## 19th Annual Bull Sale

March 4, 2026  
1:00 PM ~ Silver Slate Arena  
Stavely, AB

# Sale Details

**March 4, 2026 ~ 1:00 pm**  
**Silver Slate Arena, Stavely, AB**  
**Complimentary lunch at 11:30 am**

#### DIRECTIONS TO SILVER SLATE ARENA:

**(From Stavely)** 4 Miles North of Stavely on Highway 2 and ½ mile West on TWP Rd 150

**(From Parkland)** 2 Miles South of Parkland on Highway 2 and ½ mile West on TWP Rd 150

#### Sales Staff

Auctioneer – Ryan Konynenbelt 403-892-6534  
Ringman – Justin Keeley 403-627-6534  
Ringman – Frank Jenkins 403-627-6700

#### Sale Day Contacts

Murray Brown 403-601-0860  
Grady Brown 403-489-0277  
David Slingerland 403-359-0508

#### Insurance

Stockmens Insurance  
Cheryl Brown 403-601-3460

#### Online Bidding

Internet Bidding Available

For more information call:  
Mark Shologan 780-699-5082 or Purebred Team 780-991-3025

#### Delivery

We will offer delivery within 200 km of home, after that at cost. Delivery will commence April 1, 2026 unless prior arrangements have been made with the seller.

#### Wintering

Anyone not wanting to take their bulls after the sale can make arrangements with the breeder to keep the bulls at a cost of \$4.00 per day after April 1, 2026. **ALL BULLS RETURNING TO THE BREEDER MUST BE INSURED.** The bulls will be housed at the buyer's risk. The breeders will not be responsible for any type of injury while the bulls are in their care.

#### Semen Test

All bulls will be semen tested before sale day.

#### Simmental Breed Average EPDs

CE: 8.0, BW: 3.5, WW: 77.8, YW: 113, Milk: 25.8, MCE: 4.2, MWWT: 64.6

#### Red Angus Breed Average EPDs

CE: 2.4 BW: 1.3, WW:44, YW: 75, Milk: 24, MCE: 5.2

#### Pictures & Videos

MCG Simmental Pictures & Videos were taken in house at the end of December 2025. Videos are available on [cattlevids.ca](http://cattlevids.ca) for viewing.

#### Terms & Conditions

**Terms:** The terms of the sale are cash or check. All monies are in Canadian funds. The right of property shall not pass until after settlement has been made. All settlements must be made with the clerk before any cattle will be release.

**Disputes:** Every animal sells to the highest bidder and in the case of disputes, the auctioneer's decision will be final. Announcements from the auction block take precedence over the printed matter in the catalog.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.

**Breeder's Guarantee:** All bulls have been registered, unless indicated in the catalog, and papers will be transferred to the new owner. All bulls sold are guaranteed to the standard breed association guarantees. In no event shall the seller be responsible for reimbursing more than the purchase price.

**Liabilities:** All persons attend the sale at their own risk. The sellers and/or sales staff assume no liability, legal or otherwise, for accidents that occur in, on, or about the premises.

**Age Verification:** All cattle at the sale are age verified.

**Trucking:** Cattle can leave that day and please make arrangements to do so. If you are unable to truck any cattle on sale day, please contact the particular breeder and arrangements can be made to load cattle the following day.

**Loading out:** Loading will not be allowed until the conclusion of the sale.

**Check out the videos of sale animals at [dlms.ca](http://dlms.ca)**

**Tempest photos done by Mary Roelofsen Photography**

**Catalog production by Megan McLeod.**

# Welcome

**W**elcome to the 19th edition of our bull sale. We really appreciate the interest in our program. We are grateful for all our past buyers and bidders. We look forward to meeting with you at the sale, or in the corral viewing the bulls prior to the sale.

We really believe this is our strongest set of bulls on offer yet. Once again, we have bulls off our 3 main herdsires, IPU 1G Potent 17K, IPU 116G Top Tier 26J and Ultra Freedom 88K. We also have a few off a new herdsire, BEE Stanley 033K. IPU 17K has been a super consistent sire giving his progeny a balanced set of EPD's, muscle and shape. IPU 26J has given us some calving ease without losing any performance and giving his progeny super thickness and moderate frames. BEE 033K was our new heifer bull. We didn't get many calves off him, but I think the few we did, are a pretty solid set.

The bulls are fed a textured ration from Trow Nutrition as well as free choice hay. They are not over pushed. The bulls are in really good shape and are athletic. We don't creep feed these bulls, so the weaning weights are just from some really good grass this past summer and milk.

The bulls are on a full health program. We work with Dr. Jordon Holt and Dr. Heath Mcleod at Eastern Slopes Veterinary Services of the bull's health program right from birth to semen testing.

We would be happy to bring the bulls home after the sale and we will feed them free of charge until April 1. At that time, we will begin delivering the bulls at our convenience.

We are happy to have Tempest Red Angus join our sale once again, bringing you some top quality Red Angus bulls.

Please feel free to stop in and view the bulls prior to the sale anytime. Hope to see you sale day!

