Welcome to the 20th Annual Proudly Western Simmental Bull Sale, held at Whitewood Auction Services on Saturday, March 21.

Reaching a 20-year milestone is no small accomplishment. Over the past two decades, many influential Simmental bulls have passed through this ring — bulls that have gone on to leave their mark in purebred programs across the country. However, the true backbone of this sale has always been the large group of loyal, repeat commercial cattlemen who continue to make this a must-attend event each spring. When you combine good cattle backed by great people, longevity and success naturally follow.

Scissors Creek leads off the catalogue once again as an original consignor and longtime supporter of this event. From the very beginning, they have consistently brought a powerful, uniform set of bulls — and this year is certainly no exception. The Scissors Creek “type” is well known: moderate, stout, big-ribbed, hairy bulls designed to add real-world value to any program. These are cattle built with longevity, efficiency, and profitability in mind. For the second consecutive year, they are also offering a select group of open heifers. These females were extremely well received last year, and this year’s offering continues that same standard of quality and consistency.

Flying TL Simmentals present what may be their strongest set of two-year-old bulls to date. These big, rugged, hairy bulls are born on grass and developed specifically as two-year-olds — a program that is becoming increasingly rare in today’s industry. At a time when most operations focus exclusively on yearlings, Flying TL remains committed to offering true extra-age bulls that are physically and mentally prepared to cover more cows under demanding conditions. These bulls are ready to go to work, thrive in tough environments, and continue working long after turnout. If you value durability, maturity, and added service capacity, this is a tremendous opportunity. Triangle 33 Simmentals have quickly established a reputation for producing high-quality bulls that pack real performance. Their cattle are big-bodied, heavy payweight bulls that combine muscle, capacity, and structural integrity. More importantly, they offer the kind of balanced traits that have made the Simmental breed so valuable in crossbreeding programs across Canada — performance with a strong maternal foundation. It is this combination of pounds at weaning and replacement-quality daughters that keeps Simmental genetics in such high demand. As we celebrate the 20th edition of the Proudly Western Sale, one thing remains clear: the bulls are as good as they have ever been. The consistency, depth, and quality throughout this offering speak to the commitment of the consignors and the strength of the programs represented.

There has never been a more exciting time to be in the beef business. Strong markets and renewed optimism have created opportunity across the industry. Investing in quality herd bulls has always been one of the most profitable decisions a cattleman can make, and this offering represents true value. You can buy with confidence, knowing these programs stand behind their cattle. Mark your calendar for Saturday, March 21, at Whitewood Auction Services and plan to join us for this milestone event. Whether you are a longtime supporter or attending for the first time, we look forward to visiting with you on sale day. If you are unable to attend or need assistance prior to sale day, please contact any member of the T Bar team, as we are always happy to assist you in any way we can.

Box 358, Whitewood, SK S0G 5C0  
Mark (Cell): 306-735-7841  
www.ScissorsCreekCattle.com

Welcome to the 20th Annual Proudly Western Bull sale – we are proud to have sold bulls through this sale since it started! It's crazy how fast the years have gone and how much things have changed. We got looking back at the first sale in 2007 and some of the bulls were bringing \$2000 – now day-old calves are bringing close to that kind of money!

The bulls were crept fed starting early August and then hand fed the same feed (oats and a pellet) at weaning and then transitioned to a TMR early December. The TMR includes barley silage, hay, super oats and a loose supplement with a target gain of 3.5 pounds per day. The TMR is designed to promote longevity. They are on a full herd health program and will have their first shot of Fusogard before sale day.

We are excited about this year's offering with almost all of the bulls being out of our own walking herd sires. These bulls are deep, thick, hairy and correct and will produce the right type of calves to add even more excitement to these unprecedented times we are seeing in the cattle industry.

