

RUSYLVIA CATTLE CO.

Sixth Annual BULL SALE

MARCH 4, 2026 | 1 PM | ON THE FARM AT DERWENT, AB

Welcome from **RUSYLVIA CATTLE CO.**

Box 129 • Derwent, AB T0B 1C0 | kenpashulka@hotmail.com

What an incredible time to be in the cattle industry. So many years of hanging on to the passion of raising cattle has finally paid off. Last fall's record calf prices have made it a joy to finally reap the benefits of years of hard work, time, money and stress. We as cattle producers deserve every minute of the glory and results that we are getting for our beef. Enjoy this and hopefully quite a few more years to come. Time sure flies when you live life at full speed and are busy with all things agriculture. Rusylvia Cattle Co. was established in 1994 when Ken and Josie got married and this year marks the 29th year of selling bulls. Rusylvia Cattle is made up of grain, hay and pastureland along with 400 cows. Our purebred herds are Simmental, Black Angus, and Maine Anjou, with the majority being black. Our commercial herd is Angus x Maine, and Angus x Simmental. All the cows are managed the same way. Same herd health, graze grass until November, corn graze until December and cereal silage or silage bales during the calving period. We utilize natural heats to A.I. about 140 cows each spring and put in 50-80 embryos as well. The benefit list is long with A.I. and ET programs, and it truly gets exciting every calving season to see the results. Josie and Riley both A.I. as Josie has taught A.I. instruction to hundreds of people over the 15+ years at Lakeland College. The bulls on offer are from some of the leading genetics on offer in Canada and in the US.

We sometimes get asked why three breeds. Josie got her first Maine in 1981 and brought 40 head to Alberta in 1994. The Maine breed performance, quietness, hair and incredible mothering abilities are what we appreciate the most. The Black Angus purebreds started in 2005 with purchases from Stretton Creek, Mountain View Farms, and KBJ Dispersal. We loved the commercial Maine x Angus cross calves that pounds at weaning time and felt the two breeds fit together well. The Simmental is the newest addition, with our first purchases in 2015. The boys being active on the show road across western Canada, really loved the excitement, people, and what the Simmental breed had to offer. With key female purchases, leading A.I. sires and embryos our program rapidly developed.

Rusylvia Cattle is truly a family run operation with our boys growing up showing, running equipment and doing all things agriculture. We love the lifestyle, the challenges, but mostly the rewarding relationships we've formed through so

many avenues over the years. We have many great families that help us along the way and with various things but two families deserve the most heartfelt thanks – Shologan Family: Mark, Lee, Joanne and Faith. Lee is like an additional son around here and has a keen eye for cattle, knows what he wants, has a real work ethic and we sure enjoy having him come help. Many of the bulls today are owned in part by the Shologan family. The second is Chatsworth Land and Cattle – Nick and Alex Wasylik are contributing some great first calving January pairs to our sale offering, as well as a few bulls, and we are super excited to have them contribute. These are two of the hardest working, super keen, aggressive and knowledgeable cattlemen, and we would be remiss not to mention their sister Charolette. She often helps with marketing, which is her passion. Nick and Lee are both much loved, appreciated and welcome during the fall show road and any other time of the year when we need a hand or a laugh or two. We have many other people that help out at shows, clipping bulls, picturing/video day, and other work throughout the year – we thank you!

Bull buyers, show families, junior families, fall sale supporters, and the list goes on, are truly the best part of the business. Some of the best times throughout the year are at Agribition, Stockade Round up, Farmfair, Olds Fall Classic, Calgary Stampede, Summer Synergy or the multitude of other events we've attended. There nothing we love better then having a cooler of refreshments waiting when we get a call that someone is stopping in to do a pasture tour or getting the coffee ready after the bull pens been toured. To all our past bull buyers, we thank you for your support over the years, often sight unseen until we arrive with the bull or the yearly visit to do your selection. This year, please plan to stop in ahead of the sale or the morning of to have a visit. The bull pen will be open anytime for viewing before the sale or the morning of the sale. Bulls will all be semen tested, guaranteed, and have been on a cereal silage TMR with straw, hay and the Bullseye Bull Supplement Pellet. Many of these bulls are from the boys' own herd as you will see several tattoos, the boys' herds have been developing since they were nine.

On sale day, come early to tour the bulls, have some lunch, enjoy the video sale in our heated building and stay for the refreshments – or have the option of bidding and viewing online from your home with dlms.ca. We truly believe the cattle business and its producers will have some bright years ahead, and we look forward to enjoying those with you. Thank you for your time, interest, and support. If we can help at all, please call or stop in.

