## BULL 51<sup>st</sup> SALES

Annual

# Welcome TO SIX MILE

## AND OUR 51ST ANNUAL BULL SALE

What a time to be in the cattle industry!

We first and foremost need to thank our incredible customers for keeping us in business for the past 50 years! Last spring marked a memorable milestone for our family as we celebrated fifty years of bull sales with a barn full of customers, friends, neighbors, employees and family. We take pride in having many repeat and multi-generational operations that put their faith in our bulls and genetics. We strive to produce quality stock every year that meet the demands of our diverse customer base.

And if this is your first time reading through a Six Mile sale book, thank you! We are a family owned and operated ranch in the southern hills of Saskatchewan. A maternal focus has and always will be at the highest priority for this operation. A profitable mother cow remains the most important facet in the beef industry today.

We currently have three generations working here at Six Mile. It is heartwarming to see the generations working side by side. Our oldest team member, Papa Clayton, can often be found in the feed wagon with our youngest crew member, Rustin, proudly serving as his right hand man. We are also excited to welcome another talented ranch hand to the family, Tina Verschaeve, as Cade recently popped the question, and the two are busy planning a summer wedding.

Along with our family, Tyson Buist is an integral part of Six Mile Ranch and truly a member of our family. His easy-going attitude coupled with his attention to detail and diverse skill set makes him irreplaceable; we are beyond blessed to have Ty. A new addition this past year to our team, but a familiar face, is Emma Lees. She has been a major asset and we love having her on the ranch. She brings with her an arsenal of skills and a smile that brightens your day.

Our full-time crew around here might be small, but we are mighty! We are also fortunate to have the help of many others throughout the year including Rick and Mary Hertz, Walter Wall, the Smith family, the Buist family, the Blake boys, Hayden Clermont, Lee Jensen and many more when we are on the show road.

This past summer we were very limited on rain fall. One benefit of this 10-year drought is the creativity required to get through these tough times. We were fortunate to rent a bunch of grass from the Emde/Rassmuson crew at Midale and that really saved our bacon here at home. Thank you to Tyson R. and his crew for taking such good care of the 200 heifers and cows we sent out there!

We still were forced to wean calves early (August 1st) and our focus quickly shifted to developing these bulls in the most appropriate manner with the primary objective of ensuring longevity. After multiple consultations with our nutritionist, we designed a program aimed at maximizing exercise, frame growth and reproductive health on these bulls by targeting a slow and consistent growth curve. We are very proud of the soundness and athleticism you will see in this year's sale offering.

Many new sire groups are represented in the bull offering but the same great cow herd is standing behind them. A cowherd that has been culled extensively through these dry years and forced to demonstrate their fertility and productivity.

Please plan to be in Fir Mountain on April 4th for lunch and our 51st Annual Bull Sale. If you are unable to attend, please feel free to stop by the ranch and tour through the bulls and the cows that stand behind them!

**Tyson & Callie Hertz, Clayton & Corinne Gibson**

### SCHEDULE of EVENTS

#### FRIDAY, APRIL 3

*Bulls Available for Viewing all day  
Refreshments and Supper Available*

#### SATURDAY, APRIL 4

*Bulls Available for viewing up until  
sale time*

*12:00 Lunch*

*1:30 Sale Time*

*5:00 Refreshments and Fellowship to  
follow the sale*

Clayton, Corinne, Cade and Coy Gibson, Tyson, Callie, Sloane, Fowler, and Rustin Hertz

# Meet the Team

## **CLAYTON GIBSON** - *Owner - Manager*

Our quiet "Go To" guy for everything - Loves fixing machinery the rest of us break - Head bale/ cattle hauler - George Strait impersonator - Hard Working - Committed Cattleman

## **CORINNE GIBSON** - *Owner - Manager*

True Angus Characteristics - Maternal, Easy Fleshing, Stubborn - Deeply loves her cattle, second only to her kids/ grandkids - Adores Hand Warmers & Wool Socks - Boss or maybe just Bossy

