

32ND ANNUAL

MRL

ANNUAL BULL SALE

March 7, 2026
1pm - at the Ranch
Carievale, SK

Herdbulls designed by Ranchers for Ranchers

On behalf of everyone here at MRL we would like to invite and welcome you to the ranch March 7th for our annual bull sale. We are proud to offer an elite set of Simmental and Angus bulls that represent the very best of our breeding program and years of relentless selection. These bulls are built to perform! Engineered for power, efficiency, fertility and longevity and developed with one goal in mind. To make commercial cattlemen more profitable. Whether you've been to our sale each and every year or planning on attending for the first time, welcome and we will work hard at adding you to our ever growing list of repeat customers.

Our 2026 bull lineup is loaded! Our lineup of bulls would be considered one of the largest one iron sales in North America with over 200 beef bulls on offer. In terms of diversity, not many outfits can offer the sheer quality and selection opportunities that our offering provides our customers. Two breeds that complement each other and from a crossbreeding perspective, maybe the most elite combination of genetics to ensure profitability for the commercial cowman in Canada and the Northern United States. Both red and black color options in each breed line and 2 age categories, yearling bulls 12-14 months of age sale day or true virgin coming 2-year-olds in volume ready to cover some ground this spring. Opportunity to fill your herdbull needs one sale, one day and take advantage of volume discounts. Each and every individual on offer is backed by our cowherd, over 50 years in the making, 800 head strong in a competitive environment with 2 breed lines and have earned their spot through old fashioned production merit under ranch conditions.

Over the years, we have had success in raising bulls that have worked within the industry. We keep our program in tune with that of our commercial customers. We run a bunch of cows in two different calving environments: almost 400 calving in Jan/Feb, and 350 calving on grass in May. We background and finish our steers; we breed and develop over 250 replacement females annually. It's simple, genetics that don't work for us under our ranch conditions, won't work for you. The genetics offered in our bull lineup for 2026 are the cream of the crop and the result of almost 50 years of progression. Plain and simply, we will provide you with the highest quality bulls we can produce and will stand behind them 100%. Our guarantee is an old-fashioned handshake style and one we have built a solid relationship with our customers and friends for over 5 decades.

One thing is for sure we couldn't have accomplished any of our goals without the confidence and continued patronage and friendship of our loyal customer base that source their herdbulls year in and year out at MRL. Quite honestly, your continuous support has had a great influence on our progression of what you see in this catalogue. Your confidence in our program allows us to source the best genetics in the world and continue to improve our product. Our commercial customer base spans Canada -Wide from coast to coast and almost 1/3 of the bulls sell to customers south of the 49th spanning several states. We are truly humbled to supply bulls annually to many of the absolute top commercial cowherds in North America. To those in the seats sale day, logged in on DLMS, leaving orders with sales staff or trust in Dave and I year after year to buy your bulls through our Sight Unseen program, THANK YOU.

Once again, welcome to our 32nd Annual Bull Sale in our sales arena here at the ranch. If you need assistance in any way, don't hesitate to call us here at MRL, any of the Bohrson Marketing Crew, or Mark Shologan at DLMS to get you set up for internet bidding. Plan to come and tour the bulls anytime prior to sale day and we look forward to visiting with you on the phone prior to sale time or at the ranch sale day. The bulls that are pictured in the catalogue were all videoed early January as we took pictures and we're hoping to video the remaining bulls the first week of February and they will be posted on DLMS, and on our website the week prior to sale day. Thank you once again for your interest and confidence in our program. Don't hesitate to call Lee or Dave for a pen tour or information on individual bulls, sire groups or on our program in general. Rest assured, we will do our best to help get you the bulls you need to keep your operations progressive and profitable.

*Working for and with you in the livestock industry,
Everyone at MRL*

ABSOLUTELY 100% GUARANTEED

We guarantee to provide you with a sound breeding bull capable of passing a semen test by a licensed vet within 14 months of age. All bulls over 12 months of age will be semen tested as satisfactory by Sale Day. Should any MRL bull fail to be a satisfactory breeder, he will be replaced with a bull of equal value and quality or a credit will be given towards the purchase of another MRL bull. We carry a good supply of backup bulls and will make sure you have bull power to get your cows bred. If you have a problem, notify us immediately, because we're not happy until you are satisfied with your MRL bull.

