3P is a combination of a lot of great animals at Elliott Bros the Grand Dam was purchased by Mark at the Johnson Dispersal and has been a good addition, she has produce some really nice bull over the years with a couple daughters in the herd, 14M the dam is a PM Natural Law daughter with a great udder and has really done well her first calve crop with 3P. 3P sire was the high selling bull at Avelyn Angus Mr Macho 231M has a great set of feet and goes back to the HF Showtime bull, beautiful fellow, Avelyn lady 31'19 is quite a looker with a perfect udder, she was showcased at the farm tour 2025. We are pleased to offer this fine female as one of our best offspring in 2026. Dutch Auction Format.

OBI WELCOME

Once again, it is my pleasure to invite you to the 48th Annual Northern Select Sale.

What a year it has been in Northern Alberta with May being very dry and then the flood gates opened with moisture for all. I went to pastures in July with standing water and rubber boots were a must. The fall came; patience was tested but overall, 2026 has left a lot of cow feed around with optimism at the highest level in the cattle industry.

Last year's sale was a huge success with having the sale on a Friday night again with over 250 attending the event. Northern Hospitality was tested and met with huge satisfaction. No matter where the sale is and when, the Northern Select always continue to produce cattle that flat work for their new owners. It is a great group of people to deal with, hardworking, very grateful to be involved in a sale.

Again, in my travels it was a pleasure going thru the cow herds of the Northern Consignors and working with them to market their females in this sale. When going to each operation I discuss game plans for this sale and the future of their marketing and promotion and then we sit and negotiate which animals will do that for each program. Chelsea also helped me with some selections this year. We have another 5 new consignors for the sale which is always welcomed to showcase their herds to us all.

The sale cattle will start coming to Stettler on Thursday morning with a meeting of the Northern Club at 7:00 PM on Thursday Night. The supper, that you won't want to miss, will commence at 5:30 PM with the sale being Friday Night at 7:00 PM. We will be on sale site from Thursday until Sale time.

I would like to thank again the club and all the supporters of this event last year; your commitment and loyalty to this sale is second to none. If any member of OBI or Myself or the sale staff can assist you, please feel free to call us. See you at Stettler, November 13th.

Mark Holowaychuk

Sprucefield Progressive 39P has been a standout since birth. He's a bull with extra growth, big hipped and wide topped with an exceptional front end. His mother is the great Daines Evening Tinge 26E, a cow that knocks it out of the park every time. Her daughter was a featured lot in this sale in 2024 and sold to RR Forty Angus. A bull with an awesome temperament and hair coat, he is part of our fall show string. He is entered at The Immortals and Farmfair.

TERMS OF SALE: ½ Down Sale Day and ½ Paid when bull passes semen test to Sprucefield Farms. Sprucefield Farms will take the bull home to develop and winter until semen testing. Sprucefield Farms is Retaining a 1/2 Semen Interest.

WK LADY MAY 2347

Everblack Lady May 5010 is a deep-sided, wide-topped female that has the look of making a brood cow. She looks to be laying down a terrific udder, as we have come to expect from the Lady May females. 5010 is one of five full sisters that have all turned out. One sister topped our spring bull sale at \$18,000 to Banana Hill Farms, the Danyluks from Elk Point AB. Another full sister was Sully's 4-H project this year, a testament to the docility of these females. The dam Rail Line Lady May 1H came to us as a past high seller at \$31,000 out of the AAC in Ontario. We have had tremendous luck with direct Capitalist 316 daughters. The sire Peakdot Gatsby is doing a nice job for us, adding capacity and fleshing ability in a moderate, sound package. The coupon inside is an exciting one, as she is bred to our new Caldwell son from Belvin. Caldwell has done a tremendous job at Belvin. Watch for his popularity to explode with him now walking the pastures at SAV as well.

Everblack Bride 30N is a sweetheart of a female. She has a beautiful Angus head, and an extended front end that leads into a nice big rib. If you follow her pedigree back a few generations it ends up with the Bride 4W cow that did great things in the renowned BAR-E-L program. Bride 30N has a maternal sister working at Clinton Ostrander's in Ontario. She will be the first of many offspring offered for sale from our walking bull, Musgrave Manhattan 303. He is siring sound, functional cattle that look to be on the maternal side with exceptional teat placement. Manhattan's grandmother, Musgrave Prim Lassie 329, would be one of the more famous cows in the Angus breed today. We cannot wait to see his first daughters freshen this spring. We will pay for the DNA on the 2027 calf.

