majority of lots are on display at

Farmfair International from November 5-8

2026 SALERS ELITE FEMALE SALE

Salers females are built to work. Known for their exceptional mothering instincts, Salers cows protect and nurture their calves while producing industry-leading milk that drives strong weaning weights. Their naturally large pelvic area means easier calving and more live calves on the ground, which is where profit starts for any cow-calf operation. Hardy and adaptable, Salers females thrive in rugged conditions, forage efficiently, and stay productive in the herd year after year. Whether you're building a straightbred program or adding hybrid vigour to a commercial herd, a Salers female is an investment that pays back season after season.

Most animals will be on display at Farmfair, however some may not - so be sure to reach out to any of the consignors listed on each sale lot for more information and/or to make plans to see the female in person if you should wish to do so.

New bidders to DLMS Farm Gate Timed auction must create an account. You must also create a timed auction account to be able to bid within this sale, due to enhanced notifications required for the best bidding experience. If you are an international buyer, please email mark@dlms.ca for account verification.

If assistance is needed, please contact the purebred team at DLMS by phoning 780-699-5082.

If you wish to see the Canadian National Salers Show - be sure to come to Farmfair International for Wednesday, November 6th at noon.

LOT 1

SW Harmony 42N is the first progeny on offer from the sire N42 Lawful 20L who is doing a great job. She displays excellent soundness, pleasing in her volume and femininity with a great disposition. Her dam is a MAC Editor 136E daughter, who is fresh off of raising one of the high sellers in our 2026 bull sale sired by Jasper. Her service sire, SW Jasper 115J is a sire that passes on excellent performance, muscling and style. His daughter also have great udders. We believe this female has a great future ahead of her and this rare mating is an excellent opportunity.

LOT 2

Here is a really eye catching female that commands your attention. She is from our Wally 80H bull and out of a home grown female that has yet to produce a bad calf. This female is as soggy as you can make them and yet still sound and feminine, a female that checks all the box's to be able to fit into any program. This heifer is a junior safe female

2026 PICK OF THE HEIFER CROP

This offering will give you first access to the Grundke Family Salers 2026 Heifer Calf Crop. You will be able to pick out of approximately 75 heifers, sired by proven bulls with outstanding maternal traits, calving ease and gain.

**Sires of the heifers are:
SW 29G, WDG 82K, SW 48K,
SW 23H, WDG 36H, HJ 4L,
SW 18K, SFE 2M, and SW 53G.**

Over 40 years of top genetics, provides this group of heifers the genetic variety to fit a wide range of programs.

Pick of the heifer pen deadline will be January 5, 2027, and the selected 2026 heifer will be registered and transferred to the purchaser.
