Welcome PCC

It is always a pleasure to welcome our fellow breeders and customers to our annual bull sale, for the folks that actually read this part of the book. This welcome always makes a person reflect on the past year and the goals and accomplishments that were made, a big one that comes to mind is the CCYA that was held in Stettler this past summer, so many people did a lot of work to help make that a world class event, but I have to give my wife Justine a ton of credit as she was a major push as well as our girls Indy and Scarlet, to top it off both girls set goals to try and compete at the highest level and I am so incredibly proud that they could get that done, mostly I am proud of how much work and consistency they put into those goals... GREAT job girls, I love you. We always talk about the good and positive things we accomplish but let's be realistic we had other plans that didn't get done... Trask we still have a lot of fencing to do!

Prairie Cove genetics had another spectacular year with many Champions and high sellers being sired by PCC bulls. Something I am very proud of that our genetics have gone out and added value to our customer's herds as well as our own, they have worked all across North America for many different breeders in many different environments. We were so happy to be one of the hosts of the ACA summer tour and really appreciate all the folks that joined us that beautiful July day.

I was thumbing through some of our long past history of sale catalogs and come across something my Dad wrote in December 1993 in one of his welcomes, "Our goal has remained constant... which was and is to supply a high quality product" A powerful statement, and something that I believe still holds very true for us still to this day. My passion level for elite level Charolais genetics has never been higher, we make a lot of miles to source Charolais genetics with our goal still being the same as it was for my Dad in 1993.

We have an incredibly strong group of bulls and females that I am very proud of, the fall bulls are a new thing we keep adding to and growing and are very excited about. We work with amazing partners and friends all year long that make this business very enjoyable as you will see in the book some lots are co-owned. We really enjoy those relationships and look forward to continuing with them going forward into the future.

The cattle business is in uncharted territory, prices are sky high and beef is as popular as it has ever been, so make sure you enjoy this time in our industry.

PCC STOCK 507N, RESERVE CHAMPION CHAROLAIS BULL, FARMFAIR INTERNATIONAL 2025.
Miss Prairie Cove 407B x Sparrows McLellan 314L, Co-owned with W2 Farms

Welcome FROM THE DESK AT T BAR

Prairie Cove Charolais has established a reputation for producing high-quality cattle backed by a deep, consistent cow herd and a commitment to proven genetics. Their program has earned multiple Supreme Champion titles over the years, reflecting both the quality and competitiveness of their breeding philosophy. When you think about PCC females for many the first thing that comes to mind are the Berklys and Lily, but for me the one that has always stood out in my mind as a model Charolais is 407B and her influence is loud and clear in the pages to follow.

The bulls offered in this sale are stout, sound, and hairy, built to add performance, power, and eye appeal while maintaining the structure and functionality required for long-term success. These bulls are developed with durability and real-world application in mind, making them suitable for a wide range of breeding programs.

The female offering represents the foundation of the Prairie Cove program. These females are fertile, functional, and productive—true money makers designed to work efficiently and add value year after year. Each female reflects generations of careful selection for maternal strength, longevity, and consistency.

Prairie Cove Charolais remains progressive by introducing new sires annually, ensuring access to fresh genetics while maintaining the reliability and uniformity the program is known for. This forward-thinking approach continues to drive improvement and relevance in an ever-evolving industry.

Buyers can approach this offering with confidence, knowing these cattle are bred and managed with purpose. Whether adding herd sires, replacement females, or proven genetics, this sale provides an opportunity to invest in cattle built to perform. The cattle are definitely worth the drive to Bashaw and the exceptional PCC hospitality is a bonus. Come early to view the offering and join them for steak and homemade pie.

If you are unable to attend feel free to contact any of us on the T Bar team and we would be more than happy to assist you in any way possible and I will personally have a piece of your favorite pie and give you a review!

Chris Poley

Leads of the 2026 PCC Bull Sale for many reasons and most importantly we are setting all time record prices in the beef industry and we still sell cattle by the pound so putting it plain and simply...pounds pay. The heavy weights always make you money and PCC Portland 508N is a heavy weight, you want to pound down the scales then here you go. To add to the intrigue the mother of this Herdbull is also the mother of SLC PCC Shake The Frost 209K, she is a Donor female that has an incredible udder and added milk proven by her milk EPD being in the top 1% in the entire Charolais business.