## **TYSON HERTZ** - *Purebred Operations Manager*

Heart and Soul of Six Mile - Surprisingly Introverted - Incredibly Talented Cattleman - Horrible Mechanic - Passionate Cattle Judge - Dedicated work ethic- Committed to Genetic Improvement - Devoted Dad

## **CALLIE HERTZ** - *Ranch Administrator*

Born to be a Cattlewoman - Highly Organized - Juggler of Many Things - Naturally beautiful - Extremely Efficient - Throws a Mean Right Hook - Does well on very little sleep - The Best Mom

## **SLOANE, FOWLER & RUSTIN HERTZ**

Daily entertainment - Knowledgeable ranch hands - Head Cat herders - Busy Rock Pickers - Loved beyond measure - The reason we do what we do!

## **CADE GIBSON** - *Ranch Foreman*

Great Sense of Humor - Excellent facial hair - Able to see the big picture - Highly intelligent and practical - Believes in Production Efficiency - Independent Determination

## **TYSON (TY TY) BUIST** - *Show & Sale Manager*

Ranch MVP - Highly skilled cattle fitter & cattleman - Terrible cook - Huge heart - The little kids favorite - Easy Going - Dependable and Dedicated - Quick Learner - Big part of our Family

## **COY GIBSON** - *Slave Laborer*

Casual labor when not working as a power engineer or Hunting - Great Mechanical Mind - Early Riser (for hunting only) - Keeps things entertaining - Deep Rooted Love of the Land

*on the inside back cover of the catalogue*

**RETAINED INTERESTS** on certain lots will be announced sale day or prior. We retain the right to draw In Herd Semen on all bulls.

**GENERAL SALE INFO**

**SIGHT UNSEEN PURCHASES** If you are interested in purchasing a bull, but cannot make it to the sale, please contact Clayton or Corinne Gibson or Tyson Hertz preferably 48 hours prior to sale day. We will discuss your needs and come up with a list of bulls that will work for you. On sale day we will endeavor to buy bulls on your behalf. Your order will be held in strictest confidence. Your **SATISFACTION** is 100% guaranteed when you have discussed your order with any of the Six Mile ranch team prior to purchase.

**PAYMENT TERMS** The terms of the sale are cash or check payable at par at the completion of the sale. If you purchased an animal as an absentee bidder, please make arrangements to mail a cheque or wire money within 48 hours of the sale. Free Delivery within 500 miles if paid for within 14 days.

**Please contact Clayton or Corinne Gibson prior to the sale, if you require special payment or financing terms.**

## 4 Questions With T BAR

### 1. Why should customers consider Six Mile for their next bull purchase?

Customers should consider Six Mile Ranch for their next bull purchase because the program is built around proven genetics, real-world performance, and long-term customer success. The Six Mile cow herd is backed by generations of powerful maternal females selected for structural soundness, fertility, and productivity, ensuring bulls that sire functional, long-lasting daughters. With a large herd of over 350 registered Red Angus and 150 Black Angus cows, every calf is developed and performance-tested from weaning, allowing the program to identify the most efficient and productive bulls.

### 2. What three words best describe the T Bar marketing philosophy?

Integrity, Exposure, Results.

### 3. What is a quote you live by?

“If you like him, buy him”

### 4. If you had to pick a favorite restaurant anywhere in Canada- where would it be?

Red Barn in Moosimin, SK. It is as close to a home cooked meal as we get on the road with a nice atmosphere.

## 4 Questions With Bohrson

### 1. Why should customers consider Six Mile for their next bull purchase?

Six Mile has built a reputation as one of the premier programs in the Angus breed across the entire globe. That comes from decades of disciplined breeding decisions, an unwavering commitment to good cattle, and taking care of their customers for over 50 years. Six Mile bulls are developed to go out and work, not just to look good on picture day.

