

MARCH MADNESS

FROZEN GENETICS SALE

MARCH 3, 2026

ONLINE WITH DLMS FARM GATE TIMED AUCTIONS

WELCOME

We are excited to once again bring you an outstanding set of opportunities through this year's event, hosted online with DLMS Farmgate, closing March 3rd, 2026.

March Madness has built a reputation as a trusted source for elite genetics, and this year's offering is no exception. The 2026 lineup features an impressive combination of new, exciting, rare, and time-tested proven genetics across the Simmental, Red Angus, Black Angus, Limousin, Charolais, and Speckle Park breeds.

Over the years, this sale has proven its value time and time again. Many high-selling bull sale standouts and fall show champions trace back to embryos purchased through March Madness. The impact of these genetics continues to be seen in progressive herds across the industry.

This year's embryo offering showcases carefully selected matings from reputable breeders who are committed to excellence and long-term performance. In addition, the semen lineup includes hard-to-find packages alongside some of the most proven and productive bulls in the business — offering both opportunity and reliability for programs focused on advancement.

We are proud of the strength and depth represented in this event and are excited to watch the next generation of influential progeny that will result from these genetics.

If you have any questions or would like assistance bidding or evaluating lots, please don't hesitate to reach out to any member of the BMS team. We are always happy to help!

HOW TO BID

OPTION 1 - UTILIZE THE BMS INDUSTRY-LEADING ORDER BUYING SERVICES.

Contact a Bohrsen Marketing member and we will bid for you in a professional and confidential manner.

OPTION 2 - BID ONLINE WITH DLMS FIRST TIME FARM GATE USERS:

- First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (Please note due to some of the text notification features the FarmGate Time Auction Site requires a new account separate account from your DLMS Live sale site)

- After you create your FarmGate account you will receive a txt message with a pin code to verify your account.

- On your first log in to FarmGate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favourite lots.

HOW TO BID IN A TIMED AUCTION

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

- **Place Next Bid** – to place the next bid on the item, you see the amount in the first box, you simply click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed.

- **Max Bid Amount** – to place a max bid you put your max bid in the second box listed as "Max Bid" on the item, and then click the "Place Bid" button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

Example of How the Max Bid Works - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system

will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

WATCH LIST FEATURE

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the "eye" button beside the bid button, by clicking this "watchlist" icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

WHAT IS RACEHORSE STYLE CLOSE?

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORKS?

When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

BIDDING CLOSE & FOLLOW-UP

After the clock has gone to "ENDED" and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

- Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.

If you need assistance, contact Mark Shologan - 780.699.5082

Canadian Sires + Donors :: Olds, AB :: 403-370-3010

Embryos are stored at **Bow Valley Genetics**
Embryos are qualified for **CAN**

LOT 110A 3 IVF sexed female embryos | MRL Cool Hand Luke 113M x KK Jarr Missy 491M

LOT 110B 3 IVF embryos | WF Capital 164L x KK Jarr Missy 491M

KK JARR Missy 491M is one of the most unique and impressive Next Level daughters we have come across and she continues to be a cow that stops visitors in their tracks. She is exceptionally long-fronted, angular and elegant, yet still bold in her rib shape, big-hipped, and equipped with the mass and dimension required of elite modern Simmental females. Missy ties together femininity and power in a way that very few cows can and she does it with flawless structure and a blaze face that only enhances her presence. Her ability to combine look, balance, and softness makes her an ideal ET donor that we expect to have a long and influential career ahead of her. Mated here to the \$240,000 WF Capital 164L whose proving to sire stout featured cattle with loads of look and presence and added hair as well as the truly exciting up and coming red stud, MRL Cool Hand Luke whose semen has been in high demand and early calf reports have been extremely encouraging.

LOT 111 3 IVF embryos | SVS Rancher 42H x Rust Linda 9563G

This is the last opportunity to acquire embryos on the now deceased great donor, Rust Linda 9563G! A big time Structure daughter that does so much right. Linda is stunning from every angle completed with a gorgeous udder, strong feet and great look. She is the donor dam to the popular half blood females, C-D Linda 4200, 4259, 4262 and 4229 that highlighted the 2025 MotherLode Sale and include a \$145,000 valued daughter. They have been admired by many astute cattle folks for their real world characteristics and overall added quality. Mated here to one of the industry's most consistent an proven red sires, SVS Rancher 42H, is sure to be exciting as he brings added foot quality, length of body, muscle shape and one more incredible cow to the mix with the great HLTS Sammie to the mix!

LOT 112A 3 embryos | JSUL Something About Mary x IRCC Bombshell 418B

LOT 112B 3 embryos | RF Caliber 014G x IRCC Bombshell 418B

Bombshell was the high selling female from the Quality Control sale where she was selected from the Indian River Program with Canadian Donors. We wanted to incorporate her sound structure, as well as her extra style and presence and perfect udder. Bombshell is the type of female that you can power and jam to and the result is always soft made, powerful progeny with tonnes of "look at me" attitude to them. We know this mating is the perfect combination and is as proven as it can get. Caliber will add depth, frame, power and length and will give you a quick ROI on both the sons and daughters on this mating. Whether you want one to show and kick out to the real world after, a front pasture daughter or a powerful bull, this mating is proven and very predictable.

Rancier Farms :: Killam, AB :: 780-385-5313

Embryos are stored at **Davis Rairdan International**

Embryos are qualified for **CAN & USA**

LOT 113 5 Embryos | Drake Poker Face x Springcreek Honey 134G

When we went looking for a couple of outcross donor cows for our program in the fall of 2022 Springcreek Honey 134G kept coming to the top of our list and everyone that toured the Springcreek Dispersal Cows. When the dust settled she was on the high sellers list to Elite Cattle Co in Australia and ourselves. She's homo polled and homo black, has a little extra look and stands on a great foot and has a great udder. Caliber sons were features in our bull sale last year and another daughter in our replacement pen is one you will hear from in the future. Her pedigree is lined with some of the great cows in the Springcreek program on both the top and bottom side like 69Y and 65C and some of the most influential sires that have been used in their program. We were excited to do the flush to Poker Face and we think it will be the perfect mating on Honey. It's proven, and a set of blaze face sons would provide a quick ROI and daughters would be cows you'd never want to sell because they could be production powerhouses.

