

37TH ANNUAL
MADER
Ranches

BULL POWER SALE

FRIDAY, FEBRUARY 20th, 2026
1 PM : AT THE RANCH, CARSTAIRS, AB

WELCOME

We want to start by saying "thank you" to all our customers over the past year(s), many of you who are repeat buyers, and some of you who we have just gotten to know! We really express our gratitude for your confidence in our program and product, and we sincerely appreciate doing business with you, but mostly to call you, our friends. The cattle business is as tight of an industry as they come, and one of which we all work hard daily, to not only make ends meet on our own or to reach our own goals, but one to which we all work together to better the beef market place in Canada and worldwide! We also need to give a huge thank you to all our friends, family and workers who help make things possible for our family and our farm. As you all know, it takes a village to help raise children, and it seems to take the same village to help run a livestock operation with unknown schedules and never a lack of projects!

The cattle industry is at an all time high, with calf prices reaching ultimate levels, cull prices on cows and bulls being as good as ever, bred females topping the charts, and fat cattle futures continuing to rise! There is no better time to elevate your cowherd, and by purchasing top bulls, you will see a fast return on your investment! Utilize genetics, real time data, and top physical attributes to excel what you already doing, and to put more \$ in your pocket!

The offering of the bulls runs deep this year. We feel by utilizing embryo transplant, and using select sires on a mass scale, we have brought one of the most consistent set of bulls for your appraisal as ever. Many of the sires used are proven herd bulls or AI sires.... This allows us the advantage versus using all new AI bulls as we can offer our customers advice on their bull choice(s), based on real life data and experiences from a previous calf crop. The same people you discuss your bull needs with, are the same people that do the calving, feeding, handling, and breeding selections on these bulls. You can trust in confidence, we will be honest and upfront, and can help you sort through them to find a bull(s) that meets your requirements and budget. Our goal is to develop these bulls and grow them out to a maturity level, where they can than go out and breed cows right away, not loosing a bunch of extra fat, and maintaining longevity. All bulls will be semen tested and evaluated prior to the sale, so bid with confidence. Our cowherd consists of about 300 cows, with the majority of them calving in Jan and Feb, and about 100 that calve on grass in June and July. This allows us to offer yearling bulls and extra age bulls to meet the needs of our clientele. We cull hard on feet and legs, temperament, and udder quality in the herd. We are always trying source new genetics, so we can constantly offer new bloodlines and improve the herd and the bulls we offer.

We have now raised and sold purebred breeding stock for 50+ years, and with that said, we know the importance of good relationships, communication, and what it means to stand behind the product we offer. If you have any problem with something purchased from us, we want to be the first to know about it, and will do our utmost to create a win-win for both parties. Again, this year, we have set a pen of bulls aside for spares, and to ensure if any of our customers have an issue, we have you covered. Our bull warranty program is a great option for our customers, to ensure a replacement bull if injury or death shall occur in that first breeding season.

The sale is at the ranch, 10 miles west of Carstairs. There will be 85 bulls, purebreds, percentage, extra age. There will be a good mixture of calving ease bulls for heifers, and performance bulls for cows. We realize our red cowherd is smaller in numbers, therefore less red bulls on offer this year but high in quality, however we retained all of our red bred heifers last year, and will see a substantial increase in red bulls for next year. Viewing, refreshments, and supper are offered the night before, and stick around after the sale for supper and visiting. We would love to have a chance to meet many of you in person and catch up with others we haven't seen in awhile!

See you February 20th!

Cheers,

Ryley

THE PEOPLE OF MADER RANCHES

RYLEY & JILL STELLA & HAWKIN MADER

maderranches@gmail.com

Ryley's Cell: 403.807.8140

Stella's Cell: 403.994.7755

Ryley has been a part of the family operation from a young child and was joined by Jill in 2007. The kids are extremely important in daily tasks. We look forward to many years in the cattle industry.

