WELCOME

On behalf of myself and our family we invite you to our 21st Annual bull and female sale. Wow is all I can say, what exciting times we are seeing in the beef business. It is a privilege to be involved in the cattle industry, it is a great pleasure to deal with our customers, new and old and provide cattle that fit your operations. I can say I am as happy as you are with the current cattle markets it's a great time to be involved in the beef industry.

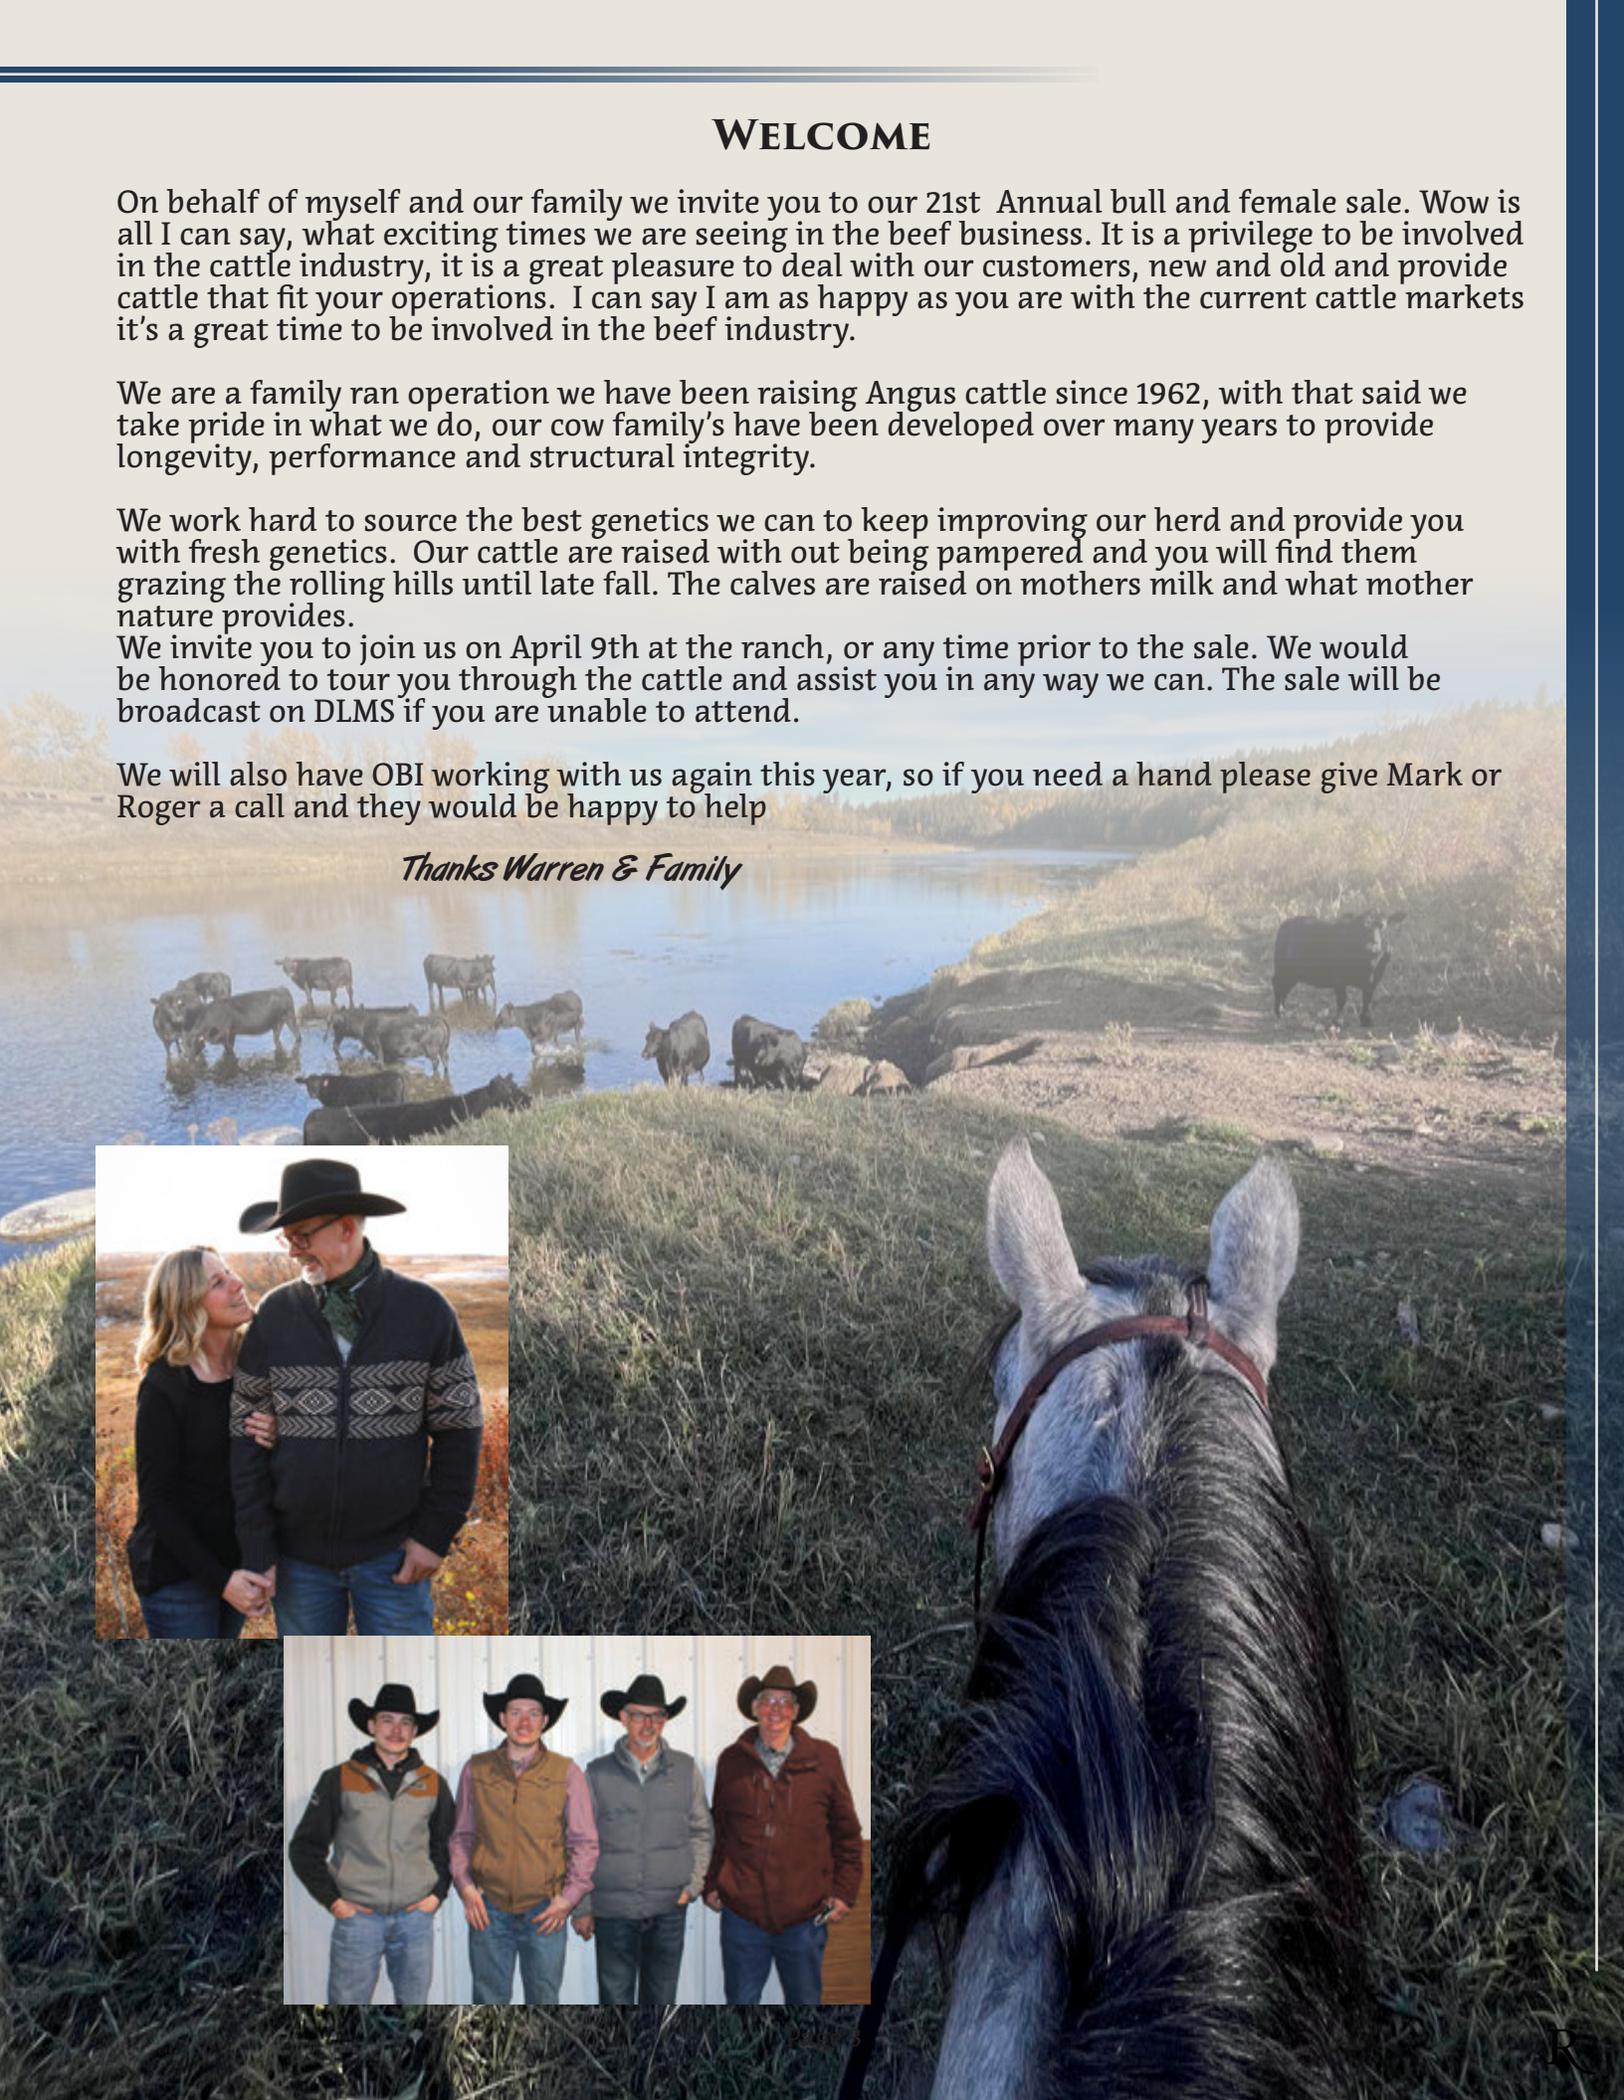

We are a family ran operation we have been raising Angus cattle since 1962, with that said we take pride in what we do, our cow family's have been developed over many years to provide longevity, performance and structural integrity.

