RSK RIDEAU SALE BARN - DOUGLAS, MANITOBA

MARCH 25
1pm Wednesday 2026

ANIMAL NUTRITION

I have worked with RSK Farms for many year's providing nutritional consulting with their cow herd, replacement female program and their Bull Development Program. Bull Development is a high priority at RSK, ensuring the bulls are developed to the best of their ability without over doing it. Growth and performance, body condition, hair, structural soundness, and reproductive development, are some of the hi-lites we aim for when designing a bull program. We want to stay away from over condition bulls that break down, are not fertile, and just don't get the job done. These bulls only cost you a lot of money! At RSK over the year's we have seen changes in their development process. From self feeders and hay feeders to incorporating higher quality forages and less grain. Chopped and piled silage, top quality hay, oats and a custom bull development product is the direction RSK uses to develop their bulls. We sample and test on farm ingredients using the nutritional values of the ingredients and then design the program with a custom Bull Development Product to meet the protein and energy requirements of the program. This program is designed and balanced using the Cargill Beef Max Ration Balancing Program. This product fills the nutritional gaps the ingredients have and we enhance the program balancing proteins, amino acids, energy, fiber levels, micro and macro minerals and vitamins. RSK also sees the value using Diamond V NaturSafe in this product to enhance gut health, immunity and a better absorption of nutrients. We know this helps with reproductive development for the bulls as well. The goal for the Bull Development Program to raise bulls in a safe and nutritionally sound environment that will provide optimum value from their customers and prospects in their sale.

VACCINATIONS

Pyramid 5 plus Presponse as an aid in the prevention of disease caused by IBR, BVD Types 1&2, PI3 and BRSV, and as an aid in reduction of severity of pneumonic pasteurellosis caused by Mannheimia haemolytica. Covexin 8 Plus to protect against diseases caused by Cl. chauvoei (black leg), Cl. haemolyticum (bacillary hemoglobinuria), Cl. novyi Type B (black disease or infectious necrotic hepatitis), Cl. perfringens Type B (lamb dysentery), Type C (hemorrhagic enterotoxemia), Type D (pulpy kidney), Cl. septicum (malignant edema) and Cl. tetani (tetanus). Pour on Ivermectin products and Clea Up 2 are administered as well. Also Maxi Guard is given in the spring, before heading to pasture that controls Moraxella bovis bacterin for the prevention and control of pinkeye. LongRange® (eprinomectin) is also given as an injectable dewormer that delivers up to 150 days of parasite control in a single dose during the summer months. At the time of fall booster shots, Quiet Weans (yellow nose clips) are inserted into the calves noses to prevent nursing and are left in for 5 days. This proves to be very effective for a low stress weaning solution. FerApease is also given at weaning time to alleviate stress. Strict emphasis is put on structural soundness, testicular development, do ability, performance, functionality and disposition!

Welcome

On behalf of the entire Bohrsen Marketing Services team, we are pleased to welcome you to the 12th Annual RSK Farms/Rideau Angus Farms Elite Genetics Bull Sale. This annual event has grown into a highly anticipated stop on the spring sale calendar and is a testament to the dedication, vision and integrity behind both programs. The Kopechuk/Milne-Smith families have built their operations with a clear focus on producing practical, profit-driven cattle that work in real-world conditions. Their programs blend the strength of both Hereford and Angus genetics, offering cattle that deliver calving ease, performance, structural integrity and maternal excellence; traits that continue to drive customer success and repeat support year after year.

This year's offering is deep in quality and consistency, featuring a diverse group of breeding tools backed by proven cow families and an impressive lineup of herd sires. The Hereford division is highlighted by strong representation from sires such as Balance 207H and Command 91H, while the Angus offering showcases exciting sons by Executive 4J, Money Earned, Good Times and Best Answer. Together, these genetics provide buyers with options to add calving ease, performance, maternal strength and overall herd improvement. Equally important to the genetics is the development philosophy behind these bulls. They are raised in a responsible, longevity-focused program that emphasizes structural soundness, fertility, hair quality and functional performance, ensuring they are prepared to go out and work for their new owners immediately while maintaining durability for years to come.