LOT 114 3 or 5 embryos | TL On The Run 106K x Miss R Plus 9077G

If you appreciate cattle with, Elite Foot Quality, Ideal Structure, Sharp Profiles, Awesome Maternal traits, while being big bodied, hairy and easy keeping! Then put Miss R-Plus 9077G at the top of your list. Her progeny have quickly set the standard for consistency and quality, yet have lots of extra look! 9077G has two daughters entering our donor program this spring and her leading son RWG Roulette 421N is heading to stud as one of the breeds most intriguing young red baldy bulls. The mating to TL on the Run 106K is fresh and exciting! Expect elite phenotype, backed by a solid, production based, donor that can flat out raise one. Make elite, next generation show females or sons that highlight the bull pen. LRPS Miss R-Plus 9077G is Homo Polled, Hetero Black donor that maximizes birth to yearling spread posting and impressive set of EPDs 11 CE top 20%, 1.8 BW top 25%, 83.4 WW top 35%, 131.6 YW top 20%. Low birth cattle, with growth are the highest in demand cattle across the industry.

LOT 115B 3 IVF embryos | RF Boomer 262K x Miss R Plus 9236G

9236G is one of the most asked about cows in the Canadian Donors line up. She is one of the most up headed, cocky traveling cows you'll find and still has a tonne of natural rib shape and muscle expression. She is a cow you can literally breed to anything and it works. She has produced multiple progeny by different bulls for folks that have purchased genetics and they are always happy and impressed with them. We think these mating's have a lot to offer. The likes of Hannibal and Tycoon are extremely exciting to be represented in a mating as both of these deceased bulls have left big, lasting impacts through many progeny that have gone on to be very productive and influential. Sexed Tommy Gunn is exclusive and his first calf crop has surpassed his big expectations. You can guarantee he will leave you dark, high performance offspring.

LOT 117B 5 IVF embryos | RF Intensity 3142 x CD Princess 8683

C-D Princess 8683 is a super attractive, sound structured, awesome uddered female that is gorgeous on every angle you analyze her. She is near perfect in her skull design with big fluffy ears, long fronted, smooth shouldered and big ribbed with a square, balanced hip. She is the mother to our Princess 5F donor and we believe strongly that we have some exciting embryo matings for your appraisal. Sexed Female Clear Advantage is a great way to lay down a foundation of a new cow family as these females are sure to carry the exceptional udder quality and angular loo represented on both sides of the matings pedigree. Intensity 3142 is the big time Scream 974G son whose pedigree is as predictable as we feel one can be. His flush sister claimed the 2025 FarmFair Beef Supreme and his maternal sister was the \$170,000 FNL '25 sale feature.

LOT 119B 5 IVF embryos | SVS Rancher 42H x Balck Gold MS Wonder 28K

Bull sale season is when the right cows separate themselves. Black Gold Ms Wonder 28K is built to do exactly that. She is a high-quality homo polled, black Simmental female sired by Coliseum, the 2022 Show Bull of the Year. Big footed, heavy boned, and powerful from the ground up, 28K is designed to carry mass, stay sound, and consistently raise cattle that hold together and perform. Her pedigree is stacked with proven, foundational cow families — Cobra, Structure, Captain Morgan, Final Affair, and 202Z — genetics known for adding structure, longevity, and real-world performance. That depth allows her to be bred in multiple directions while maintaining consistency and build. This donor backed it up in production, generating 35 Grade A embryos in a single flush, highlighting both fertility and functionality. The Walk the Line and Rancher matings are proven, market-driven crosses that continue to produce high-selling bulls and productive females for leading programs across the industry. This is a cow that gives you options - and calves that sell. 100k tested.

LOT 121B 4 IVF embryos | LFE Cabaret 847J x CD Dixie Erica 8040

When one door closes another one certainly does open, at least that's what we are telling ourselves after losing 8040's dam, the striking 106Y donor female who had been great for ourselves and Rancier Farms. 8040 certainly was no mistake when we mated her powerful, big bodied dam to the legendary Loaded Up and we look forward to the future as 8040 replaces her mother. 8040 herself is such a nice blend of both sides of her pedigree as she has a tonne of "look at me" presence with her long attractive front end, bold rib cage, muscular hip, wide pinset and dense bone structure. Mated here to the exciting Cabaret 847J herdbull who has remained very exclusive and used very successfully by all who have used him. LFE Cabaret 847J progeny are hard to come by and some of the only ways to acquire his genetics is through exciting embryos such as these, he is responsible for many high sellers but arguably his most exciting accomplishments to date are the \$110,000 BLACK GOLD/LINDGREN CABARET 7M and \$80,000 KT DISCO 4065.

LOT 122B 3 IVF embryos | Ultra/HVAL Tommy Gunn 32L x C-D Alley 0179

A gorgeous female that was a past FNL sale highlight and wisely snatched up by the partnership of Bristol View, Cedar Creek and Maple Lea. 0179 was a fun fall born heifer successfully campaigned by the Bohrsen Kids in the summer of 2021 where she was very competitive and won a lot of divisions even up against the older heifers. Fast forward to 0179 into production and she is one lethal beast. Long and extended, flexible, sharp looking with a beauty udder. 0179 is a very unique female and cuts a silhouette hard to duplicate. She sent a bred heifer daughter through the 2024 CD Production Sale to Mudd Butte Simmentals and is guaranteed to be a breeding treasure for years to come. Mated to the proven, calving ease specialist and maternal giant, Tokyo Rose and the dark red, powerhouse Tommy Gunn are a pair of exciting, current matings that are sure to leave highly marketable or irreplaceable offspring.

Our selection from the 2024 Premium Pick production sale from Ag-Land Farms. 15L hails from the Tess cow family made famous at the great BlackSand program and offers a different pedigree and high quality phenotype to the equation. She is a model Simmental female who is wedge shaped, strong footed and exceptional uddered. Her head carriage, neck extension and rib shape is admired by all. Capital 164L was the dominant show bull calf before he was the FNL high seller for \$240,000 to Double Bar D who has since eased right into his role and exceptional breeding bull with his first daughter to sell commanding \$55,000 and his sons looking to cut a big swath in the spring of '26. JWC Western Feel 354M was a feature in the US on the spring bull sale run where he was commended for his athletic build, hair, look and presence.

