**BULLS SELL IN CATALOGUE ORDER**

Welcome from **LINES RED ANGUS**

Welcome to the Generation N bull sale. Thanks for taking the time to check out our catalogue and consider our program in your herd bull search. With the record high markets, this years bull crop has the potential to generate the biggest ROI most of us have ever seen. It is about time we got paid. While the prices for feeders is great to see, the replacement females may outsell the steers in the coming herd expansion. Every bull in this offering is designed to sire superior females, which is probably why I end up writing about cows when I try to write footnotes for bulls. Cowherd and bulls are available for tours any day up to sale time. All sale bulls wintered together and were hand fed responsibly on long hay, brown oats and a mineral pack. Wintered in a large field these bulls are athletic, free moving and ready for work. They have never seen creep feed or silage. Hope to see everyone April 9 for good food, hospitality and Excellent cattle.

*Boyd Lines*

Welcome from **CLEAR RED ANGUS**

Welcome to the Generation N Bull Sale. You have many choices when searching for a herd bull and we appreciate that we are one of your considerations. Without our customers we wouldn't be able to raise the cattle and your support in our program is valued by each of us.

In today's cattle market pounds pay more than they ever have. The bulls that we are offering are backed by cows that know how to work for a living and bring in the pounds. Whether you are looking for a bull for cows or a heifer bull with calving ease built in we feel this strong offering has both options covered.

Bulls were developed the same as always with longevity in mind. They are hand fed brown oats and a mineral supplement pellet as well as free choice long hay.

We invite you to join us on April 9th for good cattle and great hospitality.

*The Allin's Cody and Sarah, Reese, Payton & Austin*

I bought Rally as the high selling bull in Moose Creek's 2008 sale. It is hard to believe it was 18 years ago. He was all bull, maturing to 2600 pounds+. He left mouthwatering daughters that set the bar here, some who are still producing. He retired sound after six years natural service, quite a feat for any bull. longtime customers still talk about his sons, correct structure and longevity. Even though he was born 19 years ago, and there has been vast improvement in the breed over the years, if I ever see another like him I am either going to buy him or steal him. His kind don't come along very often. Three sons and one grandson sell.

We flushed 29X to Escalade 318 T for many reasons. He is a foot improver and an udder fixer, with good performance and great maternal traits. Along with birthweight, where we like it. The Dutch Prince of Taber, big Ben Tams, who bred him told me that over the course of 30 years he is the most versatile and influential sire he has used. Timeless genetics with no expiration date.

51K or Haggard as he is known around here, was my pick of a powerful set of Mama Tried sons in Russ Coward's 2023 sale. His calves have exceeded my high expectations. Powerful performance, true angus type and more calving ease than I expected in his calves. Good black feet and the ability to travel and hit his mark has bred true.

Legend was selected as my pick of B-elle Red Angus the Blooms. When I walked in the pen and saw Legend, he was a stand out in the pen. He is made right and catches your eye. When I saw his dam 329A, I knew he was the bull I was looking for. When searching for the next herd bull I wanted to find one from proven genetics and with both his sire and dam still working for Blooms he was a good fit. We are now calving his second calf crop and they are true calving ease cattle. They come easy and still have some growth. Look for his sons to carry on these traits of functional cattle with longevity bred in.

When looking for a herd sire I look for a bull that is made right and can travel. I would like him to be from a proven cow that has a strong production record. Even better if you have a front row seat to it all. Alibi was the lead off bull in the Generation K bull sale. A spot he earned as he was a stand out all along. His calves are stout made and grow with the front of the pack. We are calving his third calf crop and he has bred well on both purebred and commercial cows.

## RED LINES COUNTESS 29X

Red Lines Countess 10K

Red Lines Countess 64G

Red Lines Countess 3A

Red Lines Countess 29X

Red Lines Countess 20P

Red Lines Sheba 82D

Red Lines Countess 17M

Everyone has heard, or has their own story about the mythical little cow that produces like a big power cow. 29X was a "little big cow". She consistently outkicked her coverage, no matter who she was bred to. Big brawny bull calves, and feminine females galore, 12 natural calves, and 25 ET offspring and counting. A true production machine with eight calves catalogued this year and more in the pipeline. Her picture taken in her 14th spring a week after calving first for the third consecutive year, is a testament to her longevity and fertility. Unlike most pictures of big overfed overfat dry donor cows, she is in her working clothes because that's all she ever did. She flushed 46 number one embryos at 14 years of age while raising a big soggy heifer calf. She was smart and did her job raising great calves with no need for human intervention. Between her and her maternal brother Scoof 10D there is near 200 registered progeny in multiple herds. Bid on her sons and grandsons knowing the homework is all done. The steer calves out of them will be scale crushers and the females will be "little big cows". She never misses!

Here is a stylish member of the group of five. Tremendous consistency in these flush brothers.

## CALVING EASE GUIDE

ONE STAR \* mature cows only

TWO STARS \*\* mature cows & 2nd calvers

THREE STARS \*\*\* 2nd calvers & well grown out heifers of the same breed & under supervision

FOUR STARS \*\*\*\* suitable on heifers under supervision

FIVE STARS \*\*\*\*\* suitable for heifers in all situations

Of all the traits that we track in our industry, calving ease is one of the most sought after and researched. Regarding birth weight, while I feel it is important, I believe shape is even more crucial for calving ease. A calf that scales larger, with length and front-end extension, will be delivered easier than a stubby, thick SOB with his head mounted right on his square shoulders that weighs in much lighter. The picture attached is for demonstration purposes only. Both bottles hold the same ounces, but which one would be easier to push into the world?

This bull belongs to our middle daughter. When Boyd and our kids get trading, I stay out of it. Well the kid picked a good one and this bull proves it. His grandma 36x was a no miss cow that produced until she was 14 and has had 5 daughters retained in herd. The Fortune cow family is as strong as they come around here.

*The days that I keep my gratitude higher than my expectations, well, I have really good days.  
- Ray Wylie Hubbard*

A calving ease option to end the sale. He is a good one. Don't miss him.

## *Terms and Conditions*

**TERMS** - The terms of the sale are cash or cheque payable at par at Swift Current, SK. The right of property shall not pass until settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released.

**BIDS** - Every animal entering the sale ring will be sold to the highest bidder A floor price will apply to each animal consigned.

**DISPUTES** - In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK** - Each animal becomes the risk of the purchaser as soon as sold.

**ANNOUNCEMENTS** - Errors discovered in the catalogue will be corrected by announcements from the Auction Stand at sale time and such corrections will take precedence over the printed matter in the catalogue.

**CERTIFICATE OF REGISTRY** - A certificate of registry duly transferred will be furnished to the buyer for each animal after settlement is made.

**BREEDER'S GUARANTEE** - Line's Red Angus and Clear Red Angus have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. A certified veterinarian will have semen tested and physically evaluated every bull. In the unlikely event of a dispute, regular terms & conditions standard with the Canadian Angus Association shall apply.

**ACCIDENTS** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the sales manager, auctioneer nor any owner assumes any responsibility in this matter and disclaims any liability, legal or otherwise, in the event of accident or loss of property.

**LIABILITY** - Purchasers must look to the seller for fulfillment of all guarantees and representations made hereunder.