Bull Selection

Purchasing a herd bull is very important. Every cattleman is always searching for bull power to improve certain traits in their cow herd. It can be a frustrating and time consuming task. We would be pleased to assist you in identifying a bull or bulls suited to strengthen your program. We offer a wide genetic pool of red and black Simmental bulls as well as Purebred Red and Black Angus and Simm/Angus hybrid bulls. High growth to bulls suited for your heifer pen in every category. Please give us a call in time before the sale to discuss your herd bull requirements.

Payment Options

2/3 down sale day. 1/3 on possession of your bull or by May 1. Give us a call to discuss financing options.

Volume Discount

- 2 bulls 2% discount on your total purchases.
- 3 to 4 bulls 3% discount on your total purchases.
- 5 or more bulls 5% discount on your total purchases.

In-Herd Semen Interest

MRL reserves the right to draw semen on any bull sold for in herd use at the buyer's convenience and our cost.

Insurance

Alameda Agencies, Bonnie Thompson Ph: (306) 483-7311.

We strongly urge you to insure your bull purchases.

Identification

All sale lots will carry a CCIA tag with lot numbers

Delivery

Free delivery to central points near your ranch in Manitoba, Saskatchewan, Alberta and North Dakota. All other points will be cost shared. Bring your trailer and receive \$100.00 discount when you take your bull purchase(s) home on sale day.

Accidents

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

Presale Lunch

Join us for lunch at 11:30 a.m. Sale Day.

Catalogue Information

EPD's are current and up-to-date as of publication date. Information in this document is believed to be accurate but any updates from the auction block will take preference. Pedigrees in this document have been supplied by the breed Association and all other information has been supplied by the seller.

SIGHT UNSEEN PROGRAM

We would love to have you join us for our annual Bull Sale at the ranch. If you can not, this program has worked well for many busy cattlemen unable to make it to our sale. With families and a bunch of cows ourselves, we realize that with hockey, 4-H, chores, frozen water bowls, cows calving and everything else it is sometimes hard to be everywhere you want to be on certain days. Each and every year we sell more bulls through this program from clean across the country to next door neighbors. The program is simple. Call us in advance (preferably a week or so) before the sale to discuss your cowherd, breeding objectives and herd bull requirements. From what we gather from talking to you about your program, we can fit you with a herdsire or herd sires with in your price ranges and suited to your needs without you leaving home. The bulls will be personally hand picked by Lee, Dave or Jim. We are a family run operation so the same person helping you pick your bull is the same person who calves, breeds, feeds and lives with these herd bull prospects and their mothers year around. We know our cowherd very well and the genetics strength of each bull on offer. Just the same as you know yours. Almost 50 years in the bull business we have gained a level of trust and integrity with our customers and have had repeat customers buy their bulls here for years and not been to a sale yet. We will get you the best bull for your program as reasonably priced as we can - you have our word on that.

WHY THE PROGRAM HAS WORKED SO WELL:

- * We know our cattle very well and can select a bull or group of bulls to suit your needs.
- * All bulls are fertility tested and have passed a semen evaluation prior to sale day.
(No Surprises after you have purchased your herd bulls)
- * Satisfaction on arrival or we take them home.
- * Many bulls are photographed in the catalogue.
- * Complete data on all bulls such as pedigree's, birth weights, and EPD's let us accurately fill your order.
- * After over 40 years in the bull business we have gained a level of trust and integrity with our customers.
- * The Majority of our bulls sell to repeat customers from 5 miles to 500 miles from our Ranch.

HERE ARE A FEW DETAILS ABOUT OUR OPERATION AND WHY WE THINK AN MRL HERD SIRE MAY WORK FOR YOU.

- * **Over 50 years in the bull business.** Over 50 years we have been committed to and stuck to producing Simmental seed stock which will work well under your commercial conditions. Easy fleshing, structurally sound beef cattle have always been #1 at MRL. Over 50 years of stacking the most elite cow families that rise to the top on production merit under ranch conditions.
- * **Customer Care "Large enough to serve you - Small enough to know you"** (borrowed this from another outfit that sells alot of bulls and its the absolute truth). Any given day of the year there are over 300 bulls at the ranch. Herdbulls, spare bulls, sale bulls and bulls being developed. Rest assured if you run into trouble we will have you covered. Free delivery to central points across Western Canada and the Northern States. Cost sharing to the East and Southern States. For those busy cattlemen unable to make it sale day, we offer a sight unseen buyers program and pre-selection program, as well as several sale consultants to leave an order with and internet bidding with both DLMS and DV Acution.
- * **Quality Not Quantity.** Our operation consists of over 700 working females. The 180 bulls on offer have been selected from 350 bull calves, therefore we can be very strict when selecting our offering. The toughest thing about our bull sale will be making up the sale order. Pens full of uniform 1/2 and 3/4 brothers.
- * **Bull Development.** These bulls have been developed on a high roughage TOTAL TMR ration with consultation from Bulls Eye Feeds. Our objective is to offer you sound breeding bulls ready to go to work and stay working for years to come. "Stuffing" is for the "Christmas Turkey" not "breeding bulls". All bulls are semen tested prior to the sale so there are no surprises after you buy your herd bull(s).

