Welcome

from **BOHRSON MARKETING SERVICES**

Welcome cattle folks to this years edition of the Oakview-Perkin-Triple R Bull Sale. The Collins, Perkin, Dequier/Warkentin families have again assembled the largest offering of Simmental Bulls to sell under one roof in all of Manitoba for your appraisal and we can confidently say you will have as many options this year as ever before as the depth of quality is extremely deep. We hope you take this as a personal invitation to join us on March 16th at Oakview's sale facility near Darlingford, MB!

The obvious type and kind put together throughout this catalogue is truly impressive as all 3 of these strong programs have like minded approaches to breeding and raising sound, functional Simmental Cattle that can perform and thrive in any conditions and management practices. The selection of red, black, Fullblood, calving ease performance and

highly maternal bulls will have you making long lists of options. These bulls are bred and managed with longevity and do-ability in mind and you can rest assured all 3 of these strong options stand behind these bulls and beside you, their valued customers.

Be sure to give anyone from the OPT group a call to discuss the offering, and visit about which bulls may best suit your needs. If any of us from BMS can answer any questions you may have or play a role in your selection, please don't hesitate to give us a shout, we would be pleased to help. We do hope to see you sale day and look forward to visiting with you about OPT 2026!

SCHEDULE OF EVENTS

Friday, March 13
10am - All bulls will be available for viewing at Oakview Simmentals

Monday, March 16

12pm - Lunch
1pm - Sale Time

DELIVERY

- Delivery will be made at sellers earliest convenience working to get bulls to your yard within MB, to central points within Canada and to the nearest USA border crossing.
- Bulls can be wintered free to charge until April 1. After April 1, there will be a charge of \$3/day. Bulls returned to the farm can be picked up at the buyer's convenience.
- Bulls that are wintered by the consignors must be insured by the purchaser.
- Bring your trailer and take your purchases home sale day and take \$75 off your total purchase.

SEMEN

Oakview Simmentals, Triple R Simmentals and Perkin Land & Cattle Co. reserve the right to collect semen on any bull sold through this sale for in herd use only. This semen will be collected at the buyers convenience and seller's expense.

AMERICAN PURCHASES

Our sales are conducted in Canadian funds. The US exchange rate will be available at the settlement desk. Upon successful purchase of an animal, the consignors will assist with the necessary documentation, health exams, brokerage and US custom charges necessary to export your animal to the US. An additional fee of \$300 USD per animal will be charged for this service, and is due at time of settlement. Trucking is not included in this amount.

SALE LOCATION

Oakview Simmentals can be found on Google Maps. Search "Oakview Simmentals" for directions to the farm!

OR

From corner of Hwy 3 and PR 240 Go 2 miles east to road 38. North 3 miles to road 16. Turn east for 1/4 mile, farm is on the south side.

TERMS & CONDITIONS

Cattle will sell under the standard terms and conditions set out by the Canadian Simmental Association.

Welcome from OAKVIEW SIMMENTALS

Time flies when you are having fun and working with an exceptional group of breeders and friends. Its hard to believe that this is the 10th Annual OPT bull sale. While the venue has changed, and we have moved to a video sale, the quality, variety and desire to produce functional bulls has always stayed at the forefront.

This year we are beyond proud of the bull pen. They are the most uniform group we have raised and have something that will appeal to every program. Not to mention they are the most docile and easy to work with group.

The Tommy Gunns are quite an exciting group, and with 15 top end bulls to analyze you can really admire the consistency in which he breeds and the style, thickness and muscle expression that he stamps all his progeny with. Owens has proven himself in the past couple years to be of the most consistent calving ease bulls we have used. Not only does he calve exceptionally easy, but his progeny hit the ground running and explode into dark, hairy, thick bulls and heifers alike that easily make their way to the keeper pen.

On the full blood side of things we are once again thrilled with the way Oakview Hank works in our heifer pen as well as moderating birth weight on some big powerful fall bred cows. Oakview Dignitary has 3 thick, cookie cutter embryo bulls in the sale. She's a cow that we can't say enough about as she puts females and bulls alike at the top of the pen.

We look forward to seeing all of our past, present and potential customers on March 16th at the farm for the 10th Anniversary OPT Sale. As always, feel free to stop by the farm at your convenience prior to the sale to check out the bull pen.

ULTRA MISS COTTONBALL 43C
SVS BETTS 808F
Dam OAKVIEW JAYDA 159J OAKVIEW DAPHNEY 213D

HOMO POLLED

- Nero, the sale feature who is always picked out of the pen, is a powerful bull with lots of rib shape and quarter and a winning disposition.
- He is exceptionally dark red, homo polled, strides out smoothly on a great set of feet and legs.
- Shown successfully alongside his impressive Betts Dam. Oakview Jayda has been turning heads since she won the Grand Champion Female at the MSA summer show as a bred heifer. Her overall power, heavy quarter, muscle expression and thickness set her apart, while still maintaining a feminine appearance. As she has matured, she kept all of those traits and bloomed into an impressive female with outstanding length, a tidy udder, and excellent feet.
- Many of the traits we admire in Jayda are clearly evident in Nero; deep quarter, tons of overall capacity and the ability to just keep getting more and more impressive as time goes on.

