2508 County Road 8, Campbellford, ON, Canada, K0L1L0

Welcomes the

63RD annual

OTTAWA VALLEY ANGUS CLUB

Classic Sale

Welcome to Hoads Station

If it seems as though farmers in Eastern Ontario are missing every Tuesday afternoon, it might just be the truth. Starting at noon, Hoads Station Community Livestock Exchange hosts a weekly Livestock auction. Every Tuesday there are a variety of livestock going through the barn including pigs, sheep, goats, dairy cattle, springers and beef cattle. It's not uncommon to see horses, donkeys, mules and llamas as well. And don't forget the lunch counter where local church groups host home-cooked meals for the crowd. Along with our regular Tuesday sale we also have special cow sales, stocker sales and host other purebred events.

Hoads Station welcomes the Ottawa Valley Angus Club Classic Sale. After last year's successful event, we are very excited to host Angus enthusiasts from across Ontario to evaluate this good offering. As with all of our auctions, we strive to make your sale a success so please do not hesitate to ask us for help.

TERMS AND CONDITIONS

OTTAWA VALLEY ANGUS ASSOCIATION AND IRCC IS AN AGENT ONLY - It is clearly understood that Ottawa Valley Angus Association & IRCC, acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. Ottawa Valley Angus Association and IRCC does not assume any financial obligations to collect or enforce collection of moneys by either parties, and in exceptional case, any legal action will be between buyer and seller. Ottawa Valley Angus Association and IRCC has no ownership of the facility and assumes no responsibility for the operation of said facility.

BREEDER'S GUARANTEE

All cattle will sell under the suggested Terms & Conditions of the Canadian Angus Association.

Welcome

For 63 years the Ottawa Valley Angus Club have showcased some of the best Angus genetics from Eastern Ontario at auction to enhance and improve progressive breeding and cow/calf programs across the province and abroad. This year's offering is diverse and offers quality in both the purebred and commercial segments with elite frozen genetics to truly excite Angus enthusiasts. And with the record shattering prices daily in the cattle business the excitement is contagious and there's no better time to invest in a new or another breeding piece to capitalize on this booming market.

DLMS will be broadcasting the sale live so everyone has a chance to participate from anywhere and follow the sale info page there closely for more photos as the weather cooperates. Plan to participate in the fun, fellowship, history and auction action on May 30 at Hoards and feel free to contact the consignors, committee or sales team to assist you with those plans.

RCF TVCC EULIMA 2517

Cow power with a western stamp. RCF TVCC EULIMA brings together the kind of proven, hard-working genetics the West is known for, an LLB dam and a Density son from Glasman Ranches. Density needs no introduction as one of the most influential cow makers in the breed, and it shows here. Big-footed, bold-made, and sound as they come, she's built to go out and produce. In today's market, this is the kind that pays her way!
 Al'd April 5 to Mich Wheat Hi Caliber.

"Exposed April 19 - May 28 to EF Good Vibes 2363 (STAG Good Times x EF Primrose 925)"

 HAWTHORNE EMBER 8J

Consignor: [Brian Mallette](#)

K&B EMBER SPIRIT 16N comes backed by strong maternal roots, with a dam straight from the heart of the Hawthorne herd, she's a Renovation daughter built to make a cow. This female was one of the first selected by Kenny and Brian as they got their Angus program underway, and she represents the kind of foundation they're working to build on. Kenny, a dedicated young 4-Her, is putting everything back into his herd, and this heifer is a reflection of that commitment. A genuine, functional female with a bright future in production. Observed bred April 25 to EF Vibes.

Lot 2

ARMOHR DARK STAR 32N

A stylish, broody-made purebred Angus heifer with the look and balance today's cattlemen demand. She's deep ribbed, sound structured, and feminine through her front third. Bred early to a calving-ease Angus sire, setting her up for a productive, long-lasting career.

AI Service to Musgrave Aviator on March 23rd then was pasture exposed to Armohr Hi Country 29N (AMRF 29N) from April 17th to sale time

LOT 42 Walsh Red Heifer 9N

Commercial Red Angus Heifer. DOB: February 12/25

Stout and sound, quiet disposition. Out of the \$30,000 red six mile Hudson 156H. Her Dam is a good footed, moderate framed cow who displays a perfect udder and has the gorgeous feminine profile you expect from an angus cow. Sells Open.

LOT 43 Walsh Red Heifer 109N

Commercial Red Angus DOB: March 13/25

Heifer. A long bodied, smooth made heifer that will work hard in production. Her 13 year old dam gets it done every year with ample milk and maintains a youthful build. Hudson daughters are known for their excellent udder structure and maternal traits. We've never sold a Hudson daughter in the past and it's for good reason, a great opportunity here with these paternal sisters. Sells open

Fusion RBB Just One More Jack is a bull whose pedigree packs some punch. His dam, Hawthorne Lilly was Reserve Grand Champion Angus at the 2022 edition of the Royal Winter Fair and his paternal granddam a powerhouse donor cow for Miller Wilson Angus. Jack displays many of the traits his sire is known for including his stylish phenotype, strong foot, excellent testicular development and gentle disposition.