BLACK BRED HEIFERS

VAP 52N is a moderate-framed female that checks all the boxes! She is built right from the ground up with excellent feet and legs, a neat square udder and a beautifully feminine front end. Her dam, 16F is a never miss cow who clicks with whatever she is bred to and Density has certainly hit it out of the park. With 1,884 registered daughters, Density is a proven female-maker who needs little introduction. Country Lane Dyna 52N is bred to a Coleman Glacier 041 x Rust Miss Beauty 0410H embryo bull we raised and he has not disappointed with an exceptional group of calves this year. This mating should be a sure-fire coupon in the making!

GRANDDAM

Here's one that checks all the boxes! An absolute powerhouse of a female with tremendous depth of body, a big correct foot, and mama cow written all over her! She's the kind that will raise the good ones year after year. And the icing on the cake? She's carrying a service to our exciting new herd sire purchased from Clement Cote Farm Ltd. Backed by a stacked pedigree combining Merit Investment 1054J and the highly regarded BAR-E-L Erica cow family, this mating has us fired up! Big-time maternal potential, exciting genetics, and a whole lot of future wrapped up in one package!

SERVICE: EXPOSED APRIL 20 TO JUNE 15 TO JKC NICCO 17N. OBSERVED BRED MAY 15, AND DUE FEBRUARY 21, 2027.

BLACK BRED HEIFERS

This heifer has truly been a standout since birth. From an early age, she was our biggest, heaviest heifer, and she never slowed down. The milk, volume and thickness of her dam, combined with Baldridge Badger as her sire, really made for something special. Badger has become well known for foot quality, and this heifer is proof irrefutable, with straight claws and a deep heel. We feel this heifer mated to the proven calving ease and maternal sire Sitz Continuity, should make for an outstanding return on investment. She was ultrasounded safe to Sitz Continuity.

For a mid-March calf, this heifer gives up nothing in volume and power to our other consignment, or to anyone for that matter. Her dam, Rivendale Annie K, has proven herself a heavy milking top producer for us since buying her from the Masterpiece sale in 2021, with two other daughters retained. She is easily among the top end of our Valley Blossom Executive 702L daughters, all of which are angular, feminine, long, and fleshy. Mated to proven sire Sitz Continuity, we feel this is a no-miss cross for raising a top replacement heifer or your next herd bull. She was ultrasounded safe to Sitz Continuity.

PLC 050N is a standout female from a powerful cow family, combining the femininity and style expected in a brood cow with the boldness, substance, and ruggedness needed for a productive life. As a member of the Ruby cow line, she represents a maternal program built on fertility, milk, longevity, and the ability to raise high-performing calves. PLC 050N's dam line has consistently delivered dependable females with the capacity to breed back, milk hard, and push calves to impressive weaning weights. She offers the kind of balanced, practical phenotype that makes a lasting impact in a commercial or registered herd. Females of this caliber are difficult to part with. PLC 050N is the type of cow we strive to build our herd around—fertile, functional, productive, and backed by generations of proven maternal strength.

BLACK BRED HEIFERS

This big bodied, wide ribbed, soggy made, soon to be momma cow is one that catches your eye. She is out of Basin Rainmaker, a sire that Tell picked to try out, his calves have a flashy presence. The Belle cow family has been in our herd since we started collecting cows in 2007 and have always raised top of the pen calves. This bred is due to calve in January and vet checked safe to Myer's Fair-N-Square.

3/4 SIBLING

A big bodied female that you won't want to miss adding to your herd. With Montana Judgment and our Lynn cow family in her pedigree she's bred to be a maternal powerhouse that's laying down the beauty of an udder. She is a 3/4 sibling to the \$42,000 BCC Caesar 501 to the Spady family and \$30,000 BCC Lynn 406 at Angus Collection to Yeguada El Tres in Mexico. If you loved them, you'll love her! She sells safe in calf to the calving ease and performance sensation Musgrave No Limit 663-169 who is owned by Brooking and Greenwood.