We work hard to source the best genetics we can to keep improving our herd and provide you with fresh genetics. Our cattle are raised with out being pampered and you will find them grazing the rolling hills until late fall. The calves are raised on mothers milk and what mother nature provides.

We invite you to join us on April 9th at the ranch, or any time prior to the sale. We would be honored to tour you through the cattle and assist you in any way we can. The sale will be broadcast on DLMS if you are unable to attend.

We will also have OBI working with us again this year, so if you need a hand please give Mark or Roger a call and they would be happy to help

Thanks Warren & Family

WELCOME FROM OBI LIVESTOCK LTD.

I welcome you all to the 21st Annual Rainbow Hills Ranch Bull & Female Sale. The Rainbow Hills Ranch is a family run operation located near Delburne, Ab. They continue to be a seedstock source for central Alberta. This is our second year working for this family and what you can count on is buying from Good People. They will take care of your needs today and in the future. The bulls are not pushed and built for longevity for their commercial customers. This is a very strong set of yearling bulls with some size and middle to them. The 2-year-olds are fed right on a large pen so they can travel and exercise. This year more than ever, we have many top end calving ease bulls that you will sure to find.

The heifers on offer come right off their tremendous cow herd. Well-developed, well-made females that have some extra value to them this year. We will sell 5 an individuals and then group the others together.

