weaning off at 900 pounds and I feel this bull has a lot of good about him.

A full brother to my high seller last year to Borderline and Mark Land and Cattle. A bull that is similar to him but in a slightly younger package. Dark red, hairy and raised by an excellent Willow cow. She has quickly become an important young cow in my herd. 104N is a typical Cash son; hairy, dark red, and quiet. This is a bull I'd be coming to look at, he has a lot of good about him.

Kirk would be the darkest bull in the pen alongside the 132N bull. His dam is a cow that gets the job done year in and year out. He is a low set dark dark cherry red Cash son. He has good hair and is a low set bull that stands on good feet. He weaned off at a solid 900 lbs. and has the look of a herd bull. The first Cash daughters are calving now and will be a good group of females.

NON DILUTER

An interesting bull here, an embryo that is a full sib to Vigilante owned by Black Gold and Little Willow Creek and the Shook bull that Maxwell and Double RN bought as high sellers. A full sib heifer sold this fall at Border City to Andrea Capjack. This bull is changing and getting better daily as his recip dam was only milking on two quarters. He is hairy, dark red and big testicled. The proof he'll be good is backed by the full sibs I mentioned above. His donor dam is currently being flushed as she gets the job done year in year out.

A big powerful Chevy son here, not many sons this year out there. The two bulls in the sale from Chevy are big framed, performance bulls. 9N was one all summer that I watched grow and was excited for him. Expect polled calves from this guy. His 93F dam has put many sons through this sale and many have been high sellers. Sons have sold to R. Fenton, G6 Farms, Sidehill Spring and Northwind Ag. Her only daughter she has had ranks very high in my herd. 9N weaned off his mom early September at 1000lbs

81N comes from a beautiful dam. I find her to be the ideal Fullblood female, great udder, heavily pigmented and a good foot. Sons have sold to many good breeders around the area with her most impressive son being SAJ Boone 84J who has done a good job at Red Willow Ranch. Flare is another powerful Chevy son that is as long as a February cold snap. A bull that has really continued to gain steam as the winter has rolled on. A bull that will sire excellent daughters that will be very functional.

Redman is exactly that, dark red Mountainview here that checks a lot of boxes. Deep sided, hairy and has the herdbull look to him. A bull I've admired all year. His Bootlegger dam is a tight uddered cow that clicked really well on this mating, weaning at 900 lbs. on September 6. He has continued to get better daily. A bull I'm excited to bring to town and see when he ends up.

Murry is a bull that screams calving ease. His pedigree is stacked with calving ease with bulls like Red Force, Sheriff, Mountainview and his EPD for CE and BW rank him in the top 1% and 2%. Murry is sired by my past walking heifer bull from the Hoegl's. 98N won't be the biggest bull sale day but you'll appreciate him for his small head, smooth shoulders and good foot. His young dam is a quiet cow who has raised a good one on her first try. If you're looking for a bull that will calve heifers, I'd mark him high on the list.
