SALE INFORMATION

DIRECTIONS: 20 km N of Maidstone on Highway 21, then 6.5 km W on Highway 303, and 6 km N on Range Road 3241 OR just E of Lloydminster on Highway 16 to Highway 303 turnoff to Turtleford. Continue E on Highway 303 for approximately 38.5 km to Misty Valley Farms sign, and then 6 km N on Range Road 3241.

HEALTH: These herds are maintained in a TB free and Bangs control area. Purchases may be taken from the sale to any point in Canada.

GUARANTEE: The bred females are guaranteed safe in calf. The bulls are guaranteed to be breeders. We urge buyers to insure bull purchases for loss of use. The cattle will be sold under the terms of the standard breeding guarantee of the Canadian Hereford Association.

FREE DELIVERY is offered to central points within the Prairie provinces on purebred purchases as soon as possible after the sale, at the seller's convenience and the buyer's risk. Delivery of commercial heifers is the buyer's responsibility and can be arranged through MVF if needed. Cattle will be afforded the best of care until delivered.

TERMS & CONDITIONS: Cash or cheque, unless prior arrangements have been made with the owners well in advance of the sale. Every animal sells to the highest bidder, and in cases of disputes, the auctioneer's decision will be final. Cattle are the property of the buyer as soon as the auctioneer declares them sold. Announcements from the auction block will take precedence over printed material in the catalogue.

INSURANCE: Buyers are urged to insure each animal for full value. Larry Toner, of Stockmens Insurance, will be on hand to insure your purchases.

IF YOU ARE UNABLE TO ATTEND THE SALE please contact MVF ahead of time, and we will select a number of animals with you that meet your criteria. A representative will then try to purchase one of those animals for you within your price range. Mail or telephone bids are welcome. You may also bid online during the sale at www.dlms.ca.

ALL PERSONS WHO ATTEND THE SALE do so at their own risk. Sale staff and owners assume no liability, legal or otherwise, for any accidents that may occur.

THANK YOU to all the buyers at last year's sale.

We are especially appreciative of our many repeat purchasers.

From our herd to you

It's hard to believe we're having our fiftieth annual production sale and that we've been raising purebred Horned Herefords for over 70 years!

Our parents were both born in Maple Creek, Sask. and grew up in the Kincorth-Hatton area. Dad cowboied on the Dixon Ranch north of Maple Creek for many years, and Mom started teaching school in the Cypress Hills south of Piapot. They were married in 1942 and bought a farm at Lone Rock, Sask., southeast of Lloydminster, where they started their family.

In 1952 they moved to a farm at Marshall, Sask., 11 miles east of Lloydminster, where they raised three daughters and three sons. This is where the purebred Hereford herd started in the mid-fifties. Dad wasn't content being a grain farmer, and in 1965 he was on the move again to our present location, where it was easier to expand and realize his dream of building a cattle ranch.

The first herd sire that we can remember was purchased from Djuff Bros. at Rivercourse, Alta. He was followed by two bulls that were owned in partnership with Norman Babey of Rex Hereford Ranch. They were MHR STANWAY BRITISHER 505052 and, in 1963, CHEYNEY SHARPSHOOTER, imported from England. Those foundational herd sires have been followed over the decades by bulls purchased from prominent breeders across the Prairies and B.C. Most of the females purchased in the early years were from Alex Mitchell's Battle River Ranch, the Dick Hines dispersal, Hougham's Fort Pitt Ranch dispersal, and the entire heifer calf crop for two years from Oscar Peterson's PO Hereford Ranch.

The cow herd was given another boost in 1968 with group purchases from the Kopelchuks at Canora, Sask., and Wegner's Whitesand River Ranch at Ebenezer, Sask. We started marketing bulls at home and at consignment

ours: 50 years of Misty Valley sales

sales, including Lloydminster, North Battleford, Meadow Lake, Regina, and Mankota bull sales, as well as 43 consecutive years at Maple Creek Bull Sale.

Females were sold at various sales including the Red Carpet Sale, where we contributed from the first sale in 1970 to the last sale in the early 2000s. We showed cattle at Agribition from the first show in 1970 until the late 1980s.

We held joint production sales with Rex Hereford Ranch in 1964 and 1966, both at Justamere Farms, Lloydminster, and Jonathan Fox was the auctioneer.