Perhaps the greatest strength of this sale lies in the people behind it. Andrew, Jessy and their families are passionate cattle producers who stand firmly behind their product and take great pride in building long-term relationships with their customers. Their commitment to service, transparency and continuous improvement is evident in every aspect of this program and is a key reason this sale continues to grow in reputation and demand. Whether you are a long-time supporter or attending for the first time, we invite you to study the catalogue, tour the bulls and evaluate the offering with confidence. We are certain this powerful and balanced set of genetics will provide valuable opportunities to enhance your breeding program.

Best Regards,

The Bohrsen Marketing Team

Welcome to the 12th annual RSK RAF Elite Genetics Bull Sale! Jess and I are very excited and humbled to be hosting our annual bull sale.

As I'm writing this, I am reflecting a lot about the past year. It has been very rewarding in every way possible. Firstly, cattle prices are at an all-time high; in the feeder market, replacement market and genetic market. It feels great living through this trend and I believe that it will just keep growing stronger. Secondly, being in the cattle business, especially on the purebred side has given us so many experiences and has forged so many relationships all over the globe. Jess and I visited Denmark this summer to judge the National All Breeds Junior Show and National Highland Show. We had some R and R time in Copenhagen, what a place to visit. Thirdly, we have had some great times watching, judging and sponsoring so many amazing junior shows this past year. This honestly might be the most rewarding.

Watching this bull pen mature and grow has been one of the biggest rewards and having next year's crop hitting the ground is the icing on the cake. We are also seeing record prices for cattle as national numbers continue to be low, and the demand will stay strong. Being commercial producers as well, we see the value in using Hereford and Angus bulls to fill market demand.

This year's sale offering is a testament to the direction and the path that each breed has worked towards over the last ten plus years. It feels great to see our genetics go out and work and provide a positive ROI for our customers. This year the bull pen is great, they are rugged, strong and bred to succeed.

The depth and quality of this year's offering is second to none and this year's sale offers a diverse group of breeding tools. Balance 207H and Command 91H calves make up the main part of the RSK pen this year. Nellie 20E makes a comeback this year with a very exciting Daybreak 163K bull, Panama 51M. Executive 4J is breeding tremendously well, proving to be easy calving with great growth and flawless structure. Our first Money Earned 853E and Good Time 405L sons will be highlighted and they are impressive. Best Answer 118L has sired some amazing calving ease sons, and a group of ET brothers add an element of excitement and genetic opportunity!

We are continuously building, raising and acquiring new genetics to build the quality of the RSK and RAF programs. Our emphasis is on breeding well rounded, balanced offspring based on quality genetics that promote improved structure, muscle pattern and efficiency.

Many of our customers are repeat and multiple buyers. This tells us that it's not just a bull business, but also a people business. Our customers are pleased with the product, but more importantly happy with an honest, reputable and knowledgeable service. We love catching up with our customers as it provides us with feedback about our product as well as assisting in improvements for breeding decisions. The customer is our main source of information and the continued support from our customers is what is keeping us in a business that we love.

All the sale information will be online including bidding with DLMS.ca. Feel free to contact any RSK-RAF member for more assistance.

We look forward to having you join us for the 12th Annual Bull Sale and can't wait to visit with you on sale day!

Andrew and Jessy

RSK SCK 163K Panama ET 51N is the first Daybreak 163K x Nellie 20E mating that we have had on the farm. Nellie 20E out performed herself again with this rugged made, stout bodied correct herd sire. He is built around a solid, very correct skeleton and possesses the shape and muscle patten that are very desirable. Panama 51K's sire Daybreak 163K is a calving ease and pigment specialist and Nellie 20E need zero introduction, being a cornerstone female for RSK and Knutson.

