WOODEN SPOKE LAND AND CATTLE | WRIGHT LIVESTOCK

# Welcome

## TRIPLE L ANGUS

What a great time to be in the cattle industry!!! Welcome to another edition of our bull offering. Every year we strive to improve and raise the best we can. Through our sire selection and management process we can definitely say this group is one of our deepest and highest quality to date.

New this year for us are a few powerful aged embryo bulls. With our purchase of many powerful Black Meadows cows, the black numbers have increased and we are happy with the direction this group is heading.

Come early for lunch, stay late for visiting and enjoy the sale. Bulls available for viewing any time.

*Randy Kern and Connor Tetzlaff*

## WRIGHT LIVESTOCK

On behalf of the Wright family, we are excited to welcome you to this year's Sudden Impact Bull Sale. Our mission at Wright Livestock is simple — to produce bulls that combine performance, muscle, and structural soundness with proven maternal strength and practical value for commercial and seedstock producers alike.

This year's offering features a strong lineup of herd bulls developed to excel in the pasture. From stout, rugged, performance-driven bulls to moderate-framed, calving-ease prospects, each animal in this catalog represents years of careful selection, cow family evaluation, and performance testing. Many are backed by proven genetics, purchased females, and pedigrees we are proud to stand behind.

We encourage you to take your time reviewing this catalog, study the pedigrees, and consider how these bulls can complement your operation. Our goal is to help you find bulls that will add pounds, maternal strength, and longevity to your herd — delivering real-world results for years to come.

Please don't hesitate to reach out prior to the sale if any questions arise. We are happy to provide additional information or discuss how any of these bulls might fit your program.

Thank you for your interest in Wright Livestock and the Sudden Impact Bull Sale. We look forward to visiting with you at the sale and assisting you in selecting the right bulls to make a lasting impact on your program.

Sincerely,

*The Wright Family*

## WOODEN SPOKE LAND AND CATTLE

As we prepare for the fourth annual Sudden Impact Bull Sale, we are excited to offer a super even set of bulls. We are proud to sell with along with Triple L Angus and Wright Livestock again. Our two-year old program allows us to slowly develop our bulls into functional and easy doing bulls. Always keeping the commercial producer in mind our bulls are built to last with lots of longevity. We stand behind our bulls 100% and if you have any issues at all we want to be the first ones to hear about it. We are proud of the offering and if you're in the area don't hesitate to stop in for a look. We would like to thank everyone who has trusted and supported our program in this journey so far. Feel free to join us April 4 at the Tetzlaff farm at Viscount for lunch and the sale.

*Turner Lowe*

Back in 2017 I noticed the Crank bull in the Miller Wilson stall while I was actually trying to clean it up a bit for them. Fast forward a few years later and we flushed our mainstay Lucy 62Y cow and put in some embryos for fall calving. Unfortunately for me it was only bulls we received but they have turned out excellent! Quiet, good muscle and bone on them. Can't miss mating.

JKK 519N is a moderate-framed, shapely herd sire prospect that offers an attractive combination of muscle and balance. He carries natural thickness across his top with expressive quarter shape, all in a smooth, well-proportioned package. Born at a moderate 70 lbs, 519N presents added calving ease potential without sacrificing performance and muscle expression. His practical build and structural correctness make him a versatile option for a wide range of programs. Backed by a strong maternal cow family known for productivity, udder quality, and longevity, this bull offers the kind of maternal foundation that adds long-term value. The cow power behind him adds confidence that his daughters will be functional, feminine, and built to last. A balanced, moderate bull that blends shape, muscle, calving ease potential, and maternal strength into one complete package.

RW 510N is a high-quality herd sire prospect backed by proven genetics and performance. His dam was a purchased female from J Bar D Angus, adding a strong maternal foundation and predictable cow power to his pedigree. He offers a true combination bull look — carrying a ton of natural growth and performance while still maintaining calving ease potential. With length of body, muscle expression, and overall balance, 510N is designed to add pounds to a calf crop without sacrificing birth weight control. Backed by a productive cow family and built with structural integrity, RW 510N is a practical option for producers wanting growth, maternal strength, and calving ease in one complete package.

JKK 513N was a member of our pen of bulls exhibited at Canadian Western Agribition, representing the kind of quality and consistency we strive to produce. He's a sound, well-balanced herd sire prospect designed with longevity in mind. Noted for his calving ease potential, 513N offers a smooth shoulder, clean front end, and an attractive overall pattern without sacrificing performance. He stands on a strong, correct set of feet and legs, moving freely and confidently. A practical, functional bull that combines eye appeal with structural integrity — JKK 513N is built to add value and predictability to your program.

JKK 518N was also a member of our pen of bulls exhibited at Canadian Western Agribition, showcasing the uniformity and quality of this sire group. He is a more moderate-framed bull that excels in body length and overall balance. Long-sided and smooth in his design, 518N offers an attractive, complete look from profile while maintaining depth of rib and structural correctness. His moderation and symmetry make him a practical choice for producers focused on efficient, functional cattle. A well-balanced herd sire prospect that combines length, soundness, and eye appeal in a manageable, moderate package.

JKK 490M is a powerful, extra-age herd bull prospect built to handle a heavy service load. With the added maturity and development that come from being fall-born, he's ready to cover a large group of cows with confidence. He stands down on a big foot and solid bone, carrying exceptional width across his top and impressive natural muscle expression from end to end. Deep-bodied, rugged, and masculine in his design, 490M offers the kind of shape and mass that translates into added pounds at weaning. If you're looking for a bull with the age, power, and performance to make a serious impact on your calf crop, JKK 490M deserves a hard look.

RW 534N is a big, stout, rugged-made herd sire prospect that commands attention. He's built with extra mass and dimension, carrying shape and muscle throughout in a powerful, masculine package. Loose-hided and bold in his rib shape, 534N offers the kind of natural thickness and substance that translates into pounds at weaning. He stands down on solid bone with a functional build designed for longevity and durability in a breeding pasture. A heavy-structured, performance-driven bull that combines power, muscle, and rugged character into one impressive package.

EPDS CE -2.0 BW 2.4 WW 38 YW 60 MILK 24

RW 539N is the youngest bull in the offering, yet he certainly doesn't sacrifice performance, muscle, or structural soundness. He stands out for maintaining shape and dimension while still being one of the later-born bulls in the group. Balanced in his design, 539N carries natural thickness and muscle expression with a smooth, athletic build. He moves freely on a correct set of feet and legs, showing the kind of structural integrity that supports long-term durability. A younger bull that combines growth, muscle, and soundness — proving age doesn't limit quality in this pen.

Super long made and stout. Lots of hip and natural muscling Structurally sound His dam 25H has been one of our most productive cows, her calves are always at the top of the pen.
