**FRIDAY, NOVEMBER 27, 2026
1:00 PM MST
AT THE FARM | WESTLOCK, ALBERTA**

Welcome to the 2026 edition of Lone Stone Farms Invitational Female Sale. It's our 10th year, which I can hardly believe. All of us who contribute to this sale are so grateful for our faithful customers. It is important to us that we offer females that are out of the top end of our herd, and I'm proud to say the tradition continues!

Reading last year's comments and I mentioned how trying last summer was. Well, nothing's changed, nature flipped us around with too much rain and not enough sun. As challenging as it has been, we got feed for our cows, which really is most important!

Something new, we've never done is offer a Fullblood herd sire to our sale lineup. We will have 4 calf crops, off Kinetic, and we think he is worth passing on to another breeder while he is still young enough to have an impact. Is there a female in this offering that will work for you? Very confident you will find her here. Please come to our sale if you can. We love to host people in our sales facility.

- Lonnie & Karen

Be Our Guest Lunch starts at 12:00pm on Sale Day!

Invitational Female Sale

Friday, November 27, 2026 - 1:00 PM

At The Farm - 4 miles North

and 1/2 mile West of Westlock, AB

Welcome to Atlas Livestock Marketing!

We're excited to welcome you to Lone Stone Farms, just north of Westlock, for a day of great hospitality and an exceptional offering of Simmental and Red Angus bred heifers.

This year brings a new twist with our Herd Bull feature lot 1. With over 80 calves on the ground in the last three years, the Browns feel it's time to offer Keet's Kinetic to the industry. This homozygous polled, huge-middled powerhouse has left his mark at Lone Stone, and he's ready to make a real impact to your program. He will make his calves polled with his great colour stamp to boot. Lots of opportunity here!

The bred heifer offering once again features some of the top-end females to sell this fall. Lonnie, Karen, Nathan and Alisha have an outstanding set of Simmental heifers with a very heavy influence of the polled gene. The sires of these breeds also put a strong set of bulls in the bull pen yearly. The Lone Stone Red Angus females are always powerful and offer amazing value. You will not be able to miss the Dakota or Bank Note daughters! All the Lone Stone sale heifers are parent verified, so no surprises down the road.

Diamond T Simmentals have been part of this sale since day one and have always offered a very strong set of heifers. You'll find the LZRT tattoo in the ear of many foundation females in the Simmental world. Definitely some exciting polled females in Troy's set of heifers!

Swantewitt and Sage Simmentals have really stepped up their game in recent years, and this year they have hit the mark again. Fleckvieh, Reds, Blacks will all be represented out of their program, and you will be impressed! Gerd and Jordan are very critical of their cattle, you can expect sound, functional females.

New to the sale in 2025, Newton Creek Simmentals came in with a bang, selling one of last year's high sellers. We're glad to have Andrew and Kaylee back.

Lone Stone Farms is the place to be on November 27 for an excellent set of females with unmatched value.

HOMO POLLED. 100% FLECKVIEH. PARENT VERIFIED. NON-DILUTER.

In our 40 plus years in the purebred business, we have never agreed to sell a bull of this calibre out of our program. It has always been "We got plenty of cows to breed him to so he can work here til he dies." But due to all the inquiries we've had this last year and the number of females, he has given us, plus his age, we decided to break with tradition and move him on to another owner. He has truly been a remarkable breeding bull whose females will represent 25% of our Fullblood cow herd. He stamps his progeny with structural correctness, polled heads, and cherry red coats. In many cases even removing the white socks from the back legs. He is truly a breeder's bull in the prime of his life, that will take your polled program to the next level. He sells 100% ownership including his semen rights.

**POLLED. 100% FLECKVIEH.
PARENT VERIFIED. NON-DILUTER.**

Lot 1 should be an easy sell based on the females we are offering out of Kinetic. The main reason we didn't let him go earlier, is the prospect of more top of the herd females. We will have 13 daughters calve in 2027 with another 14 waiting in the wings. Who knows how many girls we will get in his 2027 calf crop.

Carrie 88N is a female we share with Gayle Gerein. Her Battle Cry dam is a solid money making cow on lease to us. Wish we owned her cause she keeps spitting out females which I have to sell to determine true value. Last years female sold to Gra-Tan at Mayerthorpe. We will have a carbon copy of this girl to offer in the 2027 female sale, so if you don't get her there's another one coming!