### 2. What is your favorite bull sale meal?

A classic bull sale lunch is hard to beat, but we have all been to enough sales with generic roast beef. The best bull sale lunches are something unique and unexpected - it doesn't have to be fancy but a little variety is appreciated. The Six Mile meatball lunch with a couple flavor options is a strong memory for our team. And of course the homemade pies are elite.

### 3. What is a quote that you live by?

“Shoot for the moon. Even if you miss, you'll land among the stars.”

### 4. If you won a million dollars but had to give it away, what would you do?

We'd put it toward the future of the cattle industry—junior programs, livestock scholarships, and helping young people get their start in agriculture. Those kids getting started in 4H or running around sale barns today are the breeders and customers that will keep this business strong down the road.

## 4 Questions With Peterosa

### 1. What are the first three words that come to mind when you think of Six Mile Ranch?

Quality, Commitment and Consistency

### 2. What words best describe the Peterosa Marketing strategy?

Dedication, Honesty and Perseverance

### 3. If you had to pick a favorite restaurant anywhere in Canada- where would it be?

Ruth Chris Steakhouse, Edmonton

### 4. What is a quote you live by?

Don't leave until tomorrow what you can do today. Tomorrow may never come.

# Calving Ease Guide

Every year the most frequent question we receive is which bull will work on heifers. Well.....only you know your heifers and must consider breed composition and hybrid vigor - but we try our very best to evaluate each bull to assist you. We developed the following guideline for calving ease by evaluating many traits in making our recommendations:

- actual birth weight
- birth weight EPD
- Calving Ease and Maternal Calving Ease
- Dam's past birth weight and calving records on progeny
- Sire's birth weight and calving tendencies
- Bulls physical attributes

*This Calving Ease Guide is our most accurate prediction based on the above mentioned criteria.*

**Calving Ease 1** Cow Bull - Recommended for mature females only. Not recommended for heifers.

**Calving Ease 2** Recommended for use on larger, well grown heifers only, expect to assist some normal births from first calf heifers.

**Calving Ease 3** Recommended for heifers, easy calving with minimal assistance on normal births

**Calving Ease 4** Highly recommended for heifers, expect little to no assistance on normal births

## BREEDING SEASON WARRANTY PROGRAM

Our warranty program is now in its eighth year and was developed to help you protect your investment at a reasonable rate. Under our warranty your bull is covered for injury, sickness, accident, disease fertility, structural breakdown or death. Should such a problem arise- we will service your needs with a replacement bull or credit to next year's sale. We keep high quality bulls out of the sale for this reason, to ensure we can assist you our customer. We offer the following options to be paid the day of the sale. Maximum Value is \$15,000 or less.

### OPTIONS:

Option 1- 3 Month Duration at 3% - we strongly suggest for bulls not going home on sale day

Option 2- 6 Month Duration at 6%

Callie Hertz will be available to discuss these options the day of the sale. If a problem is to arise please contact Callie immediately at 306-640-9275 or callie.sixmile@gmail.com. We will require a veterinarian to complete a report.

### EXCLUSION TO WARRANTY:

Six Mile will not warranty any injury or death due to malicious, willful or intentional acts of mistreatment.

*Larry Toner with Stockman's Insurance will be available for all other Insurance Needs*

## VOLUME DISCOUNTS

We are able to fill your needs whether you need one or a trailer load of bulls this year. We are pleased to offer the following discounts to those needing multiple bulls:

- 3 - 4 bulls 3% discount
- 5 - 9 bulls 5% discount
- 10 or more bulls 10% discount

This discount will only apply to bulls that are paid for in full on sale day. Absentee buyers will have a 14 day extension for their discounts. Partnership bulls will not apply.

## U.S. Exchange

U.S. Exchange  U.S. funds will be accepted at the current rate of exchange sale day and will be posted prior to the sale. The U.S. dollar is currently at a big premium in Canada giving our U.S. customers added buying power and value.

