President's Message

On behalf of the Keystone Simmental Association, and our Keystone Konnection Sale group, I am pleased to Welcome you to this years sale! The cattle futures are still as exciting as ever and we are looking forward to sharing another strong class of bred and open heifers with you.

With a year that has been nothing short of difficult on the grain industry and so many families striving to get to the finish line, I would like to share my sincere support to you. But tough times as we all know, brings out the strengths and gratification for so many things we are thankful for. And with that, I am proud to be a member of an industry that truly values and understands what it means to believe in each other while whole heartedly appreciating a great neighbour.

This years sale offering may be a little smaller than years past, but not a shortage of quality defined Simmental females that will continue to reflect the Keystone Konnection Sale for the foundational purpose it was created on.

I would like to wish previous consignors well in their endeavours, as well wish great milestone sales the best of success.

We are very excited to have the entire team at "Atlas Livestock Marketing" manage our sale! A group of veterans in the industry who know the entire Keystone Konnection group well.

If you have any questions about this sale offering, please reach out to any of the Atlas team!

Final note, we are thrilled to announce our 2026 Commercial Producer of The Year. Congratulations to "CRH Farms" of Harding MB. The Hunter family has supported the Simmental breed for many years and has been recognized for it.

Thank you to all of our past bidders and buyers. We look forward to hearing from you and seeing you very soon.

Brodie McColl

RED, BLACK & FULLBLOOD BRED HEIFERS - HEIFER CALVES

Atlas Livestock Marketing Welcomes You!

This is one of the longest running consignment sales and as we approach 50 years, Atlas livestock marketing is very grateful and excited to be a part of it. The commitment from the long-time breeding establishments as well as the new members is what makes a sale like this work. This is a great mix of livestock breeders and an exceptional set of cattle on offer.

The powerful set of bred heifers are second and none. Females that are a great representation of the Simmental breed. Females that could very well be herd builders and foundation genetics in the industry. The select group of open heifers is equally as powerful and will definitely have their place in the industry as they mature in the mama cows.

So, whether it's a bred heifer or a fancy open heifer, you are searching for the 48th Annual Keystone Konnection has it. The quality runs high and is second to none. These cattle are right for the times and right for the industry.

On behalf of the team at Atlas Livestock Marketing and the group of consigners we invite you to Brandon, Manitoba on Tuesday, December 1. In the event, you are unable to attend but would like to purchase cattle give one of us a call on the Atlas team, and we will go over the cattle with you and answer any questions you might have. You can purchase through our highly trusted and confidential order buying service.

See ya sale day!!
Darren

Brodie, Stacey, Kolbie and Sierra McColl

We're excited to present three breds and four open heifers in this year's event.

Our Red females are sired by our herd bull IPU Betts 30J—a sire we consider one of the most successful and productive to ever walk our pastures. All of our Black consignments are sired by NAC Monument 61L.

Our Open females are picture-perfect, showcasing style, depth and excellent disposition. They are naturally eye-catching and refined-ready for the show ring. The four open heifers have been well prepped for the show halter-ideal for anyone seeking prospects for 4-H or the junior show circuit.

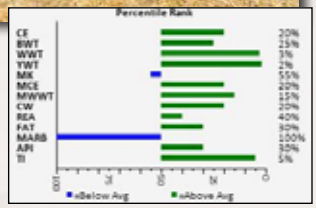

All heifers are up to date with their vaccinations and Ivomec.

We welcome you to visit our yard ahead of the sale to view the heifers in person, and we're happy to answer any questions you may have. As always, thank you to everyone who has shown interest in our program over the years. Your ongoing support means the world to us!

- 17N is a polled, red, Powerhouse "Betts x Westcott" heifer that is long, wide topped and big barreled.
- Her full sister sells with the opens as SBSF Pepsi 27P. Another impressive female.
- "Betts" has done a tremendous job for us over the years. He has added lots of performance, style, milk & good maternal traits to his offspring. We sold Betts to a good Purebred/Commercial producer last year so take advantage of some of his last offspring to be offered for sale.
- "Chiclett" is away above breed avg's in Weaning & Yearling Wts., Milk, MWWT, CW & Rea. She had a 99 lb. BWT and a impressive 808 lb. WWT. 17N ranked 1 out of a group of 21
- Being bred to our New, "Ultra/Hval Tommy Gunn 32L x SVS Tucoon 841F" bull ; Erixon Tommy Gunn 166N should result in an exciting calf for her new owner!