SERVICE: A.I. ON MARCH 28 TO MUSGRAVE NO LIMIT 663-169. EXPOSED APRIL 15 TO MAY 25 TO BCC ROCK 512. SAFE TO A.I. DATE. DUE JAN 5.

BLACK BRED HEIFERS

Power bred sired by our top selling son of Lazy JB Sundance, love his progeny. Her dam a very well made daughter of HF Roper is a very promising young cow in our herd. She stems back to the original cow we started our herd with 25 years ago. She is smooth long and powerful sure to be the kind to raise top producing daughters and performance bulls.

BLACK HEIFER CALVES

Erica 7P is a fancy-fronted, moderate-framed female with exceptional depth, width and hind quarter. Her striking presence demands your attention from the moment you see her. Out of first calf heifer VAP 45M, 7P exhibits the strong maternal traits the renowned Erica 74A cow family is known for. Her sire, HF Jordan 88M has left us with an outstanding group of heifers who are attractive, easy fleshing with great hair and muscle shape. Country Lane Erica 7P is the first and only 88M daughter we will offer this year. Don't miss this opportunity to add a powerful young female backed by a proven cow family.

DAM

Country Lane Dyna 33P is proof of the quality females that come out of this very sale. We purchased the original Dyna female from Roseholm Angus in 2010, and the family has become one of the most influential cow families in our program. 33P is a larger-framed, deep-bodied heifer with a solid foot and excellent teat attachment. Her sire, Rust Forged of Fire 0412, has clicked exceptionally well, with daughters near the top of our replacement pen and standout bulls heading to our bull sale. Her dam, 8G, is a Soo Line Motive 9016 daughter with a well-balanced, square udder and excellent capacity. Juniors, take note—this sweet, quiet heifer will be a pleasure to work with and a great one to build around.

BLACK HEIFER CALVES

Here is a heifer that is soggy made, wide topped, wide middled and as fancy as they come. Her dam, 15G, is a proven cow in our herd and has had a calf in the top of the pen each year. Her sire, Myers Fair-N-Square, has left a standout group of calves in our pens this year.

This heifer is a fancy made, long female with a ton of eye appeal, and dimension. She is an embryo calf out of the PED 5C donor cow that we own with Clement Cote Farms. The Mardi cow family has produced phenomenal cattle at ranches around the country. Her sire is none other than Myer's Fair-N-Square, he has raised exceptional females for us in the few years we have used him.

BLACK HEIFER CALVES

Every once in a while, a sire comes along that makes you stop turning pages. Sitz Eternity 739L was that bull for us. When we first spotted him in the ST Genetics catalog in early 2025, the reaction was immediate—“Holy f**k, come look at this bull.” He was a true page-stopper, combining tremendous presence, a set of footnotes that made you dream big and a dam that made your mouth water. By spring 2026, we were kicking ourselves for not buying more semen. Eternity 739L no longer qualifies for Canada, making the daughters even more intriguing. Tippy 03P is one of those daughters—and she is exactly why we wanted to use him. Tippy 03P is the kind of female maternal dreams are made of. Feminine-made, stout, exceptionally good-footed and blessed with that beautiful Angus skull shape we all appreciate, Tippy 03P combines style with the substance and cow power to go the distance. Her dam is a beautiful Bravo 6313 daughter who continues to outproduce herself year after year. A maternal brother sold to Elliott Bros. Angus this spring, adding another piece of validation to an already proven maternal line. The Tippy cow family began for us with the purchase of Rusylvia Miss 3A at the Northern Select—and what a purchase that turned out to be. The Tippy's have become some of the most consistent producers in our program, delivering the maternal ability, udder quality and functionality we demand. In fact, they make up the bulk of our Black Angus cow herd. Tippy 03P brings together a hard-to-replace sire, a proven maternal foundation and the kind of Angus presence that makes you stop and look twice. She is the kind of female you can appreciate today—and build around tomorrow. Parent verified.

Sired by the great U2 Coalition, Penelope 52P is a female that combines eye appeal and extra power to make a very productive brood cow. Her mother Mar Mac Annie 77H is a top end young cow who was purchased at the Yarrow Creek Dispersal. Penelope is the type of female who can hold her own in the show ring and be a top end brood cow for the new owner. She has a very bright future ahead of her and is part of our fall show string entered at Farmfair.