Customer satisfaction is very important to us - if any problems arise, we will do our best to make things right. Over the last twenty years we have enjoyed meeting and doing business with each one of our past customers. It's the great people in this industry that make the tough days worth it, and we have learnt a lot from these customers during visits with them. Give us a call so that we can discuss your bull needs and help you pick out a bull that will work for your program.

Thank you again to our past bidders and buyers for their support and trust in our program.

- Great baldie bull here that really puts it all together
- Big muscled, strong topped and deep bodied
- Strides out perfectly and is structurally correct
- Dam never seems to miss; this is her fifth son to sell through this sale and almost all of them have been sale toppers
- We have used two sons in our own program after purchasing an interest back; the one son (SCCC 77H) has daughters milking now that are impressive with two daughters being top females in our entire herd
- The second son (SCCC 47M) has calves that are just hitting the ground, and they are looking to be an impressive sire group already
- Awesome opportunity here to buy a great one!

- Power type bull here ranking among the top bulls in the pen for weaning and yearling weight
- Long bodied, big hipped, hairy and structurally correct
- Dam is a productive cow that goes back to the NAC Android bull that we used for a number of years – he has many good daughters in our herd today and we continue to be impressed by them

- Really nice younger black baldie bull that you will want to keep every daughter from
- Very complete in his makeup and strong in his overall structure
- Deep bodied, extra hairy and bold ribbed
- Dam might be the best part of this deal; she is a model cow with an excellent udder that has strong attachment and likely the best set of feet and legs on the farm – she looks great from every angle!

- Networth is a bull with that extra muscle shape and big-time capacity that is hard to find
- Profile wells and is clean in his lines and overall design
- One of the heaviest bulls at weaning with a strong set of performance EPDs
- Dam raised a chunk of a bull last year that had the misfortune of getting injured just before the sale

- Very well-rounded bull that is long bodied and strong footed
- Big topped and straight in all of his lines
- Dam is a 2107Z daughter that is really easy going and easy doing and sound in every aspect
- We have been super impressed with the first calves out of the Black Gold Caliber 261L bull that we bought out of the 2024 Black Gold sale as one of their high selling black bulls that year; they are a very consistent group that always get picked out of the bull pen by visitors

- Another strong half blood bull with a smaller birth weight
- Lots of muscle, top and hair
- Dam has SCCC 8S in her pedigree which is a bull that we raised that was proven for calving ease and was a foot structure improver
- The Eastondale Endurance calves are super growthy with lots of performance

- This guy might be the favourite of the half blood bulls
- Super attractive bull with a cool brockle face to go with his eye-catching design
- Small birth weight along with calving ease and birth weight EPDs in the top 15% and 10%
- Dam is an easy doing second calver with a striking profile and magnificent udder out of a great Bacardi daughter

- Powerfully constructed bull that has that herd bull look that can be hard to find
- Heavy muscled, big topped, extra hairy and long bodied
- He has a big strong foot design, stands square and moves out effortlessly
- Dam is a smaller framed, hard-working cow with a great udder
- We would be interested in using him in our own program and would like to retain an in-herd semen interest

- Bold ribbed, extra deep and strong calving ease type bull here
- Excellent set of EPDs and looks to be a possible curve bender
- Started with a modest 81-pound birth weight and exploded into the same category as the big boys
- His dam is owned in partnership with Diamond C Land & Cattle; Calvin picked her out of the Rendezvous' dispersal sale and his keen eye sure hasn't disappointed with her first calf or her overall phenotype

- Big muscled, meat and potatoes type of a bull
- His full brother sold in the sale last year and was also a chunk of a bull
- Has had that herd bull looks since a young age and continued to develop well
- Dam is a deep bodied cow that is backed by a strong cow family that has produced many sale bulls that have been highlights of our offering

- Big time herd bull here that is powerful and complete in every way
- Has that herd bull head and crest and definitely a standout in the pen
- Strong footed, sound moving and has that imposing stature that is hard to miss
- Massive hiped, long bodied and huge middle
- Dam has a near perfect udder and is a gem of a red baldie cow
- Nexera is one of our personal favourites in the red group this year and we would likely keep him for our own use if we didn't have so many MRL 82K daughters in the herd.