Selling 3/4 semen interest, full possession.

These Shake The Frost cattle are the easy doing loose made hairy kind of cattle that thrive in our world, and we would love to have an entire pen full built like this. Adrienne has been buying Miss Prairie Cove females for the past few years and we are sure happy to help her promote her first ever Charolais bull sold by auction. If you like them hairy and easy going this bull has a very good disposition and would be a great option for you. Look up Adrienne on sale day she will fill you in on any details you might need, she knows her cattle and she probably has a picture of this dude from the day he was born on her phone she could show you! Miss Prairie Cove 604D has been a never miss cow that is owned by our friends at Blind Creek Holdings and 604D is Dwein's favorite cow of all time and she has done it again. Twin bulls that are built like peas in a pod when you see these bulls you will have trouble seeing any differences, they both have big round hip and very hairy, these bulls can move and they will definitely cover some ground getting cows covered.
Co-owned with Blind Creek Holdings

To say MISS PRAIRIE COVE 407B is immortal around here, may not be descriptive enough to do her justice. She has made a HUGE impact and the list is long and impressive. And this year's bull line up might be some of her best work!

50 progeny registered. A testament to her breeding strength and predictability.

A standout since birth KRATOS is the true definition of Power & Strength. His presence, muscle mass and scrotal shape and size put him on another level along with being incredibly tight sheathed and sound on the move.

PCC KRATOS 513N is a true Herdbull.

Miss Prairie Cove 407B has set the standard for what a Donor female is suppose to be with over 50 head registered and the vast majority of those working in feedstock programs across North America and Mexico. I could go on for days of my admiration for Sparrows Mclelland 314L, he has bred power and punch into his calves as well as added hair and foot quality and size. His feet are incredible , big and square and sound.

We are beyond excited to stay partners with the new owners and have plans to utilize KRATOS extensively on our own program. Selling 1/2 semen interest, full possession. PCC Kratos 513N has a bank of semen collected already and he will be used in our program.

Dam of Lot 22, PZC Lily ET

This bull will add value to his offspring, he is a Lily son out of the redemption bull that has done such a good job breeding charolais cattle. Redemption has sired many high quality cattle for us in the past. You can expect added length and size and weight in these calves. If I have said it once I have said it 1000 times we get paid by the pound. Charolais advantage at its finest right here.

Modest birthweight on a square built bull that is dense and hairy, his mother is a moderately framed female that still packs a punch with a big square hip on her. I think this bull could find a spot with some younger females and be successful. I like the growth he combines with the birthweight he came out with and you really appreciate the way he looks to top it off.

Ignite son is actually incredibly long bodied and smooth when you study him that extra length gives you extra pounds. This bull comes from a moderate framed female with a very tidy udder that was the pick of the bred heifers from the Steppler Farms program in Manitoba.

One of my personal favorite bulls as I am bullish on this bulls mother , she is a beautiful young female and she definitely has a bright future, just look at who is in her pedigree...407B.

We used Ignite because of his incredible big square feet and hair, this younger bull also does that well. You are really going to like this bull as time goes on.

Check this young stud out, herd bull that has a stacked pedigree, with the incomparable Berkly Ann as his mother. Missile has the added eye appeal and look that makes him stand out. His awesome hip, leg design and big scrotal for a young bull make him intriguing for many different applications.

His full sisters have been very popular this past fall and will be competitive on the show road this spring, summer and fall for all the enthusiastic new owners.

EXTRA AGED BULLS

Giving you added value and will cover more cows.

Our program with the Fall Born Bulls come along from a need to split our work load and to expand our program in a way that didn't have us calving more cows in January and February. We really enjoy calving in the fall, we have the cows out in a full quarter with great grass and plenty of trees. We tag calves every morning, we don't weigh the calves on a scale, we use the tape. The genetics are all the same genetics that we calves in the spring time and tend to be lighter calves just from the time of the year and the exercise the cows get daily. As I said early we plan on adding to our fall program year over year.

