# SLIDING HILLS CHAROLAIS

## *Welcome*

The Hordos and Weinbender Families wish to extend an invitation to our 20th Annual Bull Sale. Our hospitality will be second to none as well as the bulls in this years offering.

For 20 years our intentions have remained simple, to provide our customers with sound beef bulls that go out and work. The bulls are developed with longevity in mind and are backed by an accurate spread of information to help you select your next herd sire. From gestation length to ultrasound data all the tools are here, and we pride ourselves on that.

Our focus has always been to raise a fertile, productive cow herd. A 70-day breeding season has been our norm for many years. All AI and natural breeding dates are recorded which allows us to provide a gestation length for each calf born on the farm. Calving ease is of the utmost importance to us. Every calf is weighed within 12 hours of birth, again at weaning, then again at yearling. This information is key to help us with important herd management decisions. We continue to include ultrasound data, this provides us with another tool to compare sire groups within our program. The females in our herd all receive a disposition score, they all must maintain a respectable comfort level with us during calving and throughout the yearly routine.

Raising livestock that are consistent in quality and type is the outcome of our program. Order buyers across our nation pay premiums on pens of cattle that meet these criteria. We can guarantee the offering we have in this year's sale is our top end, which is what our valued customers deserve.

If you have any questions on the sale feel free to give any one of us from Sliding Hills a call,

Regards,

## *The Weinbenders*

### **BULLS WERE ULTRASOUNDED ON FEBRUARY 6, 2026**

Sale day note - All bulls will be sold by video presentation, we encourage you to view the bulls prior to the sale.

### **SALE BULLS HEALTH PROGRAM**

**AT WEANING - BoviShield One Shot & Ultrabac 7/Somubac**

Watch & bid online at DLMS.ca. Please register to bid before the sale. Mark Shologan 780-699-5082

Internet Bidding Available

### *Video Sale*

All bulls are sold via video presentation. Please plan to view the bulls prior to the sale or come early sale day.

### *Delivery*

Rebate of \$150/bull if you take your bull home sale day or the day after. Delivery after May 1 is \$150/bull. Trucking costs will be split 50/50 for bulls going into Eastern Canada or British Columbia.

### *Insurance*

Larry Toner Agencies..... 306-834-7652  
All bulls remaining at Sliding Hills/Mission Ridge must be insured.

### *Buyer Draws*

SweetPro Clayton Hawreulik .....306-621-3824

Grace's Blanket Auction

For details see page 20

## *A note from Bohrson Marketing*

On behalf of Sliding Hills and Mission Ridge, welcome to the 20th Annual Bull Sale. Wow 20 years... that's an accomplishment! This year's sale has plenty to offer, great Charolais and Hereford bulls in a friendly welcoming environment and a special surprise to celebrate 20 years of bull sales for the Weinbender Family. The Weinbenders have always been eager to supply a range of bulls for their clientele. Take for instance two bulls sure to help with some calving ease would be the LT Count Down and DCR New Salem bulls. With possibly more heifers saved back due to low cattle numbers these bulls should be seriously studied. I'd also like to note that they have some pretty overwhelming performance to boot. On the other hand, if you're in the market looking for the bulls that can really put some flesh on the scale, some real performance is also available. Search out the DYV Paynes Halftime calves they are well known for adding length, thickness, hair and are quiet as can be!

The Sliding Hills gang is very proud of their momma cows, and rightfully so. When walking through them you can't help but admire their femininity and their beautiful body shape with sound foot and leg structure. Be sure to check out the pictures on the reference dams page... you will see what I mean. With this in mind, I'll talk about the special surprise. Charolais Breeders take note! Sliding Hills are offering up a once in lifetime opportunity. A pick of the heifer pen! This is a special offer to celebrate 20th Annual Bull Sale. A little twist, it's not from the 2026 calf crop, it's from the 2025 calf crop. Only 2 females have been sold in the past 15 yrs. Getting to come in and pick a heifer that has made it through the stringent culling program is a huge advantage to you. You can pick a heifer that has made every cut and is ready to be bred. Once you pick the heifer you can also access their bull battery, which is proven and very deep, or breed them to your own heifer bull. FYI, you might settle an argument which heifer is the best...Carey and Dale have been pointing out their top pick to me...im staying out of it. The true winner will be the buyer.