- Dam is phenomenal \$65,000 Red U2 Beauty 113Z
- Outcross genetics, beautiful daughters. Sons are stout, Angus character and incredible foot quality
- Totally exclusive to MRL

TERMS & CONDITIONS

Terms - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. We reserve the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase, we reserve full power to resell the animal to the best advantage either publicly or privately without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

Disputes - Each animal will be sold to the highest bidder. In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matter is final.

Purchaser's Risk - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. We strongly recommend the purchaser insure their purchase(s) at time of purchase.

Announcements - Announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

Certificate of Registry - A registration/recordation certificate issued by the Canadian Simmental Association, Canadian Angus Association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

Shipping - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management of Seller. See delivery information in the catalogue.

Breeder's Guarantee - As per the Canadian Simmental Association/Canadian Angus Association Breeding Guarantee guidelines. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said animal. We assume no liability, legal or otherwise, to make any further compensation to buyers. All bulls are vet inspected and sell with a breeding guarantee.

Health - All bulls are under the total MRL Herd Health Program. All received Express 5 Program, Dextomax, Vitamin and all will carry a satisfactory semen evaluation. MRL will look after health tests for cattle purchased by U.S. customers.

Accidents - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

Rights & Obligations - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale constitutes a separate transaction and the right and obligations of the two parties connected by the terms and conditions of this sale.

Pictures - By attending this sale you are hereby granting permission for your photograph to be published by MRL in their catalogue and for advertising purposes only.

RED SIMMENTAL YEARLING BULLS

Our red pen of Simmental bulls has certainly drawn some attention the past couple of years. Well, the group for 2026 has once again already created a buzz. This pen once again offers some unique breeding pieces and consistency even deeper than we have ever had. Exciting new outcross sire group by the \$210,000 Tangle Flags sire which is exclusive to only a handful of programs have garnered some attention early on this winter from visitors. The Dewalt sire group last year were maybe the most popular sire group we have ever offered in 50+ years. Well, if you like last year's group, wait until you see the bunch of blaze faced bulls by Dewalt for 2026! A must-see group that just add so much value in so many ways to your breeding program. Smaller sire group of highly proven, breed-leading sires such as the \$160,000 Walk the Line, MRL PR Man, Whiskey, Vanderbuilt are impressive and the most elite calving ease groups by Rip Zone, Centrium, Future, Red Force and Doc Holiday we have offered in years. Some big time herdbulls in this super consistent pen for 2026 and as always, backed by our most elite cow families.

This guy has captured the attention of some very astute cattlemen at every stage, including clean back to last spring as a month-old calf, touring cows prior to the bull sale. Typical of his counterparts in this exciting first group of Tangle Flag sons, phenotypically extra frame, length, sound structure and extra "look"! What sets this fella apart is that blood red color and of course his dam the immortal 4440B donor that I have said many times I would not trade for any other in the breed today. This is a big statement as there are many super elite females at work in many programs in the Simmental breed, but it is darn sure the truth. I will not go on all day as I could on her production merit but just last years sale alone, 3 sons averaged almost \$90,000 including the \$175,000 Cool Hand Luke sire whose semen just commanded \$3000 per straw at auction. Also the lead off \$45,000 female this fall once again a daughter. The only ET calf born to this mating make this fellows worth even more exclusive and exciting. My gray hair has taught me take advantage of opportunities when they present themselves boys. Homo polled. **MRL retaining 1/3 semen interest.**

This Statement ET son from a pedigree/production standpoint is as good as any and check out his numbers ranking top 15% bw, top 20%ww, top 10% yw, top 20% maternal. One hiding in the weeds here in this powerful red pen for 2026.

GIVE US A CALL; ANY TIME, ANY DAY!