One of the most highly anticipated Red Angus bulls to sell this spring is “Six Mile .44 Magnum”. An outlier in terms of foot quality, body and muscle shape coupled with undeniable herd bull presence and athleticism. He was admired in “The Yards” in Denver by folks from across North America. Numerous breeders heard chatter of a Red Angus bull as intriguing as they come. .44 Magnum is the type of bull that can be appreciated by all facets of the cattle industry.

Along with his phenotypic advantages, the generations of astute cows and cow families that are found in his pedigree is what sets him apart. On the maternal side, the Six Mile Cheta line has long been a

Some days I think running a commercial herd of red and red baldy cows would be the winning ticket. And if I did, I would breed all the red baldy's to a bull like lot 12. I reckon he will sire sale topping steer calves while leaving powerful replacements. His mother, 325F is a hard-working Reckoning daughter with perfect feet, awesome structure and sound udder. One son sold in 2021 to Ken Solberg and one daughter retained in herd. Average lifetime wean index of 103 on 6 calves. Parent Verified and Angus HD Tested

I am really looking forward to sale day and penning these Confidence sons together. I think they are like peas in a pod. I like using bulls that sire consistency like Confidence 3089 did. Dam of Lot 13, Lark 471L is a hairy, long bodied Northbound female. She weaned this guy off with an impressive 113 wean index and has a full brother on the ground again this year. A definite sale feature found here in "Long Drag 237N". He is square and boxy in his design with a perfect Angus head and skull. He was a standout all summer alongside his gorgeous uddered dam, Missy 204K. She's a workhorse Stealth daughter that is as problem free as you could ask. Her first calf is a female we retained in herd and a maternal sister to 204K sells as lot 144. She boasts an average wean ratio of 108 on her first 2 calves. Take note that the dam of Confidence 3089 (see previous sire group) is also a Stealth 269F daughter. Parent Verified and Angus HD Tested

*Lot 19*

19

Another pen favourite, “Prolonged 232N” is a deep sided, stout backed, outcross calving ease herd sire prospect in the darkest shade of red. His balanced EPD estimates rank him with at the top of the breed in Calving Ease, BW, WW, YW, Docility, Marbling and REA. His young dam, Fanny 363K has a very unique pedigree with Black Angus genetics on both sides of her pedigree. She is a moderate framed female with an abundance of hair and a nice udder. Her son last year was selected to work in the heifer pen by Lacasse Farms. She has an average wean ratio of 111 on 2 calves. Parent Verified and Angus HD Tested

# Head Rush SONS

Daughter - Cheta 15N

Head Rush was the lead off bull from the Rainbow Red Angus Dispersal sale back in 2023. He presented an outcross pedigree to our herd and the Red Angus gene pool. His dam, Doll 46B, is a CAA Elite Cow with an arsenal of herd bulls produced under her belt including Metric 106K and Legion 25H. Head Rush adds length of spine, structural correctness with a dark red color and superior calving ease at birth.

Daughter - Lassie 224N

Blindside was selected from one of the pioneer Red Angus breeding programs, the Wildman family at Towaw Cattle Company. With a high libido and athleticism, Blindside bred extremely well his first two breeding seasons covering a large group of cows in 2024 and then a large set of heifers in 2025. He brings the SSS Granite lineage into our program with the long-standing Mabel cow family that originated at Six Mile in the early 1980's.

