## OBI WELCOME

I welcome you to the 4th Annual Topham Red Angus Bull Sale at the ranch near Eastend, Sk.

The Topham family develop top end bulls in this progressive operation. The walking bulls they use are good footed, dark red with some capacity and size. The cowherd is where the foundation of the program is, a tremendous set of females with exceptional udders and foot quality. This is an operation that is a must see for all.

The yearling bulls keep getting better and better each and every year. Dark red bulls with that foot quality we are all looking for and out of very good mother cows. The foot quality of these is second to none as you will see when you come to visit the farm. The cows back up these bulls with great udders, docility, and foot quality. We all are searching for these traits, so I do recommend a serious look at these bulls. This is Topham Red Angus best set of yearling bulls to date. The drive is worth it for sure.

If you need any assistance, please do not hesitate to call any of the sales staff, Ian or myself to discuss the offering. Chelsea Gill from OBI Will be there on Site and she is very familiar with the offering and cowherd.

Mark Holowaychuk  
OBI Livestock Ltd.

**TOPHAM RED ANGUS**

# Topham Red Angus Welcome

What a year it has been! We went from not knowing if we would get enough feed, to getting 9 inches of rain in July and getting two years' worth of feed in the end. Then came the high-priced calves in the fall! We never ever thought we would sell steers for four thousand dollars a piece!

We have been busy running with the kids. Both the girls are playing club volleyball out of Eastend and Tyler is playing hockey with Frontier. All the kids are in 4H this year and they all have bulls selling in the sale.

I believe this is the best set of bulls we have ever had. With the 9 inches of rain in July, our weaning weights were the highest they have ever been and with a mild winter, the bulls averaged 3.1 lbs./day. The two-year-old bulls have been out on two quarters of land, so they have been getting their exercise, we just brought them in Feb.13th. All of these bulls will be semen tested and ready to go to work in anyone's herd.

We would like to invite anyone interested in touring the bulls and the cows before the sale. The bulls will be on display sale day, outside the sale barn. They will sell via video sale. Online bidding is available through DLMS. We would like to thank all of the bidders and buyers from last year. As well as thank our faithful customers who have supported us throughout the years and believe in our program. We hope to see you on March 25th!