Dad, along with Alice's brother, George Larre, both liked the idea of holding an annual production sale to market breeding stock. Oscar Peterson had been having a very successful February bull and female sale, and when he discontinued his sale, we moved into his spot. Our first joint Misty Valley Farms - Willow Flat Ranch production sale was held February 16, 1977, at the Lloydminster Exhibition grounds. This format continued for eight sales until the Larres decided to concentrate on their commercial ranching operation. The Larres and Willow Flat Ranch were the perfect partners. We held our ninth sale on our own in Lloydminster and then moved it to a new facility on the ranch for our tenth sale in 1986.

Jock Blacklock was the auctioneer for our first sales, with Billy Blacklock, Keith Gilmore, and the ever-entertaining Edward Jupp as ringmen. John Blacklock took over from his dad after a few years, and Bob Balog began selling the sale in 1990. Other ringmen over the years included Kurt Gilmore, Bruce McFadyen, Brad Corbiell, Louis Balog, Brad Dubeau, Travis Bygrove, Randy Ames, and Jim Pulyk.

There have been many challenges to the sale over the years, such as the unpredictability of

the weather, BSE and COVID-19, to name a few. However, it has also brought us a great deal of satisfaction. We have made many lifelong friends through the sales, and we are truly honoured by the large number of friends and customers who come back year after year. We have sold upwards of 350 bulls to the Douglas Lake Cattle Co. through our sale, and it may be the only straight Horned Hereford sale that has consistently sold cattle to Ontario, Manitoba, Saskatchewan, Alberta, and British Columbia in every sale since 1990.

It's the support and friendship of people like the Kusters of Maple Creek, who have been buying bulls from us since the early '60s, the Finley Cameron family from Lion's Head, Ont., for 35 years, the Williamses from Mankota, Sask., the Hermans from Bindloss, Alta., and so many more, who make it possible to keep having a sale and enjoying the cattle business.

We appreciate each and every one of you.

We have also been very fortunate to have guest contributors over the years who have certainly added to the sale. They include the Dave Forbes family Quarter Horses, the Bygrove Family's Sky Track Ranch, Mark Law's Lawview Herefords, Lanni Bristow's L-O Herefords, and Jesse and Carlie Bannerman's EZ Ranching. They have all been great to work with.

We hope you are able to join us on February 11 for our fiftieth annual sale. We're proud of our sale offering. The cattle have predominantly Canadian pedigrees, and we continue to strive to produce low maintenance, sound, fertile cattle with longevity and good dispositions.

Come and have a look at the cattle, and join us for lunch at 11:30 a.m. MST, with the sale to follow. We look forward to seeing you!

SERVICE SIRE 83K was purchased at the 2024 Ulrich Hereford Ranch Bull Sale. He was recommended for use on heifers.

Our Sale Bulls are backgrounded the first winter after weaning, and then turned out on grass for the summer. As the grass runs out, we start supplementing with hay and an oat-based ration. They were on the Bovishield Gold vaccination program as calves, and had their third shot of Tasvax last spring and Ivermectin in December. No feet have been trimmed and all bulls in the sale have a satisfactory breeding soundness evaluation. The bulls will be tie broke prior to the sale.

It has been a very rewarding year with great cattle prices and moisture in most of the ranching areas. It is a priveledge to be able to sell with such a great group of breeders in the MVF 50th Sale. I want to especially thank the Alberta Hereford Association for the Breeder of the Year 2025 Award. Thank you to all my supporters from the sales past and hope to see many at this years sale.

A rugged quiet bull with lots of hair. His dam was a tank of a cow. Expect big calves from him in the fall.

Our Bred Heifers were given Bovishield Gold FP 5 VL5 and their third shot of Tasvax last spring. They were given Ivermectin at pregnancy testing and have had their first shot of Scour Bos 9. They have been exposed to the same sires selected for calving ease as our replacement heifers. We have a very low number of assists each year and a C-section is extremely rare. We invite you to view the heifers on the DLMS website in mid January.

25 Heifer Calves

from my commercial cows sell and are from the same breeding as the last 2 years.
Watch DLMS for Videos prior to the sale.

BRED COMMERCIAL HEIFERS | MVF

Our Bred Commercial Heifers have received the same health protocol as the registered heifers. They have been exposed to the same light birth weight Horned Hereford bulls as our commercial replacement heifers. They should begin calving the first week of April 2026 and are guaranteed to be in calf. They will be sorted and sold in groups of two to five head in the final portion of the sale.