A brute of a calving ease bull that is square and muscular from every angle. As you flip through this sire group you will find a large selection of herd sire prospects that are masculine and dense in their body construction while maintaining true angus characteristics through their skull. Parent Verified and Angus HD Tested

*Lot 37*

Meg 915E is a CAA Elite Dam as of 2023. She produces a very consistent type with medium frame, boxy muscular build and a proud, attractive structure as seen in Lot 37. She weans off a high percentage of her body weight every year boasting an average wean index of 107 on 7 calves. Her sons were selected by Paul Lacasse, Batho Farms, the Webb family and Towaw Red Angus. One daughter was selected by Maple Oaks Red Angus. Meg is gorgeous to admire with a picture-perfect udder, maternal rib shape in a moderate, efficient frame size- a model Angus cow. Parent Verified and Angus HD Tested

**A WORD FROM OUR NUTRITIONIST**

We are extremely proud to have worked with the Six Mile team to develop the nutrition program behind the bulls presented in this catalogue. A feeding program for breeding bulls is similar to many other aspects of a purebred operation — attention to detail always shows in the end. This program is built around a high-forage, high-fiber, low-concentrate ration designed to promote strong skeletal structure and lean muscle development. The bulls have been fed a blend of greenfeed, grass hay, and corn ddd's for additional protein. Finally, a customized supplement with chelated minerals and vitamins is provided to ensure their nutritional requirements are met. The on-farm environment at Six Mile further prepares these bulls to go out and work. Anyone who has toured the bull pen at Fir Mountain can attest to the spacious pen conditions. Each day, the bulls travel a considerable distance for feed and water before returning to their bed pack. This daily exercise routine, paired with adequate protein in the ration, helps develop the lean muscle you see in these bulls.

A smooth operator, Lot 60 exhibits a nice small Angus skull and added spine length; which lends us to believe he should be a safe option in the heifer pen. His dam, from the potent Lark cow family, produces quality every year. Lark 20F is powerfully constructed with a ton of rib shape and maintains excellent body condition during all months. Her first son was selected by Hillcrest Colony in our 2021 Bull Sale and a daughter selected by Elkhorn Red Angus in 2023. Her first calving daughter is one of my personal favorites! Average wean ratio of 101 on 5 calves. Parent Verified and Angus HD Tested

LOTS 96 - 108  
*Prostar*  
 SONS

Daughter - Blackbird 198N

We purchased a semen pack on Prostar after laying eyes on him at stud. We thought he was one of the best Angus bulls that sold that spring. He brings muscle, body, ruggedness, and awesome foot scores in an early maturing growth pattern that does not slow down after weaning. Look for a Prostar son to add muscle shape, payweight and foot quality while keeping maternal traits at the forefront.

Dam – Tibbie 80F

“Program 80N” was an early standout alongside his stunning dam this summer. Tibbie 80F is big barreled, awesome footed and sound uddered. Year after year she outproduces herself. Her first son “Jet Set”, is the resident herd sire at Iron Plains Ag; they have also purchased one of her daughters. Her Chism son was selected by Miles and Sherri Anderson last year as a sale feature. And her Showman daughter made the trip down to Texas to the Bragg family. Average wean ratio of 105 on 5 calves.

Lot 97 has a commanding pen presence and will find many friends on sale day. Bid with confidence on this stud. You aren’t just buying a bull, you are buying the Six Mile Program.

Parent Verified and Angus HD Tested  
Terms to be announced

Maternal Brother – Jet Set 298J

*Lot 98*

Stout as a truck, Lot 98 will add red meat to a calf crop. His highly productive dam has put numerous bulls through bull sales to Anderson Ranch, Iron Plains Ag, Sayers Farms as well as Sin City, (a past bull sale high seller) is the resident herd sire at Double F Cattle. One daughter is retained in herd and she is flat out awesome as a first calver! Average lifetime wean ratio of 105 on 6 calves. Parent Verified and Angus HD Tested

Dam of Lots 107 and 108 – Duchess 172B

Maternal Brother to 107 and 108 – SIXM 159H

LOTS 109 - 115

*Four Leaf* SONS

Dam - Lady 51E

The maiden calf crop for Four Leaf 157L. He was sourced for his true Angus characteristics with a dense and powerful body build while maintaining a balanced EPD profile and backed by a stunning CAA Elite dam. These bulls are easy to identify in the pen with their skull shape, scope and presence.