AI on March 27/26 to FSS Polled Hendrix
(1399853). Safe to AI date.

Exposed March 30 – June 1 to KSL Luke
70L (1460165).

**HOMO POLLED. 100% FLECKVIEH.
PARENT VERIFIED. NON-DILUTER.**

I definitely need to bring to your attention that Pilar 72N goes back to MRLN Pilar 3G. A powerhouse female that we acquired at the MRLN dispersal. This is her dam's second calf. The first one Pilar 12M, is heading down to Stanley Martins in Iowa as I am writing these footnotes. There is also another full sister to 72N in the replacements. Hopefully homo polled as well and not very likely being offered for sale in the future.

HORNED. 100% FLECKVIEH. PARENT VERIFIED. NON-DILUTER

This girl is the deepest cherry red of all our heifers offered. She is moderate in frame, pleasingly wide along her topline. Her dam's Kinetic daughter was sold to Gra-Tan in the 2025 female sale. We have a complete replica in her 2026 model. Equally dark with a bit more frame, 48J is the only female out of the 60Y cow in our herd. 60Y was the dam of a Envoy son sold to KSL Simmentals. They really liked him, back in the day when Polled was starting to gain momentum.

Pasture exposed to KSL Luke 70L (1460165) March 30 – June 1.

Preg checked safe to first week of January.

POLLED. 100% FLECKVIEH. SIRE VERIFIED. NON-DILUTER.

Fiora 74N comes from a female bought from Brett Keet. She is a big Polled headed female with a lot of milk. We have found the Hadrian females have moderate sized udders with small teats. Can truly say he is an udder fixer. This female has lots of frame, length of hip and carrying a nice amount of muscle. Probably the biggest female frame wise amongst her peers here at Lone Stone.

Exposed March 30 – June 1 KSL Luke 70F (1460165).

Preg checked safe to end of 2nd week of January.

HORNED. 100% FLECKVIEH. SIRE VERIFIED. NON-DILUTER.

Grace 73N comes from a female purchased from Dwayann Simmentals. Her pedigree is something quite different, but she has been a very solid cow for us. Anchor D purchased a female out of her in the 2023 female sale. Grace 14F is a plain looking cow but has never missed. Every one of her 7 pregnancies have been born in January. Her first pregnancy was twins, but that didn't hurt her, as she calved a week earlier the next year. This female we are offering looks so much like her dam. A female with some size and very correct in her conformation. Very much like how her udder is developing.

Exposed to KSL Luke 70F (1460165) March 30 – June 1.

Preg check safe to last week of January.

HORNED. FULL FLECKVIEH. SIRE VERIFIED. NON-DILUTER.

The sire of Huxlee 71N, STBS Harrison was a bull that did such a good job of leaving us with cattle with extra muscle. More moderate framed but tons of muscle. Unfortunately, we lost him too soon, so this is the only female we would let go this year. The factory has closed. There will be 8 half sisters calving in 2027 and that is barely enough.

Exposed to KSL Luke 70F (1460165) March 30-June 1.
 Preg check safe to first week of January.

Lone Stone Farms Red Angus Bred Heifers

PARENT VERIFIED.

Rhoda 44N is her dam's second calf. Her first female was sold to Grant Chittick in our 2025 female sale. And we now have a third female out of 109K in the replacement pen. I know we are in the bull selling business, but I just love getting female calves. At calving time, I love to hear the words "It's a girl!" Being out of Dakota, this girl's frame size is moderate. There is power in her due to her Banknote sired dam. Rhoda 109K is a big cow, beautiful big deep hip. This daughter of hers will be a very easy keeper.

AI to Red Lwnbrg Slowburn 224K on Mar 27/26. Preg test safe to AI

PARENT VERIFIED.

Olive 61N is a nicely balanced female out of a bull we raised Justamax 207L. Between AI to Flying K Max 110C and our own home-grown Max sire we are starting to put together some very nice females. The Max line gives you deep muscled females in a moderate frame. They seem to have plenty of milk while keeping their udders moderate sized. Lots of milk without stretching out the bag.

