

POWER UP Bull Sale

Saturday
March 14
2026

ANGUS - SIMMENTAL - SIMANGUS

AT THE FARM!
Sale Starts at 2:00pm

LONESTAR
 **Angus**

All bulls sell in breeding condition - not feedlot condition. They are developed on a balanced, high-roughage ration in large runs. Structural integrity, soundness, disposition, and fertility are non-negotiables. Bulls that don't travel, don't settle cows, or don't perform are culled - period. Our Farm-to-Plate program allows us to be exceptionally selective, keeping only bulls that prove they can produce cattle that grow, grade, and convert.

The beef business does not stop at the ranch gate. The retail consumer - the housewife standing at the meat counter - ultimately decides the value of every calf born. Her buying power, expectations, and confidence in beef quality ripple backward through the entire beef chain, influencing carcass premiums, feeder prices, and ultimately the value of the cow herd. Quality on the plate is what sustains demand and keeps dollars flowing back to the ranch.

In 2026, the risk isn't paying too much for a bull - it's leaving money on the table with genetics that don't perform.

With the many bull-buying options available today, thank you for choosing Lone Star Angus. We appreciate the opportunity to be part of your program and are proud to offer a set of profit-driven, performance-proven Angus bulls for 2026.

Welcome to the 2026 Lone Star Angus Bull Sale

The beef business continues to reward producers who make disciplined, performance-driven decisions. With the Canadian cow herd at historically low numbers and demand for quality beef remaining strong, opportunity is real - but only for those positioned to capture it. Strong markets don't hide inefficiencies; they expose them. Average cattle still sell, but elite genetics quietly return more dollars per cow and per acre.

At Lone Star Angus, we believe profit starts with measured performance. Pounds pay. Fertility matters. Consistency is non-negotiable. The bulls in this offering are backed by real data - birth weights you can trust, weaning and yearling performance that converts to pounds on the truck, and carcass merit that adds value when calves hit the rail. These are bulls built to work from the calving pen to the consumer's plate.

Calving ease is essential, but so is calf vigor. We focus on cattle that are born unassisted, get up, nurse, and thrive. Moderate birth weights paired with length, muscle, and growth create calves that perform from day one and continue paying dividends through weaning, backgrounding, and harvest. **More pounds, more consistency, more profit.**

**WE INVITE YOU TO VIEW THE BULLS ON OUR FARM ANYTIME
PRIOR TO SALE DAY**

Join us for Cinnamon Buns & Coffee at the Pre-viewing

**Lunch at 12 Noon
Sale Starts at 2:00 pm
For Further Info Please Call:**

General Sale Information

Please bring this catalogue to the sale. Thank You

A Huge Thank You To All Of Our Sale Crew!

Sale Staff:

Auctioneer

Don Raffan 250.558.6789

Ringmen/Buyers Rep.

Dory Gerrard 403.302.1016

Justin Potts 780.349.1494

Grant Ellefson 403.501.9707

Terms & Conditions:

- Listed on inside back cover.

Inspection:

- Bulls will be available for inspection anytime prior to the sale. Please Call Val at **403.350.7959** to schedule.

Lot Numbers:

- Bulls sell in catalogue order.

Insurance:

- Will be available sale day.

Fertility:

- All bulls have been semen evaluated and passed a Breeding Soundness exam within the past 30 days and have been veterinary inspected. All sell with a Responsible Breeder's Guarantee of Satisfaction.
- Scrotal Measurements will be posted.
- Ultrasound data available.

Keep & Feed:

- The sellers will winter all bulls remaining at the ranch free of charge, until April 1st, 2026. Bulls kept after April 1st, 2026 will be charged \$3.00 per day. Bulls must be insured.

CANADA'S ONLINE SEEDSTOCK SOURCE.

The Bull Stops Here

Simply put we're a complete program

It's easy for consumers to notice a higher beef price and wonder why. The truth is, producing quality beef has never been more expensive - or more critical.