HOMO POLLED

- A pen favorite with the style and presence to capture visitors attention.
- Deep sided, big topped combined with overall thickness
- The Tommy Gunn group is very consistent they are all stamped with the same thickness, style and capacity.

- His dam is one of the best uddered cows in the herd with that picture perfect udder that Hank was selected to inject into our herd.
- Niko's dam is another representative of the Sadie line crossed with Hank. Again the udder quality and production of his daughters will be second to none.

Welcome

from PERKIN LAND & CATTLE

Another year has passed and another chapter of the OPT Bull sale is upon us. As many of you know we had our second OPT female sale in mid December. It was a huge success and we would like to thank those of you that supported us in bidding or buying the bred females we had on offer.

The Collins family is always great hosts for us as a group for the bull sale. It seems like yesterday we were all scratching our heads as to how we were going to set up pens, water, and put the whole sale together. Now after 6 years at the farm, it's just like clockwork; it seems to come together with very little effort.

Our bull pen as always has a variety of top quality bulls for you to choose from. Whether you are looking for a top performance bulls or a moderate bw bull to use on your summer calving group or even a few low birth wt bulls that you can confidently use in a heifer pen, there will be a hairy young fella for you to choose.

Our bulls are developed on a TMR balanced ration; consisting of grass hay, corn silage, S01 oats and a protein pellet. We target moderate level gains so these bulls are fed to last and remain fertile. As cattle producers we realize not every animal works for everyone and we will look after our customers in a prompt and fair manner. We always keep some extra bulls and spares for customers to use if breeding season is not going optimal.

Once again the OPT group is pleased to work with the staff of BOHRSON Marketing. First and foremost we appreciate the professionalism of the crew and we have confidence they will treat our customers in such a way that they feel they were looked after in a personal and trusted manner. If you are unable to attend the sale in person feel free to give any of them a call. If you prefer to bid online, Melissa will be at the sale with DLMS.ca, for user friendly online bidding.

Thanks for the interest in our breeding program. Please feel free to stop in at the farm anytime to view the bull before the sale.

HOMO POLLED - HETERO BLACK

When the opportunity arose after the famed Rplus dispersal to own a portion of 3007A we jumped at the chance. She is the dam of the prolific breeding bull Rplus Yuma. We flushed her to 5015C and have this bull along with a couple jaw dropping heifers as a result. Mesa is a full sibling to Yuma. He has an incredible profile; a proud bull that likes to show himself off. He is one of the deepest ribbed bulls we have in the pen, balanced in his lines and free moving. His straight black hair pops adding dimension to a near perfect phenotype. Top 10% of the breed for ww and yw is no surprise; he was certainly the easy pick of the black bulls on pasture this summer. We look forward to seeing what this high performance bull can do for his new owner.

HOMO POLLED - HETERO BLACK

We were really excited to acquire a semen package on this Red Top 108L bull. We thought he was a great combination of Alpha's calving ease and performance along with the big Skors flush cow. We felt he would add a touch of frame to our cow herd. He has bred extremely well for us; both heifers and bulls look to be top quality. As you can see by his picture, this bull is extremely long, and square hiped. A heavy hair coat is an added value. You can really see the Bentley influence in this calf, I must say this was an outstanding breeding decision. Have a good look at the epd profile; high percentiles on most traits, calving and performance. The dam of the following bull is the grand dam to this guy. You can see the consistency; this branch of the massive doll cow

family is outstanding. No matter if this guy breeds commercial cows or is put into a purebred herd he will undoubtedly make his mark.

Many of my comments on the previous bull apply to this beast. Mellow middle, hairy, nice skulled. You can see the similarities in these bulls and their sire 108L. We like to think we had a part in breeding that bull as he goes back to PERKS Red Wolf. A bull that gives us a lot of pride in seeing what he has done in the industry. We look forward to keeping as many daughters from this bulls dam as we can. Its cows and cow families like this that you can bank on to work for you year in and year out.

Maternal Brother
PLCC 4721L

HOMO POLLED

When this bull went to pasture and came off of pasture I knew we had something pretty special. There is no other way to describe this bull than soggy. He has that loose hide, soft side look that we want in our bulls. His deep red dam is asset; the "75" cow family has really started to take off with some of our favorite cows. A nice square udder, feminine, angular cow that we can count on. This bull is square on his wheels and moves very freely. He looks to have good testicle development. Check out his epd profile, CE and Performance, what curve bending bulls are all about. We are certainly going to use 108L in our herd again next year and are

taking serious consideration in drawing semen on Notorious for in herd use.