417B was on display in The Yards at the 2018 CWA and admired by many as an extremely complete, big bodied, sound female. She is a great uddered female that we have been proud to own and showcase to every visitor. The Cream Soda cow family is as reliable as it gets for producing great cattle with marketability and name recognition. Mated with SVS Betts 808F is a proven mating as the resulting, WF HighStakes herd bull is doing great things for his new home at W2 Land & Cattle. Liner 56U is a breed legend and this combination of the 56U with these Soda Pop females has already clicked and produced multiple high selling open females seeing donor duties at their new operations. Vermillion Dateline and EXT are truly some of the Angus greats and we feel this is a great opportunity to acquire some of the best of the SimAngus world. The one basket that includes 1 egg with the legendary RF Caliber thrown in the mix is worth the gamble all in itself as that could be the literal golden goose egg you've been searching for. **THESE EMBRYOS ARE BEING SOLD AS A DISPERSAL, AS IS, WHERE IS AND NO EMBRYO GUARANTEE.**

LOT XA 3 embryos | RF Supercharged 9150G x Black Gold Ms Tula 58D

This mating represents a powerful blend of performance, maternal excellence and proven cow family strength. RF Supercharged 9150G has quickly earned a reputation as a sire that injects extra power, muscle shape and herd bull presence while maintaining structural integrity and real-world functionality. His progeny consistently display added look, body mass and performance, making him a logical choice to mate with elite donor females. Black Gold Ms Tula 58D is the type of donor that anchors a program. Backed by the highly respected Tula cow family, she is admired for her broodiness, udder quality, sound feet and longevity, with a phenotype that blends power and femininity in an attractive, maternal package. Females stemming from this lineage have proven themselves as productive, low-maintenance cows that consistently raise high-value progeny. The combination of Supercharged's performance and presence with the maternal reliability and cow power of the Tula family creates a mating loaded with upside. Expect progeny that offer herd bull potential with added shape and dimension, while the daughters should develop into highly productive, easy-keeping females built to last. These embryos present a unique opportunity to access a mating designed to deliver both immediate marketability and long-term program impact.

This female has been special since she was a week old and has been popular with everyone who has seen her at anytime over the last year. She was named Junior Champion female at the 50th Farm Fair International competing against females a year older than her! This female has always been and remains striking from every angle. Wide based, with a smooth transition from hip, to rib, to shoulder, to front end. This female just doesn't have bad days or give any off looks. Her feet are big and square, her teat placement is ideal, her combination of power and elegance is commendable and her overall presence is hard to deny. Everywhere we have shown Sammie 3171, she has won her class and been very popular for all the right reasons, cattle like this are hard to breed and even harder to sell. We feel no matter the direction or objective you have with your breeding program, Sammie 3171 can move you in the right way. Her pedigree is new and exciting and gives a double shot of two of the most influential red donors in recent years with Darlin' 613D and HLTS Sammie being her first two immediate cows. LOT 132B 3 IVF sexed female embryos | Black Gold Tangleflags 31L x Crossroad Frankie 68F

There are a lot of fun terms that come to mind when you think of Frankie 68F. When folks tour through and see her they always immediately notice this absolute powerhouse. She is all that and more when you think of a brood cow. Frankie 68F is as dense from front to back from top to bottom as any cow we have had around all while remaining ultra feminine and attractive. Mated to the legendary, tried and tested NCB Cobra 47Y is a real proven and predictable option and time and time again ol' Cobra has proven to work and click so well with cows built like Frankie. Sexed female Tangleflags with the opportunity to get blaze faces gets us excited as T.Flags daughters have proven to have a very sharp, crisp outline with an abundance of shape while remaining angular and eye appealing. The only Tangleflags daughter to sell by live auction in the fall of 2025 as a part of his rookie calf crop was a \$45,000 feature from Black Gold. We think these are some really neat matings on Frankie 68F!

LOT 134B 3 IVF sexed female embryos | Crosroad Ultimate 74M x KT Sage 4132

In the fall of 2024 we came across one of the most consistent flushes we have ever seen out at KT Ranches. Walk The Line 92J crossed so well with SVS Red Sage 49J as their was 7 full sisters all so similar in type and kind. We selected Sage 4132 as our first pick (only 4 offered) as the \$45,000 high seller. 4132 resembles her dam and grand dam to a tee. Rib shape, muscle expression and eye appeal all wrapped up into one stunning package. 4132's dam was selected as the 50th Anniversary Champion female at Farm Fair International and capped off her year as a top 10 finalist in the 2024 CN Supreme at Agribition. The matings to the likes of the \$170,000 MRL Cool Hand Luke and the \$120,000 Crosroad Ultimate are what we feel to be some of the newest, freshest and most exciting available in a red pedigree. Both of these bulls have had calves being born the last month with great reports as the calves have come at a nice size and have grown at a really nice rate. Both of these bulls have exceptional foot quality and dark colour with extra hair. Lukes mother is the immortal 4440B donor for MRL and Ultimate offers a unique, outcross pedigree. Take your choice on some exciting matings out of a future donor star.

LOT 135B 4 IVF embryos | NUG Eclipse 302K x Lcdr Ms Kris 173K

Ms Kris 173K came to us from the reputable Lazy C Diamond Ranch in North Dakota. A daughter of the proven and popular American Red 99E herdbull at Crossroad Farms, she is a calving ease donor with shape, maternal quality and look. She raised a \$15,000 feature bull calf in the MotherLode Sale that soft made, square and level on all four corners. Her mating to Tangleflags is one we feel could click exceptionally well as his daughters last fall were popular and his sons this spring of 2026 are about to make a huge splash as they are one after another with exceptional quality and among some of our favourite bulls we have seen. NUG Eclipse 302K is the exciting son of the great Brooke 68Z donor who is best known as the sire to the \$80,000 KT ECLIPSE 4576. Eclipse is known to add softness and power while enhancing maternal quality.

LOT 137A 4 IVF embryos | RF Intensity 3142 x MRL Copper Penny 3473L

LOT 137B 5 IVF embryos | KSR Legacy 51L x MRL Copper Penny 3473L

3473L was our selection as the pick of the McMillen Ranching bred heifer pen from the World Simmental Sale. A typical Walk The Line daughter with udder quality to no end, attractiveness, added hair and big time look, then coupled with the legendary 4440B donor cow on the bottom side who brings body shape, maternal characteristics and a lengthy list of progeny accolades, brings you a no guess work donor female with exciting credentials mated to some of the industry's most exciting new herd bulls. Intensity 3142's pedigree is absolutely loaded top and bottom as we all know the influence Caliber has had on the breed and a flush sib to Intensity was the 2025 FarmFair Supreme Female for Rancier Farms. A maternal sister to Intensity was also the \$170,000 FNL '25 sale highlight just adding value to his already impressive pedigree. Intensity himself being a red carrier Caliber son is exciting in itself and include the fact he is a robust, proud looking, soft made dude really makes this mating one to study. KSR Legacy 51L was the \$170,000 high seller from Kathol to Black Gold that caused a huge stir in the fall of 2024. His first calves are hitting the ground now on this exclusive sire and are keeping the soft made, dark coloured, heavy haired features that made him so popular.