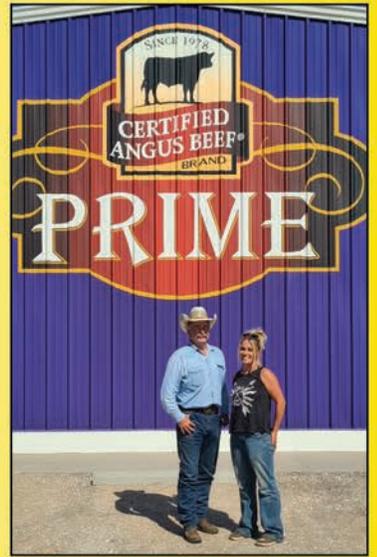

- Diesel fuel for tractors, feed trucks, and pickups has risen over 300% in the last 30 years.
- Farm trucks now cost \$90,000+ - up from \$30,000 just a generation ago.
- Feed, fertilizer, and vet care have all more than doubled.
- Meanwhile, Canada's cattle herd has declined by 15%, while our population has grown by over 20%.

Despite these rising costs, beef still delivers unmatched nutrition, flavour, and satisfaction. High-quality protein cannot be manufactured in a factory - it takes years of care, genetics, and management.

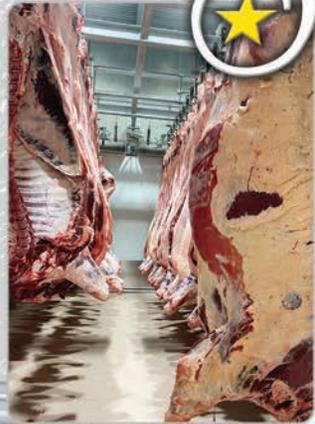

For the cow-calf producer, this is not a reason to feel guilty about pricing. Instead, it is a call to focus on what truly matters: producing the best possible product. When you deliver consistent, quality beef, the consumer doesn't reach for cheaper proteins - they reach for your product, knowing it's worth it.

Invest in genetics. Invest in care. Deliver value. That's how we keep beef at the top of the plate.

We are taking farm-to-plate to the next level.
207,000lbs of Lone Star Angus beef was marketed
directly to 5000 family tables in 2025.

LONE STAR Angus

LONE STAR ANGUS SIREN CALF BUYBACK LOYALTY PROGRAM

In 2025 we processed 230 angus beef. However this has created a problem for us; Lone Star Angus Beef has grown bigger than we can service with our own cattle. We don't want to source just any old beef, we want the best. By developing a Lone Star Angus Calf Buyback loyalty program we are creating a win win situation. Our Lone Star Angus bull customers will be eligible for \$.05 - \$.10 premium above current market prices, and Lone Star Angus will be able to service the demand for our Lone Star Angus Beef products by accessing more Lone Star Angus genetics therefore ensuring our customers will still be getting the same high quality Lone Star Angus Beef they have become accustomed to.

Lone Star Angus Sired Calf Buyback Loyalty Program Criteria

- Customers must have bought Lone Star Angus bulls for a minimum of 3 years
- Calves must be at minimum 75% Lone Star Angus Sired and verifiable
- All calves must be verified implant and antibiotic free
- A Lone Star Angus Beef representative will sort the calves
- All calves must be black

SPRING CREEK OLYMPIAN 66A
ROCK STAR ANNIE K J25
SPRING CREEK OLYMPIAN 66A

Rancher's Rule of Thumb for 2026

"If a 600-lb calf is worth \$4,000, the most expensive bull on the place is the one that doesn't add pounds."