All the Best,
Ken, Josie, Tyson, Riley and Taylor Pashulka
Rusylvia Cattle Co.

SALE DAY INFORMATION

Schedule Of Events

Lunch: 11:30 am
Sale: 1:00 pm
Refreshments: 3:00 pm

Viewing Of The Bulls

Anytime prior to the sale, or sale day morning.

Sight Unseen

Call Ken or anyone of the boys or sale staff and they will gladly assist you.

Delivery

\$150 off per lot if picked up sale day. Bulls will be kept free of charge for a reasonable length of time, usually until you need them. In rare cases and for convenience reasons, you may be asked to receive your bull(s) when delivering other bulls to your area. All bulls must be insured if staying at the seller's farm unless arrangements have been made between the buyer and seller. Insurance will be available on sale day.

Payment

Balance payable sale day. Please call Ken to discuss other arrangements, we will gladly work with purchasers.

US Purchases

We will arrange all health testing and export papers at cost to US buyers. Delivery arrangements will be coordinated to the US Border Vet closest to purchaser. Bulls must be paid in full prior to shipping to the USA.

Meet OUR FAMILY

Welcome from

BOHRSON
MARKETING SERVICES

Annually one of the real diverse and exciting offerings each and every spring is at Rusylvia Cattle Co as the Pashulka family contributes some of the best Angus, Maine-Anjou and Simmental genetics you will find anywhere all under one roof from one great program. Their 2026 set of sale bulls is very deep in quality and is extremely consistent in type and kind, spread throughout 3 breeds. We want to invite you on behalf of the Pashulka, Shologan and Wasyllick families to this must attend event!

Their Angus offering is an elite set headlined by 3 full brothers to the \$95,000 heifer calf Rusylvia/Shologan sold in the fall of 2025 at the Evolution. Other exceptional embryo transfer bulls are also at the forefront as well as

many sons by their powerful walking sire, Freedom 1031 who continued to do an incredible job breeding. The Simmental offering is also well represented by their exciting embryo transfer program and features some of the breeds very best genetics and influential cow families. Check out the exciting trio of Fullblood bulls on offer as well! The Maine division continues to be a staple in the Rusylvia program and is anchored by the reigning Champion Bull from both FarmFair and Agribition. The open heifer calves on offer from Blair Jackson and family of Boulder Bottom Stock Farm and Rusylvia are sure to excite and are a great opportunity to expand your cow numbers in the most exciting market we have seen in the history of our industry. Their Cow/Calf pairs from Nick

and Alex and family of Chatsworth Land & Cattle have proven to be some of the best investments people have been bragging on the last couple of years. These females have proven to be quality recipients and annually raise top notch offspring with fault free feet and udders.

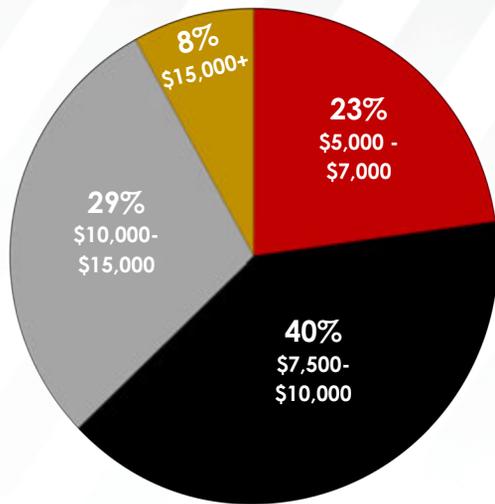

Be sure to join us near Derwent, AB for this exciting sale hosted by some of our favourite folks to work with in the industry. The hospitality and stock on offer are second to none and we can't endorse the people or their cattle enough. Be sure to give anyone listed a call to tour the cattle and talk bulls. If you are unable to attend, please don't hesitate to give any of us listed from BMS a call as we would be happy to assist in anyway!

2025 BULL SALE PRICES

Price Range

Rusylvia bulls are available in a wide range of prices to meet all of our customers needs.

TERMS & CONDITIONS

Terms

Payment in full must be made before cattle can be released and shipped. Exchange rates will be announced sale day and the sale will be held in Canadian funds.

Bidding

In person, online through DLMS or via sight unseen purchase option.

Announcements

Any announcements made at the time of the sale will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

Insurance

We strongly recommend the buyer insures for full value on all purchases.

Weaning Weight Date

Weaning weights were recorded on August 24, 2025.

Purchaser's Risk

Each animal becomes the risk of the purchaser as soon as sold.

