PEMBINA TRIANGLE

SIMMENTAL ASSOCIATION FEMALE SALE

NOVEMBER 19, 2026

CYPRESS RIVER ARENA | CYPRESS RIVER, MB | 2 PM

WELCOME

BOHRSON MARKETING SERVICES

There is something special about a sale that has brought cattle people together for 46 years, and Pembina Triangle has earned its place on the calendar through good cattle, good people and females that go home and work. The Pembina association and the breeders behind this event deserve a great deal of credit for keeping that tradition strong, and they have stepped up again this fall with a set of females they can be proud to put their names behind. Maintaining a successful sale takes dedication throughout the year, from breeding decisions and daily management to the willingness to offer females they would proudly retain. This group has dug deep into their programs to assemble an offering that represents their breeding philosophies and gives buyers every opportunity to succeed.

This year's selection offers an appealing balance of powerful bred heifers and exciting open females, with red, black and Fullblood genetics represented. There is depth throughout the catalogue, backed by productive cow families and sires selected to complement them. The bred heifers offer the opportunity for an early return through their first calves, with the added value of carefully selected service sires. The open females provide buyers with the freedom to shape their breeding direction while developing the next generation of productive cows.

One of the most rewarding aspects of investing in a quality female is the return she can generate over her lifetime. A sound, fertile cow that raises a valuable calf year after year can become one of the best investments in a breeding program. Retaining her daughters can extend that influence through generations, while her sons can contribute meaningful returns through the bull pen. Pembina Triangle has long been a source of females purchased with those goals in mind, and we believe this year's offering presents excellent opportunities for breeders who recognize the value of a strong maternal foundation.

We encourage you to join us at the Cypress River Arena on Thursday, November 19, to evaluate the cattle and enjoy the fellowship that has helped make this sale a longstanding tradition. Visit with the consignors about their females, the cows behind them and the breeding decisions that have shaped their programs. Our BMS team would be pleased to discuss the offering, help identify cattle that suit your goals and assist with your purchases. We look forward to seeing you for the 46th Annual Pembina Triangle Sale.

Welcome to the 46th annual Pembina Triangle Simmental Association sale. This year we have 5 top end bred heifers on offer. These heifers have been fed a TMR ration of hay silage, dry straw, and a 14% protein pellet from bullseye feeds. Each of these heifers have been given a magnet pre breeding to prevent hardware disease and are also on our full herd health program. We have confidence in these heifers and are excited to see what they can do for their new owners. If you have any questions about our offering feel free to give us a call or stop in at the farm and tour them ahead of the sale. The coffee is on and the fridge is always full.

VDV Sage 55N is a Walk this Way/ Sage embryo calf whos pedigree needs no introduction. Sage is a heifer with lots of length and neck extension, she is setting up a very tidy udder. She is one of the first heifers to sell that is bred to our \$38,000 red baldy junior herd sire, X-T No Worries 2N. We are looking forward to his first calf crop this spring. VDV Sage 55N is co owned with our friends at Silver Lake Farms.

DAM

AI bred to VDV Legend 14L on March 31. Observe bred to X-T No Worries 2N on April 17 (Safe). Exposed X-T No Worries 2N from April 12-May 20.

Welcome to the 46th PTSA sale. Thank you to all our past buyers, your support is sincerely appreciated. This year we'll be offering you 2 breds and 3 opens. The black baldie open will be shown at ag ex. Any of the opens would make great show projects. The bred heifers will be preg checked and the opens palpated for reproductive soundness before the sale. Videos of heifers will be available for viewing prior to the sale. As always if you have any questions please don't hesitate to contact us, or even stop in!

Welcome to the 46th annual Pembina Triangle Simmental Association sale. Always a pleasure to work with our fellow PTSA consigners and the Bohrsen Marketing team. Thank you to all past customers - your support is sincerely appreciated. We offer four bred heifers selected from the very top of our program. They represent the type of females we strive to raise – productive, genetically strong cows that add value to your herd and bottom line. These gals carry either AI services to industry leading sires or a natural service to DMJ Scotch 118N – a Rip Zone son we purchased from Ag-Land Farms Ltd. this spring. The heifers were ultra sounded June 1 and pregnancy checked on September 28. We implement a full herd health program and the heifers will have their first shot of ScourGuard 4KC prior to the sale. We welcome inquiries and on farm, pre-sale appraisal of our offering. Please feel free to reach out to the Bohrsen Marketing team for an honest, unbiased assessment of our consignments. Plan to attend Cypress River on November 19, 2026 – Look forward to seeing you at the sale.

