

LAZY S RANCH 57TH ANNUAL
BULL POWER SALE

January 31, 2026

AT THE RANCH • MAYERTHORPE, AB • 12:30 PM MST

Red & Black Simmental, Angus & Beefmakers (SimmAngus) Bulls

FED & BRED TO LAST

Welcome....

On behalf of everyone at Lazy S Ranch, we are honoured to invite you to join us at 12:30pm (Mountain Standard Time), Saturday January 31, 2026 at the ranch for our 57th Annual Bull Power Sale.

This year marks an incredible milestone as we proudly host our 57th annual sale. For more than five decades, our family has been committed to producing quality bulls. Stewart and Doreen dedicated themselves wholeheartedly to building a phenomenal cowherd and a lasting legacy, and we are truly honoured to carry that tradition forward. By upholding the values and standards they instilled, we strive to ensure our operation continues to thrive. We sincerely thank everyone who has supported us over the years and look forward to seeing you all on sale day!

Lazy S Ranch is a third generation family farm that makes its living solely from our ranch and cowherd. Producing quality bulls and females takes an exceptional group of cows. 57 years of careful genetic selection has resulted in the outstanding cowherd that we are extremely proud of today. Our females are sound, easy fleshing, deep-bodied, with great udders, feet and disposition. All our cattle are solid coloured or blazed faced for many generations and rank top of the breed for calving ease, maternal calving ease, performance, carcass and high maternal traits. Each year, our top-end replacement heifers are retained, resulting in a young, productive, and highly fertile cowherd. Fertility is extremely important to us - our calving season runs from late January through march with 74% of our cows calving in the first cycle.

We maintain a strong herd health program with a closed herd. The only outside cattle introduced are a select number of herd sires from reputable ranches. We invest in the best herd bulls the industry has to offer and collect semen on our top home-raised sires. We also utilize AI sires, with majority being exclusive to Lazy S Ranch and unavailable anywhere else. Our sale offering includes a large selection of polled, look-alike bull groups designed to add muscle and promote rapid, efficient growth.

Our Bulls are Fed and Bred to Last.

They are raised on milk and grass, with no creep or pampering. After weaning, bulls are started on a balanced TMR growth ration designed to promote growing- not fattening. We do not feed barley.

Our bulls are backed by proven, performance based genetics that set the standard for calving ease, carcass quality, and muscle. No bulls have been sold prior to the sale. Sale bulls will be videoed in January, with videos available on our website (www.lazysranch.ca) as well as www.dlms.ca and www.cattlevids.ca by mid-january, weather permitting. Bulls may be viewed at any time; however, viewing is best after January 20 once lot tags are in. If you are in the area, feel free to stop by, catalogues will be available in the porch. We invite you to come in, grab a catalogue, and check out the outstanding lineup of bulls we have to offer. Lunch and refreshments will be provided on sale day.

We look forward to seeing you Saturday January 31, 2026 at 12:30 p.m.

BULL POWER 2026 WILL BE A 100% VIDEO SALE

We decided to go with a Video sale for many reasons!

- Easier on the bulls
- More controlled temp in barn without doors open moving bulls in and out
- Less help required to run a video sale
- Bulls will be penned same as previous years on west side of sale barn for easy viewing!
- We do all our own pictures and Video for the sale. We do not hire a professional photographer to picture and video the bulls
- We encourage everyone to view the Video ahead of the sale - www.lazysranch.ca, check out the website while you are there, it has a ton of info about the ranch and genetics on offer. If you don't have a good internet connection please call for a USB flash drive stick.

BULL DEVELOPMENT

To our valued customers and potential buyers :

The proper care, feeding and management of a young sire ensures that you will be satisfied with the return on investment. Bulls after weaning where running out in big paddocks where they have lots of room to roam, they where brought into their current feed pens which are good sized pens for picturing in December.

In addition to their regular forage diet, the Lazy S Cow Herd is on a balanced mineral program year round. This is the basis for healthy offspring that do the job year after year. Bull health and viability starts with colostrum they receive at birth and continues through life based on solid nutrition and management programs and practices.