*Does bull buying
 get you stressed?*

Making a living solely with our livestock, we realize the herdbull selection is one of the most critical decisions any stockman will make each year ... we are here to help. We would like to extend a warm welcome to visit the ranch sale day and any time prior to view the sale offering, our cow herd and herd bull battery. We truly believe, and past customers will confirm, the strength, uniformity and breeding consistency of the bulls on offer is due to the powerful cowherd and herd bull battery behind them. If you can not make it to the sale or prior to, give us a call; anytime, any day. One of the most important parts of service to our customers is helping select the right bulls to optimize their breeding objectives. We know our cow herd and genetic strengths of every bull in the offering better than any one and would be pleased to assist in any way possible. Our Sight Unseen Program has worked very well for busy cattlemen in sourcing the best bulls for their program within and quite often below their price range. Viewing our cowherd, bull battery and visiting with the people involved at MRL will make your bull buying decision less stressful, more profitable and pleasurable.

A herdbull here we think is pretty interesting sired by the TNT Bootlegger bull himself that we had so much success with over the years (sire of our immortal 4440b donor cow). On the dam's side one of our most elite Venom daughters that has produced a herdbull for Glencoe Stock Farms and a feature female to Quinn Wilson, Wilson Stock Farms. This dark, stout made, hairy rascal has that herdbull look and presence and numbers to back it all up top end of the breed across the board. Outcross pedigreed to most popular pedigrees in the business today. Interested to see who finds this one! Homo polled.

RED SIMMENTAL COMING 2 YEAR OLD BULLS

The Coming 2's division of our bull sale continues to grow in both numbers and quality. We are now calving over 350 cows in our spring calving group in May which includes many elite cow families. This herd is right where we want it and now totally self sustaining with the very best heifers plus 50 embryos added each spring. We absolutely love calving this group on grass in May, it is right up our alley. The bulls are born and bred in an environment identical to most of our commercial customers and will excel under ranch conditions. At MRL, we have always paid attention to our customer's needs and the evolution of the industry. Bigger ranches, bigger breeding fields and less manpower, these Coming 2's are ideally suited. They are big, strong, athletic and not over-conditioned, ready to cover some ground, get more cows bred, adding dollars to your bottom line. Temperament is second to none on this group. These bulls are the result of a true spring breeding program! Never previously offered for sale or the bottom end of earlier calving group.

There are only a couple of outfits in North America that can offer this kind of age advantage Coming 2 Year old bulls. Buy with confidence boys. The group of Red Coming 2's are absolutely the most impressive bunch we have ever offered. Led off by the Dewalt group that were the buzz last spring. This is a powerful group of blaze face bulls and ready to cover some ground. Once again, a big sire group by the \$69,000 MRL Playmaker sire that is time tested and proven to excel for commercial cowboys with curve bender stats. Rounding out the pen, a headliner by MRL Patriot, and features by MRL Top Gun, SVS Vanderbilt and Erixon Glide. Some big time herdbulls for 2026 in this group that truly offer a breeding advantage to your programs.

Average picture here of a pretty good dude. Packed with natural muscle, money stripe and our most elite cow family. His dam is again a maternal sister to our 4440B donor (3 sons in last year's sale average almost \$90,000). Also a full sister to dam went to Haman Simmentals, ND, and full brother to Randy Schmidt's good herd in ND in 2022. On paper we just can't make em much better or more predictable.

The only blaze face Playmaker son out of a dandy young Driller female that has produced a couple of top end bulls thus far. One going to Tim McCannell last year and a full brother to this guy to K5 Ranch, MB in 2023. Top fullblood Anchor T Metro cow backs it all up. Once again top 30% ww, yw.

BLACK SIMMENTAL YEARLING BULLS

Without question the largest, most consistent and dominating pen of black bulls we have ever offered. You will certainly need some time when you come visit to analyze this group. Every time you turn around there's another one that demands your attention. As they did last year, the outcross blaze face Dewalt sons, a dozen deep, will garner some attention. They are just high-quality bulls that once again, add value to your breeding programs in so many ways. By customer demand, in the blacks for 2026, we went back to the basics. In over 50 years in the business, we have never used a sire as consistent and genetic advancing as the \$100,000 bull from our 2016 sale, MRL Missile! 10 impressive sons are once again available that will get pounds to the ground, fleshing ability and character like no other. The Missile lineage shows up in our most elite bulls year in and year out. The MRL Walter bull has made a name for himself with high selling bulls for the breed leading programs of Maxwell Simmentals & Kathol Simmentals who purchased him back in 2021. As with Missile, there are few sires, new or old, that will compete with the Walter sons. Outcross pedigreed, incredible curve bender numbers, heavy haired, with frame and muscle. His dam once again had the leadoff bull in last year's sale to Labatte and Circle 7 Simmentals. The Walter sire group is a must see for both top purebred and commercial cattlemen. A couple elite herdbull prospects by MRL Strategy that sired the \$175,000 high selling bull in 2025, an ET Dimension x 6823D donor, the top group of percentage bulls we have offered by K-T Countdown and KT 206 and probably the most intriguing calving ease bull we have offered by Erixon Glide rounds out this incredible pen of black herdbulls for 2026. Jump in the truck fellas this is a must-see pen of black bulls for 2026; unlike we have ever had before and well worth the drive. Guaranteed.