BLACK HEIFER CALVES

An absolute sweetie. If you're like us and have longevity high on your list, then she should be high on your list too. Her Great Grand Dam 2R produced 13 calves and Grand Dam 107A produced 12. Her dam 94G is well on her way to do the same. With Riverfront Emerald 318L on the top of her pedigree, it's no surprise she's as nice skulled and soft middled as she is.

Caterpillar Pride 6P is the type of female we've been building our program around and although we're very sad to see her go, we're proud to offer her as a great addition to anyone's herd. She's not just nice to look at, she has all the attributes and pedigree to perform like she's supposed to. Her dam came to us through the 2023 Northern Select Sale from the great people at Pedersen Livestock and she carries the same easy handling temperament and material traits that caught our eye with her dam. Her sire, Peak Dot Boost 137H is a bull we've used extensively over the past few years to continually improve calving ease and build the foundation for great calves. 6P's full brother sold through our 2026 Bull Sale to Sienna Red Angus.

BLACK HEIFER CALVES

Here's an opportunity that doesn't come along every day! A natural daughter of one of our most recent donor dams, backed by a never-miss cow family that has proven itself time and time again. This female brings a little more frame without sacrificing an ounce of body depth, shape or femininity. She's big ribbed, beautifully made through her front end and has the kind of eye appeal that makes you look twice! Her sire, Baldridge Badger, consistently stamps his progeny with exceptional shape and style, and 16P is no exception. Donor-backed genetics, proven maternal strength and a whole lot of quality wrapped into one exciting female!

SIRE

This little lady was a last-minute addition to the sale pen, and we can tell you it took some convincing to get Kendra to part with her! When you're a daughter of one of her all-time favourite cows, you've got some pretty big shoes to fill, and 418P is doing just that! Her dam is exceptional in both phenotype and disposition, so quiet that we halter broke her this summer as a six-year-old cow! And the apple certainly didn't fall far from the tree, as 418P has inherited that same wonderful temperament. On the paternal side, she's backed by a herd sire that has left a tremendous mark on our program. His daughters are the kind you build a cow herd around, while his sons are out working in our customers pastures across the Western Canada. Proven genetics, outstanding disposition and generations of cow power behind her. This sweet little package is one we truly believe in, and one that's going to be awfully hard to watch leave the yard!

BLACK HEIFER CALVES

We are very excited to bring DLW 1P to the Northern. She is off a partner cow that Brady Fraser and I purchased from the Angus Collection. We sold her half sister in this sale to Jesse and Miranda Emery of Dwajo last year. I thought last year it was going to be tough to produce a heifer as good as DLW 3N was, but I believe we may have done better. DLW 1P weaned off in early Sept at 850Lbs. The consistency that her dam EDW 168K produces is outstanding. EDW 168K goes back to HF Alcatraz and SAV Renovation. The Sire DLW 6Mis a bull we raised and kept a Semen Share in. RR Forty Thunderstruck 6M comes out are HF Roper and HF Tibbie 22C which has left her mark at Hamilton's. His Dam, Remintall Rita 58J has become a Matriarch at RR Forty. She has a daughter working in the herd and 2 bulls Working in prominent peace country herds as well as DMM Rollin On 38L Bull Calf at the top of our bull pen.

Her mother KOF 55J was purchased from the Mar Mac Black Angus Dispersal. She is a moderate made cow with a great disposition. She is always the first cow to come see you on the pasture and check to see if there is a white 5-gallon pail. I really was unhappy that Mark selected DLW 2P, but if we are making the trip to Stettler we need to bring are best. DLW 2P weaned off in early Sept at 778Lb. She has been a standout since birth. She is sired by are DLW 6M and we had 19 heifer calves out of the 20 cows he bred. The calves off DLW 6M have a good foot, stand correct, have great depth and length and have great temperament. I retained some commercial heifers out of recip cows that did not catch embryos, because they were that good.

BLACK HEIFER CALVES

DJE 62P is a little more jammy made, with plenty of width, depth and thickness. Her dam has a very good udder and lots of volume. Her granddam was purchased through the Northern Select Sale from Schultz. Her sire, By Design, is known for excellent feet and leg structure, along with plenty of thickness and width. He is leaving the kind of offspring we are excited to offer—the kind of cattle we are always striving to produce.

