The Royal has never felt this good...

Annually once the end of September hits, everyone is talking about Toronto. The pure charisma and atmosphere that surrounds this show is talked about worldwide. The Ring of Excellence, the main show alley, the long walk to tie outs under the QEW with the CN tower staring you down just gives you goosebumps when it comes to exhibiting and promoting your program. This year, we feel we've done the best ever in regards to the material available in this offering. So, please join us in the center of the cattle barns at the Premier stall to view the stock prior to the sale and gather around. It's just a short walk up towards the Ring Of Excellence at the Bull Pen Bar where we all have great memories and can take in this very special sale happening on the center stage on the Saturday night of the contagious Royal. Any questions please don't hesitate to contact any of us.

Pick of the Heifer Calves

FROM HOLLINGER LAND & CATTLE

Yes you heard it right! Pick of The '27 Born Hollinger Land & Cattle Heifer calves! You are buying the Exclusive, 1st pick, of the 2027 born heifer calves at HLC. This opportunity is one that has never before been offered by this program. If you ask Chris Poley I'm sure he will attest, that in all the years of selecting sale cattle at HLC he has mostly been unsuccessful in securing his 1st pick as a sale consignment. As we all know there are often times where certain individuals are just not for sale!

Not this time! The choice is yours!

Our 2027 heifer calves represent the continued focus and direction of our program at Hollinger Land & Cattle. These females are backed by generations of proven genetics, with an emphasis on maternal strength, soundness, fertility, performance, and the ability to thrive in a practical ranch environment. We are excited about the consistency and quality of the 2026 calf crop and believe 2027 could be even more exciting yet! These young females have the potential to become productive, long-lasting cows and valuable additions to any breeding program. Next summer we invite you to come take a close look at the 2027 heifers and see the kind of functional, dependable females we are striving to produce. We own a number of cattle in partnership with Roger Reynolds of CSI Angus. Along side Roger we have built a strong foundation of females that we are excited for you to analyze. That being said all the calves carrying the HLC and CSI prefix will be available to choose from.

In past years our females have had great success not only in the pasture but in the show ring as well. We have been fortunate to exhibit many division Champions at some of the major shows in western Canada. Manitoba Ag Ex, Lloyminster Stockade Roundup and most notably Canadian Western Agribition. In 2017 came possibly our greatest show ring accomplishments to date where we were named Premier Breeder and Premier Exhibitor at the National Angus Show at the Canadian Western Agribition. This is a feat we are very proud to have accomplished in a very short time.

The foundation of our herd as many will know, has been HLC Erica 561G. She is a direct 74A daughter that has been responsible for many of our sale feature cattle in past years both Male and Female. We own her in partnership with Roger Reynolds, CSI Angus and Kourtney Schaff, Schaff Angus Valley in North Dakota. Erica continues to work in both programs and will leave a lasting impact for years to come. To date her progeny have earned approximately \$480,000 in sales. That number will continue to grow as she continues to produce outstanding quality.

For 2027 there are multiple ET matings, including Coleman Avalanche, S A V Rise And Shine and Brooking National. As well, Erica has multiple daughters working in our herd that are tracking right behind her in terms of production and quality.

For new and up-and-coming donors, we are excited for another 74A daughter, HLC Erica 383M. We put in a large number of her embryos by Musgrave Primal, one of the hottest bulls on the scene today. As well, we are very excited for Grand River Donna M405 our newest acquisition from last years AAC. She brings to us a new proven cow family that we are very excited to build around.

Retaining the right to one successful flush at the sellers expense and the buyers convenience.

Pick to be made by August 1, 2027.

Sandra 51N is the definition of exactly what we are striving to do here at KBF. From one end to the other, there really isn't much we would change on her. Her extra length, extra mass, extra extension and wide back is just captivating from any position you analyze her. Fluid in motion and so gentle in her movement, with an abundance of flex in her joints, all while displaying a remarkable teat spread underneath. She has us pretty excited and she has been a force at the front of the pack when she we exhibited her early this fall, walking away with a couple Supreme Championships under her belt. We've tried to build her with as much maternal strength as possible while keeping power and femininity in the package, plus she comes with an outcross pedigree to most operations. Sandra 51N has the big shoes to really be an impactful female for some time and we are proud she wears our tattoo.

We've had the good fortune to be around a lot of great cows, but there's something about Erica 6K that is just extra special. She recently was the \$260,000 valued AAC high seller with Interest at auction from every corner of the world. Her body mass, gorgeous look and the fact that she is being regarded as the best daughter of the legendary 74A gives her lots of reasons to be a headliner. With a very fertile flush record and progeny about to surface that will be talked about for some time, the marketability and talent this cow can bring your farm or ranch is significant. Check the support photos to her siblings that have been effective in multiple operations and been breeding pieces that have been life altering in terms of production and ROI. 6K is currently housed at Yackley Ranches in South Dakota and can be prepared for aspiration right away. Plans are to bring her to Canada with the option of using this flush in 2027 up here. Your choice. Either way, 6K is a landmark female. This opportunity to flush Erica 6K to the sire of your choice won't come around in the near future if ever again, so prepare yourself for what could be one of the best breeding decisions you could make.

6K is currently averaging 19 embryos per flush at Yackleys. We are guaranteeing 10 embryos with an open top on this tremendous female.

Your Choice!

3 flush sisters

◆◆◆ SELLING CHOICE OF ALL 3 FLUSH SISTERS ◆◆◆

Combining Bar E-L Erica 74A and SCOMAC Lady Ann 913G in the same pedigree is about as maternal as we can make them.

The OCC Legacy 839L-sired donor dam has produced herd sires and daughters that have gone on to make their mark in herds across Canada. And the maternal grand dam SCOMAC Lady Ann 316A is a Canadian Angus designated Elite Dam.