If I can assist you on any way, please do not hesitate to contact, OBI, any of the sales staff or the Beck family for your inquiries. See you April 9th at the Ranch.

Mark Holowaychuk, OBI Livestock Ltd.

Several years ago, we initiated the sale of a heifer during our event, with proceeds directed towards supporting families affected by cancer. This cause holds significant importance to us due to personal experiences with this illness. Time spent in the cancer center has revealed challenges and burdens that many individuals and their families face throughout their journeys.

With the funds raised over recent years, we have provided assistance to numerous families, addressing needs such as meals and transportation for medical appointments, scholarships for those who have lost loved ones, and other related projects. Additionally, we support the Red Deer Cancer Centre by supplying the volunteer cart, which offers refreshments to patients and families during treatment—a gesture that, while modest, is meaningful to recipients.

We extend sincere appreciation to Elise and Markus from Rockies R Angus for purchasing last year's heifer. Our ongoing mission is to reach and assist as many individuals as possible during their time of need. If you are aware of someone who could benefit from this support, please inform us; we welcome opportunities to help further. Thank you to everyone who has contributed to this important cause.

TERMS AND CONDITIONS

BOARD AND DELIVERY

We prefer if you are leaving your bulls with us that you insure them, we will deliver cattle at our convenience to central locations, nearest port of entry to USA, or your farm. We will work with you to arrange delivery, we ask that you make delivery arrangements at time of settlement. We will keep your bulls free of charge until May 1st, 2026

HERD MANAGEMENT AND HEALTH

We make a special effort to manage our cattle so they will perform to the maximum for you. Our cow herd is managed similar to most commercial herds. We do not creep feed our calves as we feel that weaning weights are an important tool to indicate a cows performance. Our calves are weaned in late October and fed a high roughage TMR diet, you will find that our cattle are not packing the flesh common to some purebred herds, our bulls are in good working shape ready to go breed cows and have longevity to offer many years of use. Cows are all vaccinated in the spring with 8-Way, Cattle Master 5. Calves are vaccinated in the spring with 8-Way, Bovi Shield Gold One shot and then this is repeated at weaning with an application of Ivermectin.

BREEDING GUARANTEE

We stand behind our cattle, the bulls will all be vet inspected and have passed a breeding soundness evaluation and guaranteed to work. The heifers are guaranteed to breed, we ask that you pregnancy check your heifers and let us know by December 1st, 2026 if you have open heifers and we will assist you. We will not be responsible for physical mismanagement and provide more than the original purchase price.

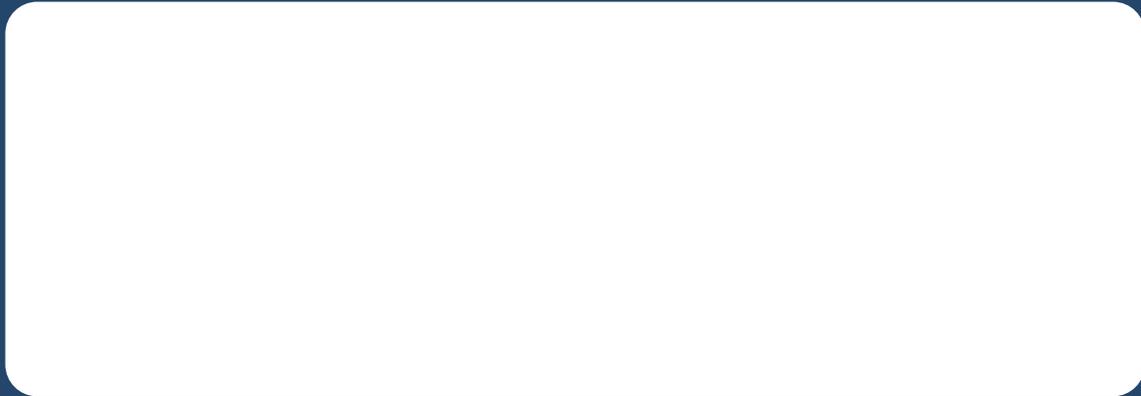

TERMS AND CONDITIONS

Cattle will be sold under the terms and conditions of the Canadian Angus Association. No release will be given until satisfactory settlement has been made.