Service to Erixon Tommy Gunn 166N, Reg. # PG1504377 on April 10th, 2026. Exposed to same til May 24th. Preg checked safe to April 10th date.

- Black Magic is a polled, "Monument x Double Bar D Rambler" daughter that displays lots of length, a wide top, is deep ribbed and big framed. Nac Monument was our pick of the bulls at Northern Lights bull sale. Being out of their show cow NAC Sunset 36D was a bonus. He has proven to calve easy & add length and pounds to his offspring.
- 28N's dam, 104F has been a constant producer backed by the Mar Mac Southern Belle cow that has done so well for us. We have sold & retained many females off her in our herd. She was the pick of the barn by the Keystone Consignors and the high selling bred for $10,000.00
- A good, black, polled "Blaze On" son off 104F sold in the Premium Beef bull sale in 2024 to Kevin Griffith, Oak Lake, MB.
- This heifer has great Weaning & Yearling EPD numbers, Milk & MWWT, cw & rea above breed averages. She had a moderate 94lb. Bwt., Weaned off at 775lbs and ranked 3 out of a group of 21.

AI'd to CMS Strutter 126J, Reg.#BPG1353739 on March 29th, 2026. Then exposed to Perks Timber Wolf 44K April 22nd til June 8th, 2026.
Preg checked safe to CMS Strutter 126J on March 29th

- This black, polled, "Monument x Sochi" bred heifer is smooth, moderate in size, wide topped and deep ribbed
- 36N is a broody heifer that displays great bone structure. She will be the easy doing type. She had a modert 90lb. BWT, 678lb. WWT and a impressive 958lb. YWT
- "Country Girl" is sired by our Monument bull that has proven to calve well, add length and performance. She is also backed by our "Sochi" bull that was a calving ease specialist, produced beautiful uddered, moderate framed females that were well sought after.
- This heifer has a real good set of EPD's and should do real well for her new owner.
- Being bred to our new Tommy Gunn bull and quite possibly having a bull calf for her new owner is exciting!

Service to Erixon Tommy Gunn 166N, Reg. #PG1504377 on April 7th, 2026. Exposed to Tommy Gunn March 28 to May 24th.
Preg checked safe to April 7th date.

Erixon Tommy Gunn 166N
Service Sire to Lot 3

- Here is a red, polled, “Betts x Westcott” heifer that is moderate in frame, flashy & smooth fronted. A good 4-H project candidate.
- “Bodacious” weaned off her dam on Sept.20th at 738lbs.
- A full sister and our high selling bred heifer “SBSF Lucious 22L” sold to Perking Land & Cattle in the 2024 Keystone Konnection sale.
- Her dam, 21J has been a good, constant producer with a beautiful udder.
- Another good “Betts x Westcott” bull sold off her in the 2025 Premium Beef Bull Sale to Robert Glover from Ontario

- Precious is a polled, black “Monument x Boundary Wyatt” heifer out of a top notch producing cow 24G. 24G produced our $14,000.00 bull that sold in our 2026 Premium Beef Bull sale.
- 24P has a WONDERFUL TEMPERMENT! A long, flashy, deep, wide topped heifer with a large frame & big barrel.
- She had a nice 90lb. BWT and weaned off her dam at 830lbs. on Sept.25th. A heifer with above breed averages in all but 2 areas, and they are just slightly below.
- Help yourself here guys…. she too would make a great 4-H heifer being so docile & having the halter breaking already done.

- Another dark cherry red, polled "Betts x Westcott" heifer that is deep, long and wide
- "Pepsi 27P" is a full sister to our bred heifer "SBSF Chiclett 17N" in this sale that sells as Lot 1.
- This heifer came easy with a 87lb. BWT and continues to develop well.
- 27P's percentile rankings are above breed avg.'s in WWT, YWT, Milk, MCE, MWWT, CW &Rea
- Her dam, 37K is following in her dam, 712Z footsteps, who has proven to be very fertile, is a long time producer, calves extremely easy and produces calves that grow really well. A cow with a nice tight udder & small teats.

- 41P is a polled, black "Monument x Romano" female that is eye appealing, long, flashy, smooth and well muscled.
- A different pedigree here with her dam being sired by our good producing Romano bull.
- "Honey" had a 84lb. Bwt. And an impressive 826lb. weaning wt. on Sept.25. She ranked 1 out of a group of 7
- She should be a easy doing female. Her Weaning & Yearling weights are impressive.
- If you're looking for a showy, fancy 4-H heifer, Honey might be just the one!