- Dark red performance type bull with extra length and frame
- Long hiped, strong topped and big nutted
- Dam is a big bodied easy keeping cow that stems from a strong cow family
- Type of bull to add pounds to any calf crop

- Super dark red bull that has that big time herd bull looks to him
- Big middle, heavy quarter and bold ribbed
- Strong footed and is overall very correct
- Performance EPDs lead us to believe his calves will really push down on the scale
- Dam is a big bodied, extra deep cow that always maintains her body condition

- Another performance type bull that is super long and has the big muscle shape
- Grand dam (1B) is still on the farm and producing well so there is longevity in the pedigree
- Dam has a great udder and goes back to two calving ease bulls – Red Mountain and Kosmo – which should be a good balance with the power on the top side of his pedigree

- Hard muscled, length and performance type bull here
- Power bull but we feel he will still calve well due to his smooth shoulder and clean skull design
- Performance EPDs are off the charts with weaning weight in the top 4% and yearling weight in the top 10%
- Dam was purchased out of the MRL bred heifer sale and she was our pick of their heifers that year; she is two for two so far with her first son selling in last year's sale

- Extra hairy calving ease prospect that will surely still add pounds to any calf crop
- Very sound in his structure and movement
- Strong topped, long bodied and square hipped
- Pedigree offers a neat blend of calving ease and explosive growth being in the top 25% of both performance and calving EPDs
- Dam was our top pick out of MRL's female sale last fall, and she sure didn't disappoint on her first try

We are once again offering a few replacement heifers in this sale that we feel would fit well into any herd. They are all big bodied and well structured. We picked out pairs that fit well together and will be selling them that way but with the option to pick one if you choose.

We have confidence they will work as highly productive cows wherever they end up. The heifers are not currently registered but can be for an additional cost; talk to us if this is something you would want.

“Heifers Sell in Pairs”

# Welcome Flying TL Simmentals

## FLYING TL SIMMENTALS

TERRY & LORETTA YOUNG  
Box 251, Earl Grey, SK S0G 1J0  
Terry: 306-725-8280  
Loretta: 306-725-8272  
tlyoung@sasktel.net

Welcome to the 20th Annual Proudly Western bull sale. To all that participated in last year's sale, by either buying or bidding, we extend a big thank you. What a wonderful and optimistic time for the cattle industry with record prices and returns for all the hard work that cattlemen put in on a daily basis. It is finally the cowboy's time.

Our registered cattle operation is different than the majority as we calve out our cows in April and May on grass. Our program is designed and planned to raise two-year-old virgin bulls with no yearlings ever sold off the farm.

One thing about our two-year-old bulls is that there are no surprises as to how they will grow out as they are already mature. Also, these extra age bulls offer the advantage of having the ability to service more cows without losing condition. Our bulls are fed and grown out at a slower pace, for added longevity.

They are backgrounded as a yearling, then summer grassed and developed during their second winter for the bull sale. Our bulls are on an oat-based diet with free choice hay. They are on a full herd health program and are also vaccinated for foot rot. At each stage these bulls are vigorously culled for temperament and foot issues. We have on offer a mix of calving ease and performance

bulls, in the red, black, red baldy and black baldy color coats. Since we calve on grass, udder quality in our cow herd is very important to us. Our cows are selected for easy fleshing attributes, and they need to perform in real world ranch conditions. Our cows corn graze throughout the winter and then come home to calve.

We don't talk about udder quality in the footnotes of the bulls as we have a very strict culling program on udders and feet. We value our customers and if a problem should arise with your bull purchase, please contact us and we will do our best to solve any problem that should arise. We welcome the opportunity to tour you through our bull pen however if you are unable to come, please feel free to contact the crew at T Bar C.