One of the absolute feature black herdbulls for 2026 and we are excited about the genetic makeup of this one! These big powerful beautiful uddered Riddler daughters have been productive over the years, and this one is a full sister to MRL Percy a high selling bull we sold to Percyview Farms later purchased by Rendezvous Farms and did a great job with both programs. As far as the Dewalt's, well if you were here last year to see his first group sell, you gotta be here this year as I think this group is even more impressive-almost 30 sons strong. This 129N is solid from the ground up with an incredible set of numbers across the board. We think this one is a herdbull. Homo polled. Hetero black.

I would have to say this bull has stopped as many good cattlemen in their tracks in the pen so far as any! Honestly there has not been a visitor through what we believe is the strongest black pen we have ever offered for sale who does not find this bull. He gets your attention with his undeniable herdbull presence and look that some just seem to have and then the dimension and overall power and soundness and ability to travel holds your focus as he strolls around the pen. Powerful he is, with frame and substance that customers are demanding and ranks top 3% ww, top 1% yw and actual ww of 920 lbs. None of this is by accident, his dam is the powerful 6823D donor cow herself and the top daughter of the 55W donor our highest revenue black cow in MRL history. The AI sire Dimension also had our lead off black bull last year going to Labatte and Circle 7. A very average picture here of one that you need to see in person and will darn sure be a herdbull! Homo polled.

Big time herdbull here and one we think is as cool as we've ever had in the pen. His sire, MRL Strategy, was sold in our 2023 sale and one at the time we thought was a pretty interesting breeding piece selling to long-time customers Judd Ag Ventures. Last year he sired the record selling MRL Cool Hand Luke bull at \$175,000 and this year again a couple pretty interesting prospects. His semen is limited which makes this fella unique in terms of outcross pedigree. Phenotypically he is just flat-out STOUT!! Huge topped, big old square hiped and yet so complete made and full through that fore rib. His presence and herdbull character completes the overall package. On paper he ranks top 1% both ww and yw, top 2% ti and top 3% mwwt. His dam is a beauty young No Limits daughter back to a beautiful female we purchased from Westway Farms that produced \$19,000 son her first try to Gene Brown, ND. Plain and simple, one here that will leave a stamp on a breeding program and one we are pretty excited about! MRL retaining 1/3 semen interest. Homo polled.

These Missile sons will never go out of style! Missile himself sold in our sale 10 years ago back in the 2016 sale and commanded \$100,000 when the smoke all cleared and he definitely bred like a bull worth that much. His extra dimension, muscle and pounds to the ground are undeniable on his progeny and his daughters just keep adding that to their progeny. The consistency of this sire group is obvious and the reason we just went back to the basics. Plain and simple cowboy bulls that pay the bills. Get a couple Missile sons this year while you can, there won't be many more chances.

Just an OK picture of what we think is an absolute headliner for 2026 and one we will use in our program. Everyone asks me what was the best breeding bull we ever bred and have used and the first bull that jumps off my tongue always is MRL Missile. Consistency would be the reason. They are consistently the heaviest, stoutest, most fore rib, good haired, awesome headed, easy tempered ones in the pen. Well this big rascal is as good as we've made weaning off his beauty SOW dam as the heavyweight this fall at 1000 lbs and ranks top 3% ww and ti with just a 90lb bw and top 25% api. This fella would be outcrossed pedigreed to most in the breed, awesome numbered and what we think the beef business is all about. Homo polled. **MRL retaining 1/3 semen interest.**

An absolute bell ringer outcross Walter son here that will garner some attention. Typical of the Walter's frame, length, muscle, depth and heavy haired, this fella really puts it all together. His dam is a young ET daughter out of the 7403E power donor cow owned by Quinn Wilson that led off our 2021 herdbuilder sale. Actual ww at 900 lbs and ranks top 1% of the breed both ww and yw. These kind are hard to find boys, believe me. Homo polled

