Welcome to the 5th annual McIntosh Ranch Bull and Female Sale. We are extremely proud of the bulls we are offering this year. The first calves off RF Intensity 3142 look very promising and we will continue to use him heavily in our A.I. arsenal. Successful flush of SBSF 76D and TLAS 42H has given us the opportunity to offer you a tremendous set of full brothers in this year's sale.

What a time to be in the cattle industry! Producers getting paid record setting prices makes a day at work 10 times better. Many times through the ring this fall, I saw lots of steer calves fetch \$3900-\$4200 right off the cow with sisters not trading too far behind. Calf prices stayed steady right through the fall and into the new year. I had the privilege to sell a few reputable sets of dispersal cows at Ste Rose, with top quality bred females trading for \$6000-\$7200. Short term ROI seems promising, with calf prices maintaining.

You will notice in this year's sale we are not offering any purebred heifer calves. We finally had a calving season that gave us a few more bulls and a lot less heifers. We expanded this year and were able to purchase another yard site and block of land, and therefore decided to retain all our females and expand the herd to fill the new pastures.

Its great to have Jonathan Karsin back again this year with three outstanding bulls. This year Karsin's bulls were developed along side ours since weaning.

This year was extremely dry in our area of the Interlake, dry dugouts, poor pasture conditions and 5 tonne corn silage was the gist of things. We weaned our bull calves early September and they received their second dose of Bovi One Shot and Ultrabac 7 and were started on a TMR ration that consisted of Alfalfa hay, corn silage, oats, canola meal and rolled corn. The bulls are now transitioned to a TMR ration of; Alfalfa Hay, corn silage, rolled corn and soybean meal. Bulls were pictured end of January. Definitely check out their videos closer to sale day as they are still growing and gaining.

Again this year two pens of commercial heifers will be offered; one from Karsin Farms and another from Crooked Post Ranch. Check them out, they would both be sets to grow a herd with. Don't hesitate to stop in and check out the bull offering and have a coffee. If distance is an issue, give me a call anytime and I would be happy to go over the bulls with you and assist in anyway possible. - Kolton

March 9th

How to Bid

WWW.FARMGATETIMEDACTIONS.CA

1. Click the LOGIN/REGISTRATION button. First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. This program will send you text and email messages whenever there is activity on your favorite lots or someone challenges your proxy bid and this is why you will be asked for both your current email and cell phone number. If you are a past participant in the Farm Gate Timed auctions simply enter your user name and password to continue. This takes you to a list of both current and upcoming Farm Gate Auctions.

2. You can choose your favourite lots in this sale at this time and the program will allow you to open either all sale lots or just your favorite lots on your screen. Any time there is active bidding on a lot you have identified on your favorite list you will get a text and/or an email noting this activity.

3. The program allows you to place a proxy bid on any sale lot. This in fact protects your interest in any lot of interest for you to a specified dollar value you set, when you may not be able to give 100% attention to the sale. If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest.

4. At closing time of the sale the entire sale will extend bidding if a bid is placed on any lot in the sale. Any bid received after close time will extend the sale by the time listed on each sale. In Most cases the time gets shorter the longer in to extended bidding the sale is. When no bidding occurs for the extended time the computer will declare the sale finished.

5. Following the sale the McIntosh Ranch will invoice all buyers in the sale, please contact the seller with questions or to arrange delivery, pick up or shipping of your purchases.

For more info and assistance with bidding contact
Mark Shologan Ph: 780-699-5082

DISCOUNTS:

Pick up your bull between March 9-25 receive \$250 per bull credit to a 2027 bull purchase or \$100 per bull off your bill.

MRK 541N is the first of the flush brothers to be featured! He earns the lot 1 spot. Super soggy, loose hided, jam packed with red meat! SBSF 76D is a no misscow! We purchased her out of the Schweitzer herd dispersal and she was hands down my pick of the herd. Her first calf born on the farm was sold to Berts NR Simmentals as a bred heifer. 76D continued to lay down and give us heifer calves year after year and although they all had different sires, the quality was strong and as her daughters became producers themselves, they quickly made an impact in the calf pen. Fall of 2024 it was decided we would flush 76D. First flush was to SVS Tycoon with unreal results so we made the choice to flush again fresh and we implanted 17 #1s to Sunny Valley Rancher 42H. Take the time to analyze these brothers, super impressive in their own way. 541N is a individual that you will drive a long ways to find one made any better. Check out his video; he's destined to help improve the breed.

MRK 533N wins the award for biggest framed bull of the year here at the ranch. Super impressive with his overall shape and frame. The steer calves that this rascal will sire, I could find a home for any day of the week.

MRK 531N "Loud and Proud" best describes 531 at first look. Get behind him and he is one of the squarest bulls in the pen and types the lot 1 bull the most similar. He is super attractive with a big middle. Put him out on a set of solid coloured cows and watch out, keep all the daughters and call the Brink's truck when you sell his steer calves.