Exposed to Gra-Tan Equity 74N (2456905), March 30-June 1.

Preg checked safe to 2nd week of January.

Welcome back to the Lone Stone Invitational female sale! What a stellar year it's been and so nice to have gotten some rain this summer! We are excited and thankful to be part of this wonderful sale group and offer some of our top bred heifers. The Brown family is such a joy to work with over the years as are the other consignors and we are very blessed to have the opportunity to contribute to this sale.

Every year when we pick our sale heifers, we really focused on choosing from cow families that we love and have similar females to in our herd. This way we can hopefully predict the success of the heifers we are offering. We love sharing some of our very best ones that are a true representation of our herd. You'll find a variety of horned and polled females in our fleckvieh offering as well as a handful of purebred red and black heifers. Our herd consists of 380 registered mother cows of which there are about 50% fullblood/ fleckvieh and 50% red and blacks. We also try to keep our service sires consistent each year for predictability when it comes to calving time but we do have two new service bulls. Lunar is covering most of the fullblood heifers as he proved to work quite well for us over the past 2 years. We do have our new JNR Mateas bull who is homozygous polled servicing a few of the fullblood heifers. Our homozygous polled heifer bull, Tycoon, is on the purebred heifers with one bred to our new WS Epic son who is also homozygous polled. This will be our fourth year calving Tycoon and he's always been consistent for us.

All heifers are on a full vaccine and deworming program having received Express 5, Presponse HM, Covexin, and their first dose of scour guard. They have also received a pour on for parasites. They have been pregnancy tested in late May for a general aging on the fetus and rechecked in October to ensure pregnancy for the sale.

FULLBLOOD, FULL FLECKVIEH

I really love this heifer. She's a dark cherry red Luxury daughter out of a cow who looks just like her. The dam is 10 this year and still carrying on well in our herd. We've had many bull calves out of her and heifers throughout the year. She still has a perfect udder and is trouble free. Noemi was great to work with in the picture pen with a very nice disposition.

Exposed to Swantewitt Lunar 42L

This powerhouse heifer is one who really catches our attention in the bred pen. She has so much growth and length of body along with an easy-going disposition. Her dam is a deep bodied female who is always weaning off a heavy weight calf in fall. She's one of our Open Range daughters and is easy doing, trouble free and structurally sound. Her udder has held up great and we wish we had 100 of her in the herd. We really believe Nikita has the potential to be a top producing cow just like her dam.

Maple is the first off age heifer we are offering through the sale as a bred heifer. Her dam bred normal as a heifer but then slipped her calf on pasture. We have started a small, late summer calving program that we added her to and Maple was her first calf. Since we have no desire to calve heifers in the summer, we just hold them a few extra months and they breed with our normal heifers. Maple comes from one of the farm favorite cow families and we feel she will make a great addition to any herd. She's dark red, thick, and good to handle. Her dam is proving to be another very productive Fitzroy daughter.

Observed bred March 19 to Swantewitt Lunar 42L. Exposed March 22- May 25.

Confirmed pregnant likely to breeding date (early January calving).

**FULLBLOOD, 100% FLECKVIEH**

Newalla is another Virginia Clapton daughter with a great frame size. Her dam is also one of our very consistent Wolfe Fitzroy daughters. She's a moderate sized cow in the herd with a great udder structure as they all do coming from him. Newalla also has the muscle coming from Clapton and she really shows it.

Natty is one of those heifers that just gives you a great feeling. I think she's going to be a really awesome cow in the future. She's thick, deep sided and our only Laredo female on offer this year. Her dam is a very muscular Wolfe Apache daughter with great milk, a great udder and solid feet. Natty might not be the fanciest heifer in the pen but she's sturdy and will be that reliable, trouble-free cow. The Laredo son's we kept last year showed so much muscle and growth. Natty is also already displaying the thickness and muscling in both sides of her pedigree.

WOLFE Kirby FF 109K - Sire of Lot 31

**HOMOZYGOUS POLLED PUREBRED**

I'm still not quite sure how this heifer made it into this catalog, Gerd and I must have been having a moment of weakness. Nesta is easily one of our top red heifers. She's dark red, thick, deep, and long out of one of our muscular, deep sided Everest daughters and our Tycoon bull. The 11J cow has been phenomenal for us and both her daughters prior to Nesta are working in our herd. Our Everest daughters have really added size and performance to our herd while being extremely maternal females with awesome milk. Nesta is bred to our home-grown Epic son who has a lot of calving ease in his pedigree and we found the Tycoon daughters calved well last year and were very maternal!