DJE 71P is a cool-made heifer with a pretty neck and look the show people are after. She still has plenty of width and thickness to make a very good cow. Her dam has excellent feet and a picture-perfect udder. She has the look to be competitive in the show ring while still having the functionality to work in the pasture—a great junior project.

BLACK HEIFER CALVES

Erica 63P is a kind and quiet heifer that has been shown at 3 different 1 day shows to make sure she can handle a lot. We have also led her with Millie in a backpack at the same time. She has plenty of body, a nice hip and a great hair coat that any junior would enjoy grooming. Her dam, 133H, is a moderate-framed cow with a tidy udder and a solid foot underneath her. Erica would make an excellent junior project with her quiet nature, or a great addition to the herd for longevity. Her cow family is built on quiet, long-lasting females that continue to get the job done. We are sad to see her go.

Here is a female that has all the hard work done ahead of time ! Blackcap 6064P hails from none other than Brooking Emerald 9179. A reason in itself to have this female circled as one to watch. Much like her Dam, her features check all the boxes for the must haves in a female. Correct from the ground up, Blackcap 6064 could be the one to go the distance and find herself in your herd as a donor just like her Dam is for us. Need more ? Each bull calf that we have sold from 6064's Dam has been the high seller and first to be selected via private treaty since we have owned her. If probable income is factor in your selection, this one should be at the top of your list.

DAM

SIRE

RED HEIFER CALVES

Red Sprucefield Piper 27P is also a member of our fall show string. Sired by Red U2Q Badge, a bull that adds extra thickness and growth, she is a female that will make a top end brood cow. Her mother Red Hazel Bluff Martina 107J is a real powerhouse that hasn't missed yet. Piper has a beautiful dark red hair coat and that show heifer look to her. Check her out at Farmfair. I think you will be impressed!

SIRE

RED HEIFER CALVES

Deep ribbed, stout, and big hipped female off the top of our very impressive \$55,000 high selling Red Eye sire group. Her dam is a very impressive, beautiful uddered, Jaguar daughter and they are consistently knocking it out of the park in terms of production. 125L's first calf was a highlight in our bull sale.

Pay attention to this one. Lady 63P is the kind of red female that stops you in your tracks and makes you look twice. From the moment she hit the ground last January, she had the look of something special—and she has only gotten better. Cherry red, ultra-broody, dark-footed and backed by a pedigree stacked with black genetics, she brings a rare combination of phenotype, maternal power and genetic intrigue to the table. Confidence Plus. Bronc. Chism 6175. And, further back on the dam's side, Pioneer 7301. For those of us who love chasing purple genetics, putting this much genetic horsepower into a red package is exactly what gets our attention. Phenotypically, she checks all the boxes. Broody, stout, soft-made, excellent-footed and blessed with a sweet disposition, Lady 63P has the look and substance to be a standout in the pasture and a valuable addition to a serious breeding program. She is backed by the proven Lady cow family, a family built on phenotypic presence, functionality and exceptional udder quality. Her dam, LSCC 63L, is a moderate-made, excellent-footed red carrier who continues to outperform herself with every calf crop. Behind 63L is SKG 12W, the cow that established the Lady legacy at Lucky 7. A sleeper purchase at Tradition with a Vision in 2010, 12W developed into a maternal powerhouse and proven donor for our program. Her influence continues to make an impact. On the top side, Cadillac 3289 was a bull we selected for his fresh pedigree, big EPD spread and curve-bending ability. His first calf crop is impressive, and we are excited to see more of his progeny hit the ground in 2027. A red female with black branches. A proven cow family. An exciting young sire. LSCC 63P has the pieces in place to be more than a good heifer—she has the makings of a great cow. If you are serious about finding one to build around, circle this one. Parent verified.

DAM

146P is big haired and she's one who you can appreciate for her overall balance and maternal skull structure. Her granddam Red Dwajo Superior 146D is a cow you must stop and appreciate no matter what season it is! This cow family carries tons of power, strong foot structure and an incredibly well-balanced udder. 146P and her mother both take after these genes. She's the kind of female that makes letting her go difficult as we know how she will turn out. The sire to this heifer is Red Dwajo Cracker 16L. He is a powerhouse of a bull who is incredibly well built with lots of mass and lasting foot structure. We are excited to see how this heifer works for someone else!