Jeff & Erin McRuer and Family

Fall sales runs are back among us for another year and we are happy to be back at the Keystone with a great group of consigners and a new marketing team with familiar faces. We are pleased to be back for the third year with some bred heifers to showcase. Big thanks to all those that showed interest, bid and bought our heifers last year! What a year 2026 has proven to be — bull sales were hot in the spring seeing record highs and then the weather decided to send everyone for a loop. We started off very dry in the spring to be overtaken with a very wet June and hot July - this pattern seemed to carry out into harvest dropping plenty of rain on the farmers while trying to get the grain in the bin. We are thankful its over and the crops are off but our corrals are sure soggy! This summer we got to celebrate the wedding of our daughter right here on the farm and we couldn't be prouder. Please have a look at the heifers we have on offer for you and if you have any questions don't hesitate to get a hold of Jeff or myself or even better come for a tour of them right here at home before sale day.

Jeff and Erin

This heifer caught the eyes of both Darren and Cody on the pasture tours this summer — so she's making the trip to town. She is a well balanced heifer developing a tidy square udder. Jayce showed her dam through our 4H program and her grand-dam was the pick of the bred heifers at the workman dispersal, so the cow families behind this heifer are top notch. She is bred to our new calving ease heifer bull we purchased from Westway Farms last year - check out his EPDs ! Homo-Polled

HOMO-POLLED. HOMO BLACK
A very feminine Jackpot daughter coming from a bullet proof dam. 63C has been a consistent cow on our farm that has caught AI every year - we have a full sib still on the farm so Jeff let this girl go to town. She is bred to an exciting homo-polled, homo-black calving ease sire from Circle G Simmentals.

AI'd KKH Hay City 844M April 13 (due Jan 20), exposed to CRF 83L April 20 - May 29
Preg checked safe to AI

HORNED NON-DILUTOR
This open heifer's maternal sister sold at the Keystone last year as a bred, to Silver Lake Simmentals. ML 6018P is a typical Jenner daughter. She is a deep bodied, lots of muscle, and an easy keeper. She is setting up a good udder. We have kept many Jenner daughters in our herd. The dam APS 18H has a great disposition. Her success sired to Jenner has destined her for the donor program and will be bred to Silver Lake Jenner 9J.

Silver Lake Jenner Progeny

Maternal Sister to Lot 12

Maple Lake Wilma 2266 - Dam of Lot 13

POLLED
This female is very long bodied, clean fronted and feminine like Tycoon. She has a quiet disposition and was showed this summer and at AG X. Her dam is our donor dam, a direct daughter of Wheatland 786T. Her progeny always rises to the top. Her pedigree has three generations of donor dams. She has given us 200 embryos, sired by 9 elite sires. 2026 we had 22 calves born from these flushes. She is a 2012 model that is still top producing and sound. She has six sons in this years bull line up.

We would like to welcome you to the 48 th Annual Keystone Konnection Sale; a fun group of progressive producers to work alongside that always commit their best. Also this year we are looking forward to working with the boys of Atlas Livestock. We are once again very excited to bring to town a group of heifers we think highly of; the Keystone sale is always where we skim off the top of our heifers to bring town for your appraisal.

With cattle prices holding in there we are looking forward to a good run ahead for producers. All the heifers were pulled in off pasture on the 27 th of September and have been on a 14% pellet as well as free choice hay. The heifers are on the entire Phizer Gold herd health program along with regular ivomec treatments. The breds will have their first shot of scourguard prior to sale time.

Don't hesitate to stop by the ranch ahead of sale time to view the girls or call if you have any questions about the offering. Looking forward to seeing you all December 1 st at the Keystone!

Greg

Here's a beauty of a heifer that really should be staying home. She is a nice mix of calving ease and performance with the likes of Redhill Burley, Centerfire and; tracing back to the legendary Bodybuilder on the Grand Dam's side. This girl has been a shining star since day one as a calf; you won't find them any longer or easy keeping with a blaze on her face to boot. If you are looking for longevity to add to your cow herd; we just retired her Grand Dam at 11 years old this year. Udder structure, length and performance are all key factors on the maternal side here. Bred for a mid February baby to the Circle G Merit 139L bull this should make for exciting results.

