# welcome from Swan Hills Ranch

Welcome to the 2026 Swan Hills Ranch Annual Bull Sale on DLMS Farmgate.

We extend our sincere appreciation to our previous buyers. Your continued support and trust in our program are truly valued. For 2026, we are proud to offer an exceptional group of yearling Angus and Sim/Angus influenced bulls, representing the strength of our top industry-leading sires.

This year's offering reflects years of intentional breeding decisions focused on performance, structural soundness, calving ease, and a balanced EPD profile. Featured genetics include Belvin May City, Brooking Sooner, Coleman Glacier, and Sitz Major, along with other proven herd sires within our program.

At Swan Hills Ranch, our goal is to breed cattle that deliver efficiency and profitability. We focus on producing moderate-framed, functional cows capable of achieving 50% of their body weight within 205 days. Our program continues to advance through AI, embryo transfer, and IVF initiatives, emphasizing strong maternal traits, milk production. Thank you to Dr. Immerkar for his expert embryo and AI work, which plays a crucial role in advancing the genetics of our herd. We also appreciate Andrew and Shelby Wilcox for their dedicated support throughout the calving season, ensuring the health and success of our cattle.

Our sale bulls are developed on a carefully managed ration to optimize performance without excessive condition alongside a mineral program to support health, fertility & longevity. Additionally, due to popular demand, we will be offering three selected halter-breaking donkeys, equipped with our custom-designed halter, created to simplify handling leading up to showtime while also providing practical predator control.

We welcome you to visit the ranch or call with any questions about this year's offering. While pictures and videos are valuable tools, nothing compares to evaluating in person.