Jill's Cell: 403.990.9187

Hawkin's Cell: 403.994.2750

RANDY & RONDA MADER

rrmader13@gmail.com

Randy's Cell: 403.660.1123

Randy & Ronda started Mader Ranches in 1974. They have worked hard in the cattle industry for 50 years and see all aspects of the operation from day-to-day, management & mentorship.

CONNER JOHNSTONE

Conner's Cell: 403.973.1876

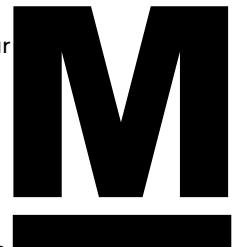

Conner has been here for a couple years now. He manages the feed wagon, and assists with daily cattle tasks and that makes him a huge asset to our operation.

OLLIE MENDHAM

Ollie's Cell: 403.466.0387

Ollie is from Australia and has joined us for two summers. His passion is the cattle but is handy with anything and everything daily.

There is nothing better than being at the sale in person. You get the opportunity to see the cattle, catch up with friends and meet new people! We hope you can join us, but if you can't make it we want to make it convenient for you to participate from where ever you may be!

1. GIVE US A CALL

We are all here to help you. We can talk with you about the cattle that interest you, logistics, and if you like we can even offer an opinion. We have our contact numbers listed on Page 2.

2. PHONE BIDDING

An option that works at all times. You can call any of us or a Bohrson Marketing Agent of your choice. We trust and value this team and encourage you to do the same.

Scott Bohrson :: 403.370.3010
Taylor Richards :: 306.821.4169

BULL WARRANTY PROGRAM

We are pleased to offer a warranty program that is designed to help get your bull through the most critical first breeding season. Mader Ranches guarantees to sell you a bull that is structurally sound, a bull that has passed a breeding evaluation by a licensed veterinarian.

Should any Mader bull fail to be satisfactory breeder, unable to physically service a cow or heifer, he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question or a credit will be given towards the purchase of another bull.

Our warranty program offers a warranty in a language you can understand. While under our warranty your bull is covered for injury, sickness or death. We will service you needs with another bull or a credit to next years sale. Should you have any problem with a bull, contact Mader Ranches directly at 403.807.8140. We require your veterinarian to complete a report and email it to Mader Ranches. We will work with you to make sure your cows get serviced and your are satisfied with your purchase. We have back up bulls set aside for customers.

We offer the following which is the buyers responsibility to purchase at time of settlement:

Duration - 6 months Rate - 6%

Coverage – During Breeding Season:

This warranty covers injury, sickness or death. It does not include freezing semen.

In case of loss, Mader Ranches will not be responsible for anything up and above the purchase of the bull.

The program will cover 100% of the purchase price less salvage value when possible.

Employ a licensed veterinarian to treat, diagnose and/or fill out a vet form. If the animal dies, a post mortem will be required.

Notify Ryley Mader immediately by phone 403.807.8140

Mader Ranches is responsible to make settlement of an approved warranty claim with a suitable replacement.

Exclusions to Warranty:

Injury or death due to malicious, willful or intentional acts or mistreatment by you or your employees are fraudulent claims.

One thing that must be kept in mind, however, is that semen tests most accurately represent the status of sperm production on the day of the exam. If there is an injury, illness or any sort of significant stress that occurs subsequent to the exam the effect on the sperm picture could be enough to affect breeding performance. A new environment, a drastic change in feed quality, being placed in a pen with older bulls are just a few examples of stressors. Any failed breeding soundness evaluation within 6 months of the initial presale evaluation should be assessed in conjunction with the original, pre-sale examination including an independent assessment of both semen smears. In most cases, if the bull received a satisfactory classification on the first evaluation, and that classification was correct, then a subsequent questionable (decision deferred) or unsatisfactory classification is not the fault of the breeder.

CREDIT ONLY NO CASH REFUNDS.

