MONDAY, MARCH 16, 2026 - 2 PM

~ on the farm - Lenore, MB ~

**Featuring Canadas Largest Offering of Red Factor Charolais
78 Quality Charolais Bulls :: 60 Yearling Bulls and 18 Two-Year Old Bulls**

Jesse & Nicki

11th Annual Tri-N Charolais Farms Bull Sale!

Welcome to the 11th Annual Tri-N Charolais Farms bull sale!

The number says 11 but we are 40 years in the business!

As I'm writing this, we recently just got through the longest and coldest snap I can remember. -40C (-40F) + windchills, frozen water bowls and a barn past capacity of first calf heifers and their calves. We survived and thankfully never lost a calf. The calving ease, vigor and maternal traits in these cattle are incredible!

If there was ever a reason for a heifer not to take their baby or one not to suck (and die) this would have been an ample opportunity to do so!

As with bull sale season, everyone's mail boxes are full of sale catalogues. What makes us different?

- 1) We are commercial cattlemen at heart. The majority of our purebred herd sires start their careers in our commercial herd. At this time we rate these unproven bulls on their breeding ability, calving, calf color, calf vigor, calf performance, how they maintain their condition and feet etc.
- 2) Our cowherd is 100% natural bred. These bulls must travel and have good feet/condition to get their job done. There are no breeding boxes here and our herd bulls need to get out and breed cows naturally to earn their keep!
- 3) Our cow herd is close to 40 years in the making. They are big barreled, wide muzzled and ran the same way as many commercial producers. Included in each lot there's info on how long each bulls dam, grand dam etc have been in production. We are very proud of the longevity in our cow herd.
- 4) Rigorous culling. Only the best bulls sell. Bulls are culled at birth, before pasture time, weaning and throughout the year. Any bulls with sub par performance, heavier bw, poor calf vigor, feet/structure etc are pulled and sold as steers.
- 5) We present a large amount of info for our buyers to use in their selection process. We are proud to offer you some of the MOST INFORMATION that you will find in a bull sale catalogue and presented in a way that all cowboys can understand. No color coded charts on each bull that you need a PHD to know what it means!
- 6) Breeder Guarantee- We guarantee to get your cows bred. We have spare bulls kicking around at all times. If there is an issue, call Jesse. We will get your cows bred.
- 7) Subsidized delivery for our buyers across North America. Whether you live in Texas, Georgia, North Dakota, BC or Nova Scotia you qualify. Call Jesse for more info.

To all of you, our customers, and friends (far and wide), I'd like to thank you all for the strong patronage throughout the years. It's you that keeps us in business. There's a few of you that have been customers of ours for over 30 years! It is very humbling. If you are new, I always enjoy meeting you all and I hope our cattle work well for you. Be sure to introduce yourself sale day.

Again, this year we are happy to have Ryan Hurlburt (Auctioneer), Dory Gerrard, Kolton Macintosh, Terry Fehr and Herb Hinsburg as our sales staff! All are professionals in the business and are some of the best people you will find. Feel free to call any of them or myself about the bulls.

We hope to see you sale day. The beef business is our business and everyone is included.

Thanks,

Jesse

Video Sale

Videos will be available online at www.trincharolaisfarms.com. This is a video sale so be sure to come early and go through the bulls thoroughly in the pens as they will not be coming through the sale ring.

American Purchases

In the past 10 years, we have sold cattle to 25 states. It's easy to get your bull! We will do all necessary health tests in a timely manner required for export. Animals will be delivered to the nearest point of entry at the seller's convenience. American Buyers will be charged an additional \$300 USD/animal for the 1st animal and \$250 USD/animal for each consecutive animal to cover health testing costs and delivery to the border. We are also offering a subsidized trucking option for American buyers based on their location. Contact Jesse for more details.

Exchange rates will be announced sale day at current bank rates. At the time of printing \$700 USD buys \$1000 Canadian. There are no tariffs on Canadian cattle. All animals are guaranteed exportable to the USA. If they don't pass their export tests, you don't own them!

Sale Attendance Rebate

Attend our sale in person and receive \$200 a bull off (up to \$1000 max)!