A striking, black baldy beauty, Noire is the complete package. Calving ease and performance, she's got it all. Check out her EPD profile ...she lights it up green. Mothered by one of our most consistent females who delivers exceptional progeny. Noire's sire - Knox - is one of the best genetic investments we have ever made. His offspring, regardless of gender, have that "something special" about them and are first noticed in a group. A maternal sister was purchased by Michael Baete at last year's sale. I'll be interested to see who invests in this gem and her mid-January Slider calf. I'm certain we'll regret selling this one!

Pandora is a powerhouse female with the performance to back it up. Moderate framed, deep sided and wide topped, she carries tremendous capacity and spring of rib while remaining smooth made. She really pushed down the scale at weaning, coming in at an impressive 801 lbs. Sired by Erixon Lad 72J, Pandora is backed by KOP Ms Wheatie 138W, a cow MJ has built much of her herd around. That cow family has proven itself time and time again, and Pandora carries that quality forward. If you like your females stout, productive-looking and backed by a proven cow family, Pandora deserves a serious look.

Nat is a feminine, powerful female with a wide topline, plenty of depth and an impressive spring of rib. She has developed into the kind of female we like to see, posting a 748 lb weaning weight and 1098 lb yearling weight. Her cow family is one that simply never misses. We retained her dam's last heifer after selling a maternal sister through the Pembina Triangle Sale to Triple R Simmentals, and this year her dam raised another standout bull calf that is one of the top bulls in our pen. That kind of consistency speaks for itself. Nat has the performance and cow family behind her to make her one worth checking out sale day.

Observed Bred to NAC Slider 19M April 3 [Safe]. Exposed to NAC Slider 19M from March 21 - Aug 20, 2026.

88			7.4	3.7	88.2	129.9	28.0	4.9	72.1

Ninny is one of our favourites in the pen in that she's deep and thick. She's a docile lady going back to our Jasmine cow family. Her sire was the high selling bull a few years back at our annual Canadian Central Bull Sale. Bred to the Tommy Gunn bull adds an exciting factor to her.

SIRE

AI Bred to Ultra/Hval Tommy Gunn 32L on April 5 (Safe). Exposed to WILC Marv 22M from Apr 19 – May 24.

Nikita comes from our youngest son Cade's first cow. Nikita comes from a full blood cow that has a good udder. She is a nice broody heifer with lots of volume and frame. Her maternal sister sold last year at the Pembina Triangle to the Dunn Brothers.

SERVICE SIRE

AI Bred to Crossroad Dateline 59L on April 4. Observed bred to WILC Marv 22M on April 19 (Safe). Exposed to WILC Marv 22M from Apr 19 – May 24 (Safe).

Only because her sister remains on our farm is this bred up for offer. She is the last direct female to her mother Swift 103A- one of Grandpa's cows. Much like her sister in our own herd she is thick, deep, feminine and starting a foundation of a fault free udder. Nat is a female we think highly of.

AI Bred to Crossroad Dateline 59L on April 5. Observed bred to WILC Marv 22M on May 9 (Safe). Exposed to WILC Marv 22M from Apr 19 – May 24.

Nirvana comes from a great Maple Lake cow who we purchased a couple years ago. Her last calf at Maple Lake was one of their feature red bulls. She is still going strong at 12 years old here. She has an excellent calf in our bull pen this year and bred back for another calf this year. Bred to the WBC Ease bull look for a ROI right away.

Narley is an offering from our middle son Daxson's cow whose heifer two years ago sold in the Pembina Triangle Sale. An attractive female with moderate size, good feet and legs. She is bred to a black blaze bull that was our high selling bull in 2025 going to Boyne Valley Livestock. They allowed us to use him this year as a clean up for our heifer pen. The first calves off 22M came easy and are looking good at Boyne Valley's place.

SIRE

Here is a fancy style coated heifer who lacks no quality in type. She is a 3/4 Simmental and her calf will be registered as a purebred out of Tommy Gun. Her grand dam was purchased in this sale. If you're looking for a female to add some flavour to your herd here's one that will spice it up.

AI Bred to Ultra/Hval Tommy Gunn 32L on April 5 (Safe). Exposed to WILC Marv 22M from Apr 19 - May 24.

Welcome to our 46th annual Pembina Triangle Simmental Association Female Sale.

Thank you to the many repeat buyers of my cattle from the past sales. Around here we had good rains, Good yields in hay, crops and pasture.

This year I am offering 6 top end bred heifers. 2 homo polled, 2 horned full bloods, and 2 polled full bloods.

She is entered at AG-Ex this year. Another deep bodied easy keeping female here. Full blood genetics on the bottom side to help diversify our red genetics. Due to a chronic hip injury, Hurley was sent into permanent retirement. Therefore I used a homo polled son of his, to run with this group of cows and heifers.

AI'd to Oakview Hurley 129H on April 3. Observed bred to Delight Harrey 809N on May 19 (Safe).
