Lacombe Research and Development *Complete Cattle Dispersal Sale*

Welcome to our Complete Cattle Dispersal

Welcome to the complete cow herd dispersal for the Lacombe Research & Development Centre (LacRDC). Offering these cattle at public auction supports continued growth of the sector by providing producers access to quality cattle that can contribute to herd growth and productivity. In addition to the offering in these pages, LacRDC will be sending 20 bred heifers, 30 bred cows and 50 open heifer calves to the Lethbridge Research & Development Centre (LethRDC) to begin a herd there. This new herd at LethRDC is part of AAFC's on-going commitment to supporting beef research in Canada.

The cow herd on offer here today has been developed with care and attention. Our cows function and produce under "real world management" and in "real world conditions." No open cattle are kept, no feet are trimmed, no creep is fed, our culling program is very strict. We are constantly using the environment to apply pressure to our genetics. The cows graze for 240-250 days a year, and we seek to implement genetic progression to strengthen attributes in our herd that excel under that management.

Our cows calve in February/March and go to grass June 1st. We wean the 1st week of September and cows go back to grass, or winter cereal until mid to late October when we move onto cereal swaths. The cows graze swaths with protein supplement tubs (during late gestation) until they are brought in to the yard to ready for calving in late January. This responsible feeding and development program along with the implementation of a strict 45 day breeding season has separated the wheat from the chaff, and the results are here today in these pages.

We have always selected sires with the goal of raising moderate framed, easy fleshing females that thrive under low input responsible management. Fertility, feet, udders and temperament are maternal traits we continue to try and improve. Over the past 10 years we have also added above breed average carcass characteristics as a requirement of the bulls we utilize. Science has taught us that carcass characteristics are moderately to highly heritable and by adding this requirement to sire selection, we have seen measured improvement in the cooler.

The females on offer here today have been derived mainly from a few very strong purebred cows that were transferred to LacRDC from the historic Onefour Research Station some 30 years ago. Those cows along with a few key open heifers purchased from Angus seedstock industry 18 years ago provided the foundation for the females presented here today. We place a great deal of emphasis on cow families, and we value and retain the daughters from our top cows. The culling has been done. We have a lot of faith in the cattle we offer in the pages that follow.

Please consider this your invitation to join us on December 9th in Lacombe AB, to attend our sale. Please feel free to reach out to myself or any of the staff at OBI to answer questions about the offering or organize a tour of the cattle prior to the sale.

Sincerely,
Cletus Sehn
Farm Manager
LacRDC

Sale Information

TERMS OF SALE

The terms of the sale are cash or cheque, payable at the sale location. E Wires or Transfers will be sent to OBI Livestock Ltd. that night or day after the sale. No Cattle will leave the facility until full payment has been made.

TRUCKING

No cattle will leave the facility sale day. Again, all cattle must be paid for in full to be released to the new owner. Once payment has been received, you can arrange trucking from the LRC or if you need trucking help, we will assist you.

VIEWING OF CATTLE

The viewing of cattle at the Lacombe Research and Development Center can happen any day leading to the sale; call ahead please to Cletus.

Cattle will be displayed in their groups from Monday December 7 to Sale Day on the 9th. All cattle will have Ear Tags with Lot Numbers corresponding to the sale catalog.

BIDDING

All animals entering the sale ring will be sold to the highest bidder. The Females will sell in groups corresponding to the Lot Number and the Herdbulls will sell individually.

DISPUTES

In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision of all disputes is final.

ANNOUNCEMENTS

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to any such announcements.

BREEDER'S GUARANTEE & PREGNANCY INFORMATION

As this is dispersal, all females will sell with no further guarantee. All serviceable age females will have been pregnancy examined by an accredited vet twice.

MATURE BULLS SELLING

The Mature Bulls selling will have passed a semen test prior to the sale, and the semen papers will be at the sale for insuring these bulls.

OPEN HEIFERS

All open heifers have been palpated.

LIABILITIES

All people attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur.

5707N Sire: SILVERTOP JACKPOT 449J Dam: 2720K (SEE LOT 15)
SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot **51**
3 Breds

- Three more Simmental sired ½ sib's all by Silvertop Jackpot 449J
- We have 449J daughters in production for assessment (SEE LOT's 20 & 21)
- 2 of the heifers have dams in the sale (SEE LOT's 8 & 15) and the 3rd one (5115N) was raised by a 13-year-old cow who weaned a quality heifer calf again this fall that is headed to Lethbridge. Longevity is built in here.