A.I bred to Circle G Merit 139L #1485763 on May 6/2026
Ultrasound safe to A.I on August 11/2026.

Circle G Merit 139L - AI Service Sire to Lot 16 and 18

KBHR Charger K102 - AI Service Sire to Lot 17

Here is a tanky, dark cherry red daughter off the Liner bull. These will be the first daughters to sell off of him; he stamps them very consistently as far as length, dark red colouring and makes them quite angular and tidy up front. She is out of one of our consistent producers the 13H cow who is a big, deep female with lots of volume and a picture perfect udder. The Grand Dam our matron KASK 340A cow was just retired this fall at the young age of 13 years; her udder was as nice as a two year old heifer yet. Longevity, productivity and udder quality run deep in this cow family.
A.I bred for an end of January calf to the KBHR Charger K102 bull who we have been happy with on the calving ease end but yet the calves are very growth.

MAF CF Tara 188D - Dam of CSC Red Liner 58L

Another Red Liner daughter; I think if you analyze the two half sisters you will find the consistency he puts into them. Again, another heifer with a great amount of length, volume and a nice tidy front end. Maternal and udder quality runs deep here with the likes of the flush cow MAF Tara 188D on the top side and the dam CSV 42G. The Dam of this heifer has annually produced something for the bull sale or given us a good one to retain in the replacement female pen, hence why we have decided to let this one go. Both Grand Dam and great Grand Dam stayed in production with the herd until 13/14 years old. Bred again to the Circle G Merit bull for February, this should be a good combination.

CSC Red Liner 58L - Sire of Lot 17 and 18

19

This heifer is just like her mother when it comes to volume and depth; lots of it. Her genetic make up is solid with the likes of Cobra and Mountain. The Grand Dam of this heifer was purchased right out of this same sale a number of years ago! The decision on her coming to town was not an easy one, but her mother has given us another heifer to retain this year so that opened the option to put this one up for sale. A.I bred to the KBHR Charger K102 for end of January, you can sleep easy with the calving ease built into this pedigree.

We brought you another DMJ Cobra daughter to evaluate in the black version this time. A nice tidy, angular heifer here sporting the badly money stripe on her head; a very mellow type of a heifer when it comes to temperament. She looks to be setting up a nice udder. Her Dam; a Champs Bravo cow we just parted with last year at the age of 12.
A.I bred to the black calving ease bull KBHR Bold Ruler H152 for a February 1st born, should be exciting results; quite possibly a baldy calf!

KBHR Bold Ruler H152
AI Service Sire to Lot 20

4H and Junior members look here, if you want an exciting flashy heifer to hit the show road with this summer. Again another difficult decision to let this one go, but we have a full sister from the year prior in the full black version calving this coming year; opening her up to be on offer. This Prairie Girl is out of one of our tankiest, most productive no miss cows that we have on the place. Her Dam has a beautiful udder with milk for days, and always rebreeds back at the top of the herd yearly AI. Any of the offspring in this cow family have been great; this one out of the RJY Merit bull has matron cow written all over her future! Lots of power and performance here. Don't pass this one by; a big growth, fancy heifer. Her half sister, a baldy bred out of this cow sold to the Kostenchuk's through this sale in 2022.

Broken C Simmentals is excited to be first time consignors to the Keystone Konnection sale this year, we are joining some of the very best Manitoba breeders to host the 48th Annual sale. Broken C Simmentals raises Simmental and Sim/Angus genetics with the commercial breeders in mind, focus on sound and productive females at our base. This year we feel we are bringing one that represents what we are trying to accomplish. We have been building up our female base for the past several years and haven't marketed any females until now.

We farm 5 minutes southeast of Brandon where we have both commercial and registered cattle. We would be more than happy to show you our young program and answer any questions you may have.

Cade

HOMO POLLED BY PARENTAGE

Here is a heifer that just flat out works it, a free-flowing animal that catches your eye from all the angles. She is long spined, structurally correct and great temperament coming from a strong cow family. Stemming from an extremely sound cow family that is known around the farm for its extreme fleshing ability and by the looks that has continued with this heifer. The dam is a moderate framed and tidy uddered female that has been very productive, including a heifer that has been retained and a bull selling to Massinon Farms last spring. Crossed with the popular Walk the Line has resulted in added frame, performance and extension.