COLEMAN BEAUTY 048

Coleman Beauty 048 is a truly special donor female that exemplifies the strength, consistency, and timeless quality of the famed Beauty cow family. As a Navigator x Beauty 5R daughter, she carries on the legacy of one of the most influential cows in the breed, known for stamping her progeny with eye appeal, structural integrity, and unmatched maternal function. 048 is the kind that blends power and elegance with a fault-free phenotype, all while maintaining the productive efficiency that serious cattlemen demand. Her daughters are proving to be fertile, functional, and beautifully made—just as you would expect from this lineage. Adding to her elite status, 048 is a maternal sister to the legendary Soo Line Motive 9016 and the \$40,000 Coleman Beauty 058, further solidifying her position within one of the most proven and respected cow families in the Angus breed. This embryo offering represents a rare opportunity to tap into cutting-edge genetics with sires of your choice including Blair's External Law 266F, Brooking TW 4022, BC Robust 0807, or Coleman Platinum 2622. Each of these herd sires brings a unique advantage—whether it be performance, phenotype, mass, or maternal excellence—making this a versatile and exciting mating opportunity. These are the kind that move programs forward in a meaningful way. Stored at Davis Rairdan & Canadian Qualified

COLEMAN DONNA 1430 - \$155,000 maternal sib

COLEMAN DONNA 9220 - \$90,000 maternal sib

Coleman Donna 9311 is a cornerstone donor female that we truly believe ranks among the very best Angus donors in our Canadian Sires + Donors inventory. She represents exactly the type of female we are building around with one that excels in phenotype, pedigree, and real-world production value. A powerful granddaughter of the \$3-million-producing Donna 714, 9311 carries the influence of one of the most dominant cow families in the Angus breed and backs it up with her own impressive presence and productivity. She is square-made, bold-ribbed, and structurally sound, blending natural power with femininity, angularity, and undeniable Angus character. Donna 9311 is a cow that commands attention in the pasture and continues to impress with her consistency and quality—truly the kind that elevates any program she touches. These embryo matings have been thoughtfully selected using elite sires including Coleman Avalanche 487, Brooking Radville 2208, UDE New Heights 62/87, and Greenwood Revenue 175M. Each mating is designed to complement her strengths while injecting added performance, maternal excellence, and longevity. The result is a unique and exciting set of embryos built to produce high-end herd bulls and elite replacement females. Opportunities to access a donor of this caliber are rare and this is one to build around with confidence. Stored at Bow Valley & Canadian Qualified.

COLEMAN DONNA 9311

KCH ANNIE K 13H

KCH Annie K 13H is a truly elite donor prospect and a full sister to the great breeding bull, Brooking Firebrand 6068 who is one of the most recognized sires for combining phenotype, functionality, and real-world performance. This is a mating that has proven itself at the highest level, and 13H stands as a direct reflection of its consistency and quality. She is the kind of female that not only meets expectations but exceeds them in every way. Carrying the influence of the great Annie K 390, 13H embodies the very traits that have made this cow family so admired across the Angus breed. She is bold-ribbed, deep-bodied, and wide-based with impressive dimension and capacity, yet still maintains a refined, feminine front end and beautiful Angus character. Her structural integrity is fault-free, and she moves with ease and confidence, further highlighting her balance and functionality. What truly sets Annie K 13H apart is her presence as she is eye-catching, elegant, and carries herself with a natural herd matron look that is hard to replicate. Beyond the phenotype, she is backed by a pedigree built on predictability and production. Females like this are the foundation of great programs, and 13H has all the credentials to make a lasting impact. She is the kind to build around with confidence for generations to come. Stored at Bow Valley & Canadian Qualified

\$110,000 full sib - PVF MISSIE 1124

PVF MISSIE 6228 - Dam

PVF Missie 3156 is an exciting young donor that blends elite show ring success with the kind of pedigree and phenotype that translates into long-term production value. Discovered in the spring of 2024 from the highly respected Prairie View Farms program in Illinois, 3156 immediately caught our attention for her balance, presence, and overall quality. She is an own daughter of the popular show sire PVF Marvel 9185 and backed by the impressive 6228 female, a past NWSS Reserve Champion, giving her a stacked maternal foundation. The strength of this mating is further validated by a full sister that commanded \$100,000 and went on to be a reserve division female at the Angus Junior Nationals. Missie 3156 was successfully campaigned by Riley Bohron at the Angus Junior Nationals in Madison, Wisconsin, where she stood second in a very competitive class behind a division champion, proof of her ability to compete at the highest level. She is soft made, bold in her rib shape, and elegant through her front third, while still offering the power and substance required for real-world production. We are excited about her future and believe she mates exceptionally well with sires like UDE New Heights 62/87, a phenotypic standout known for generating high sellers and champions. 3156 is the kind that can make a serious impact both in the show ring and in the pasture. Stored at Bow Valley & Canadian Qualified

Initiatives

Through sponsorship, event involvement, and targeted promotional efforts, OVAC continues to invest in opportunities that benefit both its members and the broader agricultural community.

Key initiatives and contributions this past year have included:

- Valley Junior Beef Sweepstakes
- Ontario Angus Junior "Blackout" Show
- Metcalfe Fair
- CJAA Calendar Support
- 4-H Member Gifts
- Farm Show participation
- Summer Picnic

Up Next...

In the coming year, OVAC will be introducing a Junior Director position, creating an opportunity for youth to become more directly involved in club leadership and decision-making.

The club will also continue its commitment to sponsoring and supporting both local and national events which promote youth in agriculture and the Angus breed.

We also invite members and those interested in becoming involved to join us at our Annual General Meeting next spring!