5059N Sire: KZ WALK THE LINE 27L Dam: 1025J
SERVICE: EXPOSED TO CHAPMAN ROBUST 2506K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5077N Sire: KZ WALK THE LINE 27L Dam: 0147H (SEE LOT 8)
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MARCH.

5151N Sire: KZ WALK THE LINE 27L Dam: 0107H
SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5152N Sire: KZ WALK THE LINE 27L Dam: 1090Z
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5158N Sire: KZ WALK THE LINE 27L Dam: 005C
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot **52**
5 Breds

- 5 ½ sib's sired by KZ Walk the Line 27L. We decided to purchase a Walk the Line son after seeing how well the bull bred everywhere he was used
- Length of spine translates into calving ease with more pounds at weaning
- The 5152N heifer is the last daughter out of 1090Z who at 14 years of age weaned her last calf this fall
- Longevity and predictability should be built in here

Black Breds

5136N Sire: KZ WALK THE LINE 27L Dam: 1106J (SEE LOT 11)
SERVICE: EXPOSED TO CHAPMAN ROBUST 2506K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5154N Sire: KZ WALK THE LINE 27L Dam: 1126Z
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5029N Sire: KZ WALK THE LINE 27L Dam: 1034J
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 53
3 Breds

- 3 Simmental sired ½ sib's by our KZ Walk the Line 27L bull purchased from Kreo Ziemmer
- All 3 carry early service (2 to the LLB Gable 31N and 1 to the Chapman Robust 2506K)
- These 27L's have been favourites of our staff from day one, long spined, quiet natured, great hair best describes these 27L daughters

5050N Sire: BAR-E-L UNIVERSAL 171G Dam: 1070J
SERVICE: EXPOSED TO CHAPMAN ROBUST 2506K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5069N Sire: BAR-E-L UNIVERSAL 171G Dam: 2104K
SERVICE: EXPOSED TO CHAPMAN ROBUST 2506K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5076N Sire: BAR-E-L UNIVERSAL 171G Dam: 1093J
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5124N Sire: BAR-E-L UNIVERSAL 171G Dam: 1062J
SERVICE: EXPOSED TO CHAPMAN ROBUST 2506K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 54
4 Breds

- 4 angus sired larger framed females all by the Bar E-L Universal 171G (Brooking Real Estate x Crowfoot Clova 2106Z)
- 171G is the sire to many beautiful uddered females in our program. The J, K, L & M age years contain many, and these N's, I expect, will be no different. With the Rose 1019 cow up tight in the pedigree along with years of dependable Crowfoot genetics, the maternal is sure to be locked in
- All 4 carry early service
- If you like a little more frame and scale in your program without sacrificing maternal, this group fits the bill

Black Breds

5072N Sire: BAR-E-L UNIVERSAL 171G Dam: 2095K
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 55
4 Breds

5081N Sire: BAR-E-L UNIVERSAL 171G Dam: 2120K (SEE LOT 16)
SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5092N Sire: BAR-E-L UNIVERSAL 171G Dam: 0258H
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5134N Sire: BAR-E-L UNIVERSAL 171G Dam: 2112K (SEE LOT 15)
SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5072N

- 4 more Angus sired heifers by 171G, females with moderate frame and uniformity
- 171G was used for many years as he dependably sired the right kind
- Good uddered, good footed cattle with temperament that makes handling a pleasure not an ordeal

5056N Sire: CIRCLE G JEFFERSON 17J Dam: 8069F (SEE LOT 5)
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5105N Sire: CIRCLE G JEFFERSON 17J Dam: 2005K (SEE LOT 15)
SERVICE: EXPOSED TO RED FLYING K PRESTIGIOUS 163K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5137N Sire: CIRCLE G JEFFERSON 17J Dam: 8124F (SEE LOT 5)
SERVICE: EXPOSED TO RED FLYING K PRESTIGIOUS 163K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 56
5 Breds

5083N

5086N

- 5 more Angus sired heifers ready to take home, calve out, and make the transition into your program
- Note the quiet nature of these heifers
- These are the kind that turn into the ones you like to show to your neighbors
- Managed on cereal swaths with plenty of exercise, setting them up for future success