LOT 138B 4 IVF embryos | Crossroad Ultimate 74M x R Plus Satin 1377J

LOT 138C 3 IVF embryos | SVS Tycoon 841F x R Plus Satin 1377J

Our pick of the historic R Plus Dispersal. Satin 1377J is a wedge shaped, deep sided beauty that is easy on the eyes all day everyday. We love these Betts cows and think 1377 can river the best of them. Satin's donor dam was a popular sale feature that same day for good reason, not only was she phenotypically stunning but also was a proven donor dam, most notably the mother of Venom. Satin 1377 was a feature herself in the MotherLode Sale and now calls LA Ranch home in Vanderhoof, BC. Mated here to a few exciting individuals such as the \$140,000 Cabaret whose progeny have been highly sought after no matter the gender as they are simply powerful and built extremely well. Crossroad Ultimate is an upcoming and coming breeding powerhouse whose first calves on the ground certainly look the part and possess his dark, thick hair and stout top. Ultimate has grown into a bigger framed, longer bodied bull that is full from his tailhead to his poll. SVS Tycoon 841F will go down as one of the most accomplished breeding bulls of all time and his limited in supply semen is still highly sought after and when mated to cows of this magnitude, you have to jump at the opportunity.

LOT 139B 4 IVF embryos | Black Gold Tangleflags 31L x RF Certainly Flirtin 532C

532C has stood the test of time and is as impressive now as she was the day she sold waaay back in 2015 as the anchor to the strong flush of Captain Morgan x Flirt 202Z. She is still as tanky and powerful as ever with a gorgeous udder. She is a herd bull factor and her daughters are always in high demand. She is mated to the exciting Cool Hand Luke herdbull whose exclusive semen has commanded up to \$2800/ dose. He is a next generational herdbull we think is the next great breeding piece. Tangleflags is the special red blaze bull you have been searching for, his quality and power is hard to duplicate in a sound made, attractive package. 532C has been a potent breeding piece and has sent many sons into Purebred operations and top end commercial outfits. We feel these are incredible matings.

LOT 140A 3 IVF sexed female embryos | MRL Cool Hand Luke 113M x RNR Miss Sheila 21M

LOT 140B 3 IVF embryos | Ultra/HVAL Tommy Gunn 32L x RVR Miss Sheila 21M

The undefeated 2024 Senior Heifer Calf and lead off female at FNL was Sheila 21M as she was highly sought after for her very complete and balanced build, blending power and performance with angularity and eye appeal. She has since calved and dropped a gorgeous, square udder just as you would expect from the Rancher daughters. Mated here to SEXED female Cool Hand Luke we feel is a cow building cross. The daughters by this mating will be an incredible foundation to build around as the great 4440B donor that backs CHL is an absolute breeding treasure. Tommy Gunn mated on Sheila 21M is one we feel will click very well. The Tommy Gunn cattle are consistently dark red, and very balanced from front to back and we feel they are about to cut a huge swath across the industry this spring of 2026 as they hit the auction block for the first time.

LOT 142A 3 IVF embryos | Crossroad Ultimate 74M x Black Gold Ms Future 77J

LOT 142B 4 IVF embryos | SVS Rancher 42H x Black Gold Ms Future 77J

A female we just had to figure out a way to be apart of since we first laid eyes on her! When we first seen 77J, we were immediately drawn by her presence, added length of body, colour and pigment. She is what we have come to expect from Reputation females as they are straight up the goods and then some. We convinced Black Gold to offer her up in the World Simmental Sale and were the successful bidders to get her bought through that historic event. After successfully flushing, we thought it would be neat to mate 77J to a few of our favourite red purebred bulls such as the up and coming, \$120,000 Ultimate 74M, whose is admired for his added growth, length of spine, strong feet and dark colour with some awesome paperwork to compliment his ideal phenotype as he has a really balanced set of EPDS and a very user friendly, outcross pedigree. SVS Rancher 42H is a bull we will continue to utilize wherever possible as his offspring, no matter the gender are just full of quality. They have become a dependable staple in many commercial and purebred operations and when you see Rancher in a pedigree, you best study the animal. Udders, feet, body shape and do-ability are always next to perfect when Rancher is shown.

LOT 143C 5 IVF embryos | ARNI 8M x Black Gold Ms Maddy 101J

LOT 143D 3 IVF embryos | JNR Barbarian x Black Gold Ms Maddy 101J

Maddy 101J is an absolute sight to behold, we love everything about this female. Big fluffy ears, awesome skull, beautiful colour and pigment, strong dark feet, perfect udder, rib shape base width. She is an ideal female. Her natural son sold through the CSD production sale in 2024 for \$20,000 to Roach Ranching. We have a very unique offering here by Maddy including the old Arni 8M bull who for any of you history buffs, know just how well he worked and how influential he was. JNR Barbarian is the past \$165,000 high seller whose semen broke records when it was first offered exclusively. His offspring have proven to have added mass and volume with loads of hair. Maddy 101J was also flushed successfully to a pair of the real exciting new RED purebred herd bulls such as the dark red Tommy Gunn whose first calf crop has been the talk of the industry with many sons of high high quality set to sell the spring of 2026, including the popular Erixon .fortyfour who had a large showing at CWA '25. MRL Cool Hand Luke is a bull we feel is the next generational red bull to take programs to new heights going forward. His foot, hair, colour and sound, fault free build while being backed to one of the most stunning and productive cow families in the breed make him a must use breeding piece.

This female is already climbing the list of some of our favourites. Selected at the world Simmental sale, this homozygous polled female is what we consider ideal. Beautiful udder, wedge shaped, attractive with power. We really like this female. She is always easy to find. We really like the mating to the likes of the incredible breeding bull, NUG Advantage 104J, who has quickly become a recognizable sire for producing both genders that are flat out awesome. Multiple herd bulls and high selling daughters have been a product of Advantage and this Homozygous mating is a no miss one. We really like the mating to Malone here, as his dark complexion, and extra muscle shape always transmits to his progeny. Malone's sire, Motown has done an incredible job breeding. Old Arni 8M is an old school sire whose ability to sire quality never goes out of style.

Here's a beautiful polled female that is built as good as you can make one. She looks just like her picture and is a sight to behold. Body shape, udder quality, attractiveness is all wrapped up here in this peak headed beauty. She has a feature son from the Crossroad program seeing herddbull duty at Double Bar D and he is one impressive individual to analyze. Here are a trio of some of the very exciting and proven matings you can find with the dark red, polled, \$355,000 Rumble sire who has turned into a breeding powerhouse. JNR Barbarian is always in high demand with his semen fetching a high price for good reason as his progeny have been highly marketable in all aspects of the industry. Battle Cry 4F has stood the test of time and has been a reliable sire for producing low birth, high performance cattle. His legacy will continue to live on through exceptional daughters who know how to produce.