Delivery

- 1) We can deliver your bull to a central location (or farm) for \$100 for up to 300 kms. Anything over 300 kms, delivery will be at cost.
- 2) For buyers from the USA, Eastern or Western Canada, we will be offering a subsidized delivery program to make it reasonably priced (based on your location) to get a bull to your farm or central point. Contact Jesse for more info.

Insurance

Insurance will be available sale day from
CDN Buyers - Keystone Livestock Services, Lois McRae - 204-573-5192
US Buyers - Sheila Jensen - 785-262-1116

Can't make the Sale?

Over 75% of our bulls go sight unseen every year! Just give us a call with the particulars (color, horn/poled, etc.) and we will find a bull that suits your program. Our sales staff will handle your bid in a professional manner. The sale will also be broadcast and internet bidding available on DLMS

DNA (PA) Testing & Sire Verification

The bulls selling are sire verified through Quantum Genetics. We decided to test a select few for homozygous polled, homo red and for the diluter gene. Results are in the catalog. Bulls that are listed as "homozygous red non-diluters" are bulls that will only throw red or black on black cows (no greys). All bulls selling have been tested for PA (the recessive genetic defect in the Charolais breed) for those who breed Charolais bulls to Charolais cows.

Accommodations

Jay's Inn, Virden 204-748-2223 Comfort Inn, Virden 204-707-6020

TRI-N Charolais Herd Health

Full Herd Health program in coordination with Dr. Nadine Thiry, DVM, (Virden Animal Hospital) and Dr. Grayson Ross, DVM (Innovative Veterinary Services).

At birth: Bovilis Nasalgen 3-PMH, Cocci Pill, Vitmaster, calves weighed, and DNA taken.

Pasture Time: Ultrabac Somnubac (Blackleg with Hemophilis), Pfizer One Shot Ultra 8 and Ivermectin.

Weaning: Ultrabac Somnubac (Blackleg with hemophilus), Pfizer One Shot Ultra 8 and Ivermectin.

Cowherd is on a full vaccination program for IBR, BVD, BRSV, PI3, and Scours.

Cowherd minerals fed through TMR.

All Bulls Sire Verified by Quantum Genetix

*Provinces & States we have sold bulls
to the Past 10 Years!*

DIRECTIONS TO TRI-N CHAROLAIS FARMS:

SALE LOCATION AND YEARLING BULLS

From Crandall - 6.5 miles S on Ravine Road

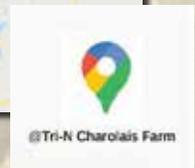

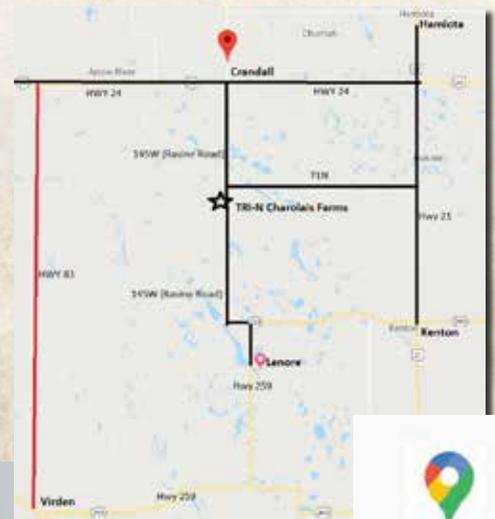

From Kenton - 6 miles N on HWY 21 to 71N. West (left) on 71N to 71N/145W. Turn south(left) half mile.

From Lenore - 2.5 miles N to speed curve, exit onto gravel and take 1st left(west), 1 mile west to 145W(Ravine Road), 3.5 miles North. Yard number 70097.

TWO-YEAR OLD BULLS

From TRI-N Charolais Farms- 1.5 miles S on Ravine Rd to Rivers Rd. 3.5 miles E
Please come early as two year olds will not be at sale location day of sale.

Watch for signs!