A couple of ET full brothers here that line up our most elite donor dams both red and black on every line in the extended pedigree. The dam is the beautiful 5412C donor (full ET sister to 4440B donor) but doesn't have to rely on her phenomenal track record she can also get her done herself. 5412C raised the \$50,000 MRL Portfolio bull in 2023 to Swan Lake another lead off Tycoon son in 2022 to RBD Ranch and high selling son back in 2018 to Tri Star Simmentals. Pedigree wise we just can't build em any better. Pretty darn good in the flesh as well. 64N weaned at 900 lbs and 70N at 850 lbs off their recip dams. pair of ET brothers worth the drive and outcross pedigree to boot! Homo polled. Hetero Black.

Average picture here of one we truly believe is an elite herdbull in the making. On paper he is outcross pedigree by the big-time breeding bull MRL Walter selected in the 2022 sale by Maxwells and Kathol Simmentals and has sired high selling bulls for both programs including the \$170,000 KSR exclusive sire and the \$65,000 NUG Darkhorse sire. This guy's dam is one of our most beautiful young cows working her way toward our exclusive donor lineup. (Last year's son was also an elite PR Man son to McKimms that always find a great one.) From a stats perspective Wow! 88lb bw, top 20% bw, 900 lb ww ranks top 15% ww top 10% yw top 4% mce top 15% api, to 10% ti. And in the flesh boy he's just got that extra scale, dimension, natural muscle and herdbull character everyone in the breed is searching for. The score card is full of check marks on this one. Homo polled, Hetero black. **MRL retaining 1/3 semen interest.**

I think our 2026 lineup offers as many real top end herdbulls as we have ever offered and there may be none with any more interest or value as this calving ease bull. Phenotypically he is just flat our hard to find a hole in. If you pay attention to numbers, well just try and make one like this. Top 5% ce, top 10% bw, ti and api, top 4% mce and top 25% ww. 70lb actual bw and still weaned at 820 lbs off a first calf heifer that is a good one. This cow family is for real and has raised big time herdbulls in the past including MRL Sysco that left his mark in the business at Zimmers and Crossroad Farms and a sister raised well probably my favourite Dewalt son last year going to longtime customer Sonny Berndt, Berndt Ranch, ND. We think this one is a true breeding piece and calving ease bull that is highly marketable. Homo polled. Hetero black. **MRL retaining 1/3 semen interest.**

In 2023 we went searching for a calving ease bull and were elated when we found the Glide bull in the pen at Erixon Simmentals. Great numbered, awesome footed and backed by strong maternal genetics. He has sure left us some dandy calving ease options for our customers for 2026. This fella is actually a 3/4 brother to the elite feature bull above Lot 112. Once again, crazy good numbers across the board! Homo polled. Hetero black.

Another KT 206K son. Moderate bw and powerful performance phenotype. Dam had a top bull to Charles Allan in 2024's sale. Grandam was the pick of our bred heifer pen going to Downhill & Crowe Simmentals. Once again, our 55W cow family same as Lot 122 above. Sells no papers. Homo polled.

HOMO POLLED RESULTS

All test results for Homozygous Polled had not been received by time of catalog printing. Give MRL a call to inquire about any results. All results will be available sale day.

BLACK SIMMENTAL COMING 2 YEAR OLD BULLS

The Coming 2's division of our bull sale continues to grow in both numbers and quality. We are now calving over 350 cows in our spring calving group in May which includes many elite cow families. This herd is right where we want it and now totally self sustaining with the very best heifers plus 50 embryos added each spring. We absolutely love calving this group on grass in May, it is right up our alley. The bulls are born and bred in an environment identical to most of our commercial customers and will excel under ranch conditions. At MRL, we have always paid attention to our customer's needs and the evolution of the industry. Bigger ranches, bigger breeding fields and less manpower, these Coming 2's are ideally suited. They are big, strong, athletic and not over-conditioned, ready to cover some ground, get more cows bred, adding dollars to your bottom line. Temperament is second to none on this group. These bulls are the result of a true spring breeding program! Never previously offered for sale or the bottom end of earlier calving group.

As strong as the black yearling group is, this extra age group will also not disappoint. Led off by 2 or 3 of the most impressive calving ease bulls we have offered by Erixon Glide and State of War, and big, powerful, long-bodied performance bulls by Patriot, Dewalt, Black Diamond and SVS Vanderbuilt. This group is athletic, solid footed, high quality, backed by the most elite genetics in the business and ready to cover some ground this spring. Virgin Coming 2-year-old Simmental bulls like this group are near impossible to find. A group we are awful proud to offer our customers.