We think pretty highly of this dude. "Quadrant 245N" is massive, rugged, hairy, big scrotal and out of a stunning cow. He has been a favorite of many folks that have toured the bull pens.

Susie 369F is a female who is easy to spot on herd tours - easy keeping, level udder with excellent teat size and placement, hairy and attractive. Two daughters are retained in herd. One son sold to Ponteix Farming in 2024. Ask Tyson for a cell phone video of this gorgeous cow.

Dam - Echo 479L

“4 on the Floor” is a head turner and big time herd sire prospect. Whenever I am out looking through bull pens, I wait for a bull to catch my eye multiple times before writing his number down. If you are like me, I bet you will have Lot 110 circled and starred a few times. He grabs and maintains your attention like my kids watching “K-Pop” (IYKYK).

The Echo cow line is leaving a profound impact on our herd in a short duration. The dam of lot 110 is a fertile, low maintenance model Angus cow with a perfect udder. Her dam is the mother of Lot 104. She weaned this calf off with a notable 116 wean ratio. Ask Tyson for cell video of her. Parent Verified and Angus HD Tested

Sire of Lots 126 and 130 – Helix

One of my favourite bulls in the sale regardless of color or age. “Livingston 428M” has been a phenotypic standout through every stage of the game. He effortlessly combines genuine muscle mass with a proud and athletic posture. He is balanced on paper with respectable, not extreme, genetic predictions.

The Helix sons were a hot commodity last spring in our 50th Annual Bull Sale with a large percentage of them finding their way into purebred operations. They were respected for their foot size, shape and design coupled with added volume and muscle while offering superior maternal worth.

Beauty 112H is youthful and sound with the incredible foot structure that the Diesel offspring became popular for. Her udder will last well into her teens with a tidy suspension and more than adequate milk production.

*Lot 132*

132

From the Cabana EL Volcan program comes Heredero 901M. His sire, Heredero 5963 was a past Champion at the esteemed Palermo Exhibition (the largest cattle show in S.A). The Zelda cow family is considered one of Argentina's finest and most consistent cow lines. In the flesh, Lot 132, is smooth and attractive in his design. His genomic predictions suggest he will work well in the heifer pen for many years.

Sire – Zelda 5963

*Lot 133*

To round out the trio of Argentine bulls, Euro 906M is another embryo bull imported from the Volcan program. His dam is one of the most notable cows in South America, claiming Champion female at Palermo in 2013 as well as "Dam of the Year" in 2018 and 2019. She is the dam of Heredero 5963 (sire of Lot 132) one of the most heavily used sires in Argentina.

Sire – Euro

A cool cucumber to lead off the Simmental division! This baldy bull is loose made, sound and proud with an ideal female for a mother. Red Doll 943G was our pick of the Westway cow herd a few years back and she has performed well in Fir Mountain. She has two gorgeous uddered, smooth made daughters retained in our herd that are full sibs to Lot 135.

Dam - Red Doll 943G

Footnote for Lot 138-139  
 These two ET brothers are backed by one of the most admired Simmental females in the industry, HLTS Sammie. An interest in Sammie recently commanded high dollar last fall, further highlighting the strength of this cow family. Their sire, Captivate, has been widely used across the industry for his calving ease and strong maternal traits—qualities we believe Lots 138 and 139 will also pass on to their progeny. Their EPD profiles further support this expectation, ranking in the top 25% of the breed for most traits.

<b>BREED AVERAGES</b>		11.8	-0.9	61	96	6.7	25	16	0.29	0.04	21	0.09	0.007

**BIDDING:** Each animal will be sold to the highest bidder. Whenever there are two or more bids the auctioneer will settle any disputes.

**TERMS:** The terms of the sale are cash. The right of property shall not pass until after the settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch. Financing terms are available if prior arrangements are made with Clayton and Corrine.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Cattle will be kept free of charge until May 1, 2026, when they are to be picked up or delivered. We strongly urge the buyer to insure any bulls left, as they are yours when the hammer falls.