A Humble Beginning

(Reprinted from "The Changing of the Guard Sale" Dec 2021)

The Nykoliation name is long standing and well known in the livestock industry and the Charolais breed throughout Canada and beyond for close to 50 years. The families' humble beginnings started with Beaver Creek Charolais (Len, Marilyn, Gord and Micheal Nykoliation and families) being the first in the 1970's. Shortly after, N7 Stock Farms (Gerald and Wendy Nykoliation and families) was established.

The early days consisted of attending many female production sales with Merv's brothers Len and Gerald throughout Manitoba and Saskatchewan. On one November day back in 1983, they attended the Dennis Toms Charolais Dispersal at the Virden Auction Mart.

Miss DTM 18L, a 1979 born daughter of Mr. JN Cadet 83F entered the ring (consigned by Dennis Toms of Redvers, SK). When she left, TRI-N Charolais Farms was born! The third Nykoliation in the purebred Charolais industry.

Today, well over 50% of the current TRI-N Charolais herd traces back to this first purchase. Cow families such as Prairie Rose, Creamsicle etc. all trace back to Miss DTM 18L. Beaver Creek Charolais were founding members of the West Man Breeders Group that were very active throughout the 70s, 80s and 90s. Through these sales Merv established his herd and later was an active consignor selling a few bulls and females in their annual bull and female sales held at the old Virden Auction Mart.

Performance testing played a large role from the beginning in the marketing of bulls for TRI-N. From the beginning bulls were entered in the Northwest (Roblin) Bull Test Station and the Manitoba (Douglas) Bull Test Station. Many top ten gaining bulls and banner bulls were consigned. In one year, TRI-N won both Roblin and Douglas Test Stations. The same was repeated with Douglas and Yellowhead.

Mervin was a founding member of the Yellowhead Bull Test Station in Neepawa and consigned every year until its ending in 2005. At this time, TRI-N consigned to the Cattlemans Classic Bull Multi-Breed Bull Sale in Virden with the other Charolais consignor Gord and Lisa Nykoliation of Beaver Creek Charolais.

Merv remembers distinctly when the bull TRI-N Prefix 54Y was offered for sale in the 2012 Cattlemans Classic bull sale. Back in those days there was no Facebook to promote your cattle, it was word of mouth and people face to face talking about it. When Prefix entered, the sales ring was jam packed, the alleys plugged and standing room only outside. Everyone was trying to get a look at the bull! Pretty dang exciting for little old Cattlemans Classic Virden, MB!

When the hammer finally fell Prefix went to Vikse Family Farm in Alberta and ended up being the highest priced Charolais bull in Canada that year. Interesting enough, a full sister to Prefix is the grandma of TRI-N Go North 2411H that sold this spring and ended up being the record high selling Charolais bull ever sold and bred in Manitoba history by public auction for \$80,000!

For ten years bulls were marketed through Cattlemans Classic. At this point Beaver Creek Charolais dispersed their cow herd. In 2015, TRI-N Charolais created their own bull sale at Heartland Livestock in Virden. In 2018, the bull sale was moved to the farm at Lenore, MB where it remains today.

Merv and Joanne Nykoliation have two daughters (Tanis and Brittni) and two sons (Jesse and Curtis).

In 1995, the family moved to the main farm on NW-25-12-25W1 after taking it over from Merv's mother (Jennie) after the passing of his father (Michael) where all 9 brother and sisters were raised.

The move went great and there were many family memories that were made. From the beginning, Tanis, Jesse and Brittni all took an active role in showing cattle in 4-H and the various Canadian Charolais Youth Association (CCYA) conferences throughout Canada.

Two CCYA projects included TRI-N Prairie Rose 401P (The beginning of the Prairie Rose cow family) and KCH Malibu 1M (the grandmother of TRI-N Malibu 72B). Both kids fell in love with the CCYA program, and the annual summer vacation was planned around the CCYA conference and shows location that year.

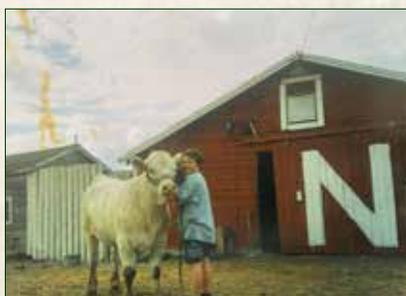

The kids are all grown up now. Tanis (Rob and grandkids Broolyn, Ashley and Hudson Boyd) reside on a grain farm in Rapid City, Curtis (grandson Damon) lives in Basswood and Brittni (Trevor and grandkids Hunter and Parker Morris) live in Melita.

