Bid online through DLMS
www.dlms.ca

Insurance:
Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

Auctioneer:
Danny Skeels 1(403) 783-1217

Announcemets:
All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

US Buyers:
There is an additional charge (approximately $300.00 Us dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/ testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

Health:
It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

Certificate of Registry:
A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of the certificate in any other association.

Welcome

TO THE LAKEVIEW SIMMENTAL FALL FEMALE SALE

2026 has been one of the best years for the cattle business. Rain in April and May resulted in a hay crop that we haven't seen in years. The cattle market is still strong. It is a great time to be in the cattle industry.

The service sire SVS Raptor 91N is homo polled & has very high calving ease numbers. He bred 32 heifers and only missed two. Those are pretty good numbers for a yearling. I have been using homo polled full fleckvieh (pff) bulls and a lot of these heifers are several generation polled breeding and could be homo polled.

Calving is twice a year at this farm. One group is born in Jan. And Feb. And a second group in Sept and Oct. The fall calves are born when the ground is warm which helps eliminate navel infection, scours or pneumonia. Flies and mosquitoes are not a problem in the fall either. These calves spend the winter with their mothers and do very well.

I have been raising simmental cattle for over 50 years, getting rid of bad udders and bad dispositions. I have put together a group of top end heifers for this sale. I look forward to seeing you the end of november.

Curtis Mattson

WELCOME

Here is a great opportunity to acquire highly productive cattle in a sale that knows how to produce cattle that pay their way. A good cow earns her place every year as she gets out and travels, raises a calf you're proud to bring in at weaning and breeds back to do it all again. That's the kind of cow Curtis Mattson has spent more than five decades breeding at Lakeview Simmentals, and it's what we appreciate most about the program behind this Production Sale.

The pedigrees at Lakeview are worth taking the time to study. Curtis has made polled Full Fleckvieh Fullbloods a cornerstone of the herd and has carried that Fleckvieh influence into his black polled half-Fleckvieh purebreds. As you work through the catalogue, spend some time on the dam side. That's where you get to know the cow families Curtis has built around and see how those genetics have been carried forward. Whether you're looking to add a polled Fullblood female or bring more Fleckvieh influence into a purebred program, Lakeview offers a clear breeding direction backed by years of selection. These are hard-working cattle, and that's where we see their real value. Good feet, sound udders and the ability to hold condition while raising a strong calf are the traits that keep a female in production. For the breeder looking to raise herd bulls or keep daughters at home, there's a lot to like about buying from a herd where those same traits matter day in and day out.

Our Bohrson Marketing team is pleased to work with Curtis and invites you to join us near Meacham, Saskatchewan, on Sunday, November 29. Take the time to visit with Curtis about the cows behind the pedigrees. If you can't make it to the sale, give any of us a call. We'd be happy to talk through the offering and help you find cattle that fit your program.

Best regards,

The Bohrson Marketing Team

Terms & Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. The right of property shall not pass until after settlement is made.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.
