# Welcome to our 2026 Bull Sale

Wow, what a great time to be in the cattle industry! With record high cattle prices this fall we can all be excited about the calves about to hit the ground. We are very proud of the bulls we have to offer you this year. Some new genetics along with old proven sires make a great offering in this year's catalogue. We strive to produce quality bulls with good feet, temperament, and longevity. As always we will be available to show you the bulls ahead of time and they will be on display sale day. Come have a coffee before the sale and take a walk through the bull pens.

We are grateful for the buyers that came and braved the cold last year and those that followed along on DLMS. We appreciate your ongoing support of the Stewart Limousin, 777 Cattle and Redline programs.

Hope to see you sale day!

## EPD's

EPD'S (expected progeny difference) can be a very useful tool in selecting cattle for any herd. Due to these numbers changing weekly and the confusion of what these numbers actually mean, we have decided to leave them out of the catalog this year. We will have them on hand and would love to chat with anyone interested in them or who would like to learn more about ways to use them in selection of your next herd bull.

**Please give Tyler, Sam, Brandon, or Murray a call for this information.**

# 777 Cattle Simmental Division

We have been working on the Simmental division now for a number of years and are excited to bring a small but high quality group into this year's bull sale. Just like the Limousin side we strive to make functional cattle with good feet, udders, temperament, docility, muscle and longevity. We start off the simmentals with a bull that was a standout from day one. He's a

true powerhouse of a bull. STEW 3N is hairy, stout, muscular, impressive and off our walking herdsire RF Sterling that has been extremely consistent for us. We then move into 3 maternal sibs off a great cow we purchased from Silvertop Simmentals. Last but not least a really nice red calving ease bull at the end. We're proud of this group we have built to offer you.

# Welcome from Redline

Welcome to the 2026 Stewart Limousin and Redline Bull Sale, we are very excited to present this year's bull offering. We feel with today's cattle market it is necessary to add pounds to calves every step of the way. Our bulls are bred with the cattle producer in mind, selecting for length of spine, width of body, and muscle expression. All while maintaining sound structure, calving ease, and vigour that we know and expect from the Limousin Breed. Purchase our bulls with confidence knowing that we stand behind our bulls and will back our product. All bulls are born on grass, raised on grass then put on a high forage diet with longevity of the animal kept in mind. If you have any questions about the Redline bulls, feel free to stop in anytime for a coffee and a tour of the cattle.

**HOMO POLLED, PARENT VERIFIED**

Maximus is a bull we have been exited about for a long time! He has excellent feet; impeccable hair and his structural integrity and soundness are factors that truly sets him in a league of his own. We used him to breed with in July and August where he covered 24 cows and never missed a one! His pedigree is also intriguing; his Dam PYN Zoom Bloom 707H was purchased from the Western Select when she was a bred heifer and went into our flushing program. We used NEM John Wick for his maternal side, length of body, muscle and all-round soundness. What a cross it made!

NEM Maximus has already had in herd semen collected on him.

**HOMO POLLED, PARENT VERIFIED**

Maverick is the maternal brother to NEM Maximus in this year's sale, when we flushed PYN 707H we flushed her to Fantom as well. He is going to add muscle shape, length of body and hair to his calves.

**HOMO POLLED, PARENT VERIFIED**

Mike is backed by one of the top cows on the farm who never missed with her progeny. He has width of body, muscle expression, excellent feet, and huge scrotal what else can you ask for in a future herd bull. When we needed a breeding bull in the spring, he was semen tested and he measured 38.5 cm at 13 months of age. NEM Mike has already had in herd semen collected on him.

**HOMO BLACK HOMO POLLED, PARENT VERIFIED**

Midnight is the type of bull we were looking to produce when we purchased RPY Paynes Hitman soggy, hairy, muscular without giving up on calving else. Hitman heifers have been selling in other sales and been very well received. The dam of this cow has been a no miss cow selling top end bull at our sale to Steven Abt and Allen Berry. With daughters that produce as well, NEM 165K has done well with her first calf which is NEM 24M in this year's sale. Midnight has been tested positive for homozygous black.