The fall bulls tend to grow differently as they have a leaner look to them, they are on our same feeding program but throughout the summer and early fall these bulls are out in a low land pasture to keep them moving and growing, we think this promotes longevity as well as gets them out of the yard which is nice.

Fall bulls enjoying grass summer of 2025

These Fall bulls really get us excited, we plan on adding to our fall program every year as it splits our world load out over the year and adds value to our bulls and customers to cover more cows. Miss Prairie Cove 407B has a major impact in our Fall division this year as you can see. We appreciate Shake The Frost for the curly hair and true muscle expression and dimension he adds all while moderating birth weight. Knoxville is a true herdbull and had been a stand out since day one.

MISS PRAIRIE COVE

Females with huge ROI

The 2026 group of sale females are a fantastic representation of our herd and the fundamentals we look for when keeping females to carry our herd into the future. Easy fleshing females with extra body that will always stay in nice condition no matter what the frame score may be. We really concentrate on neat tidy udder that will last and that you never have to touch, my dad was a stickler on udders and I think we have continued that tradition, something I am very proud of. The return on Investment opportunity that comes along with these females is incredibly high as proven by many past females purchased out of this group going on to make big dollars for the new owner, one example being Miss Prairie Cove 1020J for Clearwater River Charolais, 1020J is a no miss female that puts her offspring in the top of the pen every single year...example her bull calf is Lot 9 and has a 1031lbs weaning weight one of the favourites in the offering.

Buy with confidence, the quality is high in this year's female group.

Miss Prairie Cove 336L, dam to Lot 37

Cool story with this young stunning Bold Move daughter. Our neighbour Mike Gross purchased her mother at Alberta Select and she kicked out this real beauty of a daughter. She has tremendous rib shape and capacity and that soft soggy body everybody is looking for. Easy doing female with a mother that had a big square hip and fantastic udder. No guess work here that this one makes an incredible cow.

This female was born to be a bred and win banners, and when you walk in the pen you know exactly what I am talking about. She was not a fan of the picture pen, she is a much better female than the picture shows. Be sure to find her video and look her up sale day. Mark my words this female will win a banner one day in her life and don't forget when you are done showing her, she is a Berkly and she will raise the great ones. Milestones make fantastic momma cows.

I have to admit, I never say this. I should NOT be selling this female. We purchased the mother to this female from Thomas Ranch in South Dakota. She was a young heifer at the time and ended up being bred later, took a bit to catch up onto our program. But she is a BERKLY and the Berkly cattle just never miss. This female is going to work and I really enjoy selling females that go out and work for other Charolais enthusiasts.

Embryos **MISS PRAIRIE COVE 110J**

Indy successfully showed 110J all over Alberta and won plenty of buckles along the way. Miss Prairie Cove 110J is a past high seller , with a \$110,000.00 evaluation, she combines an intriguing overall look and body shape with phenomenal hair and attractiveness to set her apart from others. These matings are to very high profile bulls that are on the cutting edge. 110J spent the 2025 year in the USA being flushed.

Ragnar is an outcross bull we found in South Dakota, we admire him for his combination of EPD profile and stout muscle build. He has a big scrotal and really nice square feet. We lost Ragnar in a breeding accident in the summer and semen is very limited. If you are looking for something different that has some hip and scrotal, check out PVFC Ragnar 4117 P.

TERMS AND CONDITIONS

Terms: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds. **Bidding:** Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final. **Announcements:** All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures. **Breeder's Guarantee:** Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze. **Exception Guarantee:** In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void. **Certificate of Registration:** Each animal will carry papers issued by the Canadian Charolais Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made. **Liabilities:** All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder. **Rights and Obligations:** The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale. **Phone, Mail, Wire Bids:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale. **Delivery:** We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold. **Insurance:** Will be available sale day. We strongly recommend that insurance is purchased for full value. **Errors:** All announcements at sale time, written or oral, supersede any written material in the catalogue.