We will start this year's offering of our 2-year-old bulls with this son from Keon. Keon is a bull we purchased from the great Circle G program in Lacombe, Alberta. He has done a fantastic job for us. If I had to describe this bull in one word it would be "massive", from nose to tail. Top to bottom and side to side he is a tank. A bull that should sire heavy weight steer calves and produce some outstanding heifer calves as he has an impressive adjusted weaning weight of 871 lbs. A dark red blaze face with an impressive EPD profile that just checks a lot of boxes. He also has an outstanding pedigree with his dam being a Landmark daughter with Captain Scream in the background. Young Mr. Magnum is easily one of the best bulls we have raised to date. When we were at Circle G and we saw Keon's dam, she was a very impressive, clean fronted, big volume cow and Keon's progeny are built the same. Polled test pending.

Here is a super soggy, smoothly built bull with lots of depth and middle with an impressive hindquarter. A curve bender type of bull with a very nice 81 lb birth weight but an adjusted weaning weight of 795 lbs. Calving ease and good performance in a dark red blaze face package. As I stated in the previous foot note about the fantastic job Keon has done for us, you can see the quality of sons he has sired but I can tell you his daughters are just as impressive.

282-day gestation

Don't flip the page too quick on this guy. Every year there are always a couple of bulls that just don't picture very well, and this is one of them. He is better in person than his picture shows. You will see the difference when you watch his video. Another dark red, blaze face Keon son with a solid EPD profile. Young Mr. Mayfield's dam has produced other sale bulls that have sold to Gilles Samard of Rockglen and Brian Patron of Goodeve.

Young Mr. Maddox is one that I think would work in the heifer pen or put him on some second calves. Just a very dark red, deep bodied, big, hipped rascal. Another curve bender type of bull with a 78 lb. birth weight which puts him in the top 4% for calving ease but still had an impressive 829 lb adjusted weaning weight.

Mr. Maxton's dam was purchased as an open heifer from Pheasantdale Cattle Co. and what a great addition to the herd has she been. 37M might have a bit more color than you might want but just take a minute and give this guy a serious look. This bull is impressive, very similar in body type to his brother 128M that leads off this group of Keon sons. Super dark red, big baldie face, this bull can be used in a variety of situations. Use him to add some chrome or he would possibly work in the heifer pen with his 78 lb birth weight which is top 3% in calving ease with lots of performance for his calves at weaning as he had an impressive 859 lb adjusted weaning weight.

276-day gestation

The last of the red Keon sons on offer. I'm kind of repeating myself here with these Keon sons as they are so similar in their body style. Another dark red, big blaze face bull.

Have a look at this bull as he has got the wow factor. Top Tier is well known in the Simmental breed for his calving ease. 4M is definitely heifer pen friendly. This bull came in dam from a bred Landmark heifer we purchased from the Muirheads. Boy did this first-time mom knock it out of the park with this calf. A low birth weight of 72 lbs with a calving ease of 11.5 but he also has performance that is rare to find in a heifer bull.

The only Advance son we have on offer this year. The Advance sons have been very popular over the years, with the most notable son being T33 Flash 13F going to Crossroads Farms, where he did an outstanding job for them. We have limited semen left in the tank, so we are very selective on when we use it. Here is a bull that covers all the bases with a solid EPD profile. A bull with that herd bull presence about him.

Here is the first of the Landmark sons we have to offer. The Landmark bull was raised by Maxwells at Viking, Alberta and was purchased by Deegs and Muirheads. We were very fortunate to purchase a large group of cows from Muirheads a few years ago that were bred to Landmark. Maxwells and Deegs have had great success selling Landmark sons over the years. Here is a very dark red, solid built bull that is hard to fault. Polled test pending.

276-day gestation  
 You will notice that this bull missed his haircut. We are very fortunate to have Bennett Foster clip our bulls, but we missed this one, our fault. This is a great bull, it is hard to find a fault with him. Excellent EPD profile and has the highest YWT EPD of all our sale bulls. 51M had a big 888 lb weaning weight and comes from one of our best cows. A full brother to this bull sold to LD Stock Farms of Neudorf, Sask. at last year's sale.