The gang over at Mission Ridge are very excited to bring probably their best set of bulls yet. I know that they strive to produce low maintenance cattle that minimize effort and inputs. Producing bulls that go and get the job done and done well! While talking with James, it's clear that he is pretty high on a group of bulls with new genetics not only in their herd but not many others in Canada either. After a trip to tour a great group of cattle in Sheridan, Wyoming it was clear that he had to bring those same genetics into his own herd. The Hordos family jumped at the chance to buy some semen from the NJW 247C 41E Soul 173K. Take note of the added shape, length and red meat this bull brings to the table in a homo polled package. I for one am really looking forward to seeing them sale day.

*The Bohrson Marketing Team*

# 25 PICK OF THE 2025 SLIDING HILLS CHAROLAIS HEIFER CALVES

In honor of our 20th annual sale, we wanted to do something special. After much deliberation we have decided to offer pick of the 2025 born heifer calves here at Sliding Hills. An opportunity that has never been offered during our time in the breed and may not be offered for another 20 years.

We have kept our cow herd closed, only selling 2 females in the last 15 years. The cow families run deep including the Shania's, Adelaine's, Miss Carlo's, Callie's, Serenade's and the Sue's. Our cow families we have built around years of strict culling. The females remaining have always been classed as the untouchables. This group of heifers features ET calves by our Shania 9E donor and M6 Germaine 484 (2 full sisters to SVY Historic 241K). Many of the heifers are off 4 herd sires including our proven calving ease specialist, DCR New Salem K142 who's first daughters are milking this year and are flawless. Along with Sparrows Parker 806F, LT Countdown 9712, and DVY Paynes Halftime 11K

The selection must be made shortly after the sale, if the buyer wishes we will keep the heifer here and breed her to one of our herd sires.

Please feel free to reach out with any questions or come tour the heifers before sale day. The coffee is always on. A list of heifers is available upon request. Selection to be made by April 1st, 2026

# TAKING CARE OF *business...*

Thank you Mike! It's been an honour and a privilege to have worked with you over the years! Congratulations on an incredible career, you haven't just sold livestock; you have built a reputation based on trust, integrity and hard work! Wishing you all the best in your retirement!

# Grace's Blanket Auction

Grace, who turned 4 in January has experienced a year filled with both joyful moments and significant challenges. Born with Klippel-Feil Syndrome Type 4, Grace has faced more obstacles, yet she continues to defy expectations with remarkable strength and bravery each and every day.

Over the past year, Grace's medical journey has brought additional diagnoses, each one difficult to navigate in its own way. Through it all we are deeply grateful for Hope's Home, which has become an essential part of our lives, providing the critical medical care Grace needs and invaluable support to her parents. We are forever thankful for the opportunities and compassion they have given our family.

**Quilt will be auctioned off at the beginning of the sale.**

**All proceeds go to Hope's Home in Regina, SK**

## *Quilt*

**Hope's Home**  
there's no place like hope

# MISSION RIDGE

HEREFORDS  
EST. 1978

## *Welcome!*

As we hit this point in time in the year preparing for our 2026 bull sale, it gives me another chance to reflect on our last year's successful sale. A special thankyou to everyone who expressed interest and purchased last year and years prior!

Congratulations to the Weinbender's on hitting the 20 year milestone with this bull sale! We love working with Carey, Lee Ann, and Dale each year and we look forward to celebrating on sale day!

There are several ups and downs that occur over the year in any cattle operation. Having said that, it is truly a rewarding and much deserving time to be in the cattle business, as we all know the grit and determination it takes raising livestock.

Again, this year we are truly proud to present our 2026 offering! While writing this, we sit at the halfway point in our calving season. With that we are calving out half and some full sisters to bulls we have sold in years prior and that excites us a bunch. Witnessing this truly makes me feel we are on the right track as a purebred operation. Although dad has been raising purebreds for a long time, I look back at when I started in the picture and seeing what we all went through in selecting genetics that worked for us, and trying to overcome some of the ones that didn't to the point now where I truly believe our cows are doing a lot more of the work than we are, and that excites me. Low maintenance cattle are something we strive towards, please feel free to stop in any time to tour the cows and bulls to see the path we are on!

