Delivery

- Bulls that are picked up sale day will receive a \$100 discount.
- For bulls returning to the seller's farm we suggest that the bulls be insured. Each animal becomes the responsibility of the buyer as soon as sold
- Deliveries will start around March 15, at the seller's convenience.
- Bulls will be delivered free of charge to central points across B.C, Alberta, Saskatchewan and Manitoba. We do our best to deliver your bull to your yard.
- Bulls traveling to the eastern provinces and for export will have trucking arranged at cost; unless other arrangements are made.

USA & Mexico Export

The buyer will arrange for all tests and paper work required to export their purchases. Transportation will also be arranged at cost. We usually use Knill H S to send bulls to the USA and Mexico.

Bull and Heifer Selection Assistance

Purchasing breeding stock is a major part of raising livestock. Photos and videos are great tools but don't always tell the whole truth. If there are any questions on sires, dams, CE, WW, milk, etc please don't hesitate to give us a call. We can help narrow your search or point you to a bull that suits your needs.

Sight Unseen Purchases

If you need a bull or heifers but don't have the time to come to the sale we can help. Kuzio Farms and Ty-D Livestock are both family run operations. We are the guys that do the foot work in our operations from the feeding to the breeding. Call ahead of the sale and we can discuss what you need or want in your next herd sire. We will select a bull that will fit your operation, at your price point. The saying with us is "We rather keep our buyers happy than look for new ones each year."

Sale Group Guarantee

All bulls are guaranteed to be satisfactory breeders in accordance with the Simmental association guidelines. We stand behind our product, Should a problem occur please contact us and we will make it right. A replacement bull (of equal quality), a credit or reimbursement will be given at our digression. Any physical injury or mismanagement of the bull(s), will void any reimbursement.

Volume Discount

We really appreciate are customers and for buyers needing several bulls this spring, we are offering a volume discount. Any buyers purchasing 3 or more bulls will receive a 3% discount. There is no minimum limit on price of bulls.

Bull-Breeding Soundness

All bulls will be semen tested before the sale. Bulls are tested for Sperm motility, morphology and are also subjected to a physical exam. They are checked for any scrotal, penis and other physical problems that would affect their ability to breed. Any bulls failing these tests will not be at the sale. Any semen deferred bulls have been tested and have been deemed by the vet to mostly likely pass a semen test at a later date. These bulls usually fail do to age or weather problems.

Heifers-Breeding Soundness

These heifers have all been palpated before the sale. Heifers that are found to be sexually underdeveloped or free martin will have been shipped.

Health

All bulls will be vet checked, scrotal measured, weighed and semen tested. All sale cattle are on a full health program. Any questions on feeding or exact health protocols please contact Kuzio Farms or Ty-D Livestock..

Polled Testing

A select number of bulls will be Homo Polled tested.
Homo polled = no horns on any Calves
Hetro polled = 50% polled calves on horned cows

Colour Testing

Some black bulls will be tested for colour expression. Homo black bulls will not sire any red calves. The fullbloods and a select few red bulls will be diluter tested. Bulls testing diluter free can be crossed with black cows and will not give you any grey calves.

Semen Reserve

We reserve the right to draw semen for in herd use on any bull in the sale offering. Semen will be drawn at seller's expense and buyer's convenience.

EPDs

Epd's are basically a Mathematical estimation of a animals genetic value. There not always right but they can help in choosing your breeding stock. Below is a list of the epd's and what they stand for.

Abbrev. Description Units

CE -Calving Ease %	MWW- Maternal Weaning Weight
BW- Birth Weight	Stay- Stayability
WW- Weaning Weight	CWT- Carcass Weight

KUZIO FARMS

Welcome to our annual Bull sale with Ty-D Livestock. We would like to thank all of our past buyers and bidders that have supported our sale. We have a great selection of high quality bulls from leading AI sires Red and Black this year. The bulls are not on creep feed while out on pasture.

Please feel free to stop by the farm prior to the sale to view our offering or give us a call to discuss your herd bull needs. We look forward to see you on March 2.

2025 was a staple year in our program. We were so humbled by the success of last year's bull sale and, as always, loved hearing how well the bulls settled into their new homes and went to work! We've had great feedback on the progeny of bulls from previous years, pushing down scales as well as many females being retained and becoming functional cows. In October we had our inaugural fall sale, The Backdrop, featuring heifer calves, bred heifers, a prospect steer, and embryos. All of the live lots were halter broke and ready for juniors to take to shows. We couldn't be happier with the success of our first fall sale! Thank you hugely to our customers of The Backdrop, and to our bull customers, both new and old - we couldn't go on without your trust in our program! We also did something different this year - we have invested in some high-quality Hereford genetics. We look forward to this new venture, so stay tuned! All bulls have been double vaccinated with Pyramid 5, Vision 8, and Bimectin. The bulls have been slow-grown on a bull pellet, high-quality hay, and Rio-Max protein mineral tubs. Longevity and structure is extremely important to us - we want your bulls to last for as long as you need them to!

These flush brothers are two bulls that really excite us about getting back into the Fullblood game! We have a sister in the replacement pen at home as well. They're all short marked, dark red, and growthy! Their donor mother is a beautiful, good-uddered cow with a bright future ahead of her, and Battle Cry quickly gained huge influence in the industry - for good reason!

This is one of the last chances to own a red purebred "Westy" son! Westy was a special individual who really did a lot for our program. His bulls have always performed with high expectations, and his daughters have made phenomenal cows carrying beautiful udders that also don't lose condition raising their first calves. 50N is a mid-March born calf - the youngest of the offering - and that hasn't deterred him from looking the part amongst the January bulls. Don't miss the opportunity to acquire this breeding piece!

HEIFER BULL! 45N is bred up from one of the best producing commercial Simmental cows we had. After proving herself a great producer in our commercial division, the decision to register her Blitz daughter was an easy one. Blitz was a direct son of the famous CAJS Elegant Force - who has overall progeny closing in on \$1M. Blitz was a no-miss heifer bull and we feel that trait has carried down into 45N with his very conservative birthweight of 70lbs out of a second calver.

Dam:

SIMMENTAL/ANGUS

125N is a big middled, smooth shouldered bull. His mother is a commercial high % Simmental cow that earned her spot to run with the purebreds.

Start getting used to seeing some Hereford offerings in our sale! Nelson is stout, dark red and ready for a herd of his own! When our friends - The Almbergs - asked to put this guy in our bull pen, it was an easy yes. If you've heard of the Lazy HE Ranch, then you know the quality they seek in their herd bulls and know there's a good reason Aydon didn't steer this one!

SVM Equine Therapy keeps our cattle and horses feeling their very best through chiropractic work and PEMF therapy!
