Charolais Bull Sale

1:00 PM :: Whitewood, SK

with guests Bar H Charolais & McCorr Charolais

Offering 52 Charolais Bulls
Full French & Purebred Charolais

Welcome to the Sale

We'd like to thank our previous buyers and welcome new buyers that are taking an interest in the FullFrench breed. Special thanks to our guest consignor, Bar H Charolais; they've been with us since the start of this sale! I would also like to introduce a new consignor to our sale, purebred breeder McCorriston Charolais! Our family is looking forward to this new addition and the offerings they will bring sale day!

On our farm, located near Moosomin Lake, we calve out 250 Simmental/Red Angus cows. We are maximizing on those top-notch tan calves. We calve the FullFrench cows through January, February and March, and the commercial cows have been backed off to start the first week of February.

This year, we will be bringing yearlings and long yearlings as well as two-year-olds to the table, so there will be some different options for buyers.

In addition to cattle farming, we also grain farm. Our three sons enjoy helping out with the seeding, haying and harvest. Trae is 18 now and graduated last June. Kohl is 17 and in grade 12, while Vahn is 14 and currently completing grade 9. They enjoy a wide range of activities such as hockey, dirt-biking, snowmobiling and water sports. They keep us busy for sure but the older two have a licence now and that makes farm operations and leisure activities run more smoothly! My wife continues to teach at the high school here in town. Our nephew, Colton Stephen, is also employed by the family farm and has become an asset to the operation. When everyone pitches in, we can honor the **HARD WORK** and **DEDICATION** founded by my parents, Murray and Louise Stephen. These young fellas sure love working with grandpa, and I think he gets a kick out of them as well!

During our regular breeding season, I can test out different bulls and bloodlines I have acquired over the years. I import semen from France and have done so since 2007. One thing I know for sure is that this heavy-musclred breed adds value to any herd, whether commercial or purebred. Simply put, FullFrench breeding adds big, tan, soggy, haired-up calves that buyers fight over! I am so impressed with the overall weights this FullFrench breeding brings, and with today's prices, it's a no brainer on a way to monopolize on your end product!

We take pride in our animals. They will be clean and tidy on sale day. If you purchase a bull and are not completely satisfied, please speak to me directly so I can make it right. We value respectful and friendly business relationships with all our buyers. We look forward to meeting new customers and continuing our work with repeat customers. Thank you and see you on sale day!

Sincerely,

Stephen Charolais

Welcome from Wrights

Welcome to the “Time to Muscle Up” Charolais Bull Sale, brought to you by Stephen Charolais with their guests Bar H Charolais and McCorr Charolais.

The Stephen Charolais program has utilized and built their program using Full French Charolais, importing genetics right from France. They have long been capitalizing on the muscle, power and performance that the Full French cattle are renowned for. They offer the bulls as two-year olds, allowing the bulls time to mature and reach their full potential so they are ready to go out and breed. If you are looking to market calves that have hair, muscle and perform, consider adding a Stephen Charolais bull to your bull battery.

Bar H Charolais, along with McCorr Charolais, are providing the purebred Charolais genetics to the sale. Both programs utilize breed leading A.I. sires in their A.I. programs, coupled with sourcing top quality Charolais bulls for their natural services. The bulls are raised with the commercial producer in mind, being raised in real world ranch settings and are developed for longevity. This sale offers a truly one stop shop, with the ability to source two-year old, long yearling and yearling Charolais bulls, Full French or Purebred, all at one sale. Whether you are looking for heifer bulls or performance bulls to cover some cows, this sale features it.

If we can be of any assistance answering questions about the offering or about the sale, please don't hesitate to reach out. We would be happy to assist you with sourcing the right herd bull for your operation. The consignors also welcome you to view the bull pens prior to the sale at their respective farms, for your evaluation.

Hope you join us on sale day at Whitewood Livestock Sales, or online with DLMS.

Sincerely,

Jon & Sarah Wright

Neville is a unique calf with some tasteful older genetics. His grandfather is the great Till bull who was one of the leading top bulls in the French generation with outstanding females! Neville is a son off the great Anjou Extra 4E bull who was raised in Canada! So, Neville has solid older genetics in his bloodlines, as his dam goes back to the old Genk bull; he was another well-known bull who came out of France. If you're looking for an all-around bull that will give you exceptional replacement females, Neville will give that with ease.

McCorr Charolais

Welcome and thank you for your interest in our program. Although Mark is a 3rd generation Charolais breeder, this is the first year for Mark and I to market our own bulls. In 2023 we began our journey with the purchase of a few open heifers from Perrot- Martin Charolais at Naicam. In 2024 we purchased one of the high selling lots from the Turnbull sale. The Lee bull as we call him, has impressed us with his vigor and calving ease. The calves are smooth fronted and carry a lot of natural muscle. In late 2024 we jumped at the opportunity to buy the entire Perrot- Martin herd. As we are wrapping up our 3rd season calving these cows, we continue to be impressed with the disposition of these females.

These bulls have not been pushed on feed but have been left to develop naturally. As commercial breeders we understand the importance of good feet and legs on a bull, therefore none of the bulls have had their feet touched. We feed our cows a heavy barley ration during the 3rd trimester and as such some of the birth weights are a bit higher. Any calf that had an assisted birth has been culled. I would not hesitate to use any of these bulls on my commercial herd.

We are proud to carry on the McCorr Charolais name as a tribute to Mark's parents, Lorne and Joy, who were very passionate about the breed. We have seen the power of the Charolais breed in our own commercial herd and would love to help you find a bull to suit your needs. If we can be of any assistance or if you would like to tour the pen, please contact Nicki at (306)434-9963.
