REEGAN, OWEN, BRIAN, KIM, GRACE & SADIE

The objective of the Top Cut is to supply the cow/calf sector with the best known replacement females possible. This year we are bigger and stronger than ever with a group we are very proud of. The emphasis we select on is based from a starting point of over 600 heifers.

Quality temperament, structure, feet and colour pattern are all heavily accounted for. With this being our 12th year and in excess of 2000 females sold in the past, we feel we have the fundamentals covered and all the extras included in this year's offering. Agricultural and in particular the cattle business is our sole income and we live and breathe this industry every second of the day. The selection of bulls that we breed these females are carefully selected and come with the calving ease built in. We want your experience at the Top Cut to be a positive one and into the future. Please don't hesitate to contact us ahead of time on any info you'd like to know on how we do things around here.