In a \$4,000 calf market, bull selection matters more than ever. A yearling bull, properly managed, should service 15-20 cows in his first breeding season. If that bull sires calves that add just 50 pounds at weaning, the math is straightforward:

$$50 \text{ lb} \times \sim\$6.65/\text{lb} = \sim\$330 \text{ per calf}$$

15-20 calves = \$4,950-\$6,600 in added revenue in year one alone

That bull has effectively paid for himself in his first season — before longevity, fertility,

replacement females, or carcass value are even considered. As that bull matures and services

25-30 cows in subsequent years, the return compounds rapidly. Over a conservative four-year

working life, a performance-driven bull can return many times his purchase price.

DON'T BUY CHEAP — BUY RIGHT

Buy smart. Buy performance. Stay within your operation's means.

"A herd bull should pay for himself in the value of five calves."

SMART BUYERS FOCUS ON:

- ✓ Structural Soundness & Longevity
- ✓ Fertility & Breeding Soundness
- ✓ Performance & Consistency
- ✓ A Reputable Breeder

AGE & BREEDING CAPACITY

2-YEAR-OLD 25-30 COWS
 < 2-YEAR-OLD
 1 COW PER MONTH OF AGE

WESTERN CANADA 2026 — MARKET VALUES

600-lb Live Calf	\$3,900-\$4,200
1,500-lb Finished Steer	\$5,250-\$5,625
Investing \$12,000-\$18,000 MAKES SENSE.	
600-lb Live Calf	\$3,900-\$4,200 \$19,500-\$21,000
1,500-lb Finished Steer	\$26,250-\$26,125 \$26,250-\$28,125

**"Buy the best bull you can afford—
 Not the cheapest one you can find."**

A GOOD bull is the best and most cost-effective investment you can make on your ranch

WHY WE ULTRASOUND OUR CATTLE

AT LONE STAR ANGUS, WE BELIEVE GOOD CATTLE DON'T HAPPEN BY ACCIDENT. ULTRASOUND TECHNOLOGY ALLOWS US TO EVALUATE IMPORTANT CARCASS TRAITS IN OUR YEARLINGS BEFORE THEY EVER ENTER PRODUCTION. THIS ALLOWS US TO EVALUATE GENETIC POTENTIAL EARLY AND MAKE INFORMED SELECTION DECISIONS BACKED BY DATA — NOT GUESSWORK. GIVING US REAL, MEASURABLE INSIGHT INTO THE GENETIC POTENTIAL WE ARE OFFERING TO YOU

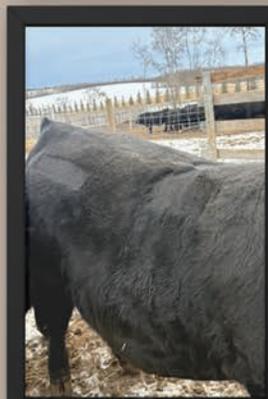

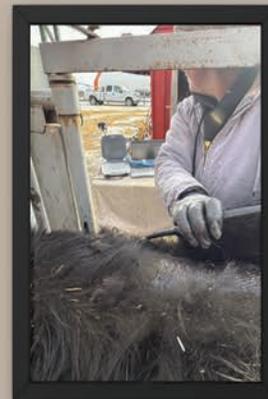

WHAT WE MEASURE:

- RIBEYE AREA - INDICATOR OF MUSCLING AND YIELD
- MARBLING - TIED TO CARCASS QUALITY GRADE
- BACKFAT THICKNESS - BALANCE AND FINISH
- INTRAMUSCULAR FAT % - ADDITIONAL CARCASS INSIGHT

ULTRASOUND DATA ENHANCES EPD ACCURACY AND HELPS IDENTIFY CATTLE THAT COMBINE PERFORMANCE, STRUCTURAL SOUNDNESS, MATERNAL STRENGTH, AND CARCASS MERIT.

FOR OUR CUSTOMERS, THAT MEANS GREATER PREDICTABILITY AND CONFIDENCE IN THE GENETICS YOU'RE INVESTING IN.

WE BELIEVE IN MEASURABLE PROGRESS AND CONTINUAL IMPROVEMENT — BECAUSE GOOD CATTLE ARE BUILT WITH INTENTION AND MEASURED WITH DATA.