Jesse (with support of his partner Nicki) is involved in the daily affairs of the family farm and are in the process of taking it over from Merv and Joanne. He has grown his cow herd by purchasing Merv's mature cow herd and plans to continue in the industry and hosting the annual bull sale for many years to come

This sale represents the true "Changing of the Guard" from one generation to another. Close to half a century in the making by the Nykoliation family.

Merv at Douglas Bull Test Station in 2001

In the fall of 2021, Dad held the "Changing of the Guard" Female sale as part of our farm transition. All the bred heifers, first calf heifers and select cow/calf pairs with the largest heifer calves sold. In this group was TRI-N Monte Python 678D- my favorite cow on the ranch!!

What a model Charolais cow!! Super feminine, wide muzzled, large chested, deep bodied, beautiful uddered with great pigment. A cow that took close to 40 years of our families breeding to produce.

After a highly contested battle to keep her here, she was the high selling bred cow of the day to Johnston Charolais (MB). She laid down and had "Ezee." After talking with Scott we were fortunate to strike a deal where the bull could be used in both our herds. His story has just begun.

Homo Polled, PAF 6 sons on offer

EPDs top 1% WW YW MCE SC, 3% REA, 5% CW, 10% TSI, 20% CE TM and 35% Fat.

A great compliment to his brother Ezee Ryder and sire Foundation. By far one of the most impressive red bulls we have raised. The skeletal design of this bull is phenomenal. He has a nice small head and is one of the freest moving bulls I've seen. Flatlands first calf crop here speaks for him. Our #1 ranked sire group for ADJ 205 DW index. #3 ranked WW EPD bull in the entire Canadian Charolais Association. We are proud to offer you these sons!!

EPDs top 1% WW MCE, 3% YW, 5% TSI, 10% CE SC CW REA, 15% BW Fat and 20% TM.

Foundation 2-year-old daughter

RS JACK *Foundation* 7F

CE 7.9 BW -1.2 WW 71 YW 125 M -1 TM 34 TSI 234.75

Homo Polled, Homo Red (Non-dilutor) 12 sons on offer

EPDs top 10% MCE, 15% WW, 25% BW YW and 30% CE SC

Its amazing the impact a legendary bull can have on your program. Foundation has been nothing but that will go down in the history books for our herd, the red Charolais breed and our countless commercial customers herds throughout North America!

There are 26 sons and grandsons of Foundation in the yearling section of the book alone (not including the bulls who have Foundation mothers). The "Old Boy" is about to turn 8 this year and I couldn't imagine our herd today if Dad's friend Jack never called him and said "I know you bought a bull but I have a pretty dam good yearling. I will throw him on the trailer with your other bull to check out."

Fast forward to today, the old bull is still here alongside two of his top sons that we use in our purebred herd. Dad always taught me that if something ain't broke, don't fix it. The Foundation sons have been phenomenal to sell over the years and if you come for a tour this summer you will see pastures of his daughters and grand daughters. They all look the same. They are deep chested, wide muzzled, feminine females with that extra depth of body and excellent udder quality. **In all our years of running this bull we have never had a daughter not milk.**

EPDs top 1% MCE, 10% WW, 20% CE and 35% Fat.

Customer Testimonial

"3 years ago, we began switching our bull pen to Charolais bulls for the simple fact the tan calves bring a premium in the ring. We have bought several bulls from Jesse and Merv over the past few years (all sight unseen) and found them to be sound, functional and affordable. They cross very well on our angus-based cows by adding thickness and length yet maintaining calving ease. We have been very impressed with the vigour the calves have at birth, they are up and going immediately. Merv and Jesse know their cattle very well and highly recommend their bulls."