To start, we'd like to thank the people that have supported and showed interest in our program for the past 3 years. We also look forward to spending time with our fellow consignors, a great group of people.

The open heifers we have on offer this year are both off daughters from our flush program. Some of the same genetics that made our bull offering so successful at the Mac Mac bull sale in March.

Look forward to seeing everyone at the 2026 Keystone Konnection Sale.

Tyler and Kim

POLLED, BLACK BLAZE FACED PUREBRED
A correct, easy keeping heifer with birth and performance EPDs well above breed average, and who comes from a cow family that consistently produces. We sold a maternal sister through this sale a couple of years ago, have one in our cow herd, and another in this year's heifer calf pen. We have also sold two maternal brothers through the "83 South Simmental Bull Sale". The service sire's EPDs are in the top 1% for birth ,30% for performance, and25% for milk.

Bred AI April 16, safe, to WS Enhancement 25H - due Jan 27

Welcome to the 48th Annual Keystone Konnection Sale!
We are pleased to be part of this historic sale once again alongside a great group of fellow breeders and cattle producers. This year, we are offering two open females from our maternal-focused program, featuring cow families built to raise the next generation year after year. Both females are backed by easy-keeping, low-maintenance cow families that have proven themselves to be dependable, consistent producers in our herd.

Please feel free to contact us with any questions. We look forward to seeing everyone on sale day!

The Thorgilsson's

POLLED
Goes back to our Twin Brea 200Y cow family. Grand dam 200y was a no miss cow who could really throw the frame on her calves just the same as 5P's Dam 24G. Pandora comes out of our new walking bull, Bert's NR Matteo 13M who has just given us a very consistent first calf crop with some half sisters just like 5p staying on the farm. With her 142.2 yearling indexing weight she will make a big cow if she's anything like her mother.

Bert's Matteo 13M - Sire of Lot 27

A sweet black heifer whose full sib, JFRS 1N, sold in last year's sale to Kade Coupland and Red Top Livestock. Another Justified 62k x Betts. Across that has certainly worked for me. My Bets cows are sound, easy keeping, hardworking females. Homo polled by parentage.

We are thrilled to be returning to the Keystone Konnection Sale and are grateful for the opportunity to showcase another selection of females from our growing Simmental program. Our focus remains on breeding traditional fullblood Simmentals that combine maternal strength, structural soundness and performance, with the commercial cattleman always in mind. This year's offering is particularly exciting for us, as both heifer calves represent the very first calf crops from two of our young walking herd sires, Cherry Creek Asher 7M and Silver Lake Creed 981L. Both females are polled, and we couldn't be more impressed with the quality and consistency these young bulls are bringing to our program. As our breeding decisions begin to come to fruition, it's rewarding to see our vision taking shape. We believe in building cattle that are not only attractive to look at but, more importantly, functional, productive and built to last. We would like to extend a sincere thank you to the Atlas sales management team for their hard work and dedication in putting together this event. It is an honour to present cattle alongside such a respected group of breeders, and we are grateful to be part of it. We look forward to seeing you in December to evaluate this great set of cattle!

This dark cherry-red female is one we're particularly excited to offer! She's got tremendous length of spine, an attractive, feminine look and the kind of presence that catches your eye. Sired by our walking herd bull, Cherry Creek Asher 7M, a Virginia Radison 5Z son, she is a standout from his very first calf crop. We couldn't be more impressed with what Asher has produced in his first year, consistently stamping his calves with that rich, dark cherry-red colour and exceptional length. To top it off, this heifer is halter-broke and has been a pleasure to work with. Whether you're looking to add her to the show string or develop her into a productive, functional brood cow, we believe she's got a bright future ahead of her!

POLLED

I've had a soft spot for this heifer right from day one! Affectionately known around here as "Peaches," she's the kind of female that's always been good, just peachy! Her dam was purchased as a bred heifer from Maple Lake at the 2024 Keystone Konnection Sale and has quickly proven herself to be an exceptionally maternal female, fast becoming a keepsake in our herd. On the sire side, Silver Lake Creed 981L is an absolute powerhouse of a bull. We purchased him with performance in mind, and he's delivering right on cue! Peaches brings together that maternal strength and performance in an attractive, well-balanced package. Halter-broke, polled, and ready to go to work, we think this girl has all the makings of a tremendous brood cow. Check out this peachy combination!