SIRE

RED HEIFER CALVES

Firefly 81P is another standout Zodiac daughter that commands your attention the moment you see her. 81P has the presence, balance and eye appeal to be a sale feature. Her dam is a moderate framed tanky Excalibur daughter, the kind of female that knows how to turn grass into pounds and consistently gets the job done. 81P is the kind of female that will be a productive, easy doing female with plenty of longevity ahead of her to be the corner stone female you're looking for.

Sparkles 76P is a powerful young female that is sired by our main stay herdsire Zodiac that we own with Matejka Farms. 76P is the kind that will have a bright future in anyone's cow herd. She offers a strong maternal pedigree, good structure and the kind of functional design that will allow her to be a productive, long-lasting female. Sparkles maternal sister made a lot of friends who sold through this very sale last year to the good folks at Dwajon Angus.

RED HEIFER CALVES

A long bodied, straight topped, feminine made female, with a ton of presence. She is out of a cow we bought from Towaw Cattle Co. as a bred heifer and has produced only heifers since we got her. Her sire was a bull we acquired from Six Mile Red Angus two years ago and has given us a nice set of calves in the first calf crop this year, we are excited to see how his calves grow out.

This heifer is a deep bodied, long sided, good footed, complete female. She is a paternal sib to the 461P heifer, and these two make quite the pair. Her dam is a cow we bought out of Blairswest's sale two years ago and for her first calf I think she did an exceptional job.

SIRE OF LOTS 47 & 48

RED HEIFER CALVES

82P is the kind of female we would confidently add right back into our own herd. Since acquiring the DC Angus herd six years ago, her dam has consistently produced quality females that we've either retained or sold to commercial breeders. This mating is sure to produce—and 82P is exactly the kind of female we're proud to offer as a representation of what our herd is all about.

RED DC ABBY LANE 21L

Abbey Lane 92P checks all the boxes. Her dam, 10D, is a cow we would duplicate in a heartbeat. This pedigree has consistently produced replacement females for our herd, along with bulls that always seem to be among the first to leave the pen. Her sire is a thick, dark-red "meat wagon," making this proven mating one we were excited to repeat. A great addition for a productive program.

RED HEIFER CALVES

Here's a heifer with a lot of future in front of her. 175P is an ET daughter of our favorite cow, Red MRLA Miss 2443K. 2443K is deep-bodied, sound-footed and perfect-uddered, and was the lead-off Red Angus bred heifer in the 2023 Hold Nothing Back Heifer Sale from McMillan Ranching. A foundation female who never misses. 175P herself is bigger-framed and powerfully made. She gets her extra frame and stretch from her mother, but still maintains that rib shape, dimension and correctness we like to see. If you're looking to add frame, power and a proven cow family, take a serious look at 175P.

DAM

Here's a heifer we think a lot of around here. She has been a standout since she was a week old. Deep-bodied, moderate-framed, dark red, soft made, and balanced end to end with that broody, maternal look and presence. She is backed by a cornerstone female in our program. Her dam GOAD 259G is a true "never miss" female who has consistently produced a slamming heifer calf every year for us and earned her spot in our donor program this year. If you're after a female with a proven cow family to take to the show barn and then to the front pasture, take a serious look at 259P.

SIRE

RED HEIFER CALVES

Really like the type and kind of the Completely progeny, dark color and nice hair. Backed by the great Eruption cow family; she is the maternal sister to dam of 28P. The most influential cow family in our Red program is the Eruptions.

This female is a fan favorite around here, she is dark, she is deep, and she is a well-made female. Mark tried to take her as a heifer calf, so here is your chance to get her as a bred! A granddaughter of Red Ter-Ron Diamond Mist 13G and the daughter of Red Airam Diamond Mist 23J who have both proven themselves in the show ring and in our herd, we are excited to see where this female can take your herd!

SIRE

SERVICE SIRE

SERVICE: EXPOSED APRIL 9 TO JUNE 14 TO RED DURALTA 116 DASH 103M. DUE MID JAN.