**INSURANCE:** A Livestock Insurance Agent will be present to care for the insuring of cattle.

**CERTIFICATE OF REGISTRY:** A certificate of registry and transfer will be furnished on all cattle sold as registered animals. Six Mile will ensure all animals sold internationally are transferred in the proper country.

**ANNOUNCEMENT:** Changes of catalogue information relating to the animals offered for sale will be announced from the auction block and such announcements shall take precedence over the printed matter in this catalogue.

**BREEDERS GUARANTEE:** Six Mile Red Angus guarantees to sell you a bull that has passed a semen test and breeding soundness evaluation completed by a qualified, licensed veterinarian. However, should a problem arise, please let us know so arrangements can be made without delay. Should your bull fail to be a satisfactory breeder - as agreed upon by the buyer and seller - he will be replaced with a bull of equal value. Should this not be possible, an adjustment will be made to reflect the value of the bull in question or a credit given towards the purchase of another bull. Yearling bulls shall be guaranteed breeders for no more than 20 females. AGAIN, each bull has passed a semen evaluation, however, it is the buyer's responsibility to make sure that your new bull can physically service a female and can settle them. We will not provide replacement or adjustment for physical injury or mismanagement. Bearing this in mind, we stress the importance of insurance on your bull. At no time shall the seller's liability exceed the purchase price of the bull. In the event of any unlikely dispute the standard terms and conditions of the Canadian Angus Association will apply.

**IDENTIFICATION:** Each purebred animal carries a readable tattoo.

**LIABILITY:** Although every precaution will be taken to protect the safety and comfort of the buyer, neither owners, sale manager, clerks or anyone connected with the sales assumes any responsibility, legal or otherwise, for damage of any kind.

**HEALTH STATUS:** All Six Mile cattle have been under the following vaccine schedule: Birth: Vitaferst-Care, Nasalgen 3PMH, Branding: Vista Once SQ, Vision 8 Somnus, Pre-Weaning: Vista Once SQ, Vision 8 Somnus, Clean-UP II, fenbendazole dewormer, Yearling: Clean-Up II & Vira Shield 6+ Somnus (females)

**US FUNDS & EXPORT:** American money will be accepted at the most current rate of exchange on sale day and announced before the sale. Bulls will be export-tested for \$150 per bull and delivered as soon as possible following the sale.

**RIGHT TO DRAW SEMEN:** Six Mile reserves the right to in-herd semen uses on any bull sold in the sale. Semen Collection will be at our expense and buyer's convenience, with a minimum of 100 units collected.

**DNA TESTING:** Bulls have been DNA tested and Dam Verified with most being Parent Verified.

**SIGHT UNSEEN PURCHASES AND GUARANTEE:** If you are unable to attend our sale, but are interested in our bulls - We can take an order on any of the bulls in the sale. Our sales consultants can also help you make selections. Give Clayton, Corinne or Tyson a call to ensure the bulls you (or our sales consultants) have selected are ones we feel will work for you. If you have discussed your selections with Clayton, Corinne or Tyson before the sale, your satisfaction is 100% guaranteed. When the bull is delivered to you, you are under no obligation to take him should he not meet your needs.

## DELIVERY OF BULLS:

We will continue to offer **FREE DELIVERY for the first 500 miles**. This is for all purchases paid for in full within 14 days of the sale date. (Unless other arrangements are made) We may not be able to deliver directly to your ranch location, but rather to a central location close to you, where you will meet us and pick up your bull. We will give you as much notice as we can prior to delivery. Beyond 500 miles, we will still coordinate delivery and will add the charge to each invoice.