Silver Lake Creed 981L - Sire of Lot 32

Apparently wanting to keep every fluffy eared heifer we raise isn't a sustainable business model. Kinda rude and unfair, but here we are. We're headed into the big city to the 48th Annual Keystone Konnection with two girls from the heart of the program. Around here, I like my Simmis with the presence of a Victoria's Secret model, a little extra chrome, and a back end eloquently described by a certain Queen song. These two are no exception. Two fancy females, one tough decision to sell them, and absolutely no buyer's remorse.

Prosecco might be named after the bubbly, but she's got the build of the whole damn bottle. There's so much to love about this heifer, she's deep, soft sided, and powerfully built, yet remarkably athletic in her stride. She covers ground with ease and moves every bit as well as she's made. Prosecco is the genetic combination of my 2 powerhouse families at Reign, the Sabrinas and the Red Hots. Another member of the Red Hot family has graced the Keystone Sale ring, selling to Crocus Simmentals. There's a reason we're so attached to this cow family, and females like Prosecco make it awfully hard to let another one leave the yard.

They say money can't buy happiness, but it can buy Prada, and that's pretty close. Prada is every bit as stylish as her namesake. Ultra-feminine, extended through her front end, with an elegant stretchy look and wears it effortlessly. This kind of length and style passed into progeny is the sort of genetic investment that never goes out of fashion. Or tell your wife you bought her a Prada for Christmas. She gets designer, you get a farm write off.

Terms and Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Atlas Livestock Marketring reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Atlas Livestock Marketing. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Atlas Livestock Marketing. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Atlas Livestock Marketing and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES – Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE – Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS – There is an additional charge (approximately $300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Atlas Livestock Marketing. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS – All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.
EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