MRK 509N if there was a brother I was going to use in the heifer pen, 509 would get tossed in. Super smooth through his shoulders, beautiful made head with a small 75lb BW. Always been an impressive calf. Big time herd bull prospect here.

MRK 589N, 76D's natural calf and the only Commander son in the offering. Very correct made like all the Commanders, moderate in size with a pile of genotype potential. The 76d/commander result in a super docile, easy fleshing bull. Second youngest calf in the offering but stands his own in the bull pen.

MRK 503N, or better known as Prince, was calf at foot for Bexley's 4-H continuation heifer Julianna MRK 311L. Moderate in size but full of punch. Sired by WLB Top Tier, the red calving ease bull who needs no introduction. Prince, along side 311L were Champion Inter club Continuation Heifer at our 4-H achievement, Champion Female at the MSA Summer Show & YCSA Summer Show. Later that summer they headed to MB Youth Beef Round Up where she was Champion Simmental Female and later being selected as the Supreme Champion Overall Female.

503N AND DAM
SUPREME CHAMPION FEMALE MYBR 2025

MRK 523N is a 3/4 sib to lot 8. This stylish blaze faced bull has made lots of friends, out of a first calf heifer with only a 72LB BW. Let him loose on some heifers with some CE in them. His dam is out of our Bewitched cow family who is one of our top cow families here at the farm.

MRK 546N - First of the RF Intensity 3142 calves and out of the same cow as 311L, Bexley's 4H continuation heifer. His dam is a no miss HOC Broker female that continues to lay down and give us good ones after good ones. Super maternal top and bottom; this fella is stacked with greatness.

SIRE TO LOT 15 & 16
RF INTENSITY 3142

MRK 547N - Biggest Middled, widest topped bull in the pen with a pile of red meat! 547N is the second RF Intensity Bull in the sale. We absolutely love our Intensity calves. They are super deep, hairy and have that super attractive look. We had 7 Intensity calves last year, the 5 heifers in the replacement pen are right at the top. 547N dam is a cow that is nearing the donor pen. She is out of a cow we purchased from Downhill Simmentals that we lost way to soon. 7H is the only female and second calf we had from that cow. BIG TIME herd bull prospect here as he is sure to impress with his overall mass and soundness. Backed by a cow family you will definitely see grow in our operation in years to come.

The final calf of the Wheatland Next Century X MAF Jazz mating and he may be the best!. With two full brothers already selling through the sale to the progressive herds of T Bone Cattle Co and Devon Kalinski and a full sister retained in herd, this mating is tired and true. 5N himself has a big square foot, flexible in his stride and carries a lot of presence in his front third. Get in behind him and he's stout hipped, wide topped with lots of rib shape. With a weaning weight just shy of 900lbs, his calves are sure to press down on the scale come fall and if your in the business of retaining or selling replacement females they will be the envy of the neighbors.

I decided to bring back some older but very proven genetics mating Kop Crosby to arguably my most perfectly constructed black cow on the ranch and it sure clicked. KFJ 3N is a powerful bull. He's long spined, stout in his hip and heavy boned with a big square foot. He was the heavy weight at weaning which comes as no surprise as this cow family is what my black program is built around. His grand-dam is none other than my cornerstone black donor that has over 15 daughters and granddaughters in the herd. 3N's pedigree is stacked with breed legends from both sides of the border with the likes of Kop Bengie 6P, TSN 55W, Crosby, Loaded Up, Riddler and Black Edition. 3N's steer calves are sure to fetch top dollar from the front row but I think his females will be his greatest accomplishment.

Hairy, stout hipped, big middled with a big square foot best describes KFJ 12N. His pedigree is rich with maternal power. Look for 12N to sire moderate framed, thick, hairy steers and his daughter will surely be atop the replacement pen.

MR 536N - Leading the way in our Angus division is this really cool bull by LT Chiefton. We were fortunate enough for Ray to secure us some Chiefton semen two years ago. Chiefton calves have lots of grow with that extra frame that we feel the Angus breed needs. 536N is out of a cow that came out of the Black Meadows Herd Dispersal. 120G is a hard working momma cow that's gives it all she has, year after year.

MR 513N is a punch of a bull. At first look you would think he is only a cow bull with the amount of hip and red meat this bull carries. One of the biggest Angus bulls in the sale. Turn him loose in the heifer pen, these Square Deal calves are the real deal. We love how small they are when born but grow like bad weeds. I would say Square Deal is getting to be our go to heifer bull.

MR 525N, big time herd bull prospect out of our 617G cow that came out of the Black Meadows herd dispersal. 617G is our type of Angus cow, big soggy made with a little extra frame. We purchased 617G's dam as well, 806A. 806A has entered our Donor pen and is super impressive still today at the age of 13 years old. 525N has power wrote all over him. The calves this boy will sire should be game changers for anyone's program!