This donor female is the epitome of fullblood greatness with overall power and beauty wrapped up in a complete package as she is picturesque in her design. The quality throughout that 73D offers is to be commended with a strong foot, sound structure and being extremely attractive in a powerful package. She is long, stout, well muscled and lots of capacity throughout and truly is a big time donor that looks impressive from every angle. Her dark red, well pigmented phenotype is the type to build around. A pair of exciting matings to build females around here with SEXED General Manager semen, who was the lead Fullblood bull from Black Gold in 2025, who was grown into a very balanced and complete individual with added hair and look. He is heavy haired and stand on exceptional feet. His mother is a beautiful young Battle Cry grand daughter with an ideal udder. Sexed Prime is a very easy mating to utilize, he is a material brother to the popular Reputation herd bull whose daughters have truly been his legacy.

LOT 147D 4 IVF embryos | Starwest Prime 346L x NGDB Lady A 500L

Lady A 500L has matured into a beautiful female that represents just why fullblood cattle work so well in all aspects of the industry. She is a big ribbed, deep sided female that is strong uddered, big footed and very nice to look at. Her donor dam has been super productive so 500L is certainly no mistake. Her progeny we have seen thus far are the right kind and we believe she will be impactful going forward. Udder quality, muscle shape and depth of body are just a couple of her most positive attributes. Mated to the dark red Motown son, Malone 39K who is a polled bull with loads of muscle and shape, the tried, tested and true Battle Cry who has been widely used very successfully across the industry, the \$165,000 Barbarian herd bull's first two calf crops have exceeded expectations and he produces them just as he appears with hair, muscle, rib shape and depth of body. Starwest Prime is an exciting new, homo polled herdbull whose first calf crop is arriving now and folks are applauding him for making cattle that are coloured very dark with awesome pigment, top shape and muscle already at a young age.

LOT 243 3 IVF embryos | Coleman Mission 1447 x Coleman Donna 8146

Exciting embryos from the \$375,000 (1/2 INTEREST) high selling female from Coleman's 2023 female sale!! 8146 IS the Coleman kind and is the epitome of angularity, power, mass in a beautiful, elegant package. Donna 8146's maternal lineage is as deep as any and the lengthy list of credentials produced from full and half sibs to Donna 8146 is astonishing. In the 2022 Coleman Angus Your Maternal Source Sale, we offered a flush on this great donor female which sold for \$50,000 to ZWT Ranch of Tennessee. Coleman Donna 4203, a full sister, has been a cornerstone donor in the program producing \$281,750 in revenue on 15 head where she has averaged \$18,281 on eight bulls and \$19,357 on seven females. Coleman Banker 9215, produced from a full sister, was the \$75,000 one-half interest for \$ 150,000 valuation feature through the 2021 fall production sale going to Voss Angus of Iowa. Other features produced by this full sister include the \$45,000 one-half interest for a \$90,000 valuation, Coleman Donna 9220, who was the featured Lot 1 female of the fall 2021 production sale going to Richburg Angus of Texas; through that same event, she produced the \$22,500 Coleman Donna 0178 going to the Kelly family of Michigan and the \$22,000 Coleman Donna 0121 going to Antczak Angus of Wisconsin; she also produced through the fall 2020 production sale, Coleman Donna 9309, the \$20,000 full sister to Banker going to Sadler Ranch of Oklahoma. Coleman Donna 8147, a full sister, went on to produce the top-selling bull of the 2023 spring production sale, Coleman Below Zero, who sold for \$150,000 for one-half interest for a \$300,000 valuation. 8146 is mated here to Coleman Mission 1447, who was the \$55,000 feature in the 2023 Coleman Angus Bull Sale going to Gaugler Angus Ranch in Judith Gap, Montana. He has exceptional phenotype in a moderate low input package, with added muscle shape, and body. He is a son of the Pathfinder Sire, Coleman Charlo 0256, back to the dam of the \$270,000 record selling Coleman Glacier 041, Coleman Donna 439. His Pathfinder dam, Coleman Donna 439, is as good of a producer as there is in the program and she has a progeny production record of BR 6@92, WR 6@106, YR 5@106. She is a model Angus cow with a beautiful udder, a wonderful maternal design and one of the top income-producing females on the ranch. She also produced the \$180,000 one-half interest and top-selling heifer calf of the 2022 Your Maternal Source fall female sale, Coleman Donna 264, and the top two-year-old spring selling pair, Coleman Donna 046.

LOT 244A 3 IVF embryos | Hummel South America x Coleman Donna 9286

LOT 244B 3 IVF embryos | Coleman Poncho 9426 x Coleman Donna 9286

A featured Donna female with elegance and style in a highly maternal package is this featured daughter of the record-selling Pathfinder sire, Coleman Bravo 6313, back to the legendary Pathfinder dam, Coleman Donna 0308. Striking from every angle, this female with a tremendous look and presence has an outstanding and highly productive progeny production record that includes WR 3@101 and YR 2@106 stems from one of the elite Pathfinder donor females in the program that has a progeny production record of BR 6@93, WR 6@107, YR 6@105 and 37 daughters in production with an average nursing ratio of 102. Her dam is also one of the Top \$M cows in the breed for her age and having Pathfinder status while generating \$380,500 on 31 head to average \$12,274 in past Coleman Angus sales. 9286's first two natural calves highlighted the 2023 Your Maternal Source Sale where her two-year-old daughter, Coleman Donna 1627, sold for \$17,500 and her yearling heifer sold for \$15,000, Coleman Donna 2629. A couple of special matings here by the incredible breeding bull, Hummel South America, whose genetics are total out cross. South America sold for \$180,000 for one-half interest in the Night at Remington Park sale at the 2021 Cattleman's Congress. He captivated cattlemen from all over the world and was the pick of the pen and the people's choice of him and his brothers. He is a direct son of Don Aparicio Serrucho 57 Maxi the only two-time Palermo champion in Argentina. He stems back to one of the great producing dams in the La Rubeta program and female they call, "Tank", she got this name for her overwhelming body, fleshing ability, and three-dimensional design. His progeny are exactly what this industry has been looking for. The calves have huge tops, a stout rear quarter, loads of body, in heavy structured package. Coleman Poncho 9426 is the \$220,000 top-selling bull of the 2021 Coleman Angus Fall Production Sale to Sandford Ranch of Texas. He is an impressive individual that models himself after his famous sire. His unique combination of muscle and calving-ease, along with added body, is a hard combination to find in the cattle industry. He has an individual BR of 90, WR of 108, and YR of 108. Poncho's powerful dam is the #1 \$M daughter of Renown 3439 in AHIR at American Angus Association. She has a progeny production record of BR 1@90, WR 1@108, and YR 1@108.

