# WELCOME to our bull sale!

***Coulson, Lachlan, Stacey, Michel, Ellie, and Merrick***

It is a pleasure to welcome you to our annual bull sale in Fort Macleod.

What an exciting time to be involved in the cattle business, as the rewards for consistency and perseverance have never been higher. We value our customer's investment in our program as many have become great friends.

In our breeding program, we continue to select traits for maternal function, fertility, and longevity. Performance on grass and through the feedyard compliment our selection traits. It is very gratifying to be part of the results our customers are having and it drives our commitment to select traits that define their success.

Looking forward to seeing and visiting all our customers and friends on February 5 th 2026, in Fort Macleod. Thanking you in advance for your valued input, evaluation, and investment in our program. We are proud to be part of these rewarding times within our great Angus breed and appreciate your trust as we move forward together.

# PROVEN COW FAMILIES, PURPOSE-BRED BULLS: THE 34N INFLUENCE

Stauffer Ranches is proud to offer 11 sons of two of the most proven and influential females in our program, **SAR MISS MORRISON 110Y** and **SAR LASS 67W**. Both donors trace directly to **SAR MISS MORRISON 34N**, a cornerstone cow whose influence continues to anchor our herd in maternal quality, longevity, and structural soundness. This cow family has not been built through volume or convenience. Instead, it has been shaped through generations of natural calving, proven performance at weaning, and the kind of fertility and productivity that stand the test of time. Every generation tied to 34N has earned its place by working in real-world conditions, and any bull or female we have ever retained from this line has been out of necessity to the improvement of our own herd.

As we evaluated ways to preserve and amplify this cow family, we chose to integrate 110Y's and 67W's influence through a focused embryo-transplant program. Once we decided we had enough eggs, 110Y returned to natural production for the past two years—this is the natural fertility and longevity that we expect from cows that carry the 34N stamp. The 34N influence bulls in this sale represent that same foundation: performance-proven, fertile, and built from cow families that have put in the work for us, not simply looked good on paper. They bring forward genetics designed for long-term function, maternal strength, and operational reliability.

### BULLS HIGHLIGHTED WITH ASTERIX\* RECOGNIZE CALVING EASE.

We feel these bulls would be suitable to breed heifers based on their pedigree and birth weight. Important to note, birth weight does not solely define bull selection to be used on heifers, but rather his build and pedigree. I've always said — very few cows could give birth to a block of salt, even though it only weighs 45lbs.

# TAMMY KENNEDY

MARCH 10, 1963 - NOVEMBER 28, 2025

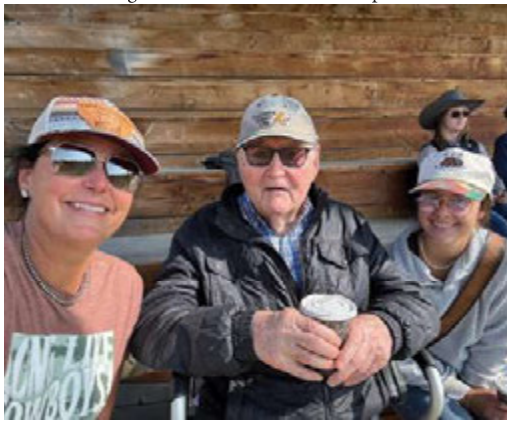

Tammy was a very valued member in our community. Dean & Tammy and family were involved in our program and bull sale for many years, bringing many great ideas and energy to the table. Tammy's thoughtfulness and personal touches were appreciated by many. Her flair for design and detail, matched with her quick wit and dry humour will be missed by all.

May her spirit continue to live through her family and friends.

## Kehler Stauffer Water Safety Endowment Fund

Each and every year the Kehler Stauffer Water Safety Endowment Fund proudly supports the water safety curriculum taught in schools. There is a wide distribution of this instruction including many schools, colonies and communities. The feed back has been tremendously gratifying to hear and hopefully having a lasting impact on our youth.

Gifts to this fund are gratefully accepted from individuals, families, businesses, or corporate donors, and support the continued water safety education of youth throughout Southwestern Alberta.