**LONE STAR ANGUS
 DATA DRIVEN. RANCH PROVEN.**

The Power of the Grocery Cart

The Power of the Grocery Cart – and the Bull You Choose

Every calf born on our ranch ultimately answers to one decision – the one made at the grocery store.

The person filling the cart determines demand. When beef consistently delivers quality, tenderness, and value, families keep choosing it.

Strong consumer demand supports cattle prices all the way back through the packer, feedlot, backgrounder, auction mart – and ultimately to the cow-calf producer.

That reality makes one thing clear:

The bull you select today directly influences the value of your calves tomorrow.

It's easy to get caught up in sale day excitement or focus strictly on purchase price. But one bull

impacts your herd for years. His genetics shape every calf he sires – affecting growth, efficiency, carcass merit, and uniformity.

When producers stay focused and invest in better-quality bulls, their calves are positioned to command more value at every stage:

Why Better-Bred Calves Sell for More

- Heavier, more uniform weaning weights
- Stronger buyer confidence at auction
 - Improved feed efficiency
 - Higher average daily gain
 - Better yield grade
- Increased marbling and quality grades

Feedlots pay for performance. Packers pay for quality. Retailers rely on consistency and consumers reward eating satisfaction. Calves backed by disciplined genetic selection are more predictable and predictability reduces the risk for every segment of the chain.

Reduced risk brings stronger demand. Stronger demand brings stronger bids.

In the end, the grocery cart drives the market, BUT the Bull battery builds the calf crop that meets it

Lone Star Angus - Producing Cattle the Market Demands

**AMERICAN
QUARTER
HORSE
ASSOCIATION**

This is to certify the above named and described horse has been registered with the American Quarter Horse Association. This certificate is issued in full compliance with the regulations established by the owner of the lot being sold without further verification by AQHA. Ownership of this certificate is intended by AQHA, and assent upon express condition that AQHA has the authority to demand immediate return of this certificate for correction, cancellation or any other official reason AQHA rules, and pending resolution of the matter, AQHA may retain possession thereof.

Cowboy Remedies & Ranch Wisdom...

Lessons Handed Down the Hard Way

Before manuals, YouTube, or vets on speed dial, cowboys learned by watching stock, listening to old men, and surviving mistakes. Some remedies stuck. Some faded. All taught a lesson.

REMEDIES

- **Always Keep a shot of diesel on hand for bloat**
- **Used Motor Oil on Hooves**
Applied to soften cracks and repel moisture.
Lesson: Foot care starts with moisture control.
- **Gasoline for Foot Rot**
Cover from the joint down
- **Lime on Muddy Ground**
Spread in high-traffic areas to dry pens.
Lesson: Fix the pen, not just the animal.
- **Pine Tar for Feet & Wounds**
Used to toughen hooves, seal cracks, and protect minor cuts.
Lesson: Dry, clean footing prevents more problems than any treatment.
- **Ashes on Weepy Sores**
Wood ashes were packed onto damp wounds to dry them out.
Lesson: Moisture is the enemy of healing.
- **Bluestone (Copper Sulfate) Wash**
Used to clean proud flesh and foot rot.
Lesson: Control bacteria early or it spreads fast.
- **Salt Packed into Cuts**
Crude but effective disinfectant.
Lesson: Infection hurts more than treatment.
- **Spider Webs on Bleeding Wounds**
Pressed into cuts to help clot blood.
Lesson: Stop bleeding before worrying about scars.
- **Whiskey for Shock (and Cowboys)**
A splash on gums or a nip for the handler -more morale than medicine.
Lesson: Calm hands matter as much as treatment.
- **Lard & Sulfur for Mange**
Crude, messy, and effective for its time.
Lesson: Parasites steal performance long before you see it

ADVICE That Still Holds Up

"Watch cattle, not the clock."

Animals don't read schedules. Problems show up when they're ready.