One of the most intriguing breeding pieces to come out of our age advantage group to date and there have been some good ones including PR Man, and MRL Certified to just name a couple. Big time calving ease bull here that brings a lot to the table with his outcross pedigree that traces back to one of our most elite cow families ever the old magnate 18C cow family dam to our Miss Malibu, 779K and 498N donor cows that produced all of our high selling bulls in the late 2000's including MRL Ringman – Bata Bros Simmentals, MRL Red Design – Bouchard Livestock, and MRL Red Ryder – Maxwell Simmentals, to just name a couple. Now check out his numbers. Top 15% ce and ww, top 10% bw and api, top 5% mce, top 3% ti. Add in the exceptional foot quality and udder quality on both Glide and State of War. He is a heifer bull but look at the overall balance, stoutness, hair coat, fore rib, depth of flank and herdbull look. The kind of herdbull that leaves an impact on a breeding program for years and years. **MRL retaining 1/3 semen interest.**

Typical Black Diamond son here that will attract the attention of some good cattlemen.

RED ANGUS YEARLING BULLS

We realize that when most in the cattle industry think of MRL they think Simmental but believe it or not we have offered these elite Angus bulls in our sale for over 20 years now and are responsible for 1/3 of the offering. We have worked extremely hard on our Angus program from the get-go. We were fortunate to start with some great cows and have built the cowherd with the same values as we have for over 50 years in the Simmental business, multiplying top cow families that get it done under real world ranch conditions. We have implemented elite red and black sires and utilized feature bulls we have sold throughout this very ring heavily in our breeding program. Our Angus cowherd is one we are extremely proud of; big capacity, good footed, good uddered productive females that produce results in a highly competitive environment of almost 800 cows in the two breed lines. We have enjoyed much success in our short time in the Angus business. Our goal when we started was to simply provide the very best Angus bulls for our commercial customers. Thanks for your support over the years.

The 2026 group of red Angus yearlings may be as intriguing as we have offered. An impressive group by U2Q Big Energy, one of the most impressive Angus bulls in the business. An ET Pie Hollywood son, stout 38 Special sons that have been popular the past couple years, a feature outcross calving ease bull by U2Q President and the highly anticipated first sons of the \$75000 Ter-Ron Laredo sire that will leave his stamp on our program and yours. A couple of big-time calving ease bulls that will demand some attention. Genetics we are extremely proud of and exclusive to our program.

Maybe the most interesting calving ease bull we have ever offered. Phenotypically a stud and backed by a beauty SAV Final Answer daughter that raised the \$30,000 lead off female in our 2024 Herdbuilder sale to the top breeding program of Ter-Ron Farms where her first bull calf paid for the investment. Note the great grandam is also the 4422B donor cow by SAV Harvester that raised the \$90,000 MRLA Red Resource bull that has left his mark in the Red Angus breed both sides of the 49th. Real world production merit and track record of quality every line of this pedigree. One here we're excited about and will use Ai in our program. **MRL retaining 1/3 semen interest.**

Outcross performance bull here that ranks top 5% ww, yw. We paid a pretty penny for this Hollywood semen from the renowned Pieper program in the US and flushed our awesome 4302B 61X donor. This guys got extra frame, performance and a beautiful donor cow to back it all up. Sired by one of the most popular Angus bulls in the US and very little semen in Canada. We have a full brother in the back pen for use this spring here at MRL.

This guy will definitely be a front runner to lead off the most impressive group of Angus calving ease bulls we have ever offered! Blood red, phenotypically hard to fault and backed by an ET daughter of the U2 Retrospect sire and our 3411A SAV Final Answer donor cow. Ranks top end calving ease and bw and what a pedigree here – total outcross for a red one. A black hided full brother went to the Ruttens last year. We think this one is pretty cool. **MRL retaining 1/3 semen interest.**

One of the pen favourites. Boy you want one with Angus character. The 38 Special sire has certainly been a breeding piece in our herd and worth every penny of the \$40,000 we stepped up to pay for him. We have kept him totally exclusive to our breeding program with no semen ever being sold amidst several requests. We think this adds value to our customer's purchase of these superior Angus genetics as well. Foot quality, maternal power, and stoutness both sides of this pedigree out of one of our elite perfect uddered Resource daughters. Big time value here.