YTL 91M carries a tick more frame so if you want to add size to your calves here's a bull that will work for you. A really impressive Denali son out of a really good cow that we acquired from the Diamond M dispersal sale. If you follow EPDs check his chart, it doesn't get much better than that. Nice moderate birth weight with an actual weaning weight just shy of 900 lbs.

If you want one that is dark red, take a look here. Very smooth built through the front shoulder but still carries great muscle shape throughout. A very nice moderate birth weight, not sure I can recommend him as a heifer bull but he would be great for second calves or to moderate the birth weight on some power cows. A great set of EPDs.

The first sons to sell off of our new herd sire Scorpion. We only have a couple Scorpion sired bulls this year, but we are really happy with his progeny. We will have many more of his sons in the future. Young Mr Manning is a structurally sound, stylish bull with lots of middle to him. 65M's dam is a proven breeder as she has produced bulls that have sold to H Bar M Land & Cattle in Macklin, Les Jack at Rocanville and Colin & Tina Baber in Balcarres.

Here is a bull that will be easy to find on sale day. You will have lots of check marks beside him in your catalog. Young Mr. Mullins is pretty hard to pick apart, and he just has that herd bull looks about him. Exceptional thickness throughout and will sire calves that will push down the scales, as 171M himself had a 897 lb. adjusted weaning weight. Great EPD profile. Young Mr. Mullins' dam's 2023 bull calf sold to Justin Aspelietter of Sedley last year.

Our only Hardcore son but he is a good one who leads off our offering of black bulls. He is a very complete individual with extra stoutness and eye appeal. 140M has a solid set of EPD's and was one of the heavyweights when he was weaned at 881 adjusted weaning weight.

Now we will step back into some more Keon sired calves. Here is an impressive herd bull candidate who is deep bodied, soft made and an easy moving bull with that eye catching double goggles big blaze face look.

Another great Keon son that is very similar to the previous bull 42M in his body structure. Very balanced, easy doing type bull with a ton of eye appeal.

I am struggling to find new descriptions for these black baldy Keon sons as they are so similar in their makeup. Here is a powerful bull that just has that extra style. 176M had an outstanding adjusted weaning weight of 912 lbs. You don't find many bulls with that kind of weaning weight. He is a scale crusher.

If you want to add that extra rib length into your calves, then here is your bull. 46M is super long spined with a modest 84 lb birth weight. He's got the shape to calve really easy and is a possible heifer pen candidate with a strong calving ease EPD.

280-day gestation  
 This black baldy bull is sired by an American bull named High Life. When we Al'd using High Life we ended up with more heifers than bulls. We were very pleased with the results and retained five High Life sired heifers who are set to calve this spring. 115M is another bull with a little more stretch to him with calving ease genetics on both sides of his pedigree.

Here is a bull that I can recommend for the heifer pen with a nice low 78 lb birth weight and a 14.9 calving ease which puts him in the top 4%. He stands on a little smaller frame but still is very attractive made, with good performance as an added bonus.

# Triangle 33 Simmentals

## TRIANGLE 33 SIMMENTALS

Matthew, Jocelyn and family

Austin, Kendall and family

Box 251, Earl Grey, Saskatchewan S0G 1J0

Matthew: 306-550-8301 | Austin 306-731-7895 | austin.ritter@hotmail.com

Welcome to the 20th Annual Proudly Western Bull Sale. It has been an honour to be a part of this sale for the past few years with the other consignors, and we are always grateful to everyone that helps to put this sale on.

Thank you to Erin Yewsiuk for capturing the bulls' good sides, and to Bennett Foster for making these good sides looking prim and proper. It takes many hands to put this catalogue together.