"A good cow doesn't need excuses."

Fertility, soundness, and disposition matter—year after year.

"If you have to force it, it isn't right."

From calving to breeding decisions, pressure usually makes things worse.

"Fix the cause, not the symptom."

Bad feet? Look at minerals and footing. Poor gains? Look at feed and health—not just genetics.

"The best medicine is prevention."

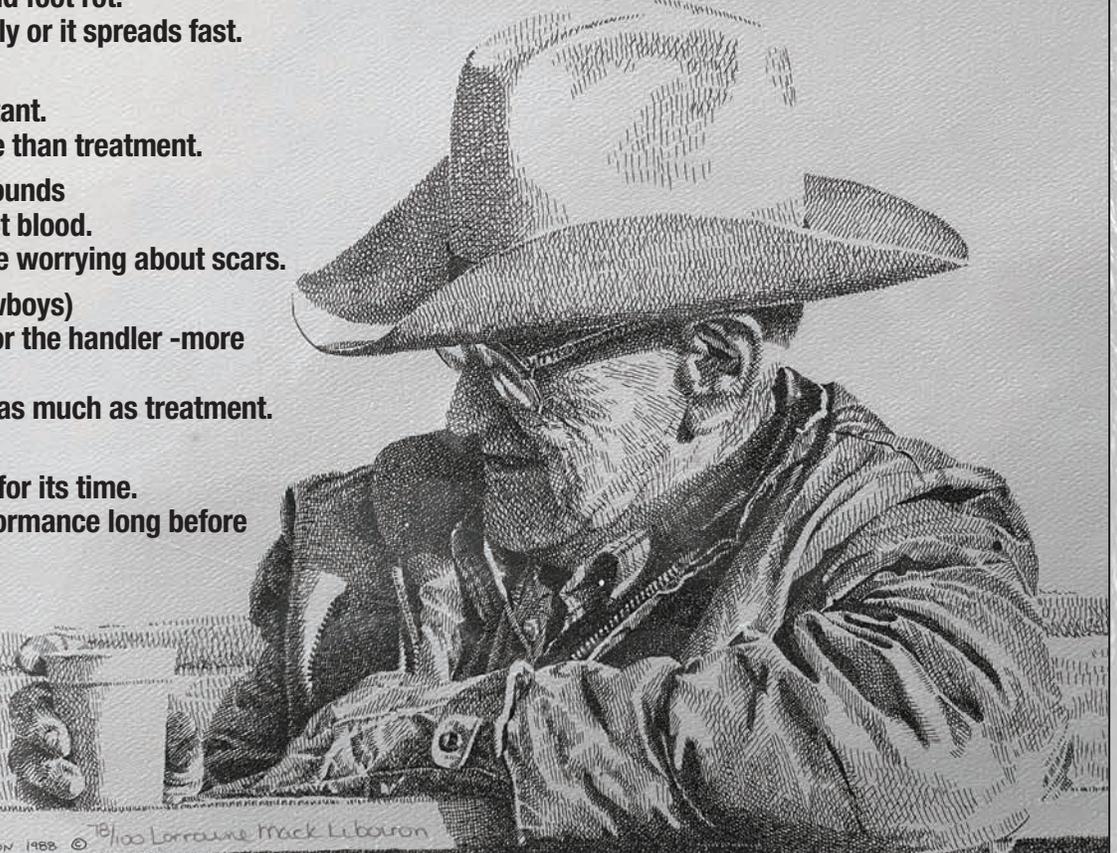

Clean water, good feed, and observation save more calves than any drug.

"If they quit eating, you're already behind."

"Fix the pen before you doctor the cow."

"Calves die faster from cold than sickness."

"If it smells bad, it probably is."

Our Specialty is Premium New and Used Trailers. If we don't have it... we'll find it for you

BERLYN

FROM FARM TO STAGE- BERLYN BROADHEAD PERFORMS!