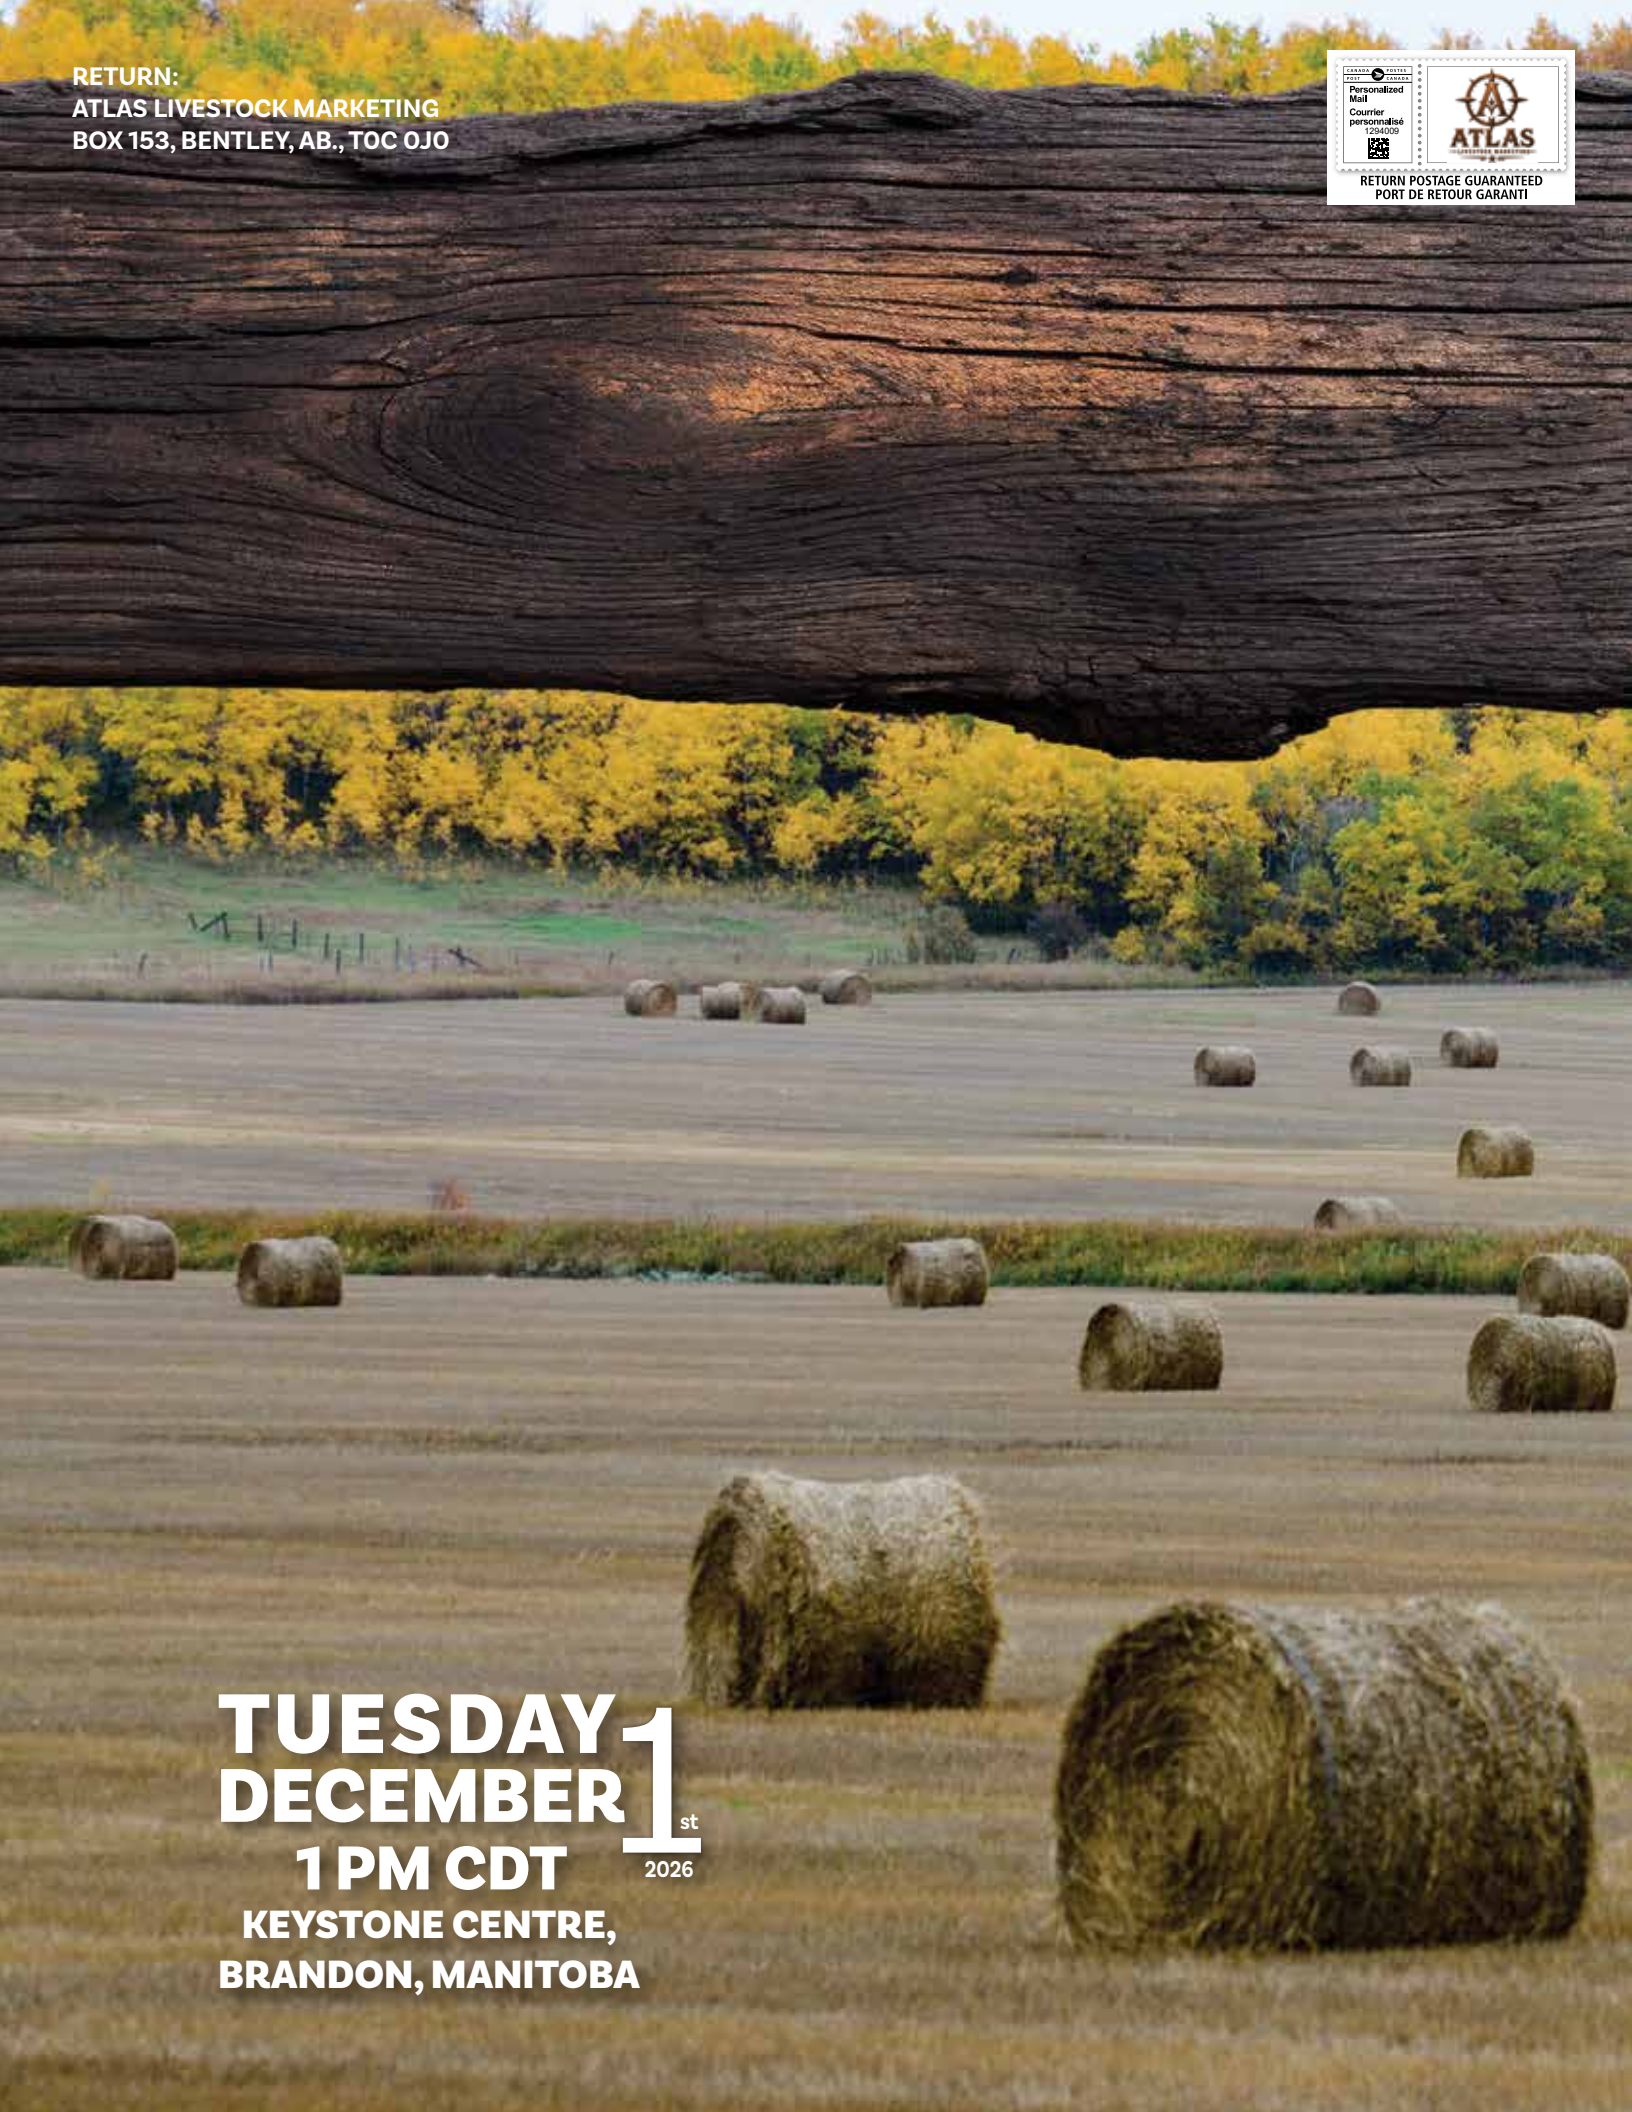

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Atlas Livestock Marketing. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN – Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Atlas Livestock Marketing. IS AGENT ONLY - It is to be clearly understood that Atlas Livestock Marketing. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Atlas Livestock Marketing. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