Lazy S Bulls are raised on a balanced forage based Total Mixed Ration (TMR). The goal of the TMR is to give buyers a glimpse of the performance potential of the Bull's offspring, but not to maximize performance of the Bulls. Although maximum performance numbers do look impressive on paper, they are not correlated with longevity of the Bulls. We believe in our long term practice of not feeding high amounts of grain to the Bulls - Barley is never fed to our Bulls.

The Lazy S Bull Ration TMR also is fortified with various proteins, digestible fibres, organic trace minerals, yeast and vitamins, all of which aid in developing Bull's with strong bodies, healthy rumens, good immunity as well as increased testicular development and semen quality. Lazy S Bulls are raised to be well muscled, deep bodied and ready to go to work on the range.

Sincerely
Jamie McAllister, Ruminant Nutritionist

Long dark red Next Century son, that stamps his progeny the same, he has real dark red feet , good footed, big testicals and has a beautifull dam!

Introducing...

The Lazy S Red Simmental Bulls in this offering are multi-generational red and polled... solid colored or blaze face, sired by breed leaders that rank at the top of the breed for calving ease, birth weight, performance, maternal calving ease, marbling, REA and yield grade.

At Lazy S the majority of the herdsire bloodlines are exclusive to Lazy S Ranch and cannot be found elsewhere.

Lazy S Red Simmental bulls are fast becoming very popular among commercial cattlemen seeking an alternative to other breeds of cattle to strengthen performance, marbling, REA, yield grade and maternal power. Lazy S-sired red Simmental genetics will give you that extra punch and increase your gains on grass and in the feedlot.

Homo polled hetero black - real long smooth made bull by the calving ease specialist blk Enticer 254B, real easy going bull from a thick made easy doing dam.

Introducing...

At Lazy S, our Black Simmentals are multi-generational black and polled...solid with a select few blaze face. Birth weights are moderate, calves are born easy and are vigorous at birth. Herdsires are selected for superior performance and maternal traits, fleshing ability, soundness of feet and legs with solid carcass performance. Buyers looking for good black-hided calves that excel on grass and in the feedlot, that marble and yield...Black Simmentals are proven to do just that. They also work extremely well in a crossbreeding program with British-based cows, such as Angus and Hereford - daughters will have retained heterosis and added productivity.

The Lazy S Black Simmentals Bulls in this offering are a tremendous set of bulls, they have great hair coats, they are strong topped with lots of rib and hip, and offer outcross genetics only found at Lazy S. There are a few two star heifer bulls, you will love the way they calve.

Introducing...

Lazy S SimAngus Beefmakers.. CROSSBREEDING MADE SIMPLE! Now more than ever, cattlemen should consider the strengths of utilizing a SimAngus bull(s) in your breeding program. Our SimAngus have demonstrated time after time their ability to add growth, extra muscle and exceptional performance, while maintaining the moderate size, maternal strength, calving ease, and superior marbling and yield grades. Crossing the best of our Red and Black Simmental with Red and Black Angus enhances maternal performance and carcass traits. Notably the largest benefit will be the superb set of look-a-like females you will be creating using this blend of genetics that offer improved reproductive efficiency obtained through heterosis (hybrid vigor) with breed complementarity.

We have created groups of bred alike half and three-quarter brothers in varying percentages, allowing our customers an excellent selection to best fit their management and marketing needs. From straight F1's to high-percentage Angus, or high percentage Simmental-influenced bulls, we have a nice selection for you to choose from... all packaged in a look-alike polled breed group.

Introducing...

At Lazy S our Red and Black Angus Genetics are selected for calving ease, performance, maternal traits and soundness of feet and legs. They have an abundance of muscle, hip and top along with a reputation of exceptional carcass merit. If you are needing heifer bulls, many of these sale bulls have generations of built-in calving ease, top and bottom, and rank in the top 10% of the breed for BWt & CE.
