TERMS & CONDITIONS

Settlement Terms

The Terms of the sale are Cash or Cheque following the sale. No releases will be given until settlement or satisfactory arrangements have been made.

Bidding and Disputes:

Every animal entering the ring will be sold to the highest bidder. In case of disputes, bidding will be reopened between the disputed parties; the last bid accepted from the auctioneer will be the winning bid.

Accidents:

Although every precaution will be taken, neither Sales management, 7th Valley Angus, Townview Farms, and the facility owners assume any responsibility in this matter and disclaims any liability, legal, or otherwise in the event of accident or loss of property.

Insurance:

We insist that all bulls returning to 7th Valley Angus and Townview Farms be insured. All bulls become the risk of the buyer once sold. Melissa Stenger with Canadian Farm Insurance Crop will be present sales day.

Announcements:

Any changes from the information provided by the catalogue will be announced from the auction block. Announcements take precedent over information in the catalogue.

Delivery

Delivery will begin shortly after the sale. Free delivery offered on bulls within 300 km of the sale, deliveries further than 300 km after the sale will be arranged between seller and buyer.

BOHRSON
MARKETING SERVICES

Mark your calendars for March 20th, 2026 and plan to join us at Heartland Livestock in Swift Current for an outstanding bull sale event hosted by Townview Farms – the Girodat family and 7th Valley Angus – the Gillis family.

This is a tremendous opportunity to source quality Black Simmental and Black Angus bulls all in one place, at one time. The Black Simmental program from Townview Farms is built around powerful, highly maternal cattle with added performance and a strong emphasis on calving ease. Complementing them perfectly, the Gillis family's 7th Valley Angus bulls offer the consistency, maternal strength, and reliability the Angus breed is known for. Together, these two programs provide a balanced, practical offering for commercial cattlemen who utilize both breeds in their operations.

The strengths of Simmental and Angus genetics blend seamlessly — adding hybrid vigor, maternal quality, structural soundness, and pounds that pay. Whether you're adding performance, improving maternal traits, or looking to restock your bull battery, this sale presents a convenient and efficient opportunity to accomplish your goals in one stop.

It's a great time in the cattle industry, and an even better time to invest in herd sires that will move your program forward. Both the Girodat and Gillis families are dedicated stockmen who work hard year-round to raise functional, performance-driven cattle designed to thrive in real-world conditions. They stand behind their programs and are committed to customer success.

If you are unable to attend sale day, our team at Bohrson Marketing Services is always happy to visit with you, discuss the offering, and assist with your purchases in complete confidence.

We look forward to seeing you on March 20th in Swift Current for what promises to be an exciting and value-packed sale day!

Riley Bohrson

Welcome to our first annual bull sale, and thank you for being part of this milestone for our program. We're proud to offer a group of bulls that represent years of careful breeding, staying consistent to our goals, and a focus on cattle that perform in real-world conditions. While this is our first sale, this program has been shaped by the support, mentorship, and guidance of many people we respect in the cattle industry. To those who have helped us along the way, Thank you.

We strive to raise trouble free, sound, functional bulls with good dispositions, strong foot structure, and the ability to go to work and hold up in real-world conditions. These bulls have been raised on pasture, wintered on grass hay and pail fed grain, and developed with longevity and practicality in mind. Many of the blood lines represented in this offering are the same genetics we use and trust in our own commercial herd.

The coffee pot is always on at our place, feel free to come for a tour any time! We're truly grateful for the support that's helped us reach this first sale and look forward to visiting you soon.

0.0	1.1	55	94	5.0	20

- GJG Trapper 8N has been a deep sided, heavy made stand out since day one. The Rose cow family has been the backbone of our herd since we began raising seed stock, with just under half of our herd tracing back to the original Gillis Rose 33K who we had until she was 16 years old. The Herdsire look, Foot structure, and Depth of body on this guy is what we strive to raise in our operation.

- Recommended for use on Cows.
- Sale feature

DAM

SIRE

GRANDAM

- Iron horse is a sire we have sampled in the past and are now moving back to for his ability to put depth, hair, and performance into his calves without sacrificing the essentials such as feet and docility. Off of a first calf heifer, look for this bull for a tick up on weaning weight and to fill your replacement heifer pen with keepers.
- Recommended for use on cows.

- Ears aren't hereditary is what I told myself when we decided to put this guy in the sale as we felt he was too good to not offer. Another Iron horse off a first calver who if it wasn't for his frosted tips would find himself in contention for leading off our sale. This is a very soggy made bull that doesn't give up any length of rib.
- Recommended for use on Cows.

- GJG 32N offers the most calving ease out of any of our bulls on offer. Much the same as his paternal brother GJG 29N a small head that transitions into smooth shoulders, this bull will calve heifers with ease.
- Recommended on Heifers and Cows

Thank you for your interest in our program and for taking the time to study this year's offering. For nearly 20 years, we have been selling bulls and building a program rooted in quality cattle, honest management, and long-term relationships. Today, our kids represent the fourth generation involved at Townview Farms, and we are proud to continue what was started before us.

Over the years, our program has grown to include 60 purebred cows and more than 170 commercial cows. This growth reflects years of careful selection and disciplined breeding decisions, all with the commercial cattleman in mind. We are committed to producing cattle that work in real-world conditions and add value where it matters most.

This year's bulls are sound, fertile, and built to add value—whether that means calving ease, performance, maternal strength, or longevity. They have been developed with a focus on structural integrity, disposition, and efficiency, and are ready to go to work for you.

We stand behind these bulls and believe they will make a positive impact in your herd. If you have any questions or would like to discuss the offering, we welcome your call and look forward to seeing you on sale day.