LOT 246 5 IVF embryos | RF Lit Up 357 x Coleman Donna 2412

Donna 2412 came to us out of the record breaking Coleman Angus Fall Calving dispersal in fall of 2023 as a \$30,000 feature Argentine daughter out of the beautiful 787 donor cow. She is the epitome of the "Coleman" kind, being so deep ribbed with classic Angus character, big time teat spread and just an overall maternal look. Mated here to the potent breeding bull, RF Lit Up 357 who was a past \$190,000 high seller to Duff Cattle Co and now recently resides at the good ZWT and Bucksnot operations in Tennessee. Lit Up's first sons to sell in Canada will highlight many bull pens in 2026 and we feel once his beautiful daughters get into production you are going to continue to hear a lot more about him going forward. The Lit Up progeny are plum full of power and performance with added look and presence.

A grand daughter of the \$3 million producer, Donna 714! This female is as square and level made as they come. 9311 has the power and punch with the elite angularity and breed character. We decided to flush this big time Charlo daughter with the exciting New Heights Bull who is proving to sire cattle that exceed in the show ring and also have all the necessary attributes to be productive cattle. They are full and balanced in all the right places with added look and presence, great soft hair and muscle shape. Coleman Avalanche 487 is a new acquisition that we are very fired up about as he has hit us as hard as any bull of any breed we have laid eyes on. He has been held very exclusive and this is a golden opportunity to get in on the ground floor of this \$500,000 valued stud that we feel has a world of potential to take breeding programs to the next level.

Rose 4807 has been a highlight female right from the moment she was born. A favourite amongst all visitors, this Renovation x Rose 1019 daughter is built exactly as her pedigree would suggest. True Angus breed character with a perfect skull and ear set, tidy front end, big sweeping rib shape and what appears to be a near perfect teat size and placement. Rose 4807 was a highlight and lead off the Angus division for The MotherLode Sale is 2025 at \$57,500 to Packett Bro's. We feel she has all the credentials to be a big time donor female going forward. Mated to the legendary Density 4336, whose semen continues to be hard to obtain, we feel this cross will be as exciting as any as the Density cattle continue to be highly sought after and very marketable. Coleman Avalanche 487 is the big time Glacier son we bought into in the fall of 2025 as he absolutely stopped us in our tracks when we laid eye on him. His pedigree and unmatched phenotype are going to play a large role in the industry going forward and he will remain an exclusive sire that is best to be obtained through exciting matings such as this. Coleman Mendoza 271 is an incredible footed, great looking 5247 son whose first calf crop in Canada has blown through expectations and include the \$95,000 heifer calf sold by Shologan/Rusylvia at the Evolution last October. Get in on the ground floor of Rose 4807!!

LOT 249A 3 IVF embryos | Coleman Mendoza 271 x Brooking Beauty 1036

LOT 249B 3 IVF embryos | Coleman Avalanche 487 x Brooking Beauty 1036

A crowd favourite from the great Brooking Invitational 10th anniversary sale was this stunning maternal sister to the breeding giant, Brooking Emerald 9179. Beauty 1036 is such a great mix of both sides of her pedigree. She is so similar to 6051 in terms of depth of body, udder quality and an overall great look, and has the classic power and dimension the America cattle are known for. It was easy to make sire selections to use on a female like 1036. She is the kind you can utilize any bull with and it will be a good one. Two of our all time favourite bulls to be produced from the world renowned Coleman Angus program were obvious choices to use. Mendoza 271 is backed by arguably our favourite cow at Coleman, in the 5247 female and his calves in Canada continue to be very popular as they are soft made, easy fleshing with awesome hair. He has been used successfully by many programs. Coleman Avalanche 487 is the \$500,000 valued Glacier son out of the \$370,000 valued donor, Donna 0153 who is an absolute sight to behold. He is an exclusive herd bull that we feel has as much earning potential as any bull we are apart of.

LOT 250B 4 IVF embryos | Brooking TW 4022 x KCH Beauty 912G

Beauty 912G is all that and more. She is an own daughter of the great Beauty 6R and of Bank Note 4040. She is exactly what you would expect her to be when you read her on paper. Big bodied, deep ribbed, strong footed with an exceptional udder. She is proud and up headed with a beautiful skull carriage. RF Lit Up 357 is one of the more memorable bulls at every stage of his life as we watched him develop before he became a \$190,000 high seller in 2024 to Duff Cattle Co. He now resides at ZWT and Bucksnot in Tennessee and has passed on his added length and incomparable presence and look to every calf. He is a deep bodied, muscular individual that we feel will continue to be very influential going forward. Brooking TW 4022 was of course a past \$270,000 high seller after becoming the only Angus bull calf to crack the coveted top 10 competition at CWA in 2024. He is arguably the most impressive to look at now as ever before as he has matured into a big framed, deep sided bull with incredible presence look. He is a long spined bull that is full and balanced in all the right places backed by the productive Countess 9026 female who knows how to get it done including a daughter, the \$105,000 KT Countess 3342 who is quickly becoming a leading donor early in her career.

Jennifer 29J has accomplished big things in a short period of time. She is best known as the dam to the \$190,000 RF Lit Up 357 herd bull at Duff Cattle Co and raised an exciting daughter that sold through the Angus Collection to Sadler Ranches in 2024 and in 2025 she had a full sib heifer calf to Lit Up 357 bring \$26,000 to Brooking. 29J is a performance Angus female with a beauty udder and loads of body mass. We feel these are some incredible opportunities on this beautiful breeding piece. Density 4336 certainly needs no introduction as his influence continues to live on through the many quality offspring he has sold that have topped sales or won shows across the world! Coleman Avalanche 487 was our \$250,000 1/2 interest acquisition with Montana Ranch in the fall of 2025 that we are very excited about. His immense quality with dependable and predictable pedigree is exciting and he has been kept very exclusive with matings like this your best opportunity to get in on the ground floor. Brooking TW 4022 is one of the most talked about bulls of the last 18 months from his decorated and successful show career to large sale price at \$270,000. His pedigree and elite type and kind make him the type of futuristic herd bull to depend on.