Bulls that are not covered by this warranty option at the time of settlement will not be covered by Mader Ranches other than the breed guarantee standards set by the Canadian Simmental Association.

We highly recommend that bulls that remain at the farm until a later date are covered with our warranty program.

Bear in mind, we stress the importance of Mader Ranches Breeding Season Warranty.

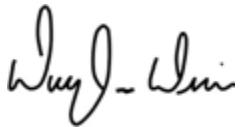

IF YOU CHOSE TO LEAVE YOUR BULL AT MADER RANCHES AFTER THE SALE, YOU MUST PURCHASE WARRANTY FROM MADER RANCHES OR A 3RD PARTY.

Mader Ranches have their entire cow herd on an integrated and comprehensive health and production management program. This program is based on the detailed collection of data on each individual animal at all key health and production points. This information is kept in a secure web-enabled database called Herdtrax™ and is continually monitored and audited by the managing veterinarians at Cow/Calf Health and Management Services (CCHMS).

CCHMS is proud to work with Mader Ranches and if required will provide documentation and verification of all animal health processes and treatments. If there are any questions with respect to the health and production management program at Mader Ranches, please contact myself.

Sincerely,

Waylon Wise

Waylon ultrasounding cows on summer pasture at Mader Ranches

When you focus on building a herd of exceptional females, the resulting bulls not only look the part but they breed it.

Some bulls look fantastic on the day, but it's not good enough to buy a bull on his looks alone. You are buying his potential. Yes, you should trust your eye first, but don't stop there. Study his pedigree, his EPD's, and any related animals. Make sure you look at his performance data, genetic testing and calving ease rating. We provide everything so that you can make an informed choice.

We also do this same homework on the bulls that we select. Talk to any of us! We not only have countless hours of hands on experience with these animals, but we have spent the time travelling, doing homework and visiting with other cattlemen and women. Our customers know that we have put in the effort to ensure the Mader Ranches bulls will go out and breed calves that make them profitable. Our homework is directly linked to your success.

We as a family are committed to the success of our customers. This means we raise and prepare our animals in a manner that promotes fitness and longevity of your new purchase.

The bulls developed on a TMR ration with bull supplement, chopped hay and straw, silage & supplements, minerals and vitamins. They are fed in large groups. They have been professionally developed for real-world commercial conditions. All data and complete performance info provided upon request and on sale day. Please remember that EPD's cannot be compared across breeds.

We have a Complete Herd Health & Vaccination Program with CCHMS - Waylon Wise (See above)
Prior to the sale all bulls have been semen tested, palpated, scrotal measured, and inspected by Dr. Wise.

These bulls are fully guaranteed. Should a bull fail to be a satisfactory breeder, he will be replaced with another bull of equal quality or a credit will be given.

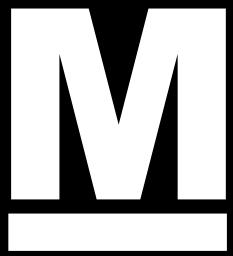

NO REFUNDS. Mader Ranches reserves the right to be the first to know about any problems you might have with your bull.

MADER CALVING EASE RATINGS

3 ratings are used on the bulls to rate them for calving ease, the more stars, the more we recommend them used on heifers

THE MADER RANCHES DIFFERENCE

POLLED GENETICS

Horns are extra work, welfare and safety issues for cattle and cattlemen. Mader Ranches prides itself on its Polled Genetics since 1975

FAMILY OPERATION WITH LONG TIME COMMITMENT

The Mader Family has been in the cattle business for 49 years. This is the 37th Annual Bull Sale and plan on a extensive future with our 2nd and 3rd generation. We work hard to ensure our customers are happy with their investment. We are committed to helping our customers achieve their goals and we back our animals.

HEART OF OUR HERD

We have a large nucleous of foundation females and pride ourselves in the cow families that extend down from that base. These bulls on offer are the top 88 bulls that we have to offer from 300 calving cows. They are the best of the best.