These three flush sisters are exceptionally broody in their makeup: feminine-fronted, stout-featured, deep-bodied and moderate, with the kind of maternal presence we strive to produce.

The choice is yours on three direct daughters of the great Blairs External Law 266F. **Terms to be announced.**

A standout DMM Essence Blackcap female that brings together the look, power and quality demanded in a top Angus sale offering. She is long-bodied, deep-ribbed and soft-made, with excellent capacity, a strong topline and a feminine, attractive front end. Her sound feet and leg structure give her the foundation to develop into a productive, long-lasting brood cow. Sired by DMM International 54D, she carries the kind of Angus pedigree and phenotype that gives her plenty of opportunity both in the show ring and in the pasture. A stylish young female with the substance, shape and brood-cow potential to make her mark.

Augusta

➡️ ··· **TY RY AUGUSTA 6N** ··· ⬅️

A real stunning Below Zero daughter that is easy on the eyes. Her big center body and huge hip are just some of the benefits she has being one of our best in our 2026 show string. Her very gentle nature and excellent udder development insures her ability to stay in the front field for her entire career. Mated to our new junior herdsire from Greenwood that will also be in Toronto. One of our best for this special sale.

Bred to Greenwood Mendoza 158N on June 21, 2026 for end of March 2027 calf.

LYNDEN MANOR BLACKCAP 06N

This out cross pedigreed vixen sure is about to catch your eye. Her big outline and brood cow appearance with a gorgeous underline while still maintaining an angular femininity look makes her a top candidate coming as a two year-old. Her early service to Cast-Iron comes promising as well with no exposure. Gentle natured, big belly, big backed and fluid in motion. This is a top pick for the Royal sale.

Bred April 3, 2026 to Boyd Cast Iron. Guaranteed safe.

Distinction is the ultimate low BW huge spread to WW & YW outcross pedigree breeders have been waiting for. Topping the Musgrave 2026 spring bull sale, his sire Honour Roll was the talk of the day. Set aside his independent pedigree, look at the man we are taking about. So correct from every position, Distinction never has a bad day. The lineup of females stacked underneath his bottom side are the new and upcoming prospects of the Musgrave herd that has become increasingly popular. Amongst all those attributes, if paperwork is in your breeding plans of necessities, Distinction ranks in the top of the entire breed for WW, YW, Milk, \$M all with a 63 lbs BW suitable for the heifer pen. His massive 1600 lbs sale day weight solidifies this rascal as the next big thing coming down the pipe in generational Angus cattle. Limited semen will only be make available and please note some of the top selling embryos in August at Musgrave were sired by Distinction.

Stored at Bovigen. Qualified CAN & USA.

An extremely rare opportunity here in so many ways! We are beyond proud and excited to present you the first and only embryos on our newly acquired Madame Pride 8422 donor to sell this year. A true outlier donor combining traits that are extremely hard to bring together in an angus cow. 8422 possess unmatched fleshing ability in a large frame, a near perfect feminine phenotypic package while never missing an AI breeding and starting as the number one weighing 205 and 365 female in the entire SAV calf crop. The feature cover girl of the 2026 spring female sale, 8422 has left three top end retained females and a feature selling son and daughter. Ranking within the top 10% for claw, WW, YW, YH, MW, ribeye and CW here is an opportunity not to miss.

Mating 'A' brings the first ever embryos to Canada out of the \$850,000 sale season favourite, Koupals B&B Inevitable 509.

'B' may be the hottest bull in the breed with the now deceased Musgrave Primal, whose semen just brought \$6,500 a unit and his dam just sold for \$460,000USD.

Embryos qualified for CAD OR USA stored at either Bova-Tech in Alberta or Transova Iowa

4 PACKS OF 5 STRAWS

Broadway

◆◆◆ RAVEN BROADWAY N10 ◆◆◆

New Herd Sire — Broadway! Broadway is turning heads and earning rave reviews. An eye-catching herd sire, Broadway combines muscle, volume, mass and the herd-bull type we look for in a great Angus sire. His excellent disposition, outstanding foot quality and impressive scrotal development are just a few of the qualities that set him apart. His easy fleshing, fertile dam is a proven Pathfinder cow and exceptional producer, having raised multiple top-selling sons and several daughters retained at Raven Angus. Broadway was used heavily this year at Peak Dot Ranch through artificial insemination, embryo transfer and natural service. We're excited about the impact he can make and what he has to offer the Angus breed. Raven Broadway — a powerful combination of performance, maternal strength and herd-sire quality.

➡ ♦♦ EMBRYOS BY: RAVEN BROADWAY N10 X PEAK DOT BARBARA 169M ♦♦ ⬅

Peak Dot Barbara 169M is an exciting new donor bringing together an impressive pedigree, outstanding numbers, and tremendous breeding potential. Sired by the popular Gable, a sire well known for his impressive, top-selling progeny in sales across North America, Barbara represents the kind of proven yet fresh genetics that can add value and depth to any breeding program. Barbara's outstanding number profile only adds to her appeal, while her influence at Peak Dot is already evident. Her first daughter has been retained in the Peak Dot Ranch herd, a testament to the confidence they have in Barbara and the future of this cow family. These embryos by Raven Broadway out of Peak Dot Barbara 169M offer an exciting opportunity to combine two exceptional genetic sources. With Barbara's proven pedigree and outstanding numbers matched with the potential of Raven Broadway, this is a mating with plenty of possibilities for the future. An exciting young donor, a proven sire behind her, and a mating built for the future—these Raven Broadway × Peak Dot Barbara 169M embryos are ones to have on your radar. **Stored at Bovigen**

Terms & Conditions

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