Please stay awhile after the sale for refreshments, hospitality and live entertainment by our very own award winning country artist Berlyn Broadhead. When she's not on stage she can be found lending a hand on the farm, making this evening's performance especially special. True country music right at home.

First Breeding Season Loss Of Use

We understand that when you have livestock “things” happen.

For bulls selling for \$8000 or more that does not complete a full breeding season, we will share in the replacement cost up to 50% of the value of the injured bull.

Breeding season is defined as the 90 day period following the first turn out of the bull.

50% of the value of the injured bull, minus salvage value, will be given as credit in a future sale or toward a replacement bull if one is available.

All injured bulls must be diagnosed by a veterinarian, this does Not cover any mismanagement of the bull. Please notify us immediately should an injury occur, prior to the injured bull being sold for salvage. All claims must be made by September 01, 2026.

Example 1 – A \$8000 bull is injured, a credit of \$4000 minus any salvage value will be given to the buyer

Example 2 – A \$7000 bull is injured, no credit is given. Buyer retains all salvage value.

This is Not a life insurance policy however, and does not apply to bulls that have died or are killed in anyway. All credits must be used within one year, are non transferable and have No Cash Value.

Terms and Conditions

Lone Star Angus will here after be referred to as The Sellers

Cattle Inspection: All carry permanent identification and sale tags corresponding to sale lot numbers. All animals shall be available for inspection prior to sale

Breeding Guarantee: All cattle are sound and right, and all sell with a responsible breeder guarantee of satisfaction. In the event of an unlikely dispute, the regular terms and conditions, standard with the Canadian Angus Association shall apply.

Insurance: Ownership risk to purchaser commences when the Auctioneer's gavel falls. Livestock coverage will be available on sale day.

Terms Of Sale: Are cash or cheque at par, payable to clerks of the sale on sale day. U.S funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. The seller reserves the right to withhold animals from export shipment (foreign or domestic) for whom payments have not been received prior to departure times.

All Persons: Everyone who attends the sale do so at their own risk. The owners and sales staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

Announcements: Errors discovered in the catalogue will be corrected by the announcements from the auction block at sale time and such corrections will take precedence over the printed material in the catalogue.

Right to Semen: The sellers reserve the right to collect semen on any bull sold through this sale. The semen collection will be at the seller's expense and the buyer's convenience. Any semen collected will be for the seller's in herd use only.

Delivery: The sellers will deliver bulls free of charge in Western Canada and will assist with trucking to Eastern Canada and USA.

Sight Unseen Purchase Plan: We would like you to attend our sale, but if you cannot, you can have Val personally handle your purchase. You know what you want in your breeding animals, we know best the potential of the bulls on offer and will easily be able to satisfy your specific needs. Call her, with your specifications and discuss the offering. Val will gladly assist you with you selections and represent you on sale day. We guarantee full satisfaction upon delivery.

Val Townsend can be reached at **403-350-7959** and is always available and looking forward to your call.

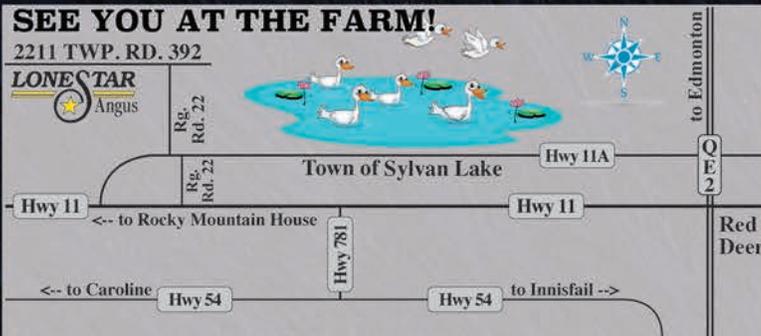

Wintering Program: The sellers will winter all bulls remaining at the ranch free of charge until April 1st, 2026. Purchases must be insured.