Health

All sale animals have met all necessary health requirements. Bohrsen Marketing Services assume no responsibility for the health status of any animal in the sale.

Certificate of Registry

A registration certificate issued by the applicable breed association and a certificate of registry duly transferred will be furnished to the buyer of each registrable animal after final payment has been made.

Information Supplied

The information contained in this catalogue is believed to be true and accurate. The seller has provided the information to Bohrsen Marketing Services and they assume no responsibility if the information supplied is not accurate.

Thank you TO PAST BUYERS!

LLB DELIA 40B

- Direct Musgrave Stunner son
- Heifer bull deluxe here
- Awesome made from his shoulders into his neck and head
- Stunner has been one of our go to bulls to use in heifer pen

It is a pleasure working with the great people from Rusylva Cattle Co on their nutrition program. You will be tough pressed to find a family more dedicated to the agricultural industry. Whether you are in the market for Angus, Simmental, or Maine bulls, you'll be sure to find something in their impressive and consistent bull pen. I hope you can make the sale to see this impressive group. The cowherd utilizes a customized organic mineral program that is balanced throughout the year. Chelated minerals are used year-round to maximize cow/calf performance, fertility, and health. The bull development program is built to maximize forage utilization and gut health. All forages are sampled and analyzed to ensure quality feed sources are used. Once the calves are weaned, they are slowly transitioned to a TMR. The TMR is forage based and is designed to

promote lean muscle growth, allowing the bulls to express their genetic potential. The energy source used in the bull ration is a 14% protein pellet. Multiple protein sources are used that provide a blend of rumen degradable and rumen undegradable protein. A probiotic is included in the pellet to optimize rumen efficiency, as well as Chromium, an essential micromineral that aids in glucose absorption and increases protein accretion, allowing the bulls to better withstand effects of heat and cold stress. Rumen health is of utmost importance, which is why suitable protein sources and proper starch levels are fed to the bulls. Organic minerals are used both on the cow herd and sale bulls to ensure proper immune function and overall health. If you have any questions about the nutrition program, feel free to reach out. Good luck on sale day.

- RISING STARS

Welcome to the 6th Annual Rusylvia Cattle Co. Bull Sale. A huge thank you to the Pashulkas for giving us this great opportunity again as guest consigners in this sale — it's a privilege and it comes with a lot of hard work, lots of laughs, and good times working with the Pashulkas who are truly an amazing family, and great friends!

As young cattlemen, we feel extremely fortunate to be in this industry. These are truly exciting times in the cattle business! While the weather wasn't the most cooperative this year, record-high prices make it a little less stressful on everyone. We always strive for quality cattle, no matter whether they are purebred or commercial. We started with commercials and slowly built a small purebred herd of Angus, adding some Simmental along the way. We've implemented heavy use of A.I. and embryo transfer over the last few years for some exciting matings, resulting in some incredibly cool cattle! With the introduction of embryos came the need for recipis, and we decided to start an early, high-intensity calving program to ensure that we had the highest-quality females to use and a select group of pairs to offer.

Starting with the bulls, we utilize A.I. in our purebred herd as much as we can to get the best genetics possible and have been building our herd slowly. As calves, they spent the summer out on grass and were weaned in late August. We moved them up to the Pashulka's yard in early September, and they have been developing alongside their own bulls since then and can also be viewed at their yard in advance of the sale. We think very highly of these bulls we have on offer and are excited to see their progress and what they can do for your operation.

Now for the pairs. These Simm/Angus females were bred early for December/January calving and all of the calves were born by January 14th, giving these first-time calvers all the time they need if you're planning to put embryos in

them in late March/early April if that's what you're after!

We've been very happy with the quality and production of our bred heifers the past few years, and have heavily focused on fertility in the last 10 years. We are incredibly happy with the conception and consistency results! All the hard work is already done with these young cows; you don't need to keep them for a whole winter or calve them out.

We work very closely with Bullseye Feeds for our mineral and feed program and these females have been on a full TMR ration since late October, developed by Bullseye. Bid on these pairs with confidence knowing they've already proven themselves as producers. All heifers were palpated as yearlings before breeding and are on a full herd health protocol. The calves at foot are sired by Black Angus heifer bulls from Rusylvia Cattle Co. Calves were given Vitamin AD, Vitamin E, Selenium, Calf Guard, and Nasalgen right after birth, and all bull calves have been ringed.

You're always welcome to stop in at our farm and have a look at the pairs anytime, as we would love to show you around. Don't hesitate to contact us about the bulls or pairs in the sale, or reach out to anyone on the Bohrson Marketing team for their assistance. We look forward to seeing everyone at the sale day on March 4th.