~Luke & Jenn Smith and family. Sundre, AB ~

Customer Testimonial

"We bought a Jehu 2 son from the Nykoliations in the 2023 bull sale (sight unseen). When we got him home, we were super impressed with the bull. He bred great! All but one settled the first cycle and had zero opens. The bull maintained his condition well and he throws moderate birthweights and lots of calf vigor. We'd definitely buy again!"

~ Bluebird Valley Farms - Cole, Alyssa, and Kayce Kalev, Eckville AB ~

EPDs top 3% WW, 10% Fat, 20% REA, 25% TM, 35% TW TSI and 45% BW

Kalanchoe 16K is a bull we selected from DM Livestock in Carrot River Sk. We were looking for a bull to bring some outcross genetics to our red herd without sacrificing structural integrity, performance and strong maternal traits.

He has lived up to his expectations and surpassed them! This is a dam good set of yearling sons he has on offer!! You will admire the performance, hip, thickness and uniformity in these bulls. Expect him to be a major part of our breeding program for years to come.

In 2024, the Canadian Charolais Association gave out only 1 Diamond Dam of Distinction Award. This is for a female who has produced 10 progeny in a row that got bred, had a calf and indexed over 100 every year. This female was the dam of Amplify!

One of the hottest donor cows now in Canada is Amplify's sister off the same sire (Circle Cee Design 11H). Two heifer calf daughters topped the Alberta Select Sale for \$32,500 and \$45,000 for Murray Ranches (AB)!

You will be hard pressed to find another calving ease 6 year old bull with better feet! The daughters are in production here now and they are drop dead gorgeous.

Customer Testimonial

"We have purchased several red and tan bulls and females from the Nykoliations over the past 6 years. The bulls have put a lot of thickness and performance into our cattle and the females milk well. These bulls have sired great red and tan calves that sell great at the market every year. Thank you Merv and Jesse for allowing us to do this."

~Delvin and Char Walter, Walter's Charolais, Minot, ND ~

CE 11.1 BW -3.6 WW 105 YW 176 M 16 TM 69 TSI 320.33

Homo Polled, PAF 10 sons on offer

Ranked 4th, 8th and 10th for WW YW and TSI EPD in the entire Canadian Charolais Association!

EPDs top 1% WW YW SC TSI CW REA, 3% TM, 10% BW Fat and 15% CE.

In 2022, Jesse flew to Clyde, Alberta to attend the Wrangler Charolais Dispersal. After going through close to 300 head, Rifleman caught his eye. He wasn't the biggest calf in the sale, but he was very deep bodied and had lots of hair and a small head/smooth shoulder. His mother was a moderate framed cow with a great udder.

He was used on commercial cows and a few purebred heifers the first year. Calves were born very moderate and had lots of vigor. In 2024 and 2025, he bred our entire purebred heifer pen. With over 100 heifers calving on the ground off him now, we have had zero trips to the vet and have slept well at night calving! A true Charolais calving ease bull with top tier performance.

Customer Testimonial

"We have purchased several bulls over the past years from the Tri-N Bull Sale for our purebred and commercial herd, all sight unseen. We are very satisfied with all of our purchases. The bulls are easy to handle, quiet and sound. Their calves are very vigorous at birth, and the cows calve with ease. Mervin and Jesse do a great job of getting them delivered, even when they have to travel halfway across the country. I would recommend these genetics and their great personalized service any day! Buying a bull here is easy.

Thanks, and keep up the great job guys!"

~Mark and Tamy Frost, MRF Charolais. Kingsey Falls, Quebec~

2-Year Old Bulls

Once again... we bring you a nice offering of powerful 2 year old Charolais bulls!!

Our operation was built by selling 2-year old bulls to the PFRA government pastures in the 80's and 90's. These bulls are not leftovers and were hand selected to be held over last November. They have never been offered for sale until now. They were grown out last winter, grazed on a quarter section of pasture and stubble until November before coming to the yard to get fed for the sale.

Please come early to view bulls on sale day as the two year olds will not be at the sale location.

From TRI-N Charolais Farms- 1.5 miles S on Ravine Rd to Rivers Rd. 3.5 miles E

EPDs top 10% Milk, 20% WW, 25% CE, 30% BW SC and 40% REA.