DEPTH OF PEDIGREE

We utilize Embryo Transfer and AI extensively to multiply the consistency in our herd. We find that by reproducing multiple daughters and sons from our donor cows and breed leading sires, we can offer consistency to our customers.

WEIGHTS

These bulls are being fed in order to reach their genetic potential. We really try to encourage fitness and longevity in our bulls. We are feeding our bulls for proper development of their body, feet and legs and reproductive organs.

ACCURATE DATA

We have invested into cattle record keeping and management so that all of our data is as accurate as possible. We have our herd on the HerdTrax program as it integrates well with the Total Herd Enrollment with the Canadian Simmental Association. All data is available.

-This guy screams power and performance, while also being influenced from many generations of maternal excellence

-He weans off at 1040lbs, boasts a 1460lb YW, and ranks in top 1% of breed for WW and YW

-His dam is setting up to be a very influential donor cow for us, and is among one of our top daughters out of the famous "Opal 652S" donor

-He offers superior width of top and hind quarter, is wide based, big nuted, and has that real herd bull presence

-One of the feature sons out of the \$280,000 Walk the Line legend

-A curve bender starting at 83lbs at birth, weaning at 1045lbs off a first calver, and having a yearling weight of 1460lbs

-We feel this guy offers calving ease with a smooth shoulder and lighter bone column, while still maintaining excellent growth, length of body, and overall substance

-He and his beautiful dam were campaigned on the show road, where they were declared champions at multiple shows such as Alberta YCS, All Breeds, Olds Fall Classic, and Farmfair International

-The Sugar cow family is well recognized in our program, and 49L is among the best, with her tremendous udder and foot quality, her added frame and mass, and her overall balance and eye appeal

-We plan to utilize this bull on heifers with AI service, and think he offers many characteristics that will push any program ahead

★★

- A real complete individual here that is balanced from nose to tail
- You like his depth of rib, he is full hearted, carries adequate muscle definition, and is very athletic on the move
- His dam has produced many bulls through this sale, and some feature heifers for our Ladies Night sale, including last years sister selling to Tangle Ridge Ranch
- A modest 88lb birth weight weaning at over 800lbs

★☆

- A real compact meat wagon here, with a lot of angularity and dimension
- Masculine made, soft middled, carries added roundness of muscle and depth of twist, all while standing on a good foot and leg structure
- His dam might be the most capacious cow on the farm, following the footsteps of her dam, with a great udder and big foot
- Sired by the \$52,000 Folsom sire who has calved great on heifers and also been a great addition to the cowherd for type and kind

★☆

- Freeport weaned off his dam at 920lbs, and ranks in the top 25% of breed for CE, BW, WW, and YW
- A multi purpose bull that will offer some calving ease with Folsom and Son of Anarchy in his pedigree, while still maintaining adequate performance in his offspring
- His black baldie dam milks heavy and is backed by a very productive dam and granddam who are both still going strong
- Fertility is in high regard in this cow family, as three generations have just calved in the first cycle with grandma being 10 years old

☆☆

- A maternal sister just sold in the Ladies Night sale for \$20,000 to Piechel Farms
- Stacked maternal greatness in this bull, with greats such as Darlin, Violet, Charo, Opal, and his dam being my favorite Opal descendant to date
- His dam is broody made, has loads of volume and body capacity, is great footed, and has a superior udder attachment
- This bull is massive in his muscle pattern, stifle region, and width of loin
- Heavy haired, big foot, and has the maternal edge, this sums him up to be one to find in the pen

MATERNAL BROTHER

-Just a mid Feb born bull that expresses a lot of future, he is compact made, thick throughout, and very well put together

-His recip dam is not our milkiest cow, therefore he came off a bit lighter, but we feel a bull that will only get better with age

-His pedigree is excellent, sired by the \$100,000 Night Shift sire, and the very proven Darlin cow family