Many thanks go out to everyone that purchased and expressed interest in our bulls last year. This year you will notice a large majority are sired by one bull, Circle G Keon. This is not only because we have high expectations from him, but he was given extra cows during breeding season due to another sire's injury, and he sure didn't let us down.

29N has been high on our list all year. He is the natural born calf from 28J and what a great job she did. A perfectly put together bull that we are confident will go on to do great things in any operation.

Don't let age fool you on this guy. He is the youngest bull on offer this year but has proven his worth to be one of the bulls that catches your eye every time you walk into the pen. 9E is a versatile cow bringing home a top-quality calf every year, no matter who she's bred to.

It's always impressive to see heifers we raise turn into great cows that bring home calves looking like this.

31N has got it all, the look, the pedigree and EPD profile to become a herdsire.

He is ET born and only unregistered due to waiting for test results to come back.

A standout bull from the day he was born, and aside from his unique colouring you could always pick him out in the group. We wish there was more like him but with 5 full sibling sisters from the flush it is pretty exciting to watch them develop this winter.

16N is going to be the bull to add frame size to your herd. Coming from a cow family that has consistently raised some of the heaviest weaning bulls and heifers, 16N will not disappoint. A long, stout heavy boned bull.

Another good American Red son, consistency proved itself with the American Red calves born here, looking like peas in a pod. 17N's maternal brother sold in last year's sale to Southam Simmentals.

Super stout and well put together is the only way describe 12N. 11H did such a great job raising the bull that currently walks at Prairie Wind Farms, we bred her back the same way.

This is the sleep easy type heifer bull. Long bodied, smooth shoulder and a tiny head adds up to the type we feel comfortable putting in with a pen of your best replacements.

What a great job done by a first calf heifer. The Blockbuster daughters are turning into great cows, raising calves like this. 14N has the potential to go into any cow herd and make an impressive impact.

Probably the darkest red bull in the pen. He will mature into a moderate framed bull that is going to sire calves with chrome on their face.

Another result of Blockbuster daughters. The amount of white faces Keon has produced here in phenomenal. 12K's first bull calf sold in last year's sale to Iron Creek Farms.

Another Blockbuster daughter Keon combination. A stacked pedigree on this guy with his grand dam being 157D. 47N is black all the way to the ground and Sawyer had the perfect name picked out for him, Nighthawk.

Interesting colouring, but none the less a solid bull produced by a first-time mountain view daughter.  
 34L bred  
 b a c k  
 early to  
 our new herd  
 bull NUG 107M,  
 watch for that calf  
 next year.

A real nice put together baldie. Will mature into a moderate framed bull that will be versatile on many different types of cows. 14H's Hannibal bull calf sold in last year's sale to Parkdale Simmentals.

35N and 46N are almost impossible to tell apart other than the ear tag. 22G is a bull making machine. 6 calves, 5 bulls sold through the bull sale and her American red bull calf looks awesome already.

# Terms & Conditions

## **TERMS:**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## **BIDDING:**

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

## **ANNOUNCEMENTS:**

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

## **BREEDER'S GUARANTEE:**

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

## **EXCEPTION GUARANTEE:**

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

## **CERTIFICATE OF REGISTRATION:**

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

## **PEDIGREE ESTIMATES:**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

## **LIABILITIES:**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## **RIGHTS AND OBLIGATIONS:**

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

## **PHONE, MAIL, WIRE BIDS:**

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

## **DELIVERY:**

Bulls looked after free of charge until April 30th after which there will be a \$5.00 per day charge. Delivery will begin shortly following the sale at the seller's convenience. Free delivery within 200 miles. Bull must be insured by buyer.

## **INSURANCE:**

Will be available sale day. We strongly recommend that insurance is purchased for full value.

## **ERRORS:**

All announcements at sale time, written or oral, supersede any written material in the catalogue. The seller reserves the right to draw semen from any bull in the sale for in-herd use only. The collection will be at the purchaser's convenience and the seller's expense.

## Return Undeliverable
