

Ontario Shorthorn Association

Fall Classic

November 14, 2026 - 1:00pm

Maple Hill Auctions, Walkerton, ON

Welcome

On behalf of all the consignors I would like to welcome you to the 2026 edition of the OSA Fall Classic Sale. This year's offering has something for every kind of operation. Whether you are a long-time Shorthorn breeder, new to the breed or a commercial beef producer I am sure you will find something to suite your needs.

As we built this years catalogue I couldn't help but notice the number of sale lots that trace back to previous OSA Fall Classic Sale animals. This is a true testament to the quality of animals in the sale, illustrating that they go on and work for their purchasers.

These are certainly exciting times in the beef business. It is a great time to rejuvenate your herd with new genetics to move your program forward for years to come. There is a wide variety of rare and unique pedigrees in the offering, along with some exciting services to the bred females. The breeders stand behind their programs so you can buy with confidence.

We plan to once again have the cattle in the sale barn and ready for viewing Friday afternoon/evening. If you are unable to the attend the sale and would still like to participate please contact any of the contacts listed in the catalog and they would be happy to assist you in a professional manner. Once again this year online bidding will be available using DLMS. Check out DLMS for videos of some of the sale heifers. Look forward to seeing you at the sale!

From the heart of our herd we are consigning a calf we would really love to keep and see develop into a productive cow. Her Granddam was purchased as an embryo from Muridale in 2008. She's long bodied, has a lot of neck extension. She has a deep and bold spring to her rib and walks on great set of feet and legs. The "Sodas" are here for the long-haul.

If you're looking for a junior project for next year, look no further. Born in April, by an extremely-maternal Fireball cow, this calf is quiet, smooth fronted, big boned, feminine, and eye appealing. A great addition to any breeding program. Excelling in the show ring already, this calf has been named Reserve Champion Calf, at her 4H achievement day, while being the youngest at the show. 10P has already begun to prove herself in the showring, and will make an excellent junior yearling. A perfect pick for a youth showman looking to compete at the Canadian Junior Shorthorn Showcase this upcoming year.

8N is a moderate framed, sound moving, quiet female. Her dam is the strongest cow in the CBF herd, with a proven track record of producing excellent show and breeding animals—and 8N is no exception. Bred for an April calf to Hill Haven Bold's Son; CBF Night Moves 1N. When shown he was Champion Plus bull at both the Shorthorn Showcase, and the Royal Winter Fair in 2025. Her calf will meet the purebred registry percentage and is destined to impress. If you're looking for a female who will bring you strong calves time after time, 8N will deliver.

CED	BW	WW	YW	MILK
+12.0	+2.6	+33.0	+44.0	+17.0

If you believe in the magic of the momma cow, the way we do, and you are looking to invest in a cow family you can believe in, this is the one. The Rosewood genetics have dominated the Glenrothes herd for several decades and continue to produce quality offspring. Rosewood 9N is a deep ribbed, moderate framed, easy doing female with an exceptional pedigree. A Leveldale Redemption (Boardwalk) daughter, she is bred to our herd sire Studier's Master Mind (Flash) for an April calf.

We decided to offer something a little different this year with this exciting young cow-calf pair. Cloverleaf Jennifer is a long-spined, easy-fleshing female with plenty of quality and a lot to offer. She stands on an excellent set of feet and legs, carries a tidy, well-balanced udder, and combines functionality with an attractive look. Her pedigree is equally impressive, bringing together the renowned Hillhaven firestorm and Leveldale Boardwalk bloodlines. At her side is a promising Maverick bull calf, born unassisted on pasture. We are excited to watch this young fellow develop and see the potential he has to offer. We believe Jennifer has all the right pieces to become a productive, valuable addition to any herd, and this pair presents an excellent opportunity to invest in both proven genetics and future potential. Calf tattoo: CLF 20P born Sept 24.

Peanut is a red roan coloured calf that has plenty of eye appeal of which will attract eyes in the show ring or the front pasture. Structurally correct, flashy, a heads-up girl. Genetics run deep in her pedigree. On the sire side too many great names to relist here. On the dam side again great names including Locustview Marg who went through this sale a few years ago and has produced great calves for us. With next years Jr. show in Quebec this would be a great entry. Take her home show her and then build your herd around her.

Holland Lane Millie Prim 15P is another April heifer sired by Muridale Hop 304H. Her Shadybrook Perfect dam is sired by Hot Commodity. We had a lot of red heifers this year, and this is definitely one we wish had had a splash of roan to make her stand out. Don't overlook her for her lack of white! She's been a calf that we've had our eye on all summer.

+20.0	-2.0	+41.0	+51.0	+26.0

Holland Lane Verona Pixie 5P is another solid red heifer born at Holland Lane this year. She is sired by JSF Ronan 5H, out of Shadybrook Verona 83J, a daughter of Leveldale Boardwalk 530C, making her one of our best-bred calves this year. What Pixie lacks in size (Pixie arrived 18 days early, with zero complications) and colour, she makes up for in conformation and personality. We feel she is one of our most correct and complete heifers this year. Let her grow out over the winter, then get her ready for the Sr Heifer division in 2027.

31 HOLLAND LANE *Mimi Pansy* 12P

+16.0	+0.6	+44.0	+57.0	+17.0

Holland Lane Mimi Pansy 12P is sired by Muridale Hop 304H, out of Holland Lane Blossom Mimi 7P, who was Reserve Intermediate Heifer at the 2024 RAWF. Mimi did a great job on her first calf, and we feel that Pansy has a great future ahead of her. With her April 1 birthdate, she is a great candidate for the Jr Yearling division next year, and she should grow into a very correct, docile cow, just like her dam.

32 HOLLAND LANE *Hattie Pattie* 9P

+16.0	+1.0	+42.0	+54.0	+21.0

Holland Lane Hattie Pattie 9P is a soggy March heifer, sired by Muridale Hop 304H, out of a roan daughter of Firestorm. Pattie is definitely our biggest-bodied heifer this year, and has all the right parts to make a great cow, in anyone's herd. She is quiet and easy to handle, two things we all look for in our breeding females. Hop himself is very good-minded, and has crossed well on a variety of cows.

33 HOLLAND LANE *Calista Pearl* 1P

+13.0	+2.7	+62.0	+87.0	+24.0

Holland Lane Calista Pearl 1P is one of two white Byland Flash 9U106 heifers we had born this year. She is out of one of our original purchases from Shadybrook, a daughter of Hot Commodity, that always gives us a very nice heifer every year. Pearl had one outing this fall, and would make a nice Sr calf for 2027.