*- Murray, Cheryl & Grady Brown*

**W**elcome to the MCG Simmental and Tempest Red Angus bull sale. I'd like to thank the Brown family for having me be a part of their sale again and I'd also like to thank all the buyers from previous years for investing confidence in my breeding program for your bull power. It is exciting to see producers being rewarded with record prices across all classes of cattle this past fall and heading into spring. What a time to retain heifers and grow the herd! I've built these genetics focusing on calving ease, calf vigour and maternal power without sacrificing performance and feel like this is the strongest set of bulls I've had to offer.

This is the first set of sons to sell off of a new herdsire, LSCC Lightyear 117L, who adds length and power to his progeny while maintaining moderate birthweights. A direct son of Seneca 731C, Lightyear 117L started at 77lbs and boasted an impressive 924lb actual weaning weight; he's a unique herdbull with curve-bending potential.

This is the second set of bulls sired by LWNBRG Dually 179K and have more hitting the ground now. They were very popular last year and continue to impress. First daughters are calving with impressive confirmation and milking. Don't hesitate to use these Dually bulls on heifers and keep the daughters. Consistent, low maintenance genetics is what you'll get from him.

All bulls are summered on dry native pasture without creep. After weaning they're fed a high roughage cereal silage ration. They will be at the sale in working condition without being pushed. All bulls are on a Zoetis full herd health program, including footrot vaccine. They are semen tested prior to sale and sold with a full guarantee. Can return home until May 1st and be delivered free of charge. Buyers taking bulls home the day of the sale will receive \$250/ bull off the purchase price.

I've scored them on a calving score again this year to assist with buying decisions.

- CE 1: recommended for cows only.
- CE 2: could be used on larger framed well developed heifers
- CE 3: high calving ease, safe on heifers.

Call or text with any questions about the bulls or to come have a look at them anytime prior to sale.

*- Dave, Geralynn, Ellen and Douglas Slingerland*

# Reference Sires

IPU 1G **POTENT** 17K  
HOMO POLLED

This is a bull we have been extremely happy with. He has sired some powerhouse sons. He is very consistent producing calves that are like peas in a pod.

1PU 116G **TOP TIER** 26J  
HOMO POLLED - HETRO BLACK

We can't say enough about this Top Tier son. He was such a super thick bull with deep muscle. He is moderate framed and super docile.

ULTRA **FREEDOM** 88K  
HOMO POLLED

This is a Full Fleckvieh bull we purchased to add a bit more milk and blaze faces to our herd. He is a really good footed, smooth made and super quiet bull.

BEE **STANLEY** 033K  
HOMO POLLED

We purchased this bull to breed heifers, and although we didn't get very many calves off him, we think the 3 on offer are really good ones.

This bull is a moderate framed bull with a lot going for him. He is an easy doing free moving individual. His mother is just one of those of cows you would like to see the whole herd reflect. We have retained all 3 daughters she has raised and both her other 2 bulls were sold to Gordon Turner Farms Ltd in their respective years.

Here is a bull out of a first calf heifer and she has also done a whale of a job on this bull. You can't ask these first calf heifers to do more than what she has already done. With an actual September 1st weaning weight of 861 lbs, I'd say she did amazingly well. He is a nice attractive Blaze face bull with a ton of muscle shape. His mother is a heifer we purchased from Beechinor Bros. And, being sired by the ever so popular calving ease Perks Red Wolf 44G bull.

We had issues with our heifer bull back when these 1st calf heifers were being bred, therefore we ended up having to use our IPU 17K bull to cover them. Again, this is another one of those later Feb bulls. We cannot complain about how nice and easy they calved out of 17K. I think that these younger bulls will catch up nicely to their older brothers.

Here is a chunk of a bull. He has that bit of chrome on his face that really makes him attractive. He has a ton of meat in him and will produce those high performing calves. His mother is a solid producing cow. We have retained 3 daughters in herd. We sold a full brother to this bull to Travis Bokvist in last year's sale and another 1/2 brother a couple years ago to Murray Bokvist. Although he has really high calving ease EPD's, this is a bull that probably be best use on cows.

This bull is the smallest framed bull on offer. He has that nice blaze face and some thickness. You can look for some calving ease in this bull, with a moderate birthweight of just 84 lbs.

# RED ANGUS BULLS

Presented by Tempest Red Angus, here is a small selection of easy fleshing bulls that are a mix of both heifer-safe and high performance. For ease of evaluation, Tempest has implemented a calving ease ranking from 1 to 3 based on the bull structure, genetic expectations and family history.

- 1) Calving score: recommended for cows only
- 2) Could be used on larger framed well developed heifers
- 3) High calving ease good on heifers

Dually is a true calving ease outcross herd sire I selected for his deep bodied muscular build and angus character. Comes from a hard working moderate framed young cow with perfect feet and udder who's a favorite at Leeuwenburghs. Top 5% of the breed in birthweight and calving ease, his calves are born easy with extreme vigour; he's everything I look for in a heifer bull and can't wait to get daughters into production.