RSK SCK 163K Panama ET 51N has a very successful summer and fall show run, winning numerous classes and divisions! He was admired by many cattlemen throughout the season. Maternal siblings have passed through the bull and female sales over the years with many highlights and high sellers including RSK SCK 7165 Double Down ET 30H selling for \$39500.00 for half and RSK SCK 316 Ms Nellie ET 69N bringing \$20500.00 for half. We expect Panama 51N to follow in the same notable footsteps and cant wait to see what the future has to offer on him.

RSK 91H Noble 63N is deep ribbed, deep chested and deep flanked while keeping the Command style and stretch. I like this bull from every angle, especially when he's on the move. His dam is Sage 9D who is a foundation female at RSK with some very notable background and progeny including non-other than the 2023 CWA National Reserve Champion Female RSK 695D Miss Sage 26H, who sold to Harvie Ranching in the RSK RAF Online Female Sale. Noble 63N has a well balanced set on EPD's and includes indexes of 114 on WW and 101 on YW.

Herd bull Alert! RSK 91H Nightcap 7N will be one that you will not miss come sale day. Extreme amount of stretch, power and correctness is the best way to describe him. He has a big solid foot and moves so free, with a very long stride. His dam Ivory most notably raised RSK 91H Miss Ivory 7K, who was a high selling female in the RSK RAF Online Sale to Harvie Ranching and Springford Farm. Ivory 20B is packed with longevity and consistency, I expect that to follow through with Nightcap 7N. If you are looking for a good performance bull, then look no further.

RSK 91H Nash 121N is the youngest bull in the pen, but not one to be overlooked. Especially if you are needing a bull to breed later in the season. This young performance bull will not even be a year old at sale time, but will sire progeny that will tip your scales down at weaning and yearling time. Study his numbers and performance data, its impressive. His dam has raised some very exception progeny over the years and continues to keep doing it.

RSK AD 207H New Heights 25N is proving to be more interesting as time goes by. The make, the numbers, the performance; it just all flows together in a complete balanced package. New Heights is round in his shape and muscle pattern, soggy made and loose hided. I like the substance and spring he has. His young dam its rising to the top and soon to be a donor. Her first calf sold in last years female sale for \$17500 to Brooks Farms.

Long, powerful, big hipped and extremely good footed is what comes to mind when I start to describe our lead off angus lot this year. A performance type bull that will work great on cows, push down the scale on your calves in the fall and make you want to keep every one of his daughters. His maternal sister is making a name for her self at a young age where she consistently produces some of the highest selling bulls in the sale every year. We campaigned him this fall where he was Res. Champion Sr. Bull Calf Champion at Ag EX in Brandon and has an extremely good disposition about him. The Nancy cow family is known for their great foot structure, heavy milking ability and longevity.

This guy is the most unique son off our \$115,000 sire W Sunrise Executive 4J we have ever offered! 57N is so impressive any way you look at him just a true stand out in the pen. Super soft made, free moving, smooth shouldered, we just love his skeletal design and makeup. His Resource dam is part of a trio of Lady Jet maternal sisters that are constantly having both bulls and females that are at the top of the replacement pen. If he wasn't so closely related to a lot of our females we would be keeping him to use of ourselves, this is the kind we strive to raise!

SIRE :: BEST ANSWER

BROOKING 1259J

DONOR FEMALE :: CAP 64F

A new sire group for this years sale. Rideau SCK Best Answer 118L sold in the 2024 bull sale, we thought enough of this young calf that we retained an interest in him and bred him to a select group of heifers. Both of these bulls are super calving ease, off of first calf heifers and give you "the look" we strive for. 21N who is off of an Atlantis dam, is one of the heaviest bulls in the pen when we weighed, he has tremendous hip shape, length of body and middle. 23N is a more moderate package with his dam being our first Executive 4J female in production. If you follow our program, you will know the 64F donor is our cornerstone female here, both of these bulls have her in their immediate pedigrees, if you are looking to add some maternal and keep all of your replacement heifers take a look at these two on sale day!!