Customer Testimonial

"We purchased a dark red Captain Morgan son (sight unseen) for our ranch in South Texas for our herd of Brahman cows. We are very impressed with the bull. He slicked off and adapted well to our warm climate. The calves are really impressive and are extremely uniform and beefy. Jesse and Merv know their cattle well and was a pleasure to deal with. Great folks-great cattle. I'd highly recommend their red Charolais bulls on your Brahman cows!!"

~Philip, Nora, James and Stella Drake
P-N Cattle and Hay LLC, Edinburg, TX ~

Terms & Conditions

Terms

All onsite buyers are required to pay by cheque or money transfer the day of the sale. All internet and sight unseen buyers will be invoiced within 2 business days by Tri-N Charolais with bank wire transfer details. All settlements must be made to sale clerks before cattle will be released. The right of property and no bull delivery will be made until the final payment has been received

Bidding

Each animal will sell to the highest bidder. Bidders unable to attend the sale may phone their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Disputes

Bidding will be re-opened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision is final.

Announcements

Announcements made from the block will take precedence over printed matter in the catalog. Buyers are cautioned to pay close attention to announcements.

Purchaser's Risk

Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. All animals left with the seller must be insured.

Certificate of Registration

Each animal will carry papers issued by their association unless otherwise stated in the catalog. A certificate of registry duly transferred will be furnished to the buyer after payment has been made.

Breeder Guarantee

Should any bull fourteen months of age or over, fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following the date of purchase or six months after the bull has reached fourteen months of age. The seller has the right and privilege of six months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

Delivery

Assistance will be given in making delivery after the sale. The purchaser agrees shipping arrangements will be at the convenience of the seller, but will be as soon as practical after the sale, at the buyer's risk.

Exception Guarantee

In the case where the animal is subject to any hormonal or surgical reproductive techniques after the sale, this guarantee shall be null and void. The seller is not responsible for damage caused by foreign bodies after the animal has been sold or for sickness not apparent at the sale time. In no event shall the seller be responsible for more than the purchase price.

American Purchases

The sellers will do all health testing for export. Bulls will be delivered to the nearest point of entry at the seller's convenience. All American purchases will be charged additional fees for health testing and delivery as described on page 3. Exchange rates will be announced sale day at current bank rates. All bulls guaranteed exportable to the USA.

If you are an American citizen, you do not need a passport to enter Canada. However, you should carry proof of your citizenship (birth certificate, certificate of citizenship or naturalization as well as photo identification). More information is available at www.cbsa-asfc.gc.ca.

Accidents

Although every precaution will be taken to protect the safety and comfort of the buyers, neither the sale manager, auctioneer or sellers assume any responsibility and disclaim any liability, legal or otherwise, in the event of accident or loss of property.

Insurance

Insurance will be available sale day.

Pictures

By attending the sale you are granting permission for your picture to be used for promotional and advertising purposes relating to the sale.

Semen

Tri-N reserves the right to in-herd semen use on any bull sold in the sale, with semen drawn at the consignor's expense and the buyer's convenience. TRI-N reserves a 1/3 semen interest in all bulls selling unless other arrangements have been made prior to the sale.

"We don't write a bunch of footnotes in our catalog but we feel that 153L is a special bull. He is without a doubt one of the best bulls we have ever raised. This red factor bull is an exceptional individual that has a perfect set of feet, tremendous length and a perfect skull design and muzzle. When you analyze this bull he checks all the boxes to be a major breeding piece in your program."

~ Jerry Hofer, White Lake Colony ~

"Landman is even better in real life than his picture. That bull could win Agribition! If the bull was white, I'd own him myself... amazing feet!!"

~ Rod Mcleod, Mcleod Livestock ~

When the hammer fell at \$41,000 I was tickled pink to have bought this bull. 5 seconds later I got a text from dad saying "What the f*ck. You paid how much for a bull!?!? That's too much ." Needless to say, the reviews by Jerry and Rod were very accurate and the bull was worth every penny. The first calves are being born as I write this. They are born small and have "the look!"

Watch for the first sons in the 2027 bull sale!!