LOT 253 3 IVF embryos | Schiefelbein Showman 338 x Pahl Rita 116G

Rita is definitely a red carpet third generation donor that has become a very special cow for us. The longevity in this cow family is something that any operation can count on and should breed for. The Rita 354X cow, 116G's grand dam, was a cow bred way before her time. She was a cow that would have absolutely excelled in today's industry. She has given us 40 calves so far, we still have bulls for sale from her this spring and embryos still in the tank. 116G is a bigger cow with superior thickness, perfect feet and a real feminine look to her. After giving Showman some time to see where his strengths lie, we feel it is in his daughters. With that, these embryos should be very appealing to anyone looking to raise cattle with a real showy appearance. We feel that 116G, especially 201A(116Gs dam) and even 354X would have done exceptionally well in the show ring, so crossed with Showman should raise some real red ribbon, eye poppers.

The best of the best in the Angus industry is stacked up in these flawless line-ups of great Angus lineage. 2308K is a special breeding piece of maternal greatness as she is sired by the famous Density and is a direct daughter of the immortal Lawson Chloe C815. C815 is one of the most potent breeding pieces in the world and has produced progeny at \$750,000, \$450,000, \$300,000, \$120,000 and so many more. Most importantly her prolific daughters are now carrying the torch and producing as strong as results with high sellers at record levels consistency. 2380K herself was a high selling feature that sold at Brooking three falls ago and has transitioned into a beautiful three-year-old that is the kind to build around. These bulls represented are some of the most exciting in the breed today. All the bulls are respective high sellers in their own operations and are backed by exceptional cow power. Avalanche and TW are some of the high selling bulls of 2025 in North America and are backed by some of the greatest cow families in the industry. Blair's External Law is backed by the incredible Erica 74A female, one that has become a household name across the world for what she has done and who she is. Ponderosa is a past high seller to Peak Dot and is commended for his muscle shape and power.

LOT 255 5 IVF embryos | S A V 004 Density 4336 x Coleman Chloe 167

A full sister to the great Coleman Triumph 9145 is the gorgeous Chloe 167!! Her donor dam, C815, never goes out of style and just recently was a 1/2 interest \$100,000 high seller at nearly 10 years of age! Why not utilize genetics by one of her greatest daughters! 167 is as angular and crisp in her lines and she is deep bodied. Her udder is flawless and she has great Angus Character. Mated to the industry great, Density 4336, who is one of the breeds most recognizable sires for the quality and highly sought after progeny he annually sires. Density has been a real building block for all programs that used his influence to take them to the next level and with semen in a rare, hard to come stage, this is a great opportunity to get a piece of him mated to a big time female.

LOT 256A 2 IVF embryos | Brooking TW 4022 x Coleman Abigale 9228

LOT 256B 4 IVF embryos | Coleman Platinum 2622 x Coleman Abigale 9228

The Abigale cow family has earned its status as one of the most influential, maternally powerful, and time-tested lines and Coleman Abigale 9228 is a beautiful representation of everything that name stands for. 9228 is a direct daughter of the legendary Leachman Right Time, one of the most important sires in Angus history. Right Time is known worldwide for leaving daughters with unmatched udder quality, fertility, longevity and efficiency with cows that thrive, breed back, and remain productive for over a decade. His influence is woven through the greatest cow herds across North America and having a direct daughter in production today is becoming increasingly rare and incredibly valuable. On the bottom side, 9228 stems from Pathfinder dam Coleman Abigale 0277, a female with elite maternal credentials who is also a full sister to the breed-changing sire Coleman Charlo 0256. Few cow families have produced as many influential herd bulls, donors, and breed leaders as the Abigales, and 0277 continues to be a cornerstone in the Coleman program and beyond. 9228 herself is exactly the kind of cow you expect from her pedigree being long-spined, wide-based, soft-centered with that maternal look and balance that Right Time daughters are famous for and always know how to produce. Mated to the exciting Brooking TW whose first calf reports are very encouraging being stylish and good looking with lots of awesome hair and plenty of shape as they are now getting to be about a month old. As well as the great Coleman Platinum 2622 is the \$340,000 valued herd bull with a big time cow family behind him. Mendoza is mothered by arguably the most impressive cow in the industry with Donna 5247 and brings calving ease and look with his high charged maternal pedigree.

LOT 257 5 embryos | Greenwood Game Night JJP 74G x DK Tibbie 170J

DK Tibbie 170J is a donor that checks every box with phenotype, pedigree, production value, and sheer Angus presence. She is a beautifully constructed Mercury daughter out of the elite and widely respected Tibbie 216C, a donor cow who has earned her reputation for generating structural integrity, balanced phenotype, and consistently high-quality progeny. 216C popularity continued on even further this spring with sons commanding \$95,000 from Rusylvia and \$60,000 from KT. When you study 170J, she is exactly what you would expect from this mating. Mercury has become known for reliably improving foot quality, udder shape, structural correctness and maternal strength, all traits that are immediately evident in 170J. The resemblance to her dam, 216C, is striking with the same rib shape, the same length, the same soft centre body, and the same clean, maternal outline. Game Night is another major success story with a growing following across the Angus landscape. He has sired sale toppers, champions, and show-winning daughters that combine look, muscle, hair, and structure. His consistency is impressive, and he is backed by a gorgeous and productive cow family that has proven its worth year after year.

LOT 259C 3 IVF embryos | Hummel South America x Pahl Crown Jewel 128J

Here's the Crown Jewel. We are always so excited when she calves. Her last year's natural calf is top in the pen again and she has a flush mate to the Natural Law embryos that will be the highlight of our spring sale. Crown Jewel is a real breeding piece, phenotypically she is thick and angular on a moderate frame with a perfect udder and feet. Genotypically combining No Doubt and Isabell Y69 on the top with HF Tiger on the bottom. Resulting in these embryos being absolutely packed with cattle that have changed the industry. Natural Law has sired arguably the most profitable and productive females in the Angus breed to date in Erica 74A and Bride 28C, and the Magnolias have certainly made there stamp. The South America embryos will be very interesting with 128J being kind of a bull maker. If there is a bull that is making a splash in the industry right now it would be Hummel South America. With the sons that I've seen, especially the \$270,000 Brooking TW, these calves will be very influential in anyone's herd.