Black Breds

Dam: 8004F (SEE LOT 4)

SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 57
4 Breds

5121N

- The 1st set of daughters sired by the 2506K bull purchased from Chapman Cattle Co. in 2024. 2506K graced the cover of the Chapman Cattle Co. catalog that year and still exhibits the type that warranted his selection
- These daughters illustrate exactly why the bull was purchased, maternal excellence in abundance, with bulls like BC Robust 0807, Crowfoot Equation & Memento 0505X providing predictability
- At the time of picture/video these 4 heifers were within 50lbs of each other
- The 5121N heifer, although not a direct 2506K, carries the same lineage as the others with Robust and Memento. This heifer has been a favourite this summer, drawing attention from some of the most critical cattle men and women. Her dam 8004F has been a solid producer and still looks very youthful (SEE LOT 4)

5030N Sire: CIRCLE G JEFFERSON 17J

Dam: 3147L (SEE LOT 18)

SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5044N Sire: CIRCLE G JEFFERSON 17J

Dam: 3132L

SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5071N Sire: CIRCLE G JEFFERSON 17J

Dam: 8128F (SEE LOT 5)

SERVICE: EXPOSED TO CHAPMAN ROBUST 2506K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 58
4 Breds

5044N

- 4 angus sired 1/2 sib's all by the BC Robust 0807 son from Circle G (17J)
- Their dams (3 out of the 4) are still here and available for assessment
- An incredibly uniform group, within 50 lbs of each other at the time of videoing
- If fleshing ability and maternal traits are important in your program this group should work nicely

Black Breds

5036N Sire: CHAPMAN FORTE 0790 Dam: 2034K (SEE LOT 14)
SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5108N Sire: CHAPMAN FORTE 0790 Dam: 7100E (SEE LOT 4)
SERVICE: EXPOSED TO RED FLYING K LIGHTNING 158M APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5142N Sire: CHAPMAN FORTE 0790 Dam: 0213H
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5145N Sire: CHAPMAN FORTE 0790 Dam: 1125J (SEE LOT 10)
SERVICE: EXPOSED TO RIVER ROCK GRAHAM 5225N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 59
5 Breds

- 5 Angus sired ½ sib's by the Chapman Forte 0790H. 0790H is a blast from the past with Papa Forte 1921 and the famous Donna 714 cow from Larry Coleman up front in the pedigree
- Once again 4 out of 5 of their dams are here for your appraisal, and all 4 of them are the herd building kind.
- The 0790's were some of the favourites of former co-worker Craig Weisberber, Craig always seems to be able to identify the ones that turn production into profit
- Once again, a maternal set, ready to crank out the good ones no matter how you choose to breed them

5025N Sire: CHAPMAN FORTE 0790 Dam: 7098E (SEE LOT 4)
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5038N Sire: CIRCLE G JEFFERSON 17J Dam: 9014G
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

5109N Sire: BAR-E-L UNIVERSAL 171G Dam: 2024K
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5118N Sire: CHAPMAN FORTE 0790 Dam: 8077F
SERVICE: EXPOSED TO CHAPMAN ROBUST 2506K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5139N Sire: BAR-E-L UNIVERSAL 171G Dam: 2046K (SEE LOT 14)
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 60
5 Breds

- 5 Angus sired, chromed up heifers ready for your appraisal
- The 5025N and 5139N are very similar in type to the dams 7098E (SEE LOT 4) and 2046K (SEE LOT 14) respectively. 7098E has a feature heifer calf in the sale as well (SEE LOT 70)
- Maternally engineered for longevity and profitability

Black Breds

5090N Sire: CIRCLE G JEFFERSON 17J Dam: 9031G (SEE LOT 7)
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE LATE FEB/EARLY MAR.