Two Atlantis ET calves to round out this years Angus offering. Atlantis has worked extremely well for us leaving us with a lot of females to sell and promote and only a few bulls. His females have picture perfect udders and their calves rise to the top of the pen each year (lots 18 and 22 are both off of Atlantis females)
 Both of these bulls are out of industry leading females with 33n being off of our 64F donor and 86N being off of Erica 74A.

Flush mates to 33N sold to Anita Doktor & Perrot Cattle Co.

Flush mates to 86N sold to KT Ranches, Horner Cattle co. And Manns Polled Herefords.

Commercial Heifers

LOT 30 ONE PEN OF BLACK COMMERCIAL HEIFERS

LOT 31 ONE PEN OF COMMERCIAL BWF/BROCKLE HEIFERS

LOT 32 ONE PEN OF COMMERCIAL HEREFORD HEIFERS

TERMS & CONDITIONS

BULL WARRANTY: The consignors guarantee to sell you a bull that has passed a semen test performed by a licensed veterinarian. Should a bull fail to be a satisfactory breeder that is unable to physically breed a cow or heifer, a credit will be given towards the purchase of another bull. We guarantee to provide you with a sound breeding bull, but will not provide replacement or credit for physical injury or mismanagement. Bearing this in mind, we strongly advise you to insure your bull. All problems must be reported to the consignor in writing. The bull must be returned to the consignor immediately when the problem is detected, at the buyer's expense. The consignor will have the bull examined by a veterinarian, and will have 60 days to prove the bull a breeder. If the bull does not prove to be a breeder, the buyer will be entitled to a complete refund of the purchase price of the bull in question. Should the bull prove to be a breeder, he will be returned to the buyer at the consignor's expense, and the matter will be considered closed. In the case of losses, the consignor's will only be responsible for the original purchase price of the animal. We assume no liability, legal or otherwise, to make any compensation to the buyer.

THE CONSIGNORS: Reserve the right to in-herd semen use on any bull sold in the sale, with semen drawn at the consignor's expense, and the buyer's convenience.

WINTERING: Buyers choosing to have their bulls come back to the consignors will be charged \$5.00 per day beginning April 28th. **Bulls remaining in the wintering program must be insured by the purchaser. If they are not insured, they cannot stay.**

DELIVERY: The consignors will offer free delivery on all bulls up to a 200km radius, additional mileage rates will apply after 200kms at cost. **If bulls are picked up on sale day, the buyer will receive a \$100.00 credit off their purchase.**

USA DELIVERY: We are happy to assist with the paperwork and getting your purchases across the border. Sellers are responsible for health papers & transportation costs from seller's yard to the nearest border port or nearby location up to a cost of \$400.00. Buyer covers Brokerage, Other Associated Fees, and Transportation costs from the nearest border port or nearby location to their destination of choice.

VOLUME DISCOUNT: Purchase 3 bulls to receive a 3% discount, 4 bulls for 4%, and 5 bulls or more for 5%.

SIGHT UNSEEN PURCHASES: If you are unable to attend the sale day, we would be happy to discuss your program to help select to most suitable bull for your herd. 100% Satisfaction Guaranteed.

TERMS: The terms of the sale are cash or cheque, payable at par at the sales location, unless satisfactory credit or invoicing arrangements have been made prior to the sale. The right of property shall not pass until settlement has been made. **US exchange rate will be made prior to the sale.**

ANNOUNCEMENTS: from the auctioneer will take precedence over any material printed in this catalogue.

REGISTRATION & TRANSFER: A registration certificate of the animal will be duly transferred to the purchaser.

LIABILITY: The owners, their employees, sale staff, and representatives accept no liability for accidents that may occur. Persons who attend do so at their own risk.