### Cost of Delivery Beyond 500 Miles

0-500 miles Free Delivery

500 – 700 miles \$350 per customer

(Up to 3 bulls)

700 – 900 miles \$550 per customer

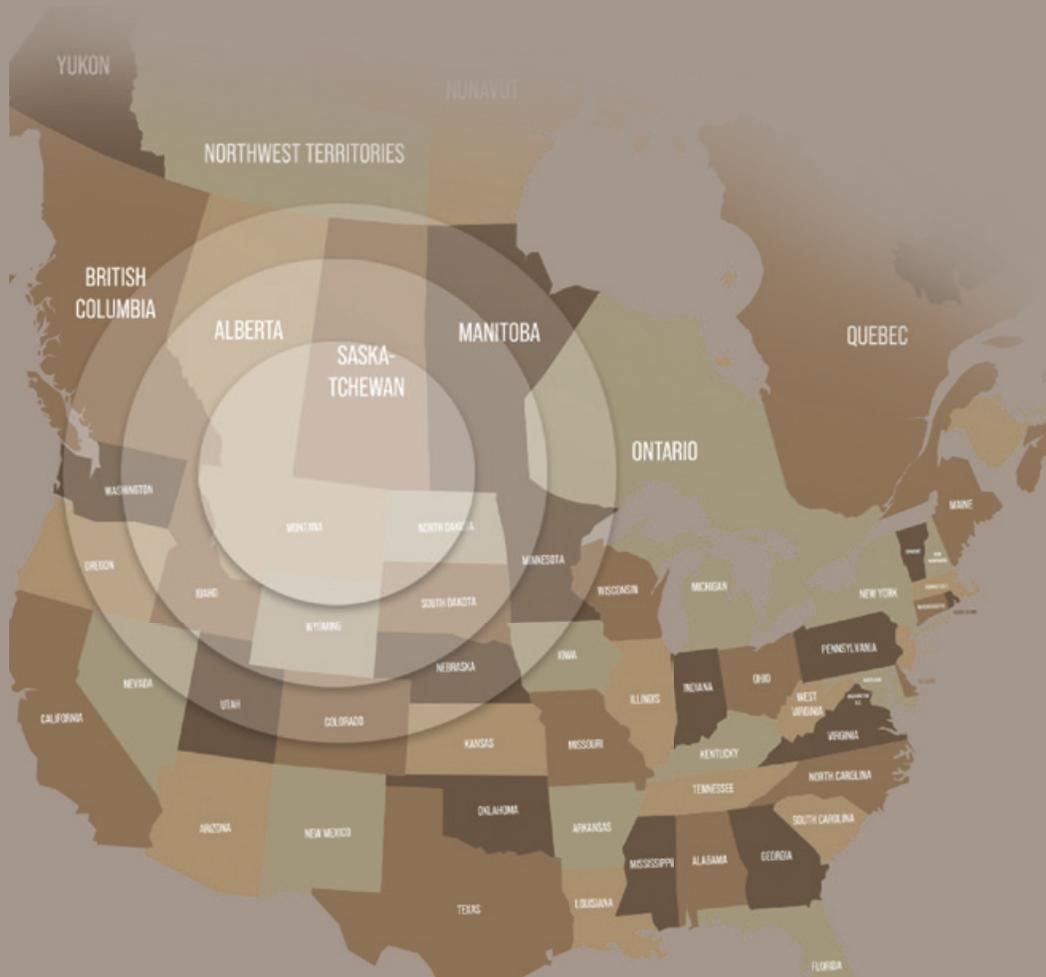

(Up to 3 bulls)

Over 900 miles – we will work with you to coordinate the remaining distance which will be your financial responsibility.

For all International Purchases (U.S. and Mexico) We will do all of the health and export testing required for a charge of \$150 per head which will be added to your invoice at time of sale. Delivery will be the same as any other, with the first 500 miles free and the balance being added to your invoice.

\$100 Rebate per bull will be offered if you pick up your bull at the ranch within one week of the sale and your purchase is paid for in full at that time.