A favourite in this awesome sire group of 38 Special sons. If you need more muscle shape, foot quality, hair and maternal power, get bidding when this sire group hits the ring. Beauty, young Resource dam out of the 4300B Tiit cow (one of my all-time favourites) who had a feature \$15,000 daughter going to Robin Pierness this fall.

RED ANGUS COMING 2 YEAR OLD BULLS

Over the past couple of years, the Coming 2's in the Angus division have garnered as much interest as any. The group of Angus cows we calve in this spring May calving group are a fantastic bunch of cows. Mated to the \$40,000 38 Special bull once again has produced some incredibly good moderate framed, stout individuals. As in the yearlings, the couple of Big Energy sons are impressive and the U2Q Jonesin sire group all out of first calf heifers are just downright impressive in terms of power, performance and Angus character. The most elite Angus maternal genetics in the world back up this impressive group. Top and bottom on pedigree. If you liked em last year, you're gonna like em again in 2026.

When we stepped up in 2021 and doled out \$40,000 to own the Lot 1 bull at U2 out of the phenomenal 113Z beauty donor we were hoping he would leave an impact in our breeding program. Well has he ever, on both these stout, dark, awesome footed sons and for sure on his beautiful uddered, moderate, easy keeping productive daughters that will show up for years. We have kept him totally exclusive to our program amid dozens of requests for semen. We think this adds value to our customers purchases that acquire these sons. This is another true herdbull here backed by a daughter of the \$130,000 MRLA Respect and back to one of our premiere cow families. Get a hold of one of these sons before it's too late.

BLACK ANGUS YEARLING BULLS

We realize that when most in the cattle industry think of MRL they think Simmental but believe it or not we have offered these elite Angus bulls in our sale for over 20 years now and are responsible for 1/3 of the offering. We have worked extremely hard on our Angus program from the get-go. We were fortunate to start with some great cows and have built the cowherd with the same values as we have for over 50 years in the Simmental business, multiplying top cow families that get it done under real world ranch conditions. We have implemented elite red and black sires and utilized feature bulls we have sold throughout this very ring heavily in our breeding program. Our Angus cowherd is one we are extremely proud of; big capacity, good footed, good uddered productive females that produce results in a highly competitive environment of almost 800 cows in the two breed lines. We have enjoyed much success in our short time in the Angus business. Our goal when we started was to simply provide the very best Angus bulls for our commercial customers. Thanks for your support over the years.

Our black Angus offering for 2026 is the largest to date in both numbers and quality. The main reason being the acquisition of the U2Q Big Energy herd bull. As I have said, he was just one of those bulls when I found him you just need to own. One of the most impressive Angus bulls we have laid eyes on and out of one of the great donor cows in the breed. To say the least we have used him heavily and he is a true breeding machine. These Big Energy sons are true curve benders and absolutely, totally suited to excel for commercial cow calf outfits. This is a heck of a set of black hided Angus herd bulls.

Doesn't get any better than this sired by Big Energy and out of the awesome 4355B Tilt daughter that raised the lead off Angus bull in 2023, the \$27,000 MRLA Cogburn bull, that has done a tremendous job in both C2 Angus, Dalton Ellefston's strong program in South Dakota and right here at MRL. Super pedigree and numbers that rank him top 30% ce, top 30% ww. Don't hesitate to get a couple of these Big Energy sons working in your program. They are flat out good.

Another dandy calving ease heifer bull here that is a 3/4 brother to the Lot 194 bull, Hudson x Final Tour and the grandam 6791D matron is a maternal sister to our 4422B donor cow. This guy will cover a pen of heifers and look good doing it.

BLACK ANGUS COMING 2 YEAR OLD BULLS

As in the yearling division, the Big Energy sons are equally and maybe even more impressive with age in these Coming 2 year old bulls. Phenotypically almost impossible to find a fault, oozing with Angus character with extra base and foot quality. One of the most impressive sire groups we have had in either breed, in either division. Black Angus 2 year old bulls here that will sire calves that will have the order buyer's sitting up in their seats.

When I found the Big Energy bull touring the pens in Southern Alberta, I said to myself there is no way we're not buying this bull and yes, he cost a pretty penny but worth every cent. A herdbull that is so dynamic in structural soundness, foot quality, character and overall muscle shape and stoutness and yet so balanced and he just transmits these qualities maybe more consistently than any I've seen. This sire group is worth the drive folks and 25 head to choose from. Can't wait to get these guys out working for our top customers, they will be breeding machines.