-Look for this bull to sire a terrific set of replacements, while still adding value in phenotype and genotype to his sons

★★

- One of the powerhouse Night Shift sons expressing loads of natural muscle shape, width of body, and depth
- His maternal brother was selected last year by the Tychkowsky family
- The dam is a brood female, excellent udder, great feet, lots of middle power, and milks heavy
- Weaning off at over 1000lbs and ranking in the top 1% for WW and YW, expect this guys calves to push down the scale

★☆☆

- Another Rookie son who impresses with his added stoutness, quality of hair, and powerful foot design
- Rookie has been a great replacement for us to his sire Walk This Way, calving well for us, and adding desired maternal traits
- Low birth weight bull out of a first calver, he should work well in the heifer pen or on smaller cows to reduce weight at birth

- A growthy bull with added frame and length, momma weaning him off at 845lbs as a first calver
- The combination of the Rookie bull with The National, and an 84lb birth weight, sure lead us to believe he will calve nicely
- We really like analyzing his dam, and embryo dam out of our trusty donor, Lips Like Sugar 27C
- The maternal strength is at large here, and this bull will impress with his added performance

-Here is a full brother to the well known \$40,000 Mader Big Energy, a bull that has made a big splash in the industry producing power and pounds like his sire SVS Betts

-Big Energy was the National Champion bull two years in a row, and is proving to produce performance in his sons, and maternal in his daughters

-Backed by the prolific Darlin 613D donor, the dam of Walk the Line, only adds to the excitement

-This guy is a cool cat, moving freely, being extended through his front third, soft sided, ample muscle, is heavy haired, and well balanced

-He weaned off at 875lbs off his recip dam, and continues to impress us with his unique build

-A middle of February born bull that weaned off at an impressive 805lbs
-We love the mass and boldness that this bull carries, along with an impressive skeleton structure and foot quality
-His dam seems to raise them right, as a sister sold two years back at FNL for \$24,000 to Downhill Simmentals
-As he matures, he is only gonna get better, and will be a front pasture herdsire

- A dark cherry red bull with that money shot down his face
- His solid red dam stems back to our Sierra 524S cow who in her day was our top bull producing red cow, selling numerous sons through this sale as high sellers
- He has a stout build to him, wide topped and based, travels freely, and is the total package deal
- His sire was a past high seller to Sawley Ranches for \$18,000 and we are very impressed with his first calves

-A full brother in blood the lot 1 powerhouse

-This bull also came to us a month later then our weaning like his brothers around him, so is lighter on performance data, but is gaining well and really developing into a real nicely put together bull

-His dam is a favorite Betts cross Opal 652S donor cow, that is really making them right, with superb udder and teat placement and size

-Again, we feel a bull that is just hitting his stride and if your not kicking out until later May to June, you won't recognize this bull at turn out time

-A full brother to this bull sold two years back to Randy and Betty Landis for \$17,000 as a feature bull

-Take note that this bull was raised in a cooperative herd and weaned a month later then the other bulls so he is behind on performance data and size today, being born later then many aswell

-We feel in terms of his type and kind, he is very high quality, as he is attractive, big middled, expresses a lot of muscle definition, and is sound in his movement

-The dam was purchased through Friday Night Lights for \$25,000, and entered the donor pen whee she averaged \$17000 on her first two heifer calves

-A bull with bright future

★☆

- An attractive individual for his length and neck extension, along with ability to travel with ease around the pen
- The second good bull for his dam, the first one selling to Doug and Carol Fletcher as a calving ease sire

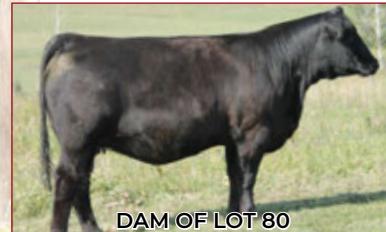

- This cow is easy on the eyes, nice blaze face, tidy udder, big bodied, and a sound skeleton
- He offers calving ease with a moderate birthweight, small skull, smooth shoulder, and EPDs that incorporate the Uno Mas heifer bull into him