LOT 260 2 IVF embryos | Coleman Mendoza 271 x SAV Duke Girl 0490

SAV Duke Girl 0490 represents everything the Duke Girl tribe is known for with maternal power, structure, fertility, and the ability to consistently raise front-end progeny. She was our selection, alongside KT Ranches, from the globally recognized Schaff Angus Valley program, where she surfaced as one of the most admired and high-selling females of that day. When you study her lineage and phenotype, it's easy to understand why. She is an own daughter of S A V Density, a sire that has written his name into Angus history as one of the most influential female makers ever. Density daughters are renowned for their perfect udders, longevity, angularity, and unmatched ability to produce progeny that rise to the top of seedstock programs, the same traits 0490 displays with total consistency. Her dam side adds even more strength, as 0490 descends from the Duke Girl family, one of the most storied and productive cow lines in the SAV herd. This lineage has repeatedly produced cornerstone donors, herd sires, and high-selling females across North America. Her maternal sister is currently a powerful and productive donor female at Brooking Angus Ranch, further proving that cow family excellence runs deep in this pedigree. Mated to the incredible Mendoza herdbull, who is mothered by the incredible 5247, this is a mating that just reeks of success. Density meets Mendoza in an incredible opportunity.

LOT 261A 5 IVF embryos | Brooking TW 4022 x EF Blackbird 824

LOT 261B 5 IVF embryos | Greenwood Revenue 175M x EF Blackbird 824

EF Blackbird 824 is an incredibly exciting Sensation daughter backed by one of the most productive and influential donors in the Enright program, the powerful EF Blackbird 5877. Few cow families have produced as many high-profile, championship-calibre individuals as this one. Her pedigree is loaded with maternal strength, real-world production, structure, and elite phenotype. She is a maternal sister to two major Canadian legends, EF Titan 545, the 2016 RBC Beef Supreme Champion, and EF Colossal 614F, the 2017 Champion Angus Bull at Canadian Western Agribition. Those achievements aren't just accolades, they speak to the genetic potency, consistency, and breed-changing influence of the Blackbird cow family. Physically, 824 is everything you expect from this lineage. She is the kind of donor that elevates every pedigree she is mated to and the embryo matings offered here are exceptional being rare, exclusive, and incredibly high-upside. TW is one of the most talked-about young sires in the breed, admired for his incredible structure, expressive muscle shape, bold rib design, and the proud, commanding presence he carries. The exclusivity around TW makes these embryos particularly special. Revenue is another extremely exclusive, highly anticipated young sire with a tremendous amount of buzz surrounding him. Backed by a gorgeous cow family known for its depth, udder quality and structural integrity, Revenue brings look, muscle, bone, hair, and maternal strength to the table. These matings blend champion genetics, modern phenotype, and exclusivity into one of the more exciting Angus embryo opportunities in the entire sale.

LOT 262B 3 embryos | 1 from Woodhill Revival H028 & 2 from SAV Bloodline 9578x Peak Dot Mia 247C

Peak Dot Mia 247C is a true maternal cornerstone female whose influence continues to echo through generations of cattle at Peak Dot Ranch. Following this spring, she will have produced five lead-off sons in the Peak Dot Ranch Spring Production Sale, along with numerous feature lots over the years, including Peak Dot Newfound 83H, Peak Dot Big River 702L, Peak Dot Emerald 811L, and Peak Dot Revival 707N. Moderate in frame, flawless in udder design, and elite in phenotype, 247C exemplifies genuine cow power and structural correctness. The strength of her influence is equally evident in the many daughters retained in replacement pens across the country — productive, functional females that work for commercial cattlemen. Few cows leave a legacy this deep, and 247C is undoubtedly building one that will impact the breed for years to come.

LOT 263B 5 embryos | HF Hi-Country 7L x Peak Dot Erica 40E

Peak Dot Erica 40E is a second generation donor and direct daughter from the all time high income producing cow on the Peak Dot Ranch, Erica of Peak Dot 478U. She currently has 54 progeny and is the dam or grandam of several noted sires such as Alta sires Peak Dot Prime and Peak Dot Country and top sellers Peak Dot Attractive 186F and Peak Dot Boost 137H. Peak Dot Erica 40E was chosen to continue on the Erica Legacy. She is a proven producer with great feet, an exceptional udder and that soft easy fleshing body type that we like to replicate over and over. Her matings to the popular Big River and Hi-Country are truly exciting and we feel are matings destined for success. Big River adds mass and softness to each calf crop and the impressive first calf crop by Hi-Country surely makes these some of the real must obtain genetic opportunities.

LOT 338 3 IVF embryos | Red Double B Red Watch 129 x Red Duff Lady 2X 1620

Often dubbed as "the best red Angus cow I've ever seen" by some of the nation's most astute cattlemen, Duff Lady 2X 1620 pairs an unmatched look, udder quality, and flawless build with genuine power. Couple that with Red Double B Red Watch 129, the 2023 National Champion Red Angus Bull, Canadian Western Agribition Champion, and CN Beef Supreme Top 10 Finalist, who has given us an arsenal of incredible daughters and sons – the genetic potential in this mating is endless.

LOT 339 3 embryos | Red Double B Red Watch 129 x Red Rainbow Lark 9E

Red Rainbow Lark 9E, the 2018 National Red Angus Champion Female, has accumulated an extraordinary track record at our place for generating elite show heifers. Red Box x 9E daughters have highlighted a majority of our Opportunity Knocks sales, selling for \$25,000, \$13,000 and \$12,500 to astute breeders across the continent. Red Watch has an impressive track record of his own, being named the 2023 CWA Champion Red Angus Bull, National Champion, and CN Beef Supreme Top 10 Finalist. His offspring have become some of our absolute favourites for their incredible fleshing ability, feet and leg structure, and balanced phenotype. An elite combination packed with proven champions is up for grabs.

2UP Peugeot
SIRE OF EMBRYOS

Canadian Sires + Donors :: Olds, AB :: 403-370-3010

Embryos are stored at **Davis Rairdan**

Embryos are qualified for **CAN**

LOT 377 4 embryos | 2UP Peugeot x EXL Miss Katmandu 445D

This old school mating is designed with real-world profitability in mind, combining performance-driven genetics with dependable maternal function. 2UP Peugeot is a notable Australian-imported Charolais bull born and widely recognized for his influence throughout the late 1990s. Imported by Effertz Key Ranch, Peugeot has been utilized across numerous breeding programs to inject muscle shape, thickness and added performance, while his daughters have earned respect for their maternal strength and productivity. His legacy continues through cattle that are built to convert efficiently, add payweight and maintain the structural integrity required in commercial environments. EXL Miss Katmandu 445D contributes the maternal stability needed to complement that performance. Females from this lineage are known for their ability to maintain condition, breed back consistently and raise heavy, uniform calves year after year. The combination of Peugeot's proven performance influence and maternal legacy with the practical cow power of 445D creates a mating geared toward commercial success. Expect progeny with added growth, muscle and capacity that translate directly into pounds and profitability, while daughters should develop into efficient, low-maintenance females capable of anchoring a productive cowherd.