HETERO POLLED

Named for one of Rick Dequeir's favorite shows of the 80s....Knight Rider, a bull that I admire. Dark red, long spines, with a cool blaze face. Nina, his Hot Iron dam has been producing some really good females over the past couple of years. The Hot Iron females have expansive rib shape a good strong milky udders that last. We have sold 2 bred heifer thru the OPT sale to Kirk Griffin and Oakview Simmentals, reports have been outstanding on them both. If you are looking for a red blaze faced bull with a good mother cow then I think we found a match.

HOMO POLLED - HETERO BLACK

These two bulls are like peas in a pod. Both are grandsons of the X-T Tracker cow. Both are sired by Blundstone and have come to us in a solid black moderate made package. Docile, heavy haired, nice skulled, with decent neck extension, it's really hard to pick a hole in these well constructed bulls. Even though Bloodstone has never been known for low birth weight calves, these bulls have bw's in the 70s. Both of the mothers have low birth calves year after year. That is one of the reason we love the "68" cow family, ...you can breed them in so many different ways. Even though we would have preferred these bulls to have blazed faces, we are very excited about these two bulls and

their potential as calving ease prospects. Double down and take these guys home together, it's a sure fire winning scenario.

OH Gus. He is a bit of a farm favorite. His docile nature and striking black and white markings got him lots of pets and cuddles around the barn last year. He is likely one of the biggest performance bulls we have ever raised. The 108L performance really came thru with this cow. Let him loose with a group of cows and watch the armored trucks roll in with cash from his calf crop

Sire Red Top 108L

HOMO POLLED

Here is a bull with a little extra look. Hairy, extra bone, and a gentlemanly personality. But that likely comes from his mother, I bought her from Prairie Wind Simmentals at the virtual Covid Shades sale. A big bodied deep red female who highlighted the 2021 PTSA sale selling her Captain Blaze sired bred heifer to MAVV Simmentals for \$15,000. His moderate bw and stout look should garner him some friends on sale day.

HOMO POLLED - HETERO BLACK

Another good Contender son. He sure stamps them with extremely correct structure, foot quality, and exceptional disposition. We had the misfortune of losing Contender to injury this past summer. His daughter and sons really are quite good. We were pleased to sell 5 outstanding daughter of Contender in the 2025 OPT Bred for Success sale to Rockin' G, Beechinor Simmentals, Mader Ranches, Todd Simmentals and Oakview Simmentals. For an average of just over \$12,000. This son is a good deep bodied nice hind quartered bull. He should go out and sire some well put together calves, keep the daughters; the doll cow family never fails.

Nike comes from a cow with a pedigree that screams calving ease: Triple Play x Captain Blaze. An angular feminine cow that has load of milk in a very well constructed udder. This dark red fella would be a great candidate to use on second calvers. His epd profile leans towards small born calves with moderate growth. Nike.... "Just do it!"

HETERO POLLED (SCURRED)

Much like the bull above; this dark red bull had a good mix of calving and moderate performance. His dam came from Simmsational several years ago; she is a consistent breeder and has always given us that deep red color we strive to get. This bull has loads of hair and a good foot. Look for him to sire a consistent deep red group of calves that you will be proud to put in a replacement pen or group of steers to top the market.

HOMO POLLED

The picture of this bull tells the tale. He is long spines and well balanced. When Cody purchased Contender for us, we were looking to produce bulls just like this. Nothing extreme, structurally correct, good functional bulls that could go out and service cows for the commercial producer. As we calve out Contenders first daughter and selling this group of sons, we are truly disappointed that we lost him to injury last summer.

Performance Bull here. The idea of the bazillion dollar fullblood bull Rumble crossed with the famous Flirt cow family was intriguing to me. If you are looking for a performance bull look no further. A larger framed dark red bull that gets out and moves. He really crushes the scale with an adj YW of 1600lbs. Three full sisters highlighted the SimPower sale last fall, averaging over \$16,000. An extra 100lbs on your calves in the fall from this guy is easily \$10,000 bonus on 20 steer calves. Math never lies.

Look for this guy to be a good female producer. The Sasha cow is a milky long bodied cow. The Loyalty females have a great look and top quality udders. A black bull that is worth a second look.

Welcome

from TRIPLE R SIMMENTALS

Welcome once again to the 10th annual OPT Bull Sale . Big thank you to all our past buyers/bidders who supported us for the past decade . With only a little over 40 calves born last year and a large percentage being heifer calves our offering this year will be a little smaller then usual . Quality is still high and we are proud to offer this group for your inspection . The majority of the offering are sons off our main herdsire MRL Showtime – he passes on calving ease , length of body and hair – make sure to get one of his sons !! We'd love for you to stop by and view the bulls . The Bohrson crew have toured the pens and are very familiar with our program and cow herd. Feel free to discuss your needs with them as they will gladly help out with your bull buying needs . Video's will be on DLMS at a later date . Hope to see you sale day