RED BRED HEIFERS

Dark red, deep ribbed, maternal powerhouse that comes from the highest quality flush we have ever raised. Three flush brothers topped our bull sale last spring, with one to Goad Family Angus and another to Double F Cattle Co. Her dam is a herdbull producer that has raised us three sale topping sons in different years. Maternal sister, 244M, just weaned her first calf, a calving ease son that is outstanding. It is hard to part with 239N, but I remind myself we do have two flush sisters we are retaining in our herd. First 240F daughter to sell. Bred to the \$72,500 high selling bull Red Redrich Montgomery 370M that sold to South View Ranch.

DAM

IKZ 742N offers an impressive combination of calving ease, performance, and eye appeal. She descends from a proven cow family known for producing calving-ease females, with the family's bulls earning consistent recognition in the sale catalog year after year. More than just attractive, IKZ 742N is built to be a profitable, productive cow. She represents the kind of female that calve reliably, raise a strong calf, and contribute to a successful bottom line. With her balanced design, maternal potential, and proven pedigree, she has all the ingredients to become a valuable herd matron.

323N is developing as a standout maternal female with the kind of cow power that can make a lasting impact. This long-bodied daughter of Red Wood Coulee Taurus 805K combines excellent length and body capacity with beautiful udder development. She possesses the maternal look, structure, and substance to be a productive brood cow. 323N is a unique female that offers the combination of Red Wood Coulee Taurus 805K and Red Blair's Bingo 581B genetics stacking maternal pedigrees that serious cattlemen can build around.

SIRE

A standout Kujo daughter that commands attention with her tremendous width, bold rib shape, and overall dimension. Backed by our top-producing Reba cow family, she offers the kind of maternal foundation, power, and consistency that has made this family a cornerstone of our program. Kujo had a lot of admirers last fall when he was a highlight mature bull selling through Red Round Up to Topham's. The Kujo daughters have quickly made a huge impact on our herd in just a couple years. 363N is the type of female that combines volume, substance, and femininity giving her all the ingredients to be a valuable addition to any breeding program.

This heifer patterns her maternal side of her pedigree-moderate framed and easy fleshing. She is the first female offered for sale from WRAZ 65K. He was my choice of bull calves out of the WRAZ dispersal. He sires a little more performance in his calves and easy fleshing. 15N is bred to the easy calving sire Red CER Moon Pie 4010. Moon Pie 4101 was on display at the Saskatchewan Angus Tour this summer displayed by Triple L Livestock. He was one of the most talked bulls at the tour with his great feet, muscle and dark red hide and his calves are flat outstanding across Alberta and Sask. This coupon will be very rewarding.

This heifer is another daughter of WRAZ 65K. She has always been one to catch my eye whenever I go into the group of heifers. She has a little more frame to her as she comes from a long line of larger framed cows. She is long spined and very feminine in her front. She also is bred to Moon Pie a bull that OBI purchased semen on for me at Red Roundup last December to use on heifers. When Mark saw this bull, we talked and he convinced me to use Moon Pie and according to all that have used him, the calves are top end at all operations.

PATERNAL GRANDSIRE LOT 64 & 65

Rob Holowaychuk Memorial Fund

In 2018 the Northern Club decided to create this fund in memory of Rob Holowaychuk. Rob believed in the future of the Angus industry and no better way than giving back to the Juniors that support the Northern Sale. 3 awards per year will be drawn to the Juniors that purchased an animal at the previous Northern Select Sale and the value will be \$1000 per award and to be used for the 2026 Sale. This is open to all Junior Members who purchase an animal at the 2026 Northern Select Sale. The winners will be notified by OBI Livestock Ltd. The sales credit will be awarded over and above any Junior incentives that the winners may be eligible to receive.

2019 Winners – Lane Fuls, Sarah Hodgetts, Tyler Schmidt

2020 Winners – Nash Hodgetts, Brookelyn Holt, Kaleigh Clark

2021 Winners – Ethan Yaremko, Jackie Schmidt, Neils Van Loon

2022 Winners – Brooke King, Vander Linden, Luke Brooke

2023 Winners - Quinn Pedersen, Maria Taschuk, Emily Hodgetts

2024 Winners – Erika Mathon, Bristol Sailer, Jake Tremmel

2025 Winners – Dallis Sailer, Luke Henderson, Katelyn Kehler

2026 - Michael Klassen, Karly Kehler, Shae Millar