Lot **61**
3 Breds

5095N Sire: KZ WALK THE LINE 27L Dam: 1110J (SEE LOT 9)
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5135N Sire: CHAPMAN FORTE 0790 Dam: 1015J (SEE LOT 9)
SERVICE: EXPOSED TO LLB GABLE 31N APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

- Mark has affectionately dubbed this set of 3 bred heifers "The Panda's"
- Quiet natured and extremely easy keeping describes this set
- All 3 of their dam's 9031G (SEE LOT 7) 1015J and 1110J (SEE LOT 9 FOR BOTH) are here for your assessment. We believe they are the right kind
- 1110J (dam of 5095N) would be the favourite of co-worker Larissa Lupul.
- Larissa's eye always finds the good ones, and 1110J along with her production record are sure to catch your eye

Herd Health

"The Lacombe Research Centre implements a comprehensive herd health and animal care program developed with Lacombe Veterinary Centre. They utilize extensive individual animal record keeping and the corresponding data to make evidence-based decisions to enhance animal performance. The cow herd and calves are all fully vaccinated with modified live respiratory and 8way clostridial vaccines and receive an internal/external parasite control program. The pregnant cattle have all been confirmed twice with signs consistent with pregnancy. A breeding soundness evaluation, including semen testing, was performed on all the bulls.

Skylar Bieleny, DVM"

Red Breds

5637N Sire: COME AS U R 36G

Dam: 662D (SEE LOT 30)

SERVICE: EXPOSED TO RED FLYING K PRESTIGIOUS 163K APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

SERVICE: EXPOSED TO RED FLYING K LIGHTNING 158M APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5698N Sire: COME AS U R 36G

Dam: 0787H

SERVICE: EXPOSED TO RED FLYING K LIGHTNING 158M APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 62
4 Breds

5642N

- 4 Simmental sired red baldies sired by a red baldy Bank Roll son purchased from Come As U R Simmentals that we walked for a number of years
- These heifers are all goggle eyed and bred up early to Flying K Red Angus bulls
- 2 are bred to 163K, a bull we have used on heifers with great success for years, and the other 2 are bred to 158M, who was also used last year very successfully on heifers
- The dam of 5637N is 662D (SEE LOT 30) she is here for your appraisal and also weaned a quality heifer calves this fall sired by the 200M bull from Mitchell Cattle Co. (SEE LOT 81)
- Lots of longevity and predictability here, all in a chromed up uniform package

SERVICE: EXPOSED TO RED FLYING K LIGHTNING 158M APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 65
4 Breds

- 4 Red Angus sired heifers by Red Allison Sugarloaf 93L. 93L was purchased in 2024 from Allison Farms to add frame, bone and scale without sacrificing the maternal traits that we so highly value. Mission accomplished! These bred heifers sired by 93L would have been the backbone of our red program moving forward. His mother (Bar E L Spring Rose 16Y) is responsible for so many productive offspring and 93L stamps all of her goodness into the females he sires
- All 4 of these heifers are carrying an early service to the 158M bull from Flying K

5615N Sire: RED ALLISON SUGERLOAF 93L Dam: 8582F
SERVICE: EXPOSED TO RED FLYING K LIGHTNING 158M APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

5700N Sire: RED FLYING K PRESTIGIOUS 163K Dam: 3808L
SERVICE: EXPOSED TO RED FLYING K LIGHTNING 158M APRIL 25 TO JUNE 8. DUE EARLY/MID FEB.

Lot 67
5 Breds

- 5 ½ sib's all Red Angus sired by our 163K bull purchased from Flying K
- Brian Hanel advertised this bull as extremely easy keeping and good footed. The daughters are exactly that.
- 163K also possessed well above average CUP ultrasound carcass data to go along with calving ease
- These heifers are dark red, very uniform and all carry service to the 158M bull

Our Staff

Good people make all the difference! We couldn't ask for a better crew and are incredibly thankful for the hard work, dedication, and heart they bring to everything they do.

Oct 6th Avg Wt: 672 lbs Sale Day Weight: _____

- 3 moderate framed Red Angus sired females, a little younger but same quality as the older females
- 158M is dark red, has excellent feet and boasts excellent carcass data, he sells as LOT 101

Red Angus Herdbulls

- Red Allison Sugarloaf 93L is an ET calf purchased from Allison Farms in 2024.
- 93L was purchased to add bone and scale without risk of going backwards with maternal qualities
- 93L isn't the latest pedigree in the industry but rather a sound proven pedigree that has a lot to offer maternally and on the rail
- Good footed and dead quiet, he's been a pleasure to work with, his daughters sell as LOT'S 65 & 66 bred heifers and the LOT'S 82 & 83 open heifers