Exposed to Swantewitt Epic 26N from March 22-May 5. Preg checked safe to early to mid February calving.

HETRO-POLLED DILUTER FREE 100% FULL FLECKVIEH

Diamond T Pretty 42N comes out of a good female we purchased from Lonestones a few years ago. She has done a very good job raising this Bourdeaux female. Pretty is long bodied, has a little bit bigger frame with an easy-going attitude. Pretty has excellent feet and wrap around goggles to add to her smooth made body. We are very excited that she is bred to our new Homo polled Heifer Bull "Stouts Everclear". He bred very well and we can't wait to see the offspring from him.

HORNED 100% FULL FLECKVIEH

Diamond T Cougar is the heavy weight heifer of the pen. She has lots of length, depth, and really good bone. This heifer is one of my top favorites, she has great hair coat and red color to the hoof. She has Cowboy as a Sire, which he makes thick calves and Rogar on the bottom to make big volume type calves. I have no doubt that this is a great combination that will produce phenomenal offsprings.

NEWTON CREEK SIMMENTALS

Andrew & Kaylee Kuschminder & Family
 RR1 Pickardville, AB T0G 1W0
 Andrew Cell: 780-284-2024 Home: 780-674-2672
 E: kuschminderfarms@gmail.com

We feel so fortunate here at Newton Creek to be once again asked to be part of the Lone Stone Invitational Heifer Sale. We can't thank the Brown family enough for the opportunity to showcase some of our females at such an elite sale, alongside the other consignors. Each heifer we bring comes from a strong cow family that has proven itself within the industry or right here at Newton Creek. We believe these heifers have the potential to become productive cows that will continue to produce for their new owner year after year. If you have any questions about the offering don't hesitate to reach out to us. We look forward to seeing you at the sale on November 27, 2026.

Andrew, Kaylee, Mila & Mallory Kuschminder

POLLED, NON DILUTOR, SIRE VERIFIED

Nina is a powerful heifer that commands attention, she is extremely attractive in her make-up with a big barrel and wide top. Dam is starting to leave her mark on our herd along with the industry as her daughter sold through this very sale last year for \$40,000 and has another top heifer prospect in the replacement pen this year. Sire NUG Advantage is in no need of introduction as his progeny have been at the top of many sales the last couple years. Being bred to the high selling Kuntz North star is just the icing on the cake. We look forward to seeing what Nina will do for her new owner.

AI to Kuntz North Star (P1457977) on March 25 (safe) vets opinion. Exposed April 3-June 6 to KSL Longmire 96L (1498595)

**NON-DILUTOR**

An absolute tank of a female going back to the great female maker Legend on the top side and Raptor on the bottom.

Nadia is laying down a picture perfect udder following in her mothers footsteps.

We unfortunately lost Jon Snow 2 weeks before breeding this past spring do to injury so this will probably be last heifer we will offer.

Breeding Info Exposed to KSL Longmire 96L (1498595) from March 23-June 6

Observed bred April 15 Vets opinion safe to observed date.

**POLLED, NON-DILUTOR**

If you are looking for a polled, dark cherry red heifer with a little extra length and power Nika should then be marked high on your list. She walks out on a big dark hoof and has the capacity to wean off those big calves in the fall we all strive for. Sire, NGDB Corruption was picked out for his natural thickness and do ability and Nika possess that to a tee. Bred up early to our homo-polled heifer bull Longmire should result in an exciting calf.

**Breeding info Exposed to KSL Longmire 96L (1498595) from March 23-June 6

Terms and Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Atlas Livestock Marketing reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Atlas Livestock Marketing. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Atlas Livestock Marketing. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Atlas Livestock Marketing and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES – Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE – Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS – There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Atlas Livestock Marketing. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS – All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Atlas Livestock Marketing. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN – Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Atlas Livestock Marketing. IS AGENT ONLY - It is to be clearly understood that Atlas Livestock Marketing. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Atlas Livestock Marketing. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