Please use this as an invitation to join us on March 21 st , either in person or on DLMS!

Sincerely,

*James and Sarah*

**“We feed a 50% silage dry matter ration up to 40% to 45% lentil and cereal straw most years. With Sweetpro Stage of Growth tubs and Mineral EX II tubs, we can control consumption to where we want it and control the cost depending on feed quality. We have seen up to 20% total reduction in feed when used at .75 to 1 pound a day. And with grain and forage prices the cost of running Sweetpro at a higher consumption is an easy decision.”**

## *What do the numbers mean?*

### **EPD'S EXPLAINED**

**BW EPD** (BIRTH WEIGHT): Describes genetic differences for progeny birth weight. A larger number indicates heavier calves at birth.

**WW EPD** (WEANING WEIGHT): Genetics difference for progeny weaning weight. A larger number indicated heavier calves at weaning.

**YW EPD** (YEARLING WEIGHT): Genetic difference for progeny yearling weight. A larger number indicates heavier calves at one year of age.

**MILK EPD**: Genetic difference for daughters' progeny weaning weight due to their milk production (grand progeny). A larger number indicates heavier calves from daughters at weaning.

**TM EPD** (TOTAL MATERNAL): Genetic difference for daughters' progeny weaning weight due to their genes for milk and growth (grand progeny) A larger number indicates heavier calves at weaning.

### **CARCASS DATA EXPLAINED**

**REAI<sup>n</sup>** (RIB-EYE AREA): Genetic difference for progeny rib-eye area in square inches. A larger number indicates bigger rib-eye muscle.

**B. FAT** (FAT THICKNESS): Genetic difference for progeny backfat thickness at 12/13 rib. A larger value indicates fatter carcasses.

**MARB** (MARBLING): Genetic difference for progeny marbling score in marbling score units. A larger number indicates more marbling.

**%LMY** (LEAN YIELD): Genetic difference for progeny lean meat yield. A larger number indicates more lean meat in the carcass and more yield grade 1 carcasses.

### **THE PERCENTAGE CALVING CHART**

1. In any breed, the average beef cow should calve 7% of her body weight.
2. Charolais and Hereford cows weigh on average between 1200-1800 lbs. Expect a calf birth weight between 98 and 126 lbs.
3. Calving ease is MORE important than birth weight. A longer calf will calve easy but the extra length of body will add birth weight.

### **AVERAGE GESTATION LENGTH**

**CHAROLAIS**: 286 days

**HEREFORDS**: 285 days

*Thank you to our 2025 buyers... we appreciate you!*

**Terms:** The terms of the sale are cash or cheque payable immediately after the sale in Canadian funds. All settlements must be made with the sale clerks before cattle will be released. The right of property will not pass until final payment is made.

**Bidding:** Each animal will sell to the highest bidder. Bidders unable to attend the sale may phone their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**Disputes:** Bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision is final.

**Announcements:** Announcements made from the auction block will take precedence over printed matter in the catalogue. Buyers are cautioned to pay close attention to an-

nouncements.

**Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. All animals left with the seller must be insured.

**Certificate of Registration:** Each animal will carry papers issued by the appropriate breed association. A certificate of registry duly transferred will be furnished to the buyer after payment has been made.

**Delivery:** Assistance will be given in making delivery after the sale. The purchaser agrees shipping arrangements will be at the convenience of the seller, but will be as soon as practical after the sale, at the buyer's risk.

**Breeder Guarantee:** Should any bull fourteen months of age or over, fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months follow-

ing the date of the purchase or six months after the bull has reached fourteen months of age. The seller has the right and privilege of six months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

**Exception Guarantee:** In the case where the animal is subjected to any hormonal or surgical reproductive techniques after the sale, this guarantee shall be null and void. The seller is not responsible for damage caused by foreign bodies after the animal has been sold or for sickness not apparent at sale time. In no event shall the seller be responsible for more than the purchase price.

**Accidents:** Although every precaution will be taken to protect the safety and comfort of buyers, neither the sale manager, auctioneer, or sellers assume any responsibility and disclaim any liability, legal or otherwise, in the event of accident or loss of property.