☆☆

- A bull with added raw muscle, width of loin, ruggedness, and a big foot
- This guy is easy to find in the pen as his extra stature and mass make him a standout
- Backed by a massive ribbed cow that milks heavy, and upholds a good structure
- Utilize this bull to cover more cows year one, and expect heavier calves to come off him

☆☆

- A deep made beef machine here, that has extra chrome to add some color to his offspring, along with extra pounds
- You will really like how this bull is put together, coming with a big foot, great temperament, and sogginess
- The dam is color patterned the same, and is an easy cow to love for her low maintenance and an extra production
- The Interstate progeny all offer that round muscle shape and athletic design

-A more moderate framed bull that carries the same great muscling, easy fleshing ability, and temperament that Night Shift brings to the table

-The dam goes back to our Blackgold cow family, where increased weaning weights have become the normal

-This guy was orphaned late summer, and did well on his own, boasting a 713lb WW, and developing into a great looking herd sire

-Utilize him to breed more cows year one, and uphold his condition stronger the first year out breeding

☆☆

- A twin to another bull, hence starting so small, but he does offer some calving ease being lighter boned, and smooth made
- His dam is actually a full sister to Night Shifts mother, a very elite set of daughters
- The dam actually raised both of these calves from birth to weaning, so his weaning weight is lower, but a bull that has only gotten better since he has been independent
- Maternal traits such as udder and foot quality, longevity, and easy doing ability are assets he will pass on

TERMS: The terms of the sale are cash or cheque payable at par. Settlement to be made immediately after the completion of the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerk of the sale before any cattle will be released. All monies are in Canadian funds.

BIDS: Every animal entering the sale ring will be sold to the highest bidder.

DISPUTES: In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision is final.

ANNOUNCEMENTS: All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to any such announcements.

INSURANCE: Will be available sale day. Animals become the property of the buyer as soon as sold. Bulls to be wintered must be insured.

SHIPPING: Assistance will be given in arranging trucking after the sale but no risk is assumed by the Auctioneer or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement. If you need assistance please contact the seller.

CERTIFICATE OF REGISTRY: Registration or recordation papers will be transferred to the new owner if requested at time of payment. Cattle will not be transferred until paid for in full.

SEmen RESERVE: The seller reserves the right to draw semen on any bull in the sale for in herd use only at the cost of the seller and prior to delivery.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of buyers, neither the sale manager, nor the auctioneer assume any responsibility in this matter and disclaim any liability, legal or otherwise, in the event of accident or loss of property.

LIABILITIES: All persons attending the sale do so at their own risk and sellers assume no liability, legal, or otherwise, for any accidents occurring in or about the premises.

EXPORT TESTING: Required health certificates for cattle being exported will be provided.

BREEDING GUARANTEE: All animals are guaranteed to be satisfactory breeders in accordance with the respective breed association bylaws. No guarantee is given a bull's semen will freeze. Any female that is subject to embryo transplant shall cause this guarantee to be null and void. Guarantee does not apply to animals who after the sale are not properly handled and cared for, or injured or sick. They cannot be returned to us if not in a sound, healthy condition. At no time shall the seller's liability exceed the purchased price of the animal.

RIGHTS & OBLIGATIONS: The above terms & conditions of the sale shall constitute a contract between the buyer & seller & be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction & the rights & obligations of the two parties connected thereto are not covered by the terms & conditions of this sale. In the event of default on any part of the terms & conditions covering this sale by either the buyer or the seller, it shall be the responsibility of the buyer or the seller to investigate any action necessary to bring about a fair settlement of any claims arising from this sale and to be responsible for any & all costs involved therein.