87 655 4.0 2.2 52 87 8.0 29

- Red Flying K Lightning 158M was purchased from Flying K Red Angus in 2025
- Dark red, with great feet and a very kind nature, he's been an aggressive breeder with good libido from day one
- A lot of factors outside of a bulls actual birth weight go into calving ease. This bull is built right to calve and our females calve to him easily
- Average birth weight on 11 male calves was 78lbs and average birth weight on 9 female calves was 74lbs
- 158M is the service sire on most of the red bred heifers and as an added bonus 158M possesses above average carcass characteristics as well

Black Angus Herdbulls

- Cowtrax Missouri 132M was purchased from Cowtrax Cattle Co. in 2025.
- 132M has that extra hind quarter with good feet, lots of scrotal and great temperament, all desirable qualities in a good stock bull
- He is a son of HF Mastermind 98H and out of a very nice HF Alcatraz 60F daughter
- His service sells throughout and his heifer calves sell as LOT 77

- Chapman Robust 2506K was the bull that graced the front cover of the 2024 Chapman Cattle Co. bull sale catalog
- 2506K has been used very successfully on heifers and has also filled in where needed on cows
- Average birth weight on 15 male calves was 80lbs and average birth weight on 14 female calves was 78lbs (calves born to 1st calvers)
- His daughters in the bred heifer division sell as LOT 57 & 58 and open heifers are LOT 79, and his service sells throughout

Black Angus Herdbulls

- LLB Gable 31N was our pick of the bulls at the 2026 Spring Spectacular Sale at LLB
- 31N is sired by the popular Schiefelbein Gable 311 purchased by Peak Dot in 2022. 311 has sired large groups of calving ease bulls 3 years in a row now at Peak Dot
- 31N exhibits excellent muscle shape with great great feet, large scrotal, flawless temperament and lots of libido
- Many of the black hided bred heifers carry his service and we feel that service is a definite sale feature

- 5225N was discovered by Larissa one day when she was helping the River Rock crew video/picture bulls prior to their sale
- Larissa has a great eye and she identified all of the good that 5225N brings to the table
- Good feet, thickness, shape and easy fleshing with awesome temperament, all words that accurately describe 5225N
- Many of the black hided bred heifers carry his service for what should be quality calves in Feb 2027

Black Simmental Herdbulls

- Circle G Masthead 15M was purchased from Circle G Simmentals in 2025 for his great feet, solid maternal and above average carcass characteristics
- 15M sired heifer calves can be found as LOT 75 & 76. They have a type, the girls call them pork chops, so loose hided and soft made
- 15M himself is a great breeder, shows strong libido and has that quiet temperament we all love to work with
- His service is being carried by many of the black hided J and K age year bred cows in the sale

- KZ Walk The Line 27L was purchased from Kreo Ziemmer in 2024 to add the influence of Mader Walk The Line 92J to our program
- Docile cattle with extra length added performance and above average carcass quality
- The 27L sired females in the sale can be found at LOT'S 52 & 53 in the bred heifers and LOT's 70, 71 & 72 in the open heifer calves
- If you like females with a little more frame, scale and great hair, these 27L's likely are your type

Black Simmental Herdbulls

- For the past few years the girls have been really been keen to add some "chrome" to our program, enter 86N
- Most of you know I come from an Angus background where "chrome" is a lot less acceptable, that said 86N checks a lot of boxes
- Above average carcass, moderate frame, big scrotal, great feet, dead quiet and raised by a quality cow
- His service is being carried by 2nd calvers for what should be exciting blaze faced calves come February 2027

- Once I tore off the band aid and bought one blaze faced bull the flood gates opened up, enter 32N
- 32N ranks in the top 1% for terminal index, top 1% for carcass weight and top 25% for rib eye area. What goes in the soup pot matters.
- On top of the excellent carcass merit this bull was raised by an awesome young blaze faced cow you'd absolutely love
- His service is being carried by 2nd and 3rd calvers and his above average calving ease should see the chromed up calves born with ease

Red Simmental Herdbulls

- Circle G Mustang 76M was purchased in 2025 for his excellent foot quality and his ability to sire carcass without giving up maternal
- Once again raised by a quality dam he transmits the good maternal traits into the females he's sired (SEE LOT 84)
- 76M was used on a large set of 2nd and 3rd calvers as we feel he provides some calving ease without sacrificing performance at all
- If you like those dark red pigmented calves with strong feet and good carcass/muscle his service sells throughout
